## Extras

### Prizes

- [RevistaDoLinux](#) said that I was one of year 2000's personalities here in Brazil.

### Publications

- I was the editor of the book 'Linux: Dicas & Truques' (Linux: Tips and tricks), by Rubens Queiroz, from Unicamp and Dicas-L.
- [PC Master](#) had an article of mine about CVS in it's anniversary edition, 2002.

### Acknowledgements

- Conectiva calls me a 'guru', see <http://guru.conectiva.com/people>

### Events

- Speeches at Fenasoftware in 1999, about Linux and the Free Software market by that time
- Spoke at *I Fórum Mundial do Software Livre* (I Free Software World Forum) in Porto Alegre, RS, Brazil, in 2000
- I was a representative of LDP at 2001's Linux World Expo in NYC
- I've been invited as an LDP representative at [LSM 2002](#), in Bordeaux, France

### Technical experience

- I've participated defining the LSB / FHS standar with regards to SGML for LSB V1.0
- I'm participating of the new discussions with regards to the XML spec for the LSB / FHS
- I'm one of the [DocBook](#)'s developers
- I'm used to use [AxKit](#) for XML conversion and access on the fly
- I've written several articles on DocBook and CVS (specially [CvsAndDocBookValidation](#) which was very accessed after publishing this address on Docbook Apps mailing list)
- I'm responsible for [Conectiva](#)'s SGML and XML packages, specially with regards to DocBook
- I'm co-author of [LDP's Author Guide](#)
- I'm one of LDP's coordinators
- I'm the main coordinator for the [LDP-BR](#) project
- I've written several white papers in English and Portuguese about CVS, Project Management, DocBook, XML, SGML, LaTeX, Web site development
- I've made a technical revision of [QUE](#)'s new *Special Edition – Using Linux Sixth Edition*
- Perl training for an international bank (ABN Amro Bank) in a 40 hours course (from Dec 2nd – Dec 7th, 2001) that included Perl basics, Perl data structures, formats, DBI, GD, CGI.pm, mod\_perl and a lot of problem solving.
- On April, 2002, I've helped Mauritz to fine tune [BRASnet](#)'s Postfix server. It has 250 thousand virtual users and we've optimized Postfix's configuration and elaborated means to send messages to all users efficiently. BRASnet is the largest brazilian IRC network

## Hobbies

- I walk everyday something like 8.1km at Curitiba's [Jardim Botânico](#) (it's a beautiful botanical park)
- I practice Yoga
- I'm a [Palm](#) user
- I'm a good cook (at least my girlfriend and my relatives think I am)
- I love wines
- I'm a [poet-wannabe](#)
