

35TH CONGRESS, } HOUSE OF REPRESENTATIVES. { Ex. Doc.
2d Session. } No. 2.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES

TO THE

TWO HOUSES OF CONGRESS

AT THE

COMMENCEMENT OF THE SECOND SESSION

OF

THE THIRTY-FIFTH CONGRESS.

DECEMBER 6, 1858.—Read, and committed to a Committee of the Whole on the state of the Union, and, together with the accompanying documents, ordered to be printed.

DECEMBER 11, 1858 —*Resolved*, That there be printed, for the use of the members of the House of Representatives, twenty thousand extra copies of the message of the President of the United States, together with the accompanying documents.

VOLUME II . PART IV

WASHINGTON:
JAMES B. STEEDMAN, PRINTER.
1858.

REPORT OF THE SECRETARY OF THE NAVY.

NAVY DEPARTMENT,
December 6, 1858.

SIR: Since the last annual report this Department has been required to employ a naval force for the purpose of arresting unlawful expeditions against Nicaragua, resisting the exercise of the right of search by British cruisers in the neighborhood of Cuba, and enforcing a demand of redress for an insult to our flag and for injuries to our citizens by the government of Paraguay.

In the first instance, that of arresting and preventing unlawful expeditions set on foot in the United States against Nicaragua contrary to the act of Congress of April 30, 1818, orders for this purpose were issued to the steam frigates Wabash and Susquehanna, the sloops-of-war Jamestown and Saratoga, and the steamer Fulton. These orders and the successful action of Flag-Officer Paulding, and those under his command, in breaking up the expedition against Nicaragua, set on foot by General Walker, were fully communicated to Congress at its last session by the special message of the President of January 17, 1858.

The force sent into the neighborhood of Cuba to resist the exercise of the right of search by British cruisers consisted of the steam frigates Wabash and Colorado, the sloops-of-war Macedonian, Constellation, Jamestown, Saratoga, and Plymouth, the steamers Water Witch, Arctic, Fulton, and Despatch, and the brig Dolphin; comprising the Mediterranean squadron under Flag-Officer Lavallette, the Home Squadron under Flag-Officer McIntosh, and such other vessels as were sent out specially for the purpose. They were all deemed effective for the object for which they were sent, because, in the execution of their mission, no one of them would have hesitated to resist a ship of the largest class. They were instructed to protect all vessels of the United States against the exercise of the right of search on the high seas, in time of peace, by the armed vessels of any other power. These instructions have been often repeated and are now regarded as standing instructions to the navy of the United States, wherever employed. They put the deck of an American vessel on the same footing with American soil, the invasion of which under foreign authority is to be as strenuously resisted in the one case as in the other. They regard such invasion as in the highest degree offensive to the United States, incompatible with their sovereignty and with the freedom of the seas, and to be met and resisted by the whole power of the country. It was your policy promptly and decisively to embrace the opportunity to bring this question of right, upon which we had gone

through one war and half a century of negotiation, to final issue, by placing all other nations in a posture where they must either fight for it or abandon it. The result has proved the wisdom of the measure.

Congress having authorized the President to use force to obtain redress from the government of Paraguay, it was deemed expedient to send a powerful fleet into that neighborhood to be employed, if necessary, for that purpose. Accordingly the squadron on the east coast of South America has been increased, so that it will consist of two frigates, two sloops-of-war, three brigs, twelve armed steamers and two armed store-ships. They have been ordered to rendezvous near Buenos Ayres, and to be in readiness for any action that may be required. Of this force, one sloop, three brigs and twelve steamers can lay the whole river coast of Paraguay under effective blockade, ascend the river to the capital of Paraguay, and overcome any resistance that may be offered. It has been the object of this Department to leave no doubt as to the success of an expedition set on foot to protect the persons and property of American citizens in a remote country, to vindicate the honor of the American flag in a particular instance of wanton outrage offered to it, and to indicate a determined purpose on the part of this government to cause it to be respected wherever its protection may be rightfully invoked.

In fitting out this expedition it became necessary, in consequence of a deficiency in the navy of vessels of light draught, to charter a number of steamers which could be used as transports and for towage, and could be armed also for effective service as war-vessels. These vessels, six propellers and three side-wheel steamers, have been chartered for six months, or more, with a right of election on the part of the government to become the purchaser at stated prices, and to apply all payments made under the charter as part payment of the purchase-money. As these vessels would be useful as part of the naval force of the United States, and can be purchased on reasonable terms, I would recommend an appropriation to be used, if deemed expedient, for the purpose. The sum required to purchase the six steam propellers would be \$244,000, of which \$94,800 must be paid for the use of them for the period of six months, and a proportionate sum for a longer time, if no purchase be made. The sum required for the three side-wheel steamers would be \$286,000, of which, if they be not purchased, the sum of \$69,000 must be paid for the use of them for the same period of six months, and a larger sum for a longer period. The election must be made on or before the 10th of March next.

During the past year the Department has sent out a surveying party, under the command of Lieutenant J. M. Brooke, to survey and lay down with accuracy the obstructions to navigation in the usual routes between San Francisco and China. The Fenimore Cooper being already fitted for such an expedition, and the principal instruments necessary for it being already on hand, it will be attended with little extraordinary expense. Looking to the early growth of an extensive and profitable commerce between our Pacific shores and eastern Asia, which has recently by treaty been thrown open to us, augmented, as it will be, in no inconsiderable degree by the diversion of trade from ancient channels, it was deemed a matter of importance to remove all

impediments out of its way, and to give it the security of a more perfect knowledge of the highway over which it must pass.

The steam frigate Niagara, under the command of Captain Hudson, was again in March last, by your direction, placed at the service of the Atlantic Telegraph Company to co-operate with those furnished by the British government in another effort to lay the Atlantic cable. Leaving New York on the 9th of March she arrived in England on the 23d. From this time forward, until the final accomplishment of the great enterprise, her officers and men devoted themselves to it with a zeal and energy which contributed largely to its success and entitled them to the highest commendation. Having reached Trinity Bay on the morning of August 5th, and fully performed that part of the work entrusted to her, she returned to New York, where she arrived on the 18th and was put out of commission. Although there should prove to be a fatal defect in the cable, yet the enterprise has been successful, for it has been demonstrated to the world that the object is not only not impracticable but that it can easily be accomplished.

It was deemed a fitting sequel to her participation in that enterprise of science, that the Niagara should next be engaged in an enterprise of distinguished philanthropy. The brig "Echo," an African slaver, having been captured by the Dolphin, under Lieutenant Maffitt, on the coast of Cuba, and brought into Charleston with her cargo of 306 slaves, you determined promptly, in obedience to an act of Congress, to restore them to their native Africa and to provide for them for the term of one year at the expense of the United States. Orders were accordingly given to the Niagara to proceed upon this mission. Within one week from the date of her orders, with most commendable despatch, she was at sea. Leaving New York on the 13th of September, under the command of Captain Chauncey, she arrived off Charleston on the 18th, the next day received the captive Africans on board, then 271 in number, and on the day following set sail for Liberia, where under a contract with this government they were to be received and humanely provided for by the African Colonization Society at the expense of the United States. They were accompanied by Dr. Thomas Rainey, who was appointed agent under the act of Congress, to receive them on the coast of Africa, and to see that the humane purposes of this government were carried into effect.

It was the intention of the Department to have again, during the present year, assigned to the steam frigate Susquehanna, under Captain Sands, the duty of assisting in laying the Atlantic telegraph cable, but in the month of March last, while she was lying in the harbor of San Juan del Norte, the yellow fever made its appearance on board, and prevented her from again participating in that enterprise. Having been detained at quarantine in New York, during the summer, she has but recently been removed to Brooklyn. On her way home, she was obliged to put into Jamaica. When she arrived at Kingston, Sir Houston Stewart, the Admiral of the port, placed the hospital at the disposal of the sick, and furnished every assistance for landing them. Eighty-five of them were transferred to the hospital. The surgeon of the ship being disabled by the fever, Assistant Surgeon Rose, of the British navy, volunteered to attend the sick in

his place, and to accompany her to New York. The Department communicated to him its high appreciation of this noble and generous act of disinterested philanthropy. On those who were left at Port Royal every attention was bestowed, and every provision made for their comfort, by the authorities. To Admiral Stewart, Commodore Kellett, Captain Hay, Dr. Kinneear, of the hospital, and the medical officers under him, the Department expressed, through the British Minister at Washington, its warmest acknowledgments for their prompt and efficient assistance. For the expenses incurred in the treatment of the sufferers at Port Royal, the Lords Commissioners of Admiralty have declined to make any claim upon this government.

The five steam sloops-of-war authorized by the act of March 3, 1857, will soon be completed. The one built at New York, by Mr. Westervelt, under contract with the government, will be ready for trial at sea during the present month. That built in the navy yard at Philadelphia has been launched, and will be ready for trial in March. Those built at the Charlestown and Gosport navy yards will be ready for launching during the present month, and for sea by July. The other, built at Pensacola, will be launched in the spring. The machinery of two of them is under construction at the Washington and Gosport navy yards; that of the other three at private establishments. They are all sloops-of-war of the first class, and can be employed to advantage on any of the foreign stations, instead of larger and more expensive vessels.

The seven steam screw sloops-of-war and one side-wheel war steamer, authorized by act of June 12, 1858, are in a state of great forwardness. Five of them will be launched during the present month, and be ready for sea by May next; and the other two screw steamers will be launched early in spring, and be ready for trial by June. The side-wheel steamer is building at the navy-yard in California, will be launched in the ensuing spring, and be ready for sea in August. They are all within the limit of draught prescribed by the act of Congress; and the steam machinery of all of them has been contracted for with private establishments after public advertisement.

In the construction of the steamships authorized by the acts of Congress referred to, it has been the aim of the Department to combine speed and power with strength in the highest practicable degree for vessels of their class. Accordingly models have been selected with particular reference to their adaptation to the greatest attainable speed, and contractors for the engines and machinery under the act of last session, have been required to guaranty the result of their plans by stipulating for the number of revolutions to be performed in a given space of time. In combining the skill of the constructor and engineer for the accomplishment of the paramount object of extraordinary capacity for speed, I have not confined myself to the limits of the navy, but have looked elsewhere beyond that narrow boundary, that the country might have the benefit of the highest skill, wherever it might be found.

In placing an estimate upon the value of high speed, the importance of it has not been too highly appreciated. Of two war vessels—the equals of each other in every other respect—the one which has

the greatest speed has a decisive advantage over the other, and in a contest is most sure to win the mastery. The time has gone by when steam can be regarded in any other light than as the principal motive power on the water for warlike purposes. It is impossible any longer to regard the unsteady and uncertain power of the wind as anything more than an auxiliary power, subordinate to that of steam.

