SIR: In compliance with the provisions of the act of Congress approved July 5, 1884, establishing the Bureau of Navigation, and directing the Commissioner of Navigation to "annually prepare and publish a list of vessels of the United States belonging to the commercial marine, specifying the official number, signal letters, name, rig tonnage, home port, and place and date of building of every vessel, distinguishing in such list sailing vessels from such as may be propelled by steam, gas, or other motive power," the fifty-fourth annual list of such vessels is herewith submitted, it being the thirty-ninth annual list prepared by the Bureau of Navigation, and bringing the record of the merchant vessels of the United States down to June 30, 1922.

This volume contains the names of vessels, classed as follows:

Sailing vessels. (Part I.)

STATUTORY LENGTH, BREADTH, DEPTH, AND HEIGHT OF VESSELS.

REVISED STATUTES, SECTION 4150.

The registry of every vessel shall express her length and breadth, together with her depth and the height under the third or spar deck, which shall be ascertained in the following manner: The tonnage deck, in vessels having three or more decks to the hull, shall be the second deck from below; in all other cases the upper deck of the hull is to be the tonnage deck. The length from the fore part of the outer planking on the side of the stem to the after part of the main stern-post of screw steamers and to the after part of the rudder-post of all other vessels measured on the top of the tonnage deck shall be accounted the vessel's length. The breadth of the broadest part on the outside of the vessel shall be accounted the vessel's breadth of beam. A measure from the underside of the tonnage-deck plank, amidships, to the ceiling of the hold (average thickness), shall be accounted the depth of hold. If the vessel has a third deck, then the height from the top of the tonnage-deck plank to the under side of the upper-deck plank shall be accounted as the height under the spar deck. All measurements to be taken in feet and fractions of feet, and all fractions of feet shall be expressed in decimals.
