Oil or gas engine.—Each motor vessel propelled by an engine in which the fuel is ignited by the heat generated wholly from compression of air in the cylinders (Diesel type), or from such heat and additional outside heat when this is not sufficient (semi-Diesel type), is indicated by ol. s., and each motor vessel propelled by an engine in which the fuel is ignited by a spark is indicated by ga. s.

Name of vessel.—The names of steel vessels are printed in **SMALL CAPITALS**, iron vessels in *italics*, and wooden vessels in roman.

Each vessel equipped with radio transmitting apparatus is marked ⊙; if in addition it has a radio direction finder (radio compass), it is marked ⊕; if with a direction finder but without radio transmitting apparatus, it is marked △.

Gross tonnage.—Is the capacity of the spaces within the frames or ceiling of the hull of the vessel and of the closed-in spaces above deck available for cargo, stores, passengers, or crew, with certain exemptions, expressed in tons of 100 cubic feet.

Net or register tonnage.—Is what remains after deducting from the gross tonnage the spaces occupied by the propelling machinery (*including allowance for fuel*), crew quarters, master's cabin, and navigation spaces. It is the usual basis for tonnage taxes and port charges.

Dimensions.—The register (not the tonnage) dimensions are given in feet and tenths.

Year of build.—This is the year of completion of the vessel, as shown by the builder's certificate.

Service abbreviations.—The particular trade or business in which the vessel is engaged. The abbreviations are:

Cbl. = cable.	Msc. = miscellaneous.	Tnk. = tanker.
Fer. = ferry.	Pas. = passenger.	Tow. = towing.
Frt. = freight.	Plt. = pilot.	Whl. = whaling.
Fsh. = fishing.	Pol. = police.	Wrk. = wrecking.
I. bk. = ice breaker.	Ref. = refrigerator.	

Crew.—The number given in the vessel's marine document. It does not include the master.

Explanations and Abbreviations

Horsepower.—The figures in this column represent the horsepower reported when the vessel was new or when the present engine was installed; *b* means brake horsepower (internal-combustion engine), and *s* means shaft horsepower (steam turbine engine); figures not preceded by a letter represent indicated horsepower.

Name of owner.—The name of the sole or, if there are two or more owners, the name of the managing owner is given. If the sole or managing owner is a corporation, the corporate name is given, except that the definite article is omitted when it forms part of the name. The abbreviation in parenthesis following the name of a corporation indicates the State in which the corporation is chartered.

Home port.—This is the place where the permanent document of a vessel issues. A bill of sale, conveyance, mortgage, assignment of mortgage, or hypothecation is recorded at the home port given in the latest marine document.

Address.—The business address. It is a post office in the district in which the home port is located.

LETTER OF TRANSMITTAL

DEPARTMENT OF COMMERCE,
BUREAU OF NAVIGATION AND STEAMBOAT INSPECTION,
Washington, July 1, 1934.

SIR: This volume, in which all vessels are arranged in the order of their signal letters, is a part of the annual list of merchant vessels of the United States issued by the Bureau of Navigation and Steamboat Inspection, and brings the record down to June 30, 1934. It is published in compliance with the provisions of an act of Congress approved July 5, 1884, establishing the Bureau of Navigation, and is designed especially for the use of signal stations and for masters of seagoing vessels. It contains the names of all merchant vessels, yachts, and Government vessels now in existence to which combined signal and radio call letters have been awarded and remain in force.

Combined signal and radio call letters are awarded to seagoing vessels of the United States, and, on application made through a collector of customs, they will be granted to yachts and, in particular cases, to other vessels. Such letters are requisite in order to afford the means of recognition by signals at sea.

Respectfully,

A. J. TYRER, *Assistant Director.*

The honorable the SECRETARY OF COMMERCE.

EXPLANATION OF SMALL CRAFT, STORM, AND HURRICANE WARNING

Small-craft warnings.—A red pennant indicates that moderately strong winds that will interfere with the safe operation of small craft are expected. No night display of small-craft warnings is made.

Northeast storm warning.—A red pennant above a square red flag with black center displayed by day, or two red lanterns, one above the other, displayed by night, indicates the approach of a storm of marked violence with winds beginning from the northeast.

Southeast storm warning.—A red pennant below a square red flag with black center displayed by day, or one red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the southeast.

Southwest storm warning.—A white pennant below a square red flag with black center displayed by day, or a white lantern below a red lantern displayed by night indicates the approach of a storm of marked violence with winds beginning from the southwest.

Northwest storm warning.—A white pennant above a square red flag with black center displayed by day, or a white lantern above a red lantern displayed by night, indicates the approach of a storm of marked violence with winds beginning from the northwest.

Hurricane, or whole-gale warning.—Two square flags, red with black centers one above the other, displayed by day, or two red lanterns, with a white lantern between, displayed by night, indicate the approach of a tropical hurricane, or of one of the extremely severe and dangerous storms which occasionally move across the Great Lakes.

RULES FOR MANEUVERING A VESSEL IN THE PRESENCE OF CYCLONIC STORMS

[Pilot Chart, Hydrographic Office, U. S. Navy]

NORTHERN HEMISPHERE

Right or dangerous semicircle.—Steamers: Bring the wind on the starboard bow, make as much way as possible, and if obliged to heave to, do so head to sea. Sailing vessels: Keep close hauled on the starboard tack, make as much way as possible, and if obliged to heave to, do so on the starboard tack.

Left or navigable semicircle.—Steam and sailing vessels: Bring the wind on the starboard quarter, note the course and hold it. If obliged to heave to, steamers may do so stern to sea; sailing vessels on the port tack.

On the storm track, in front of center.—Steam and sailing vessels: Bring the wind two points on the starboard quarter, note the course and hold it, and run for the left semicircle, and when in that semicircle maneuver as above.

On the storm track, in rear of center.—Avoid the center by the best practicable route, having due regard to the tendency of cyclones to recurve to the northward and eastward.

SOUTHERN HEMISPHERE

Left or dangerous semicircle.—Steamers: Bring the wind on the port bow, make as much way as possible, and if obliged to heave to, do so head to sea. Sailing ves-

vessels: Keep close hauled on the port tack, make as much way as possible, and if obliged to heave to, do so on the port tack.

Right or navigable semicircle.—Steam and sailing vessels: Bring the wind on the port quarter, note the course and hold it. If obliged to heave to, steamers may do so stern to sea; sailing vessels on the starboard tack.

On the storm track, in front of center.—Steam and sailing vessels: Bring the wind two points on the port quarter, note the course and hold it, and run for the right semicircle, and when in that semicircle maneuver as above.

On the storm track, in-rear of center.—Avoid the center by the best practicable route, having due regard to the tendency of cyclones to recurve to the southward and eastward.

The above rules depend, of course, upon having sea room. In case land interferes, a vessel should heave to, as recommended for the semicircle in which she finds herself.