In the construction of a war vessel, everything connected with it has ultimate reference to a single point, the use of the gun; by which alone, as the means or instrument of power, important results are to be accomplished. To place it in the presence of the enemy or beyond his reach in the shortest possible time, and to use it with the greatest possible effect, is the great object to be sought for in the construction of a navy or the maintenance of its auxiliary establishments. It is to attain this object that the skill of the departments of ordnance, of construction and of engineering, is taxed to the utmost. In the first place, we have aimed to select and adopt the arm which combines the greatest strength, range, accuracy, and power. In the Dahlgren gun we have found what we want, and it is believed there is no gun in any service that surpasses it in these qualities. In the use of it, by training a corps of skilful gunners, by constant instruction, and by universal practice at sea, according to the requirements of the naval service, we have attained the greatest perfection in celerity of movement and accuracy of aim. Having these advantages in the gun and its use, we have next endeavored to secure that model of a war vessel propelled by steam which would encounter the least resistance in its passage through the water, when, of course, so far as the form of the vessel is concerned, the greatest speed will be attained. And finally, as side-wheel steamers are scarcely admissible for fighting purposes, we have endeavored to apply the power of steam to war propellers in such manner as to give the vessel the greatest capacity of rapid movement, so that whether it be the object to overtake an enemy, or to escape from a superior force, or to seek its safety in any other emergency, it may be able to exert its capacity for speed to the utmost extent; while, on the other hand, at other times it may use its steam power very sparingly, or not use it at all. So great is the zeal of those connected with this branch of the public service that I feel assured they will not rest satisfied until they have given to the service the fastest war ship which skill and science can produce.

All our past experience has evinced the necessity of an increase of the navy. It is impossible with our present naval force to give adequate protection to the persons and property of American citizens pursuing their various avocations by land and sea in all parts of the world. What we more especially need in time of peace is a larger number of vessels capable of entering the rivers and harbors of all foreign countries as well as our own. Such is the condition of Mexico and of the Central and South American States that it is indispensably necessary that we should be able to approach them frequently, and at every accessible point. There is no other mode of extending effectual protection to American interests in that or any other quarter of the globe where the existing governments lack stability, or, for other causes, cannot be relied on for the performance of international duties. The

frequent presence of a ship-of-war, though not of the largest class, exerts a powerful restraining influence, and will generally save our citizens from the infliction of gross injustice. There are still other reasons for a considerable augmentation of our naval force.

The commerce of the United States has increased with such unprecedented rapidity that we are already one of the greatest commercial powers of the world. Frequenting all seas and visiting all countries, it is vain to suppose that it can be protected by a few ships of the larger classes. The only mode of doing it in an effective and economical manner is to give the navy greater efficiency by multiplying the number of smaller vessels of light draught and powerful armament, capable of following commerce into whatever waters it may frequent, and of which four or five can be built and maintained in commission for the cost of a single frigate or ship of the line. Twenty effective vessels of the smaller class can be built and kept at sea for what it would cost to build and keep at sea four or five vessels of the larger class. And when this fact is considered in connexion with another, that well armed ships of this description traversing the high seas, visiting the ports of remote nations, displaying a national flag as the representative of a great confederation of free States, are usually in time of peace as powerful for all protective and preventive purposes as any other, while they are useful and formidable in war, the argument becomes irresistible for the employment of a much larger number of them.

This view does not yet exhaust the subject. We have an immense seacoast, indented by a thousand harbors, most of them of no great depth, which needs the constant attention of government on both the Atlantic and Pacific oceans. The waters of the Gulf of Mexico and those contiguous to it, the great highway of the immense commerce of the Mississippi and that between our Atlantic and Pacific possessions, are to be guarded, like inland seas, with jealous care, and should be made to swarm with these floating fortifications. The United States should be present and have a predominating influence over the American continent, and, in order to maintain it, should have the means of causing their power to be felt at any point wherever and whenever it might be necessary.

These great leading objects can be accomplished by increasing the effective force of the navy, and they can in a great degree be accomplished in the mode proposed, without any considerable increase of expenditure. Let Congress increase the number of our heavy armed vessels of light draught until we can frequently display our flag at every point where American interests shall need its protection, and the work will be already done.

Under different circumstances from those which now exist; if we were not in the midst of commercial and financial embarrassments; if we were in our usual condition of an abundant revenue and an overflowing treasury, I should not hesitate to recommend that we resort at once to the general policy of maintaining a more powerful navy, on the ground that it is required for defence, and will be necessary to maintain our rights and the honor and character of the country. Although it may be delayed, yet the time will soon come when this

policy will be forced upon us under circumstances of great disadvantage, if not voluntarily adopted. For the present, however, I shall reluctantly content myself with urging the supply of our immediate and pressing wants by the construction of a larger number of war steamers of the smaller classes, such as were authorized by the act of Congress of the last session. The addition of at least ten more vessels of that description, of as great speed, light draught, and powerful armament as their character and tonnage will permit, is not only a necessary measure, but will be found to be as efficient as any that can be devised requiring so small an expenditure of the public money.

The Naval Academy at Annapolis, under its present superintendent Captain George S. Blake, continues to give marked evidence of its great usefulness. Fifteen acting midshipmen graduated in June last, and of seventy-six candidates for admission in September, fifty-six were found qualified and were admitted. The number of acting midshipmen now attached to the academy, is one hundred and eighty-nine.

The board of officers appointed to witness the annual examination of the classes and report on the condition of the academy, speak favorably of the police discipline and general management of the institution. They concur in the recommendation of previous boards, that the standard of qualifications for the admission of candidates be raised, or that a course of preparatory study be provided, so as to bring them to a more uniform degree of attainments. They recommend that acting midshipmen, be required to bind themselves to serve a certain period after passing through the academic course of studies; that teachers of French and Spanish be attached to our ships on foreign stations; that a practice ship be permanently attached to the academy for the instruction of the acting midshipmen, and that every encouragement be held out to induce men specially qualified by their professional attainments and general good character, to engage and remain permanently in this service.

To enable me to accomplish this latter object and to transfer to the Naval Observatory, where they are much needed, the naval professors of mathematics now employed at the academy, I would earnestly recommend that authority be granted by Congress to do for the navy as has been done at West Point for the army, organize a corps of professors at the academy composed of civilians, with such compensation as will command the highest abilities for this most important service.

The sloop-of-war Preble, under Commander Craven, having been detailed as a practice ship with a view to the instruction of the acting midshipmen at sea in navigation and seamanship, sailed from Hampton Roads in June last, with ninety-seven pupils on board. The ports of Cherbourg and Cadiz, and the Island of Madeira, were visited during the cruise, and the ship returned to Norfolk in September. Commander Craven speaks in very favorable terms of the zeal and proficiency exhibited by the youths under his command, and of the marked improvement they made during this short cruise in the practical duties of their profession. His report is herewith submitted.

I cannot omit to invite attention to the very inadequate provision that has been made for the accommodation of midshipmen at the Naval Academy. The number of midshipmen authorized by law is 464, and the whole number in the service is but 236. Of these there are at the Academy 189; while provision has been made there for only 180; and there are thirty-three congressional and territorial districts still vacant, having no midshipmen at the Academy or elsewhere in the service. The Academy is already crowded to overflowing, and should these vacancies only be filled, without filling the whole number of vacancies in the corps which are now 228, the pupils could not be accommodated. In this state of things, no appointments could be made during the present year, except from the districts which have no midshipmen in the service. As this is the only mode of gaining admission into the navy, the way appears to be very effectually blocked up, and there is and must be consequently, a great deficiency of officers in the lower grades of the service; an evil which cannot fail seriously to detract from the efficiency of this great arm of the public defence.

The present effective strength of the medical corps does not exceed 59 surgeons and 70 assistants. The wants of the service for the ensuing year will require for duty at sea 39 surgeons and 70 assistants; for shore duty 26 surgeons and 17 assistants; making a total of 65 surgeons and 87 assistants, required for active duty. This deficiency in the medical corps of the navy cannot be neglected without subjecting the lives of those engaged in this branch of the public service to unreasonable and culpable exposure. The naval establishment has from time to time been increased, while no corresponding increase has been made in the number of medical officers, that remaining nearly the same now as forty years ago. Since the year 1815, Congress has increased the number of captains from 32 to 76; of commanders from 18 to 106; of lieutenants from 140 to 327; while the medical corps, which then numbered 120 members, has now but 149, including at least 20 who are incapacitated for active service. The recent addition of a considerable number of steam vessels to the navy will necessarily create an increased demand for the services of officers at sea; while the greater activity which now prevails in it, and is likely hereafter to prevail, will still farther increase that demand. To meet the immediate wants of the service, an addition of twenty to the present number of surgeons and as many additional assistant surgeons will suffice. With that number, the stations on shore and vessels at sea may be supplied, and a short interval of relief from duty allowed an officer on his return from a cruise.

There are now 64 pursers in the navy. Of these, 31 are on sea duty, 17 on shore duty, and 16 on leave or waiting orders. In the list of pursers on leave are included those who, from age or physical infirmity, are unfit for duty, and those who have just returned from sea and are engaged in settling their accounts. There are at the present time 16 vessels in commission which should have pursers, but have none. In nine of these vessels the duties of purser are reluctantly performed by the commanding officer, who is required to perform them

with great exposure to pecuniary loss, and with no additional compensation. While he is thus compelled to devote his attention to duties not appropriate to his profession, he is placed in a false position towards the men under his command, and in every question relating to their accounts is required to be sole umpire between himself and them. In some cases a purser is assigned to duty for more than one vessel at the same time, when, of course, he is often obliged, without any immediate oversight, to trust to the responsibility of a clerk such as can be employed for the small compensation allowed by law. It would be advantageous to the service if Congress would authorize the appointment of a small number of additional pursers. Fifteen or twenty would be sufficient for the present.

In my last annual report it was recommended that the privates of the marine corps be increased to the number of two thousand. The number at present is 1,568. Of these, 568 have been employed under the act of March 3, 1849, authorizing the substitution of landsmen as marines. Two hundred of these have recently been temporarily substituted under the provisions of that act for the purposes of the Paraguay expedition. This number of privates, now again recommended, is necessary for the service, to furnish the proper guards for shore stations and for vessels at sea. It will require the usual proportion of commissioned and non-commissioned officers to organize the corps thus increased with the proper degree of efficiency.

By the act of June 12, 1858, making appropriations for the naval service, the Secretaries of the Treasury and Navy were "authorized and required to ascertain, in such way as they may deem best, the actual value of the ten acres of land heretofore belonging to the navy hospital estate at Chelsea, and ceded by the 6th section of the act making appropriations for the civil and diplomatic service of the government, approved March 3, 1855, for the purposes of a marine hospital for the district of Boston and Charlestown;" and the Secretary of the Treasury was directed "to pay the so ascertained value of the said ten acres, out of any money in the treasury not otherwise appropriated, to the credit of the naval hospital fund, out of which the original purchase of the property so ceded was made."

In pursuance of this act, a commissioner was appointed in November last by each of the departments to ascertain the value of the land. They were authorized to appoint a third party to act with them. Surgeon Whelan, Chief of the Bureau of Medicine and Surgery, was appointed by me, and Major A. H. Bowman, of the Corps of Engineers, was appointed by the Secretary of the Treasury. The third party, Samuel Hatch, Esq., of Boston, was selected by them. After examining the land in question, and carefully considering the subject, they unanimously awarded that there should be paid by the Treasury Department to the navy hospital fund for this lot of ten acres of land the sum of fifty thousand dollars.

The board of officers, consisting of Commodores McCauley and LaVallette and Commanders Marchand and Steedman, heretofore appointed to prepare a code of signals for the use of the navy, have reported a

code which, on the 13th of July last, was adopted by the Department. It embraces day, night, and fog signals, and has been printed and partly distributed to vessels in commission.

