YEAR ENDED JUNE 30, 1935

GOVERNMENT PRINTING OFFICE
WASHINGTON : 1935

LETTER OF TRANSMITTAL

DEPARTMENT OF COMMERCE,
BUREAU OF NAVIGATION AND STEAMBOAT INSPECTION,
Washington, July 1, 1935.

SIR: In compliance with the provisions of the act of Congress approved July 5, 1884, directing that there shall be prepared and published annually a list of vessels of the United States belonging to the commercial marine, specifying the official number, signal letters, name, rig, tonnage, home port, and place and date of building of every vessel, distinguishing in such list sailing vessels from such as may be propelled by steam or other motive power, the sixty-seventh annual list of such vessels is herewith submitted. It is the fifty-first annual list prepared by the Bureau of Navigation, and the third prepared by the Bureau of Navigation and Steamboat Inspection, and brings the record of the merchant vessels of the United States down to June 30, 1935.

Signal and radio-call letters are awarded to seagoing vessels of the United States and, upon application made through a collector of customs, they will be granted to yachts and, in particular cases, to other vessels. Such letters are requisite in order to afford the means of recognition by signals at sea.

Another volume, entitled "Seagoing Vessels of the United States," has been prepared especially for the use of signal stations and masters of seagoing vessels, in which the vessels are arranged in the order of their signal letters. It contains the names of all merchant vessels, yachts, and Government vessels which have signal letters.

Very truly yours,

JOSEPH B. WEAVER, *Director.*

To Hon. DANIEL C. ROPER,
Secretary of Commerce.

REGISTER DIMENSIONS—STATUTORY LENGTH, BREADTH, DEPTH, AND HEIGHT OF VESSELS

The registry of every vessel shall express her length and breadth, together with her depth and the height under the third or spar deck, which shall be ascertained in the following manner: The tonnage deck, in vessels having three or more decks to the hull, shall be the second deck from below; in all other cases the upper deck of the hull is to be the tonnage deck. The length from the fore part of the outer planking on the side of the stem to the after part of the main stern post of screw steamers and to the after part of the rudderpost of all other vessels measured on the top of the tonnage deck shall be accounted the vessel's length. The breadth of the broadest part on the outside of the vessel shall be accounted the vessel's breadth of beam. A measure from the underside of the tonnage-deck plank, amidships, to the ceiling of the hold (average thickness), shall be accounted the depth of hold. If the vessel has a third deck, then the height from the top of the tonnage-deck plank to the underside of the upper-deck plank shall be accounted as the height under the spar deck. All measurements to be taken in feet and fractions of feet, and all fractions of feet shall be expressed in decimals. (Revised Statutes, sec. 4150.)

EXPLANATIONS AND ABBREVIATIONS

Merchant vessels of the United States contains the name of every American merchant vessel and yacht which had an uncancelled document (register, enrollment, or license) on June 30, of the year of its publication.

Oil or gas engine.—Each motor vessel propelled by an engine in which the fuel is ignited by the heat generated wholly from compression of air in the cylinders (Diesel type), or from such heat and additional outside heat when this is not sufficient (semi-Diesel type), is indicated by *ol.* (ol. p., ol. s., ol. w.); and each motor vessel propelled by an engine in which the fuel is ignited by a spark is indicated by *gs.* (ga. p., ga. s., ga. w.).

Electrically driven vessels are reported in the list of Steam Vessels when the dynamos are actuated by steam turbines and in the list of Motor Vessels when actuated by oil engines.

Name of vessel.—The name of each vessel is printed exactly as it appears in the marine document and on the vessel, with the exception of the capitals and italics noted in the next paragraph. A footnote shows the former name if there was one, and the order in which the names were borne if the vessel had more than one name.

Material of hull.—The name of each steel vessel is printed in SMALL CAPITALS, each iron vessel in *italics*, and each wooden vessel in roman.

Oil fuel.—Each steam vessel fitted for burning oil is indicated by a □.

Radio equipment.—Each vessel equipped with radio transmitting apparatus is indicated by a ⊙, if in addition it has a direction finder (radio compass), it is indicated by a ⊕; if with a direction finder but without radio transmitting apparatus, it is indicated by a △.

Name of owner.—The name of the sole or, if there are two or more owners, the name of the managing owner is given. If the sole or managing owner is a corporation, the corporate name is given, except that the definite article is omitted when it forms part of the name. The abbreviation in parentheses following the name of a corporation indicates the State in which the corporation is chartered.
