Part I.....Navy and Naval Reserve
Part II...Marine Corps and Marine Corps Reserve

NOTES—PART I

1. The purpose of this publication is to publish to the Naval Service the order of seniority of officers of the U.S. Navy on active duty; to provide service data affecting pay and allowances; and within space limitations, to provide other information advantageous to the Naval Service. The Register, however, does not reflect a complete résumé of every officer's accomplishments or service. The lists of officers are divided into four categories: (1) lineal list officers as defined in Title 10, U.S. Code Annotated, Section 5504; (2) officers of the Naval Reserve assigned active duty in connection with the training, administration, and recruiting of the Naval Reserve (TAR's); (3) women officers appointed under Title 10, U.S. Code, Section 5590, and women Reserve officers on active duty; and (4) warrant officers.

The names of officers below flag grade temporarily appointed under Title 10, U.S. Code, Section 5787 to higher grades while serving in specific billets, i.e. "spot promoted," are listed in the grades they would hold had they not been so promoted.

In all cases, precedence of officers must be determined by (1) current rank; (2) date of rank; and if (1) and (2) are the same, (3) lineal number.

2. Each category of the restricted line, as well as the staff corps, is listed separately by designator. The various groupings of officers in the publication are as follows:

			Begins on page
1.	11xx—13xx—19xx	Unrestricted Line (includes line officers under instruction as Medical, Dental, Chaplain, Judge Advocate General's, and Nurse Corps officers)	1
2.	14xx	Engineering Duty Officer	474
3.	15xx	Aeronautical Engineering Duty Officer	486
4.	161x	SDO (Cryptology)	494
5.	163x	SDO (Naval Intelligence)	500
6.	164x	SDO (Photography)	504
7.	165x	SDO (Public Affairs)	505
8.	167x	SDO (Hydrography)	508
9.	6xxx	Line—LDO	509
10.	1xx7	Line TAR	572
11.	1xx0—1xx5—1xx7	Line Women, Line USNR and TAR Women	590
12.	210x	Medical Corps	597
13.	310x	Supply Corps	646
14.	370x	Supply Corps—LDO	697
15.	31x7	Supply Corps TAR	703
16.	31x0	Supply Corps Women	705
17.	31x5—31x7	Supply Corps USNR and TAR Women	706
18.	410x	Chaplain Corps	707
19.	510x	Civil Engineer Corps	720
20.	570x	Civil Engineer Corps—LDO	741
21.	250x	Judge Advocate General's Corps	743
22.	220x	Dental Corps	751
23.	230x	Medical Service Corps	773
24.	290x	Nurse Corps	790
25.	7xxx—8xxx	Warrant Officers	816

3. The lineal list of unrestricted line officers is divided into segments designated as "Year Groups." Every lineal list officer, by virtue of his position on the lineal list, is in a particular year group. In most instances, except for officers who have been promoted under 10 USC 5787 only, and officers who at some point either have failed of selection or have been selected early for a normal promotion under the Officer Personnel Act of 1947, the year group of an officer generally corresponds to the fiscal year in which he was commissioned an ensign. (For those categories with constructive service, officers take the year group of their immediate contemporaries or running mates).

4. An officer who is selected for promotion but whose actual promotion to higher grade has been delayed for any reason may be shown temporarily in a junior year group until he actually is promoted. At this time he will return to a lineal position in the year group with which he was selected. Conversely, some limited duty officer Commanders and Lieutenant Commanders may have been promoted to fill a limited duty officer vacancy but must await promotion of their unrestricted line contemporary for determination of date of rank.

5. The lineal numbers assigned consist of a whole number and a subnumber. Use of the subnumber permits additions to the official lineal list, TAR program or nonlineal women officers list, without requiring renumbering of lists each time a gain occurs. Numbers may not be consecutive but they always will be sequential. For example, an officer with a number and subnumber of 063399–40 is normally senior to the officer with a number of 063399–82. An officer with a number of 063394–00 would normally be senior to both if of the same corps. Staff corps officers on the lineal list having the same date of rank and the same running mate as defined in notes 7 to 10 below, rank according to seniority of corps as follows:

(a) Medical Corps
(b) Supply Corps
(c) Chaplain Corps
(d) Civil Engineer Corps
(e) Judge Advocate General's Corps
(f) Dental Corps
(g) Medical Service Corps
(h) Nurse Corps

6. Officers in the grade of ensign commissioned with a date of rank between 1 January and 31 December 1967 take precedence among themselves in the order of alphabetical listing of names within date of rank until the determination of precedence in accordance with current regulations. Therefore, lineal numbers have not been assigned to ensigns with dates of rank in 1967. Student officers with designators 1905, 1915, 1925, 1945 and 1955 take precedence with other ensigns in order of alphabetical listing of name within date of rank and will not be assigned a lineal number until such time as they have accepted a commission in the staff corps for which they are in training.

7. The running mate for a lineal list staff corps officer is the lineal list line officer not restricted in the performance of duty whose lineal number and subnumber is sequentially immediately ahead of the staff corps officer.

8. The running mate for a TAR officer is the lineal list line officer not restricted in the performance of duty whose lineal number and subnumber is sequentially immediately below that of the TAR officer.

9. The running mate for a USN nonlineal list woman staff corps officer is the USN nonlineal list woman line officer not restricted in the performance of duty whose lineal number and subnumber is sequentially immediately ahead of the staff corps officer.