The act making appropriations for the naval service, passed March 3, 1857, directed the Secretary of the Navy "to have prepared and to report to Congress, for its approval, a code of regulations for the government of the navy." Such code I have had prepared by a board of officers, convened at Washington on the 7th of August, 1857, consisting of a captain, commander, lieutenant, the lieutenant colonel of the marine corps, a purser, and a surgeon; and now, in obedience to the act, I report the same, that it may be laid before Congress. And in doing so, in order to avoid misconstruction, I beg leave to say that I entirely dissent from the course of giving to a code of regulations, descending into all the *minutiae* of unimportant details, the force of law. The authority of the commander-in-chief of the army and navy is adequate to the establishment of such regulations, as should be varied, modified, or suspended, from time to time, according to the exigencies of the service, and could not have the stability of law, without subjecting it to the greatest inconveniences and embarrassments. It would be incongruous to remedy these difficulties by making a code, thus sanctioned, subject to be amended, altered, modified, suspended, or repealed, in whole or in part, by the executive. And if the commander-in-chief were to be tied up by these regulations, so that his constitutional authority to command must not come into conflict with them, they would go far to repeal it.

The board has also reported, in the form of regulations, a code of laws for the government of the navy. This is not obnoxious to the same objections as a code of minute regulations enacted by Congress, because the subjects embraced in it are properly subjects of legislation which should not be left to executive discretion. This code is not a new one, but is composed of existing laws with some amendments.

The continuation of the exploration of the Parana and tributaries of the Paraguay, which was placed under the charge of Commander Thomas J. Page, has been somewhat retarded by his connexion with the naval expedition to Paraguay, sent out under authority of the act of Congress of last session. The small steamer *Argentina*, contracted for with Mr. Forbes, of Boston, to be used in the exploration, and at the date of my last report nearly completed, arrived at Buenos Ayres on the 19th of April, and was delivered to Lieutenant McGary, who, with others of the surveying party, had arrived there on the 29th of March. They proceeded in the steamer to Rosario on the Parana, and there awaiting the arrival of Commander Page, engaged in such preliminary surveys and other work of exploration as could be successfully prosecuted in his absence. The charts compiled from the results of the former survey of the *La Plata* and its tributaries having been completed, the office was closed on the 30th of September last.

The expedition sent to New Granada by the War and Navy Depart-

ments, to survey a route for a ship canal from the Atlantic to the Pacific through the Atrato and Truando rivers, in pursuance of the act of Congress of March 3, 1857, making appropriations for the naval service, returned in safety in May last, having accomplished the enterprise in which they were embarked. The particular object of it was to verify a former survey. Lieutenant Craven, of the navy, and Lieutenant Michler, of the army, who were detailed for this service, have not yet completed the labor of reducing their data to a result. It is understood they differ in opinion as to the feasibility of a ship canal from ocean to ocean in the contemplated route. As soon as the report shall be presented to the Department, it will be transmitted to Congress.

The resolution of the Senate of the 13th of April last, instructed the Secretary of the Navy to cause a thorough examination of the iron, coal, and timber of the Deep River country in the State of North Carolina, and to report at the next session of Congress upon the expediency of establishing, at some point in that State, machine and workshops for the construction of engines, boilers, &c., for naval vessels. In compliance with this resolution I appointed a commission, consisting of Captain Wilkes, Messrs. Hunt and Martin chief engineers, and Mr. Pook naval constructor, to make the examination. This examination has been made, but the report has not yet been presented to the Department.

The Home squadron, under the command of Flag Officer McIntosh, at present consists of the Roanoke, Savannah, Jamestown, and Saratoga. The St. Louis is preparing to join it. The Susquehanna, Plymouth, Fulton, and Dolphin have recently been withdrawn from it, the two latter having been ordered to Paraguay.

Flag Officer Long commands the Pacific squadron, now consisting of the Merrimac, Saranac, St. Marys, Cyane, Vandalia, and Decatur. The John Adams recently belonging to it, returned from the Pacific in April last.

The Mediterranean squadron commanded by Flag Officer Lavallette, consists of the Wabash and the Macedonian. The Congress returned home from this station in January, and the Constellation in June last.

The Brazil squadron has consisted of the St. Lawrence, the Fal-mouth, and the Perry, under the command of Flag Officer Forrest. This squadron has recently been largely reinforced as already mentioned, and Flag Officer Shubrick will succeed to the command of it on his arrival with the Sabine.

The African squadron is still under the command of Flag Officer Conover, and is composed of the Cumberland, Vincennes, Dale, and Marion. The St. Louis returned from this station in February last. The Bainbridge having joined this squadron in the spring, has recently been transferred to the Paraguay expedition.

The Powhatan, Minnesota, Mississippi, and Germantown compose the East India squadron under Flag Officer Tattnall. From this squadron the Levant returned home in April, the Portsmouth in June, and the San Jacinto in August. The Minnesota has received orders to return home, and may now be on the way.

The Dolphin, under the command of Lieutenant Maffitt, while

cruising on the north coast of Cuba, captured, on the 21st of August last, a brig having on board 318 Africans. She surrendered under American colors and proved to be "The Echo," formerly "The Putnam." When first seen she was standing towards Key Verde, apparently with the intention of landing her cargo. Her officers and crew numbered eighteen persons, several of them Americans. She was placed under the command of Lieutenant J. M. Bradford, with Lieutenant Carpenter and a crew, with orders to proceed to Charleston, where she arrived and was delivered, with 306 Africans, to the United States Marshal for the district. The crew of the slaver were held for trial and the Africans sent back to Africa. The captain of the Echo was transferred to the Dolphin and taken, by way of Key West, to Boston, where he was delivered to the authorities.

As there was reason to suspect, from information communicated to Lieutenant Maffitt, that other American vessels were engaged in the slave trade, and would shortly arrive on the north coast of Cuba, the United States steamer Despatch, under the command of Lieutenant Parrott, was sent to that vicinity to intercept them. She had been cruising for several months in the Gulf of Mexico for a similar purpose, in consequence of rumors that attempts would be there made to land cargoes of slaves within the limits of the United States. But the cruise of the Despatch has proved that these rumors were unfounded.

The sloop-of-war Marion, under Commander T. W. Brent, attached to the African squadron, and cruising on the southwest coast of Africa, on the 8th of September last, off Mayumbra, fell in with the American Ketch, "Brothers," James Gage master, just from Havana, bound for the river Yaire or Congo, and finding in her what in his opinion was ample evidence to justify it, seized her as engaged in the slave trade contrary to the act of Congress. She was immediately put under the command of Lieutenant E. E. Stone, with Midshipman N. Green and a crew, and sent to the port of Charleston, South Carolina, as the port to which she belonged, to be delivered with the crew and cargo into the custody of the United States Marshal for that district. She arrived there on the 11th of November last, and is now in the hands of the authorities to be proceeded against according to law.

Flag Officer McIntosh with his flag-ship the Colorado was instructed to visit the city of St. Domingo to inquire into the indignities reported to have been offered to the United States commercial agent at that port, to demand certain documents that had been refused in the case of the American schooner "Charles Hill," and to take such measures as might be necessary for the security of American citizens during the civil war prevailing in that quarter. He found Baez, the President, in the city besieged by Santana, who soon assumed the reins of government. He obtained the documents which he demanded, and the most satisfactory assurances that the flag and citizens of the United States should receive the respect and protection due to them.

The Saratoga, under Commander Thomas Turner, and the Plymouth, under Commander Dahlgren, touched at the island of Navassa, in pursuance of instructions, to look after the interests of our citizens engaged in removing therefrom a deposite of guano. They had been interrupted by two Haytien war vessels and ordered to cease their operations

and leave the island. This island is about 45 miles from St. Domingo, and 75 from Jamaica. Commander Turner, the senior officer, had been instructed to investigate the matter and to give such protection as circumstances should require. Finding the complaints of our citizens to be well founded he proceeded to Port au Prince, communicated the views of our government, and remonstrated against the course pursued towards those who were engaged in removing guano from the island of Navassa. He afterwards touched again at the island and found all things well. The men had resumed their operations and no further interruption was anticipated.

The sloop-of-war Plymouth, under Commander Dahlgren, while attached to the Home Squadron, visited Tampico in October, in consequence of certain forced loans levied upon American residents by General Garza, the Governor of Tamaulipas. Commander Dahlgren, in company with the United States consul, had an interview with General Garza and remonstrated against his measures. Subsequently, on the arrival of the Plymouth at Vera Cruz, he represented in person to President Juarez the improper course which General Garza was pursuing and obtained from him the assurance that the proceedings complained of were contrary to regulations, and that no such levies would be exacted in future.

The Fulton, under Lieutenant Almy, was sent in the spring from the Central American coast to inquire into the circumstances attending the detention of American merchant vessels at Tampico. He arrived off the bar April 13. Lieutenant Almy found the two forces, government and revolutionary, arrayed against each other, the latter under Gen. Garza, besieging the city. Five American vessels had been fired into and detained; one seized, half the cargo thrown ashore, and the Captain imprisoned. General Garza had established a custom-house at the entrance of the river, where he required all merchant vessels to pay duties; and detained such as refused, although they had already paid duties at the government custom-house at Tampico. Lieutenant Almy entered the river with the Fulton, placed her in position with her guns ready, and remonstrated against the action of General Garza, demanding the release of the captain and the vessels which were detained, all which was granted. Lieutenant Almy's course was fully approved by the Department. The Fulton remained at Tampico until May, when peace and quiet had been restored.

At San Juan del Sur in Nicaragua, in August, two citizens of the United States were seized in their houses by the military authorities and unjustly thrown into prison. Captain Kelly of the steam frigate Saranac, then lying in the harbor, satisfied of the injustice of their imprisonment demanded their release, and threatened to effect it by force. Before the threat was carried into execution, though not until preparations were made for that purpose, they were released, and the affair passed off without serious difficulty; the military governor, who had been absent, returning home and disapproving of the action of his deputy.

Flag Officer Forrest, of the Brazil squadron, in January last landed a detachment of marines at Montevideo. When he arrived there a portion of the people had taken up arms and were advancing to the capital. The government applied to the foreign agents to land an

armed force to protect the lives and property of the foreign residents. A sufficient force was thereupon landed from the vessels present, and Flag Officer Forrest selected to command it. A strict neutrality was observed. The detachments returned to their respective ships in about ten days, without coming into collision with the revolutionists, they having capitulated on their approach to the capital.

These particular instances of direct interference are mentioned as illustrative of the manner in which the officers and vessels attached to the several squadrons are employed in protecting American interests within the limits of their respective stations. They are actively engaged in visiting important points, displaying the American flag in remote seas, interposing when necessary, inspiring our citizens in distant countries with a feeling of security, and exerting a salutary influence over those who might otherwise be disposed to annoy them. At no period when we were not actually engaged in war has the navy been more actively employed than during the past year.

To the reports from the several Bureaus I refer for a more particular account of their transactions than I have been able to give consistently with the brevity required in a general report. They show the condition of the navy yards, of the naval asylum, hospitals and magazines, of the ordnance department proper, the Naval Academy, the Naval Observatory, the new ships-of-war under construction, and the complete and ample provision made, with some exceptions which have been noticed, for the wants of those engaged in the naval service. They exhibit statements of expenditures in their respective branches, and estimates in detail of what will be required for the ensuing fiscal year. To one recommendation in relation to the naval asylum I would particularly advert—that of permitting the disabled or worn out seaman who has a home of his own, to which he has returned to pass the remainder of his days, to remain there and receive an annual stipend in money, instead of compelling him to leave it and resort to the asylum to obtain the benefit of the provision which the government has made for him out of his own earnings. I would recommend the enactment of a law authorizing this to be done.

