R. S. FIELD, Director

MERCHANT VESSELS
OF THE
UNITED STATES
1938

(Including Yachts and Government Vessels)

⚓

YEAR ENDED JUNE 30, 1938

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1938

LETTER OF TRANSMITTAL

DEPARTMENT OF COMMERCE,
BUREAU OF MARINE INSPECTION AND NAVIGATION,
Washington, July 1, 1938.

SIR: In compliance with the provisions of the act of Congress approved July 5, 1884, directing that there shall be prepared and published annually a list of vessels of the United States belonging to the commercial marine, specifying the official number, signal letters, name, rig, tonnage, home port, and place and date of building of every vessel, distinguishing in such list sailing vessels from such as may be propelled by steam or other motive power, the seventieth annual list of such vessels is herewith submitted. The first 51 editions of this publication were issued by the Bureau of Navigation. The 1933, 1934, and 1935 editions were published by the Bureau of Navigation and Steamboat Inspection. This is the third edition published by the Bureau of Marine Inspection and Navigation, and brings the record of the merchant vessels of the United States down to June 30, 1938.

Signal and radio-call letters are awarded to seagoing vessels of the United States and, upon application made through a collector of customs, they will be granted to yachts and, in particular cases, to other vessels. Such letters are requisite in order to afford the means of recognition by signals at sea.

Another volume, entitled Signal Letters of the United States, Merchant Marine, has been prepared especially for the use of signal stations and masters of seagoing vessels, in which the vessels are arranged in the order of their signal letters. It contains the names of all merchant vessels, yachts, and Government vessels which have signal letters.

Very truly yours,

R. S. FIELD, *Director.*

To Hon. DANIEL C. ROPER,
Secretary of Commerce.

REGISTER DIMENSIONS—STATUTORY LENGTH, BREADTH, DEPTH, AND HEIGHT OF VESSELS

The registry of every vessel shall express her length and breadth, together with her depth and the height under the third or spar deck, which shall be ascertained in the following manner: The tonnage deck, in vessels having three or more decks to the hull, shall be the second deck from below; in all other cases the upper deck of the hull is to be the tonnage deck. The length from the fore part of the outer planking on the side of the stem to the after part of the main stern post of screw steamers and to the after part of the rudderpost of all other vessels measured on the top of the tonnage deck shall be accounted the vessel's length. The breadth of the broadest part on the outside of the vessel shall be accounted the vessel's breadth of beam. A measure from the under side of the tonnage-deck plank, amidships, to the ceiling of the hold (average thickness), shall be accounted the depth of hold. If the vessel has a third deck, then the height from the top of the tonnage-deck plank to the under side of the upper-deck plank shall be accounted as the height under the spar deck. All measurements to be taken in feet and fractions of feet, and all fractions of feet shall be expressed in decimals (Rev. Stat., sec. 4150).

EXPLANATIONS AND ABBREVIATIONS

Merchant vessels of the United States contains the name of every American merchant vessel and yacht which had an uncanceled document (register, enrollment, or license) on June 30, of the year of its publication.

Official number.—A number awarded to every merchant vessel and yacht of the United States. It is permanently marked on the main beam and is retained throughout the life of the vessel.

Signal and radio-call letters.—Four letters awarded to every seagoing vessel and yacht to afford means of recognition by signals at sea. They may be found in the vessel's marine document.

Rig.—The rig abbreviations used in this publication are:

Brg. = barge.	El. s. = electric screw.	Ol. p. = oil side wheel.	Sl. b. = sloop barge.
Bgn. = brigantine.	Ga. c. = gas cable.	Ol. s. = oil screw.	Slp. = sloop.
Bk. = bark.	Ga. p. = gas side wheel.	Ol. w. = oil stern wheel.	St. c. = steam catamaran.
Bkn. = barkentine.	Ga. s. = gas screw.	Sc. b. = schooner barge.	St. p. = steam side wheel.
Cat. = catboat.	Ga. w. = gas stern wheel.	Sch. = schooner.	St. w. = steam stern wheel.
Cnl. = canal boat.	H. bt. = houseboat.	Scw. = scow.	St. s. = steam screw.
Drg. = dredge.	Ol. c. = oil catamaran.	Shp. = ship.	Ywl. = yawl.