10. The running mate for a USNR nonlineal list woman officer is the USN nonlineal list woman line officer not restricted in the performance of duty whose lineal number and subnumber is sequentially immediately below that of the USNR woman officer.

11. The lineal numbers assigned herein were effective 1 January 1968. Although TAR's and women officers as defined in Title 10, U.S. Code, Section 5504 are not lineal list officers, they have been assigned a lineal number for the purpose of convenience in determining their relative seniority.

12. The symbol (#) preceding the name indicates that as of 1 January 1968 the officer has been promoted under the provisions of 10 USC 5787 and is shown in his position of seniority resulting from that promotion. Though some of these officers will also have been promoted under the Officer Personnel Act of 1947, their relative position of seniority as reflected in this Register remains unchanged. This symbol does not precede the names of those officers promoted under 10 USC 5787 as a result of a SPOT promotion (SECNAVINST 1421.3) and these officers are shown in the grade and position they would hold if they had not been so promoted.

The symbol (□) preceding the name indicates that the officer has been selected for promotion to the next higher grade. Attention is invited to the fact that some selectees will have been promoted by the time the Register is distributed, or will be promoted subsequent thereto, and that lineal numbers in these cases will indicate their proper relative lineal position and/or seniority *in their new grade.*

Block numbers (0–9) appearing on the left side of pages in the main body of the Register identify ten blocks of names; each block similarly contains ten names. By use of the block number in addition to the page number listed in the index, an officer may be more easily located in the main body.

13. The Current Source Code listed in column six indicates the public law or procurement program under which each officer received his present commission. The laws and programs listed below are not all presently in effect.

14. The two-digit number appearing in column five headed "Service Date" indicates the date from which an officer's commissioned service is deemed to have commenced for the purpose of determining eligibility for continuation on the active list or involuntary separation from the active list as defined in Title 10, U.S. Code, Sections 6387 and 6388. This date is always 30 June of the year indicated, except the service date for a nurse as indicated herein is the fiscal year in which credited active service commenced and is not necessarily 30 June. Service date is not applicable to temporary officers, reserve officers, warrant officers, or women officers appointed under Title 10, U.S. Code, Section 5590.

15. On 31 December 1967, junior unrestricted line officers for whom vacancies existed within the permanent USN grade structure had lineal numbers in each grade as follows: Rear Admiral, 000234-00; Captain, 000894-30; Commander, 004201-50; Lieutenant Commander, 016003-00; Lieutenant, 031778-20. USN Staff corps officers are eligible for permanent promotion with their running mates. The last officer not restricted in the performance of duty on the active list in the line of the Navy serving in the grade of rear admiral of the upper half has lineal number 000178-00.

16. The date shown in the column headed "Pay Entry Base Date" in the precedence list is the date which reflects all service for pay purposes. In the case of medical or dental officers the date includes any time spent in medical or dental school and in internship while not a member of the Armed Forces. The asterisk printed between the day and year of the Pay Entry Base Date indicates that the officer, while serving in pay grade O-1E, O-2E, or O-3E, is credited with over four (4) years' active enlisted service for pay purposes.

17. The date shown in the column headed "Professional Service Date" in the precedence list is the constructive date active duty was first performed as a medical or dental officer.

18. The names of Navy and Marine Corps retired officers—regular and reserve and those on the Temporary Disability Retired List—are shown in a separate publication which lists retired officers only. The title of that publication is "Register of Retired Commissioned and Warrant Officers, Regular and Reserve, of the United States Navy and Marine Corps," NavPers 15,939. Due to the difference in the publication date of the retired officers register in comparison with the date of this active duty officers register, some instances may be found where the name of an officer who retired during the interval between the dates will not be found in either publication.

19. In matters involving honors, ceremonies or preferences, precedence shall be given to retired officers who served on active duty in the rank in which retired vis-a-vis retired officers of the same grade holding that grade on the retired list by virtue of a combat citation promotion.

20. Errors or omissions should be reported by letter to the Chief of Naval Personnel, Attention Pers-N3123. Pages XI through XIV should be read carefully before reporting an error or omission in the Special Qualifications Column. Corrections to Graduate Education Level should be reported in accordance with BUPERSINST 1520.83 series. NOTE: Names are limited to 31 characters, including spaces, so that some names are not complete.

21. (a) Initial distribution of this publication is made to ships and aircraft squadrons in commission, and to staffs, in accordance with allowances published in BuPers Instruction 5605.1 series, and to shore activities in accordance with allowances based on established needs.

(b) Commanding Officers of ships and stations needing copies in excess of established allowances should make letter requests to the Chief of Naval Personnel giving justification of need for the extra copies.

(c) Action for shipment of initial commissioning allowances of publications, including this publication, is originated by the Commanding Officer, U.S. Naval Supply Depot, Philadelphia, Pa., 19120, without requisition.

22. For the U.S. Marine Corps, distribution of this publication is made to units and organizations in accordance with Marine Corps Publications and Printing Regulations (MCO P5600.31). Organizations needing copies in excess of established allowance should make letter requests to the Commandant of the Marine Corps (Code ABP), giving justification of need for the additional copies.

23. The next edition of the Register will be published on 1 January 1970 and biennially thereafter.