I transmit, herewith, a communication from the Superintendent of the Naval Observatory, setting forth what has been accomplished by him and those under his immediate supervision, and what are now the wants of the institution. In reference to some of these wants I would observe that they arise from exigencies of the naval service, which are deemed more imperative than some of the astronomical duties which have been supposed to fall within the scope of the Naval Observatory. These duties are committed to the charge of a distinguished astronomer, who is aided in the performance of them by the professors of mathematics. The other duties of the Naval Observatory connected with the examination of the logs of vessels transmitted there, the ascertaining of prevailing winds and currents, and the preparation of sailing directions, are supposed to be within the competency of accomplished naval officers who have graduated at the Naval Academy with distinction, and in detailing them for duty at the Naval Observatory special reference is now always had to their

qualifications for this service. In commending the subject of this communication to particular attention I should do injustice to my own convictions were I not to express my high appreciation of the labors of Commander Maury, bestowed upon his Wind and Current Charts and Sailing Directions for many years past, and of the benefits conferred by him upon commerce by giving the results of those labors to the world. They are, in fact, part and parcel of the present universal policy of civilized nations to shorten and accelerate the transit from place to place, for all purposes of commerce and intelligence, to the utmost possible extent.

For the support of the navy and marine corps, and all other objects under the control of the Navy Department, for the fiscal year ending June 30, 1858, the estimates were \$13,803,212 77; appropriations, \$14,240,247 27; expenditures, \$13,870,684 76; there having been some curtailment of expenditures by reason of the falling off of the revenue.

For the fiscal year ending June 30, 1859, the estimates were \$14,616,298 23; appropriations, \$14,508,354 23, these having been largely retrenched in consequence of the diminution of the revenue, and again increased by appropriating \$1,200,000 for eight light draught war steamers, which were not embraced in the estimates.

For the fiscal year ending June 30, 1860, the estimates are \$13,500,370 80, including \$674,000 for completing the eight light draught steamers authorized at the last session of Congress, and not including the usual compensation of \$935,850 for steamship mail service, which will then be discontinued.

These estimates for the fiscal year ending June 30, 1860, are, for the navy proper, \$9,470,879; for the marine corps, \$703,394 55; and for all other objects \$3,326,097 25.

I have the honor to be, very respectfully, your obedient servant,
 ISAAC TOUCEY,
Secretary of the Navy.

The PRESIDENT of the United States.

List of papers accompanying the annual report of the Secretary of the Navy, December 6, 1858.

- A.—List of deaths, resignations, and dismissions in the navy since the last report.
- B.—Code of regulations for the government of the navy, prepared by direction of act of Congress, passed March 3, 1857.
- C.—Report of board of officers appointed to witness the examination of acting midshipmen, and examine into the state of the police discipline and general management of the Naval Academy, at Annapolis, Maryland.
- D.—Report of the cruise of the practice-ship Preble, under Commander Craven, commandant of midshipmen.

- E.—Communication from Commander Maury, Superintendent of the Naval Observatory, &c., in relation to the work accomplished at, and the wants of that institution.
- F.—Report of Professor Winlock, of the progress and state of preparation of the Nautical Almanac under his charge.
- No. 1.—Estimate of appropriations required for the office of the Secretary of the Navy, and the southwest executive building, for the fiscal year ending June 30, 1860.
- No. 2.—Report and detailed estimates of the Bureau of Yards and Docks.
- No. 3.—Report and detailed estimates of the Bureau of Ordnance and Hydrography, including those of the Naval Academy, Naval Observatory, and Nautical Almanac.
- No. 4.—Report and detailed estimates of the Bureau of Construction, Equipment, and Repair.
- No. 5.—Report and detailed estimates of the Bureau of Provisions and Clothing.
- No. 6.—Report and detailed estimates of the Bureau of Medicine and Surgery.
- No. 7.—Report of the commandant of the marine corps, and detailed estimates from the paymaster and quartermaster of the corps.
- No. 8.—General estimate (civil) of the office of the Secretary of the Navy and bureaus of the department.
- No. 9.—General estimate, southwest executive building.
- No. 10.—General estimate for all objects under the control of the Navy Department.
- No. 11.—General estimate for the navy, proper.
- No. 12.—General estimate of the marine corps.
- No. 13.—General estimate for special objects under the control of the department.
- No. 14.—Statement of the Second Comptroller of the appropriations for the Navy Department, viz: balances on the 1st of July, 1857; appropriations for 1857-'58; re-payments and transfers for the same time; amounts applicable to the service of the year 1857-'58; amounts drawn from the treasury by requisition during the same period, and balances on hand June 1, 1858, with the sums which have been carried to the "surplus fund," specially designated.
- No. 15.—Abstract of expenditures under the head of "contingent expenses of the navy," as settled and allowed at the office of the Fourth Auditor of the Treasury, from July 1, 1857, to June 30, 1858.

A.

B.

A CODE OF REGULATIONS FOR THE GOVERNMENT OF THE NAVY.

CHAPTER I.

RATES OF VESSELS OF THE NAVY AND COMPLEMENTS.

ARTICLE 1.

Rates of vessels of the navy.

The ships and vessels of the navy shall, for regulating commands and the pay of paymasters, be rated as follows:

1st. Ships of the line mounting over seventy guns, and steamers having complements of or over five hundred persons.

2d. Frigates or vessels mounting over twenty-four and less than seventy guns, and steamers whose established complements exceed two hundred persons.

3d. Sloops mounting over fourteen and not more than twenty-four guns, and steamers of the "first class," whose established complements are not less than seventy-five and not more than two hundred persons.

4th. "Small vessels," embracing all sailing vessels of not more than fourteen guns, and steamers of less than the "first class," having established complements not to exceed seventy-five persons.

ARTICLE 2.

Appropriate commands for captains, commanders, and lieutenants.

The appropriate commands for captains are vessels of the first and second rates; for commanders, vessels of the third rate; and for lieutenants, vessels of the fourth rate. Commands will be assigned accordingly, unless special circumstances should, in the opinion of the department, require a different arrangement.

ARTICLE 3.

No paymaster of over twelve years' service to be appointed to vessels of 3d and 4th rates.

In no case, when it can be avoided without injury to the service, shall a paymaster of over twelve years' total service, six years of which shall be sea service, be ordered to a vessel of third or fourth rates.

ARTICLE 4.

Table of complements to be established by the Secretary of the Navy.

The table of complements, as established from time to time by the Navy Department, shall regulate the number and class of officers,

seamen, and others who shall constitute the complement of each class of vessel.

ARTICLE 5.

When more officers are appointed than specified in complement table, to be borne as supernumeraries.

When the department shall think proper to order a greater number of officers to any vessel than the number specified in the table of complements, they are to be borne as supernumeraries for duty.

ARTICLE 6.

Commanders to be allowed as executive officers.

Commanders may be allowed as executive officers in ships of the line and frigates in which the commander of a squadron is embarked.

ARTICLE 7.

Commander of a fleet or squadron as supernumerary.

When the commander of a fleet or squadron shall not be the immediate commander of the vessel in which he shall be embarked, he shall be borne as a supernumerary.

ARTICLE 8.

Supernumeraries on board flag-ships.

The vessel in which the commander-in-chief of a fleet or squadron shall be embarked may bear as supernumeraries, by his order, one lieutenant, as his aid, one secretary, one cockswain, one officer's steward, one officer's cook, one seaman, and two ordinary seamen, and if not commanding in chief, the same persons, excepting the ordinary seamen; and when a captain of the fleet is allowed, he and one cockswain, and one seaman in addition, may be borne as supernumeraries, by order of the commander-in-chief.

ARTICLE 9.

How a deficiency of seamen is to be supplied. Ship not to be detained if she has nine-tenths of her complement of petty officers, &c.

In case of deficiency of "seamen," a vessel which may be otherwise ready for service is not to be detained if such deficiency shall not exceed one-fourth the number of seamen allowed in the table of complements, provided the deficiency can be supplied by an adequate number of "ordinary seamen;" nor shall a vessel, when under orders for service and otherwise ready, be detained if the whole number of petty officers and persons of inferior ratings on board shall be equal to nine-tenths of the whole number of such persons which may be allowed in the table of complements.

ARTICLE 10.

Secretary of the Navy may order vessels to sail with smaller numbers.

The department will at any time, if it deems expedient, direct vessels to sail with still smaller numbers, or otherwise modify the table of complements of vessels for particular service.

ARTICLE 11.

Commanders of vessels may supply deficiency of petty officers.

Unless otherwise specially directed, the commander of a vessel which shall leave the United States with a deficiency of petty officers or persons of inferior ratings, as compared with the established complements for such vessel, may supply such deficiencies by promoting qualified persons of inferior ratings, or by regular enlistments for such time, not exceeding three years, as may be deemed best for the public interests. Blank shipping articles will be supplied to all vessels by the commandant of the navy yard or station from which they may sail.

ARTICLE 12.

Vessels not embraced in table of complements.

Vessels which are not embraced in the table of complements will have their rates and complements established by special order of the Secretary of the Navy.

ARTICLE 13.

Distressed seamen.

Commanders of squadrons or of single ships on foreign stations may receive on board their vessels distressed American sailors, as supernumeraries, for pay and rations, without reference to the established complements of the ships.

ARTICLE 14.

They are to be amenable to laws, &c., of the navy.

Persons so received shall be amenable, in all respects, to the laws and regulations for the government of the navy.

ARTICLE 15.

Supernumerary officers shall take rank and do duty, unless.

An officer ordered to a ship as a supernumerary shall take rank and do duty as if belonging to the complement of the ship, unless otherwise ordered.

ARTICLE 16.

Officers as passengers not entitled to quarters.

An officer ordered for passage only will not be entitled to quarters to the prejudice of an officer of the regular complement; and in case of battle may serve as a volunteer, in such position as the commander may choose to assign him.

CHAPTER II.

RANK AND COMMAND.

ARTICLE 1.

Personnel of the navy.

The personnel of the navy shall consist of the following grades :

Commission officers.

Warrant officers.

Appointed officers.

Petty officers.

Seamen.

Second class firemen.

Ordinary seamen.

Coalheavers.

Landsmen.

Boys.

ARTICLE 2.

General military command.

Of the commission and warrant officers the following only shall exercise general military command, and in the order in which they are placed :

Captain.

Commander.

Lieutenant.

Master.

Second master in the line of promotion.

Passed midshipman.

Midshipman.

Boatswain.

Gunner.

Master's mate, if warranted.

ARTICLE 3.

Officers restricted in their right to command.

The other commission and warrant officers shall be restricted in their right to command to their own respective corps, unless specially extended. They are as follows :

Surgeon.
 Paymaster.
 Chaplain,
 Chief engineer.
 Passed assistant surgeon.
 Assistant surgeon.
 Professor of mathematics.
 First assistant engineer.
 Second assistant engineer.
 Third assistant engineer.
 Carpenter.
 Sailmaker.

ARTICLE 4.

Pursers to be called paymasters.

The class of officers heretofore called *pursers* shall be denominated *paymasters*.

ARTICLE 5.

Acts relating to pursers shall apply to paymasters.

All laws, regulations, circulars, and orders, heretofore issued and now in force, having application to pursers, shall apply to paymasters.

ARTICLE 6.

Rank and command of commission and warrant officers.