Oil or gas engine.—Each motor vessel propelled by an engine in which the fuel is ignited by the heat generated wholly from compression of air in the cylinders (Diesel type), or from such heat and additional outside heat when this is not sufficient (semi-Diesel type), is indicated by *ol.* (ol. p., ol. s., ol. w.); and each motor vessel propelled by an engine in which the fuel is ignited by a spark is indicated by *ga.* (ga. p., ga. s., ga. w.).

Electrically driven vessels are reported in the list of steam vessels when the dynamos are actuated by steam turbines and in the list of motor vessels when actuated by oil engines.

Name of vessel.—The name of each vessel is printed exactly as it appears in the marine document and on the vessel, with the exception of the capitals and italics noted in the next paragraph. An (*) before the name of a vessel signifies that the vessel has had a former name or names. This information appears in the table on pages 538–574. Another table, beginning on page 575, lists alphabetically the former names of merchant vessels, giving their present name and official number.

Material of hull.—The name of each steel vessel is printed in SMALL CAPITALS, each iron vessel in *italics*, and each wooden vessel in roman.

Oil fuel.—Each steam vessel fitted for burning oil is indicated by a □.

Radio equipment.—Each vessel equipped with radio transmitting apparatus is indicated by a ⊙, if in addition it has a direction finder (radio compass), it is indicated by a Ⓓ; if with a direction finder but without radio transmitting apparatus, it is indicated by a △.

Classification.—A ✚ indicates that the vessel so marked is classed by the American Bureau of Shipping.

Gross tonnage.—The capacity of the spaces within the frames or ceiling of the hull of a vessel and of the closed-in spaces above deck available for cargo, stores, passengers, or crew, with certain specified exemptions, expressed in tons of 100 cubic feet.

Net tonnage.—The net or register tonnage is the remainder after deducting from the gross tonnage the spaces occupied by the propelling machinery (including allowances for fuel), crew quarters, master's cabin, and navigation spaces.

Dimensions.—The register (not the tonnage) dimensions are given in feet and tenths. They are defined on the preceding page.

Year of build.—This is the year of completion of the vessel, as shown by the builder's certificate. If the year of building is not known and the year of rebuilding is given, it is preceded by the letter *r*.

†Authorized to carry not to exceed 16 persons additional to crew without being classed as a passenger vessel.

Service.—The particular trade or business in which the vessel is engaged. The abbreviations are:

Cbl. = cable.	Fsh. = fishing.[1]	Pls. = pleasure.[2]	Wat. = water boat.
Cod. = cod.	I. Bk. = ice breaker.	Plt. = pilot boat.	Whl. = whale fishing.
Drg. = dredging.	Lgt. = lightering.	Pol. = police boat.	Wld. = welding.
Elr. = elevator.	Msc. = miscellaneous.	Ptl. = patrol boat.	Wrk. = wrecking.
Fer. = ferry.	Oys. = oystering.	Ref. = refrigerator.	Yct. = yachting.
Frb. = fire boat.	Pas. = passenger.	Tnk. = tanker.	
Frt. = freight.	Pld. = pile driving.	Tow. = towing.	

[1] Except cod and whale.
[2] Yachts 16 gross tons and under exempt from documentation except when registered in order to enter foreign ports.

Crew.—The number given in the marine document. It does not include the master.

Horsepower.—The figures in this column represent the horsepower reported when the vessel was new or when the present engine was installed; *b* means brake horsepower (internal-combustion engine), and *s* means shaft horsepower (steam turbine engine); figures not preceded by a letter represent indicated horsepower.

Name of owner.—The name of the sole or, if there are two or more owners, the name of the managing owner is given. If the sole or managing owner is a corporation, the corporate name is given, except that the definite article is omitted when it forms part of the name. The abbreviation in parentheses following the name of a corporation indicates the State in which the corporation is chartered.

Home port.—This is the place where the permanent document of a vessel issues. Each bill of sale, conveyance, mortgage, assignment of mortgage, or hypothecation should be recorded at the home port given in the latest marine document.