The commission officers in each grade shall take rank, and when on duty shall be entitled to command according to the date of their respective commissions, and warrant officers according to the dates of their warrants, and when either shall be of the same date, then according to their position on the Navy Register.

ARTICLE 7.

Officers appointed to act in higher grades.

Officers who may be duly appointed to act in a grade superior to their own shall be entitled, whilst so acting, to exercise command and take precedence according to the grade in which they may be acting; officers so acting shall take rank with each other as in their regular grades.

ARTICLE 8.

Command in cases of riot or quarrel.

Any commission or warrant officer shall have authority to command
 officer, or petty officer, or person o

inferior rating, in case of riot or quarrel. And any person who shall in such case refuse to obey the order of such commission or warrant officer shall be punished at the discretion of a court-martial.

ARTICLE 9.

Appointed officers.

The appointed officers are the following :
 Secretary to the commander of a squadron.
 Clerk to a commanding officer.
 Clerk to a paymaster.

ARTICLE 10.

Petty officers and their relative rank.

The petty officers of the navy are the following, and they shall take rank according to the following enumeration :

Master's mate, not warranted.
 *Master-at-arms.
 *Yeoman.
 *Schoolmaster.
 *Surgeon's steward.
 *Ship's steward.
 *Ship's corporal.
 *Armorer.
 *Cooper.
 *Ship's cook.
 Boatswain's mate.
 Gunner's mate.
 *Carpenter's mate.
 *Sailmaker's mate.
 Cockswoin to the commander of a squadron.
 Quartermaster.
 Quarter gunner.
 Cockswoin.
 Captain of forecastle.
 Captain of maintop.
 Captain of foretop.
 Captain of afterguard.
 Captain of hold.
 Captain of mizzen-top.
 *First-class fireman.
 *Painter.
 *Master of band.
 *Steward to the commander of a squadron.
 *Armorer's mate.
 *Cabin steward.
 *Ward-room steward.
 *Cabin cook.
 *Ward-room cook.

Those petty officers marked with an asterisk (*) shall in no case succeed to command.

ARTICLE 11.

Precedence of petty officers with each other.

The precedence of petty officers with each other shall be established according to their order on the muster book of the ship in which they are embarked.

ARTICLE 12.

Order of precedence between officers of the navy.

The order of precedence between officers of the navy shall be as follows:

Section 1. Fleet surgeons with commanders, according to dates of appointment and commission.

Section 2. Surgeons other than fleet surgeons, paymasters, chaplains, and chief engineers, with lieutenants, according to date of commission: *Provided*, That those surgeons and paymasters who, previous to the adoption of this code, have been ordered to take precedence with commanders, shall so continue; and that no surgeon who has been so ordered shall be detailed for sea duty in any but vessels of the first and second rates, except when the department shall think proper to depart from this rule: *Provided, further*, That chaplains and chief engineers who have now been commissioned twelve years as such shall have precedence with commanders, and with surgeons and paymasters who take precedence with commanders.*

ARTICLE 13.

Precedence of assistant paymasters.

If a class of assistant paymasters shall be authorized by Congress, they shall take precedence with masters; but if such class shall not be appointed, then the paymasters who may be hereafter appointed shall for five years after their appointment have precedence with masters, and after that with lieutenants, counting from the expiration of the five years.

ARTICLE 14.

Precedence of passed assistant surgeons and professors.

Passed assistant surgeons and professors of mathematics shall have precedence with masters.

* The vote on this article was as follows: Ayes 3—Commodore Shubrick, Commander Lardner, Lieutenant Maury. Noes 3—Colonel Harris, Purser De Bree, Surgeon Maxwell.

Nothing being suggested in reference to the matter embraced therein upon which the board can agree, this article is respectfully submitted to the honorable Secretary of the Navy.

ARTICLE 15.

Precedence of assistant surgeons and first assistant engineers.

Assistant surgeons, first assistant engineers, and secretaries to commanders of squadrons, with passed midshipmen.

ARTICLE 16.

Precedence of second and third assistant engineers and clerks.

Second and third assistant engineers, and clerks to commanding officers and paymasters, shall have precedence with midshipmen.

ARTICLE 17.

Precedence of secretaries and clerks with each other.

Secretaries to commanders of squadrons, and clerks to commanders of vessels and paymasters, shall have precedence with each other, respectively, according to the rank of the officer to whom they may be allowed.

ARTICLE 18.

Precedence by date of commission or warrant.

When precedence is to be established by date of commission, warrant, or other reference to time, in any grade, and cases shall arise where there are two or more persons having the same date, they shall have precedence with each other according to the order in which they may stand upon the Navy Register.

ARTICLE 19.

Officer entitled to exercise general military command in command of a vessel, or on detached duty, shall command all other officers on same duty.

When any officer authorized to exercise general military command shall be in command of a vessel on any detached duty in which officers not so authorized may be embarked, or to which they may be attached for duty, or by order, such officer, whatever shall be his rank, shall be entitled to exercise command, and shall take precedence over the other officers while so embarked or attached.

ARTICLE 20.

Precedence of officers on boards, surveys, &c.

Whenever officers of the navy shall be directed to act together upon boards, councils, surveys, or other duty where their joint views or opinions are to be expressed, the officer entitled to precedence shall

preside, except in cases of councils of war or military commissions, when the presiding officer shall be one entitled to exercise general military command.*

ARTICLE 21.

Messes, senior officers, &c., to preside.

In all messes of officers the senior officer entitled to general military command shall preside.

ARTICLE 22.

Command of officers of medical, pay, and engineer corps.

Officers of the medical, pay, and engineer corps shall have rank in their own respective corps according to grade and date of commission or warrant in their grades, and shall have authority to exercise command accordingly, in matters relating to duties in their own corps, but not in any other corps, except as hereinbefore provided, conforming to the police regulations of the vessel in which they may be embarked.

CHAPTER III.

GENERAL REGULATIONS.

ARTICLE 1.

Constant attention to duty enjoined on all.

All persons in the navy are to be constant in their attention to their duties, never absenting themselves therefrom without the consent of their immediate commanding officer, nor remaining out of the vessel to which they may belong during the night, after the watch is set, without express permission to that effect from the commander of the vessel, or from the commander-in-chief of the fleet or squadron.

ARTICLE 2.

Officers to conduct themselves with respect to their superiors.

All persons of the navy shall conduct themselves with respect to their superiors, and show every proper attention to those under their orders, having due regard to their situation; and all officers are required to set an example of morality, subordination, and attention to duty.

* Ayes 4—Colonel Harris, Purser De Bree, Lieutenant Maury, Surgeon Maxwell. Noes 2—Commodore Shubrick, Commander Lardner.

ARTICLE 3.

If an inferior feels himself aggrieved.

If an officer shall consider himself oppressed by his superior, or observe any misconduct in him, he is not, on that account, to fail in his respect to him; but he is to represent, through the proper channel, such oppression or misconduct to the captain of the vessel, or commander of the yard, to the commander-in-chief of the fleet or squadron, or to the Secretary of the Navy, in the manner prescribed for official correspondence.

ARTICLE 4.

If any person knows of any fraud.

If any person belonging to the navy shall know of any fraud, collusion, or improper conduct in any agent, contractor, or other person employed in matters connected with the naval service, he shall report the same in writing, through the prescribed channel, to the proper officer, or to the Navy Department. But he must in all cases specify the particular acts of misconduct or collusion, and state the means of proving the same; and he will be held strictly accountable for any frivolous or vexatious charges he may exhibit.

ARTICLE 5.

If an officer shall receive an order contrary to his instructions.

If an officer shall receive an order from his superior contrary to any particular order of any other superior, or to the instructions or general orders from the department, he shall respectfully represent (in writing when practicable) such contrariety to the superior officer from whom he shall have received the last order; and if, after such representation, the superior officer shall still insist upon the execution of his order, the officer is to obey him, and report the circumstances to the officer from whom he received the original order, if practicable.

ARTICLE 6.

If an officer is diverted from any duty.

Every officer who shall divert another from any service upon which he may be ordered by a common superior, or require him to act contrary to the orders of such common superior, or interfere with those under his command, must show to the department, or to the officer under whose order he may be acting, that the public interests required it.

ARTICLE 7.

Orders countermanning other orders to be given in writing.

All orders countermanning a written order from a common superior shall be given in writing, when practicable.

ARTICLE 8.

No person to exchange with another for the performance of any duty.

No person in the navy shall, without having obtained authority from his superior or commanding officer, exchange with another for the performance of a duty with which he is charged.

ARTICLE 9.

When a commander of a fleet or single vessel meets with his superior.

When any officer in command of a fleet, squadron, or single ship shall meet with his superior or senior officer, also in command, he shall wait on him, show him his orders or instructions, and consider himself under his command while he is in his presence. But if the superior shall give him an order at all at variance with his intended course, and if he shall have sealed or secret orders, he shall at once make it known to such superior officer, who will not then interfere with his command, unless it be absolutely necessary for the public service; and in that case his original instructions are to be fulfilled as soon thereafter as practicable, and a full report made to the authority by which they were issued.

ARTICLE 10.

No deviation allowed in armament or equipment.

No deviation is to be made from the directions which the Navy Department may issue in relation to the construction, repair, arrangement, armament, and equipment of vessels, without its previous sanction, except in cases of absolute necessity occurring out of the United States; and in such cases the alteration, and the effects produced by it, and the expense attending it, are to be reported to the department as soon thereafter as practicable.

ARTICLE 11.

To avoid unnecessary expenditures.

Every officer is strictly enjoined to avoid all unnecessary expenditures of public moneys or stores, and, as far as may be in his power, to prevent the same in others, and to encourage the strictest economy that may be consistent with the interests of the service; and all persons in the navy will be answerable for any wasteful or improper expense which they may direct or authorize.

ARTICLE 12.

No public stores to be appropriated to private use.

No article of public stores is ever to be appropriated to the private use of any person not in distress, without the consent of the Navy Department, or by order of the senior officer present in command,

who shall give the earliest information to the department of the circumstances, and shall be careful to take the best security which the nature of the case will admit, so that the articles or their value may be refunded to the United States.

ARTICLE 13.

Mechanics on board ships on foreign stations allowed to repair merchant vessels.

Mechanics on board ships on foreign stations may be allowed to repair vessels belonging to the merchant service of the United States in cases where a refusal to do so would of necessity impose injurious delays, or greatly increase the expenses upon the merchant vessel. In such cases the mechanics may receive such compensation as the owner, consignee, or master of such merchant vessel shall choose to give, and their commander shall consider fair and proper.

ARTICLE 14.

No officer to receive compensation.

No officer in the navy, in like cases, shall either claim or receive any compensation whatever.

ARTICLE 15.

Gratuitous assistance to be given, when.

In all cases of distress gratuitous assistance is to be given, as heretofore, to the fullest extent practicable.

ARTICLE 16.

No person in the navy to be interested in procuring supplies.

All persons employed in the navy, or for naval purposes, are strictly prohibited from having any interest in purchases or contracts for supplies of any kind for the navy, or in any works appertaining to it; neither shall they receive any emolument or gratuity of any kind from any contractor or other person furnishing supplies, either directly or indirectly, nor act as agent or attorney for any contractor on account of purchases, contracts, or works for the navy or for naval purposes.

ARTICLE 17.

Tattoos to be beaten and colors to be hoisted, when.

When the sun sets at or after six o'clock, the tattoo shall be beat at nine o'clock in the evening, and the colors be hoisted at eight o'clock in the morning; and when it sets before six o'clock the tattoo shall be beat at eight o'clock in the evening, and the colors shall be hoisted at nine o'clock in the morning.

ARTICLE 18.

Lights and fires to be extinguished, when.

All fires and lights, except those necessary for the service of the vessel, or especially allowed by the commanding officer, shall be extinguished at tattoo, excepting the lights used by the commission officers, which shall be extinguished at ten p. m., and those used by warrant officers, which shall be extinguished at nine p. m., unless otherwise directed or allowed in special cases by the commanding officer of the vessel.

ARTICLE 19.

When criminal process is issued by civil authority.

In the execution of criminal process issued by civil authorities, officers are to furnish active assistance within their commands when legally required.

ARTICLE 20.

No person to be discharged without order, from whom.

No commander of a vessel of the navy whilst absent from the United States is ever to discharge from the naval service any petty officer, seaman, ordinary seaman, landsman, marine, fireman, coal heaver, or boy, except by order of the Secretary of the Navy, or the sentence of a court martial, or as provided for in Article 21; and whenever men are so discharged a report of all the circumstances attending the same must be made to the department, and information at once given to the nearest consul of the United States, that he may regulate his conduct towards the person discharged with a full knowledge of the facts.

ARTICLE 21.

Enlisted men whose terms of service have expired while on a foreign station may be discharged.

Petty officers, seamen; ordinary seamen, landsmen, marines, firemen, coal heavers, and boys, whose terms of service may expire on a foreign station, may be discharged by order of the senior officer present, at their request, if the interests of the public service will admit of it; but a person so discharged shall have no claim upon the consul of the United States for subsistence or transportation, and it shall be so stated in his discharge.

ARTICLE 22.

When persons are found unfit for service.

Whenever, in the opinion of the commander of a vessel of the navy, any person of her crew is unfit for service, he shall report the same

to the senior officer in command, whose duty it shall be to order a survey to be held upon such person by one or more medical officers, three if practicable, who shall examine the person and report upon his condition, and, if found "unfit for service," shall state as far as practicable the nature and origin of his disability; the report of the survey to be transmitted in duplicate to the Secretary of the Navy, or to the commander-in-chief of the fleet or squadron for decision.

ARTICLE 23.

Enlisted persons may be discharged, when.

Persons enlisted for the naval service, and serving on board vessels within the United States, may be discharged from service by order of the commander of the vessel or of the station, for either of the following reasons: expiration of service, or unfitness for service from causes ascertained by survey to have existed prior to enlistment.

ARTICLE 24.

No person to be transferred from one vessel to another in the United States, unless.

No commander of a vessel of the navy when in the United States, is ever to transfer any person belonging to his vessel to any other vessel or station, unless by authority of the Secretary of the Navy; but transfers from one vessel to another vessel of the same squadron, under the command of the same commanding officer, may by his order be made on foreign service, when the public interests render it necessary.

ARTICLE 25.

Accounts of persons transferred.

When any person shall be transferred from one vessel, navy yard, or station, to any other vessel, navy yard, or station, or to any prize, the commander of the vessel, navy yard, or station from which such person may be sent shall take care that he is accompanied by a correct statement of his account duly signed by the paymaster and himself.

ARTICLE 26.

Gambling prohibited.

Gambling is strictly prohibited on board the vessels of the navy and in navy yards.

ARTICLE 27.

Officers incurring debts upon a foreign station.

Should any officer of the navy so far forget what is due to his own honor, and to the honor of the service of which he is a member, as to incur debts upon a foreign station which the pay then due to him, or his other immediate resources will not enable him to discharge; or if

he should leave any foreign port without first paying every debt which he may have incurred, and it should come to the knowledge of the captain or commander of the vessel, it shall be the duty of such captain or commanding officer to make report of the facts and circumstances to the commander of the squadron if on a foreign station, or to the Secretary of the Navy if within the United States, that a court martial may be ordered, or such other course adopted as the circumstances of the case and the honor of the service may require.

ARTICLE 28.

Officers to advise the department of their address.

Officers of the navy not on duty will keep the department at all times advised of their address.

ARTICLE 29.

On being detached, to advise the department of address and change of residence.

Officers on being detached from duty, will immediately inform the department of their intended place of residence; and notice must be given of any contemplated change before such change shall have been made.

ARTICLE 30.

To acknowledge receipt of orders.

Officers will promptly acknowledge the receipt of orders, and inform the department immediately on their having reported in obedience to them.

ARTICLE 31.

The uniform to be prescribed by the President.

The uniform dress of the officers and all other persons of the navy shall be prescribed by the President of the United States, and shall be so arranged as to mark with distinctness the several grades and corps of the service.

ARTICLE 32.

Officers travelling, &c., to communicate useful information to the government.

Officers on foreign service, or travelling in foreign countries, shall communicate to the commander-in-chief of the squadron, or to the Secretary of the Navy, any information they may acquire that will be useful to the government of the United States.

ARTICLE 33.

When two or more vessels meet.

When two or more vessels, whether belonging to the same squadron or not, shall meet, the motions of the ship commanded by the senior officer shall be followed by the others.

ARTICLE 34.

Boats to carry national flag.

In foreign ports, and in communicating with foreign vessels, every boat will carry the national ensign, unless otherwise ordered by the commanding officer.

ARTICLE 35:

All important orders to officer of the deck at night to be given in writing.

All important orders to the officer of the deck, for the duties of the vessel during the night, whether given by the captain or by the executive officer, must be in writing.

ARTICLE 36.

Duty of an officer who becomes privy to an intention to fight a duel.

If an officer of the navy shall become privy to the intention of any other officer to fight a duel, or has reason to believe that a duel is likely to occur, he is hereby required to take every measure in his power to prevent such duel, having recourse, if necessary, to the captain or commanding officer.

ARTICLE 37.

Officers invited to act as seconds in duels, to exert themselves to effect reconciliation.

It shall be the duty of every officer of the navy who may be invited to act as second to any other officer of the navy intending to fight a duel, to exert himself to effect an adjustment between the parties, and if he shall fail to do so, and can in no other honorable manner prevent a meeting, he is to make the matter known to his commanding officer.

ARTICLE 38.

If any officer shall have given offence; or if an officer shall have received offence.

If any officer of the navy, who may have given offence to, or injured, or insulted another, shall frankly explain, or apologize, or offer redress for the same, or who, having received offence, injury, or insult from another shall cordially accept a frank explanation, apology, or redress for the same; or who, if such explanation, apology, or redress are refused to be made or accepted, shall submit the matter to be dealt with by his commanding officer, such officer shall be deemed to have acted honorably, and to merit approbation.

ARTICLE 39.

If an officer is promoted while in command.

If any officer shall, while in command of a vessel on foreign service, be promoted to a higher rank, he is not on that account to be removed from his command or position, until instructions shall be received from the Secretary of the Navy.

ARTICLE 40.

Treasure shipped for freight or safe keeping.

When money, plate, jewels, or other treasure, shall be placed on board any vessel of the navy for freight or safe-keeping, the commander of the vessel and the paymaster shall unite in signing bills of lading for the amount, and the money, plate, jewels, or other treasure, shall be in their joint charge. The usual per centage shall be demanded from the shippers of the said treasure, and the sum shall be divided as follows :

If the vessel is under the orders of a flag-officer, or other superior officer, and he shall have signified in writing to the commander his readiness to unite with him and the paymaster in their responsibility for the safe-keeping of the treasure, then one-fourth part of the premium shall be paid to said flag-officer, or other superior officer, one-fourth to the paymaster, and the remainder shall inure to the benefit of the commander ; but if the vessel shall not be under the command of a flag-officer, or other superior officer, or if he shall not have signified his willingness, as prescribed, to share in the responsibility, then one-third of the premium shall inure to the paymaster, and the remainder to the commander.

ARTICLE 41.

Combinations of officers or others prohibited.

Combinations of officers or others for the purpose of remonstrating against the orders of a superior, or complaining of the details of duty or of service, are strictly forbidden. If an individual believes that he has cause to complain or remonstrate, he may do so either in writing or personally ; but any combination of two or more in such complaint or remonstrance is to be considered insubordinate and factious, and may be punished at the discretion of a court martial. No person is to delay obedience to an order for the purpose of remonstrating or complaining.

ARTICLE 42.

Intoxicated persons, how they shall be dealt with.

In dealing with intoxicated persons, officers will be careful not to afford them opportunity to be guilty of mutinous or seditious conduct, and to that end will, when practicable, cause them to be arrested by persons of their own grade.

ARTICLE 43.

Demand for the delivery of a deserter.

If a deserter from any vessel of the United States shall take refuge on board a foreign vessel of war, the senior officer present shall make a formal demand for his delivery ; but if the demand shall be refused, he shall not resort to force whatever may be his strength, but shall report the circumstances to his government.

ARTICLE 44.

Parties of twenty or upwards to be commanded by a lieutenant or master.

Every party detailed for duty out of the ship, on shore, or elsewhere, shall, when the party consists of twenty men or more, be commanded by an officer of the rank of lieutenant or master.

ARTICLE 45.

Officers' duties are not limited to those prescribed in these regulations, but are promptly to obey all orders.

Notwithstanding there are particular duties prescribed for different officers by these regulations, yet it is not intended to limit their duties to those specified, but they are promptly to obey all orders which they may receive from their commanding officers, who are required to take care that every officer performs his duties and obeys all legal orders in a proper manner.

ARTICLE 46.

Offenders to be reported.

By Article 31, Section 1, Chapter LVI, it is made the duty of " every person in the navy " to " use his utmost exertions to detect, apprehend, and bring to punishment all offenders ; " officers are enjoined to bear in mind this requirement of the law. They are not to exercise any discretion in the matter, but any officer who may witness or be cognizant of any crime or misdemeanor on the part of any person in the navy is to report the same to the proper authority, not secretly, but informing the person reported of his having done so in obedience to the law.

ARTICLE 47.

Sheath-knives forbidden.

The use of sheath-knives on board ship is strictly forbidden. Jack-knives shall be worn with lanyards and in fobs.

CHAPTER IV.

APPOINTMENTS AND PROMOTIONS.

ARTICLE 1.

Appointment of a person not holding a commission or warrant to perform the duty of a commission or warrant officer.—Officer on leave or furlough.

No officer whatever shall, when within the jurisdiction of the United States, unless authorized by the Secretary of the Navy, appoint any person not holding a commission or warrant in the navy to perform the duties of a commissioned or warrant officer, nor give to any commissioned or warrant officer an acting appointment for any higher grade than that for which he may be commissioned or warranted. Nor shall he at any time order any officer into service or upon duty who is on leave of absence or furlough, or make any change in the distribution or arrangement of officers as established by the Secretary of the Navy, except in cases of emergency; and in such cases he shall report his acts to the department without delay.

ARTICLE 2.

When vessels may proceed to sea with smaller numbers than those designated in the table of complements.

If the Secretary of the Navy shall deem it expedient to direct any vessel to proceed on service with a smaller number of officers than is designated in the table of complements for vessels, no acting appointment is to be made or order given to supply any such deficiency without his previous authority or sanction; nor shall any commander of a vessel which may be separated from the commander of the fleet or squadron to which such vessel belongs, make any acting appointment, or give any *order* to fill vacancies which existed and could have been reported to the commander of the fleet or squadron before such separation occurred.

ARTICLE 3.

Acting appointments, when and how to be made.

When a vacancy shall occur in the complements of commission or warrant officers, as above explained and limited, in any vessel without the jurisdiction of the United States, and which cannot be supplied from the supernumerary officers of the same rank in other vessels of the fleet or squadron, the commander-in-chief of the fleet or squadron may, if the vacancies shall have been occasioned by death, or by order or authority from the Secretary of the Navy, give a written *acting appointment* to some other commission or warrant officer who may be subject to his orders to fill such vacancy, until such appointment be revoked by the commander-in-chief of the fleet or squadron for the time being, or by order of the Secretary of the Navy.

ARTICLE 4.

Acting appointments to be reported to the department, with reasons for the same.

All officers who may have occasion to make acting appointments, or to give orders to fill vacancies, shall conform to these regulations as respects qualifications, whenever it shall be practicable; they shall give the earliest information to the department of all such orders or appointments which may be made by them, with the reasons for the same, and forward a complete list of all such orders or appointments to the Secretary of the Navy immediately on their arrival in the United States.

ARTICLE 5.

An officer who has received appointment to act in a higher grade than his commission, not to be reduced.

When an officer on foreign service shall have received an appointment to act in a higher grade than that of his commission or warrant, and shall have served in such grade, he shall not be reduced to his previous grade except by sentence of a court martial, but shall be retained as a supernumerary or sent to the United States, and his appointment shall cease from the date of his order to return to the United States.

ARTICLE 6.

Vacancies by sickness, absence, &c., how to be filled.

When a vacancy shall have been occasioned by leave granted to any officer to return to the United States from the commander of a squadron or vessel, in consequence of ill health or for other cause, or any rank or class of officers present and fit for duty shall be temporarily reduced below the complement and the number which may be deemed necessary for the proper performance of the duties of the vessel, in consequence of the continued indisposition of officers, or their absence in prizes or upon other public service, the commander-in-chief of the fleet or squadron, or the senior officer present, may direct other officers of the vessel or squadron, by a *written order*, to perform the duties of such absent or sick officers until their return or restoration to health, or until the further orders of the commander of the fleet or squadron, or of the Secretary of the Navy be received.

ARTICLE 7.

Boatswains, gunners, carpenters, and sailmakers, may be selected; when and how.

Vacancies in the situations of boatswains, gunners, carpenters, and sailmakers may be filled by selection from the petty officers, or other persons not warranted, by order of the officers authorized by these regulations to give such order.

ARTICLE 8.

Officers receiving acting appointments to wear uniform and annex official signature.

When an officer shall receive an *acting appointment* from the Secretary of the Navy, or from the commander-in-chief of the fleet, or other commanding officer, in conformity with these regulations, such officer may assume the uniform and annex his acting rank to his official signature; but when he shall perform the duties of a higher station by *order*, he is not to change his uniform or official designation. But in both cases he will be entitled to the compensation of the grade of the officer whose duties he may be directed to perform.

ARTICLE 9.

Acting appointments to specify vessels.

All *acting appointments* and *orders*, directing an officer to perform higher duties than belong to his proper grade, must specify the vessel in which the officer is to act, and in case of removal to another vessel, a new appointment or order must be given, except when the appointment or order shall be issued by the Secretary of the Navy.

ARTICLE 10.

Commanders-in-chief without the United States may appoint boards to examine candidates for higher appointments.

Commanders-in-chief, without the jurisdiction of the United States, may direct three captains, commanders, or other proper officers as the case may require, to examine candidates for higher appointments, when it shall be necessary for selecting persons who have not been examined to fill vacancies; and the certificates of qualification shall be immediately forwarded to the Secretary of the Navy.

ARTICLE 11.

Commanders of vessels in certain cases to fill vacancies.

If an officer shall succeed to the command of a vessel without the jurisdiction of the United States in consequence of the death or captivity of the commander, he may give the necessary orders to supply vacancies to act until he brings the vessel into port, meets with a superior officer on duty, or receives the instructions of his commander-in-chief or of the Secretary of the Navy.

ARTICLE 12.

Commanders to rate petty officers from crew, except.

When a crew shall be transferred from a receiving vessel to a vessel of the navy intended for sea service, the officer who may be ordered

to her command shall select and rate from such crew the different petty officers allowed by the complement table to vessels of the class to which she belongs, excepting the ship's steward and surgeon's steward. The former will be rated on the nomination of the paymaster, and the latter on the nomination of the surgeon or senior medical officer attached to the vessel, if approved by the commanding officer.

ARTICLE 13.

Petty officer so rated to be transferred in no higher grade than that in which he shipped.

No petty officer so rated shall be transferred as such to any other station or hospital, and in no higher grade than that in which he was received on board such vessel.

ARTICLE 14.

Commanders may change the rates of petty officers.

A captain or other commanding officer of a vessel may change the rates of petty officers and others of inferior ratings allowed to the vessel under his command, having due regard to the law and to their conduct and qualifications, reporting quarterly to the commanding officer of the squadron to which he belongs all the alterations which he may have made in such ratings since his last report.

ARTICLE 15.

Officers entitled to a secretary or clerk may appoint and discharge the same.

Every officer entitled to a secretary may appoint and discharge the same; and every commanding officer may appoint and discharge his own clerk.

ARTICLE 16.

Paymasters may appoint and discharge their clerks with captain's assent.

Paymasters entitled to clerks may appoint them or request their discharge, and the captain will assent to such appointment and discharge, unless he has good reason for refusing it, which he will state in writing.

ARTICLE 17.

Ages prescribed for secretaries and clerks, and rules for their appointment.

No person shall be appointed secretary who is under twenty-one years of age, nor a clerk under eighteen years of age; and no secretary or clerk shall be entered upon the muster-book of any vessel, or be entitled to any pay; until he shall have accepted his appointment by letter in duplicate, and is ready for duty, and in such acceptance shall expressly bind himself to be subject to the laws and instructions for the government of the navy, so long as he shall hold such appoint-

ment; one of which letters of acceptance shall, in all cases, be immediately transmitted to the department by the officer making the appointment, and the other be preserved by him.

ARTICLE 18.

Boatewains, gunners, carpenters, and sailmakers may receive warrants, when,

No person is to receive an appointment as boatswain, gunner, carpenter, or sailmaker, until he shall have passed such examination as may be prescribed by the Secretary of the Navy to ascertain his qualifications; nor will a warrant be given to him until he shall have performed at least one year's sea service in the navy, and shall produce testimonials of good conduct from the commanding officer under whom he shall have served.

ARTICLE 19.

Age of second masters and masters' mates, and rules for their appointment.

Should second masters or masters' mates be hereafter appointed from civil life, no one will receive such appointment except from the Secretary of the Navy, nor unless he shall be over twenty years of age, and have passed such examination, by a board of navy officers, in seamanship, navigation and mathematics, as the Secretary of the Navy may direct, and shall produce satisfactory testimonials of general good character and conduct.

ARTICLE 20.

Second masters or masters' mates not to be warranted until they have seen one year's sea service.

Second masters or masters' mates will not receive warrants until they shall have acted as such for at least one year in vessels of the navy at sea, and shall produce satisfactory testimonials of good character and conduct from their commanders.

ARTICLE 21.

Admission, continuance and examination of midshipmen.

The admission, continuance and examination of midshipmen for promotion shall be according to such rules as are or may be established by the Navy Department, in connexion with the Naval Academy.

ARTICLE 22.

Lieutenants nominated for promotion, when,

No lieutenant will be nominated for promotion to a command until he shall have performed at least three years' sea service as lieutenant, in vessels of the navy exclusive of coast survey service.

ARTICLE 23.

Commanders nominated for promotion, when, provided that.

No commander will be nominated for promotion to a captain until he shall have performed at least two years' sea service as commander; *Provided*, that this restriction shall not prevent the promotion of those commanders who have already served one year at sea as such, and all probationary sea service must be performed in vessels of the navy exclusive of the Coast Survey.

ARTICLE 24.

Promotion of warranted masters' mates.

Warranted masters' mates will be eligible for promotion to second masters and masters.

ARTICLE 25.

A passed midshipman will be eligible for promotion to master, &c.

A passed midshipman will be eligible for promotion to master, and from that to higher grades.

ARTICLE 26.

Masters not promoted from passed midshipmen.

Masters who have not been promoted from passed midshipmen are not to be considered eligible to further promotion, except under extraordinary circumstances.

ARTICLE 27.

Chaplains. Qualifications required for their appointment.

No person will be appointed a chaplain in the navy who shall not be a regularly ordained or licensed clergyman of unimpeached moral character, nor when he is more than thirty years of age.

ARTICLE 28.

Paymasters. Qualifications required for their appointment.

Paymasters will not be appointed except between twenty-one and thirty years of age, nor until they shall have been examined by three paymasters and found fully competent to keep a set of ship's books, and produce satisfactory testimonials of good moral character.

ARTICLE 29.

Commanding officer of a squadron may appoint a fleet surgeon when a vacancy occurs.

The commanding officer of a squadron, in case of a vacancy occurring on a foreign station, may *order* the senior surgeon of the squad-

ron to perform the duties of surgeon of the fleet, unless from disability or other good cause it be found necessary to select one of the same or of lower grade.

ARTICLE 30.

Midshipmen not to serve more than twelve months on board schooners when avoidable.

Midshipmen are not to be required to serve for a longer period than twelve months on board of a schooner when it can be avoided without injury to the public service, before they shall have passed their examination for promotion.

ARTICLE 31.

No person to be appointed in the engineer corps without testimonials.

No person will be appointed in the engineer corps of the navy unless he shall produce satisfactory testimonials of good moral character and correct habits.

ARTICLE 32.

Candidates for promotion in the engineer corps must produce testimonials.

Candidates for promotion in said corps must produce, in addition, similar testimonials from the commanding officers and the senior engineer or engineers with whom they may have served; and all candidates, whether for admission or promotion, must pass such examinations as may be prescribed by the Secretary of the Navy.

ARTICLE 33.

Qualifications required for the appointment and promotion of engineers.

Third assistants must, in addition to the foregoing conditions, have served at least two years in the management of steam engines of the navy in actual service; second assistants must have so served at least three years; and first assistants must have so served at least two years, unless in cases of necessity; and in such extreme cases the same qualifications and restrictions as respects examinations, conduct, character, health, and length of service with steam engines in vessels of some kind, will be required for the several grades. No person shall in such extreme cases be so appointed under the age of twenty-one years; nor a second assistant who shall be over twenty-five years of age; nor first assistant over thirty years of age; nor any chief engineer over thirty-five years of age.

ARTICLE 34.

Engineers, which shall be preferred when qualifications are equal.

When other qualifications are equal, candidates who possess superior skill and practical knowledge of the fabrication and repair of the different parts of steam engines and their dependencies, will have preference over others.

ARTICLE 35.

Penalty for producing a false certificate.

If any person shall produce a false certificate of age, time of service, or character, before a board of examination, such person shall, whenever it may be discovered, be brought before a court martial, and on conviction thereof shall be dismissed from the service.

ARTICLE 36.

Definition of sea service.

The time which an officer may be attached to or doing duty on board a sea-going vessel of the navy in commission, or when actually at sea and employed on the Coast Survey, will be considered as sea service within the meaning of these regulations, except in probationary service for promotion, which must be performed in a vessel of the navy proper.

ARTICLE 37.

Boards of officers for examination to give certificates.

Boards of officers who may be appointed by the Secretary of the Navy to examine persons for appointment or promotion, shall grant certificates to such as in their opinion prove themselves qualified, and shall number such certificates according to the relative qualifications of the different individuals who present themselves at the same time, or who belong to the same class, giving number one to the best qualified, and the other numbers in regular order.

ARTICLE 38.

Officers who may be prevented from being present at a first examination, how to proceed.

Any officer, other than a midshipman, who may be prevented from attending an examination to which he may be entitled by law or these regulations, and shall present himself at the first opportunity in his power and pass a satisfactory examination, shall have a position assigned to him in the class to which he belonged, as if he had been examined in due course.

ARTICLE 39.

In case of an officer falling to pass a first examination, his class and position if he passes a second examination.

In case an officer shall fail to pass an examination, and an opportunity shall, for any special reason, be granted him to present himself a second time, the board by which he may be examined shall designate

the class and position in which they recommend him to be placed, which shall be subject to the final decision of the Secretary of the Navy.

ARTICLE 40.

Officers found unqualified on second examination to be dropped.

Any officer who shall not be found qualified for promotion upon a second examination shall be dropped from the navy list.

ARTICLE 41.

Officers appointed to shore stations to continue three years, unless.

Officers appointed to navy yards and other duties on shore, or to receiving ships, will, as a general rule, be continued on those duties for three years, but subject to exceptions which the wants of other branches of the service may require.

ARTICLE 42.

When a captain of the fleet may be allowed.

When a captain shall be appointed to the command-in-chief of a fleet or squadron consisting of not less than ten ships-of-war above the class of sloops, or a force of more than four thousand men, he may be allowed a *captain* to assist him, who will be styled "Captain of the fleet;" and with a force of more than one thousand, and less than four thousand men, a commander may be allowed as "principal aid" to the commander-in-chief.

ARTICLE 43.

A lieutenant allowed to a commander-in-chief as aid.

Every captain who shall be appointed to the command of a fleet or squadron, may be allowed a lieutenant, in addition to the complement of the vessel, as an "aid" to assist him in performing his duties.

ARTICLE 44.

Limits of a command to be specified.

Whenever an officer shall be appointed to the command-in-chief of a fleet or squadron, the geographical limits of his command will be particularly specified in his instructions.

ARTICLE 45.

No person to receive an original appointment unless physically qualified.

No person shall receive an original commission, warrant or appointment in the naval service of the United States, or in the marine corps, unless he be found physically qualified, on examination by one or more naval surgeons.

CHAPTER V.

MILITARY HONORS AND CEREMONIES.

ARTICLE 1.

Military honors to the President.

When the President of the United States shall visit a vessel of the navy, he shall be received upon the deck by all the officers, in full uniform; the yards shall be manned; the full guard shall be paraded, and shall present arms; the music shall give three ruffles of the drum and play a march, and a salute of twenty-one guns shall be fired. And the same honors shall be paid when he leaves the ship.

ARTICLE 2.

National ensign to be hoisted at the main during the presence of the President on board.

The presence of the President of the United States on board of any vessel of the navy will be indicated by the display of the American ensign at the main; and during the time of such display, the flag or pendant indicating the command of any other officer will be struck. When the President is known to be on board of any vessel or boat which passes by or near any vessel of the navy authorized to fire salutes, he shall be saluted with twenty-one guns, and the yards shall be manned.

ARTICLE 3.

Military honors to the Vice President.

When the Vice President of the United States shall visit a vessel of the navy, the same honors shall be paid as are directed in article one, except that the salute shall consist of nineteen guns.

ARTICLE 4.

Same to an ex-President.

When an ex-President shall visit a vessel-of-war of the United States, he shall be received with the same honors as those prescribed for the President, except the display of the American ensign at the main, and manning the yards.

ARTICLE 5.

Same to an ex-Vice President.

An ex-Vice President the same as the Vice President, except manning the yards.

ARTICLE 6.

Same to a foreign sovereign.

A foreign sovereign or the chief magistrate of any foreign State, on visiting a vessel of the United States, shall be received with the honors and ceremonies prescribed for the President of the United States, the band playing the national march of the person saluted, and the flag of the nation being displayed at the main.

ARTICLE 7.

Honors to Cabinet Officers, Judges of the Supreme Court, and governors of States.

When the Secretary of the Navy, or other member of the cabinet, or Justice of the Supreme Court, or the governor of any one of the United States, shall visit a vessel of the navy, the same honors shall be paid as are prescribed in Article 1, except that but one salute is to be given, to consist of seventeen guns, and to be fired on leaving the ship.

ARTICLE 8.

Honors to flag-officers.

A flag-officer, being the commander-in-chief of a squadron, shall be received on deck by all the officers in uniform; an officer's guard shall be paraded and present arms, and the drum shall give two ruffles. If commanding a squadron or division, but not in chief, he shall be received in the same manner, except that the drum shall give one ruffle.

ARTICLE 9.

Military honors to captains.

Captains on duty and in uniform with epaulets, shall, when they visit a vessel of the navy commanded by an officer of the same or of inferior rank, be received on deck by the commander of the vessel visited, by the officer second in command, and by the officers of the watch. A sergeant's guard will be paraded and present arms.

(Extract from Journal, January 28, 1858.)

A motion was made by Surgeon Maxwell to strike out the words "second in command" in the 4th line of Article 9, chapter V, and insert the words "next entitled to command," upon which a vote was taken, as follows:

Ayes: Colonel Harris, Purser De Bree, Surgeon Maxwell—3.

Noes: Commander Shubrick, Commander Lardner, Lieutenant Maury—3.

ARTICLE 10.

Military honors to commanders.

Commanders on duty as such, and in uniform with epaulets, shall, when they visit a vessel of the navy commanded by an officer of the

same or inferior rank, be received on deck by the commander of the vessel visited, by the officer second in command, and by the officers of the watch. A corporal's guard will be paraded and present arms.

ARTICLE 11.

Same to lieutenants commanding.

Lieutenants in command of vessels rated six guns or over shall be received, when on duty and in uniform with epaulets, as commanders, with the exception of the guard.

ARTICLE 12.

Officers may dispense with guards.

Any officer entitled to a guard may dispense with it at his pleasure.

ARTICLE 13.

Commission officers below rank of commander.

All commission officers below the rank of commander shall be received by the officer of the watch, excepting in the case provided for in article 11.

ARTICLE 14.

Warrant officers, how to be received.

Warrant officers shall be received by a warrant officer of the watch.

ARTICLE 15.

Salutes for flag-officers.

The salute for a flag-officer, when commander-in-chief of a squadron, shall be thirteen guns, and when commanding a squadron or division but not commanding in chief, shall be eleven guns.

ARTICLE 16.

No officer of the navy other than a flag-officer to be saluted, except.

No officer of the navy other than a flag-officer is to be saluted; but salutes to a superior by captains commanding single vessels shall be returned with nine guns, salutes by a commander, with seven guns, and when given by a lieutenant commanding, with five guns.

ARTICLE 17.

Salute when an officer assumes command of a fleet.

When an officer shall be appointed to the command of any fleet, division, or squadron, he shall, on assuming the command and hoist-

ing his flag, receive the salute to which he may be entitled from all the vessels present which belong to his fleet, squadron, or division, except when in presence of a senior officer, in which case the officer, on hoisting his flag, shall salute the senior officer, who alone shall return the salute.

ARTICLE 18.

Salute when a vessel first joins or meets a squadron.

A vessel when first joining or meeting a squadron, or which may rejoin after a separation of not less than twelve months, shall salute the commander-in-chief, if he is present.

ARTICLE 19.

No salute to be fired in the presence of a superior, except.

No salute shall ever be fired in the presence of a senior without his permission previously obtained, except a salute given to such senior officer.

ARTICLE 20.

Salutes when squadrons, &c., meet.

When fleets, squadrons, or divisions meet, the commanding officers only shall salute.

ARTICLE 21.

When more than one vessel salutes an officer.

In all cases where more than one vessel shall salute an officer the officer saluted shall wait until they have all ceased firing, and then fire the number of guns to which he is entitled as a salute.

ARTICLE 22.

Officers of the army or marine corps, how to be received.

If officers of the army or marine corps shall visit any vessel of the navy in uniform, those having the rank by commission, other than brevet of major general, shall be received as commanders-in-chief of squadrons; brigadier generals as commanders of divisions or of squadrons when not commanding in chief; colonels and lieutenant colonels as captains; majors as commanders; captains as lieutenants; first lieutenants as masters, and second lieutenants as passed midshipmen: *Provided*, That if a grade is created between those of commander and lieutenant, then lieutenant colonels shall be received as commanders, and majors as the officers of the grade created.

ARTICLE 23.

When colors are to be hoisted on 4th of July.

On the anniversary of the declaration of independence of the United States the colors shall be hoisted at sunrise; at the same time all vessels in commission shall, when in port, be dressed with flags, and so continue until the colors are hauled down at sunset, if the state of the weather and other circumstances will permit.

ARTICLE 24.

No national flag except the American to be used in dressing ship.

No national flag except that of the United States shall be used in dressing ship.

ARTICLE 25.

Salutes on the 22d of February and 4th of July.

On the anniversary of the declaration of independence of the United States, and on the twenty-second day of February, the anniversary of the birth of Washington, a salute of twenty-one guns shall be fired at meridian from vessels in commission and navy yards.

ARTICLE 26.

Commanders of vessels in foreign ports to give notice to authorities of any anniversary it is intended to celebrate.

The commanding officers of vessels of the United States, when in foreign ports, shall give timely information to the public authorities on shore, and to the commanding officers of foreign vessels-of-war, of any anniversary or other event which it is intended to celebrate; and should the public authorities or foreign vessels fire salutes in honor of the occasion, the salutes are not to be returned, unless the failure to do so would give offence, but a message of acknowledgment and thanks shall be promptly sent to the public authorities, and all others who may have publicly displayed any mark of honor or respect on the occasion.

ARTICLE 27.

Salutes to diplomatic corps.

The salutes for persons of diplomatic rank shall be as follows:

Ambassadors, Papal nuncios, or legates.....	17 guns.
Envoys extraordinary and ministers plenipotentiary.....	15 guns.
Ministers resident	13 guns.
Chargé d'affaires and commissioners	11 guns.
Consuls general and vice-consuls general.....	9 guns.

Consuls.....	7 guns.
Vice consuls and other commercial agents holding regular appointments	5 guns.

When foreign diplomatic persons visit vessels of the United States, the ensign of the nation to which they belong will be hoisted at the fore during the firing of the salute, but this must not be done in case of visits of diplomatic persons of the United States; and the salutes prescribed in this article shall not be given more than once to the same official by the same vessel at the same time at shorter intervals than twelve months, except in cases of foreign officials, and then only on occasions of particular ceremony.

ARTICLE 28.

Forts, &c., of the United States not to be saluted.

Forts, cities, or castles of the United States are not to be saluted by any United States vessel-of-war.

ARTICLE 29.

Salutes from foreign vessels to be returned, how.

When any foreign vessel-of-war of a nation in amity with the United States shall arrive in a port of the United States where there is a vessel of the navy or a navy yard, the commanding officer shall send a proper officer on board to offer the usual civilities and any assistance which the foreign vessel may require; but he is not to visit him first, nor salute the vessel, but shall return a salute, if one shall be given, gun for gun.

ARTICLE 30.

Commanders, on visiting foreign ports, to make first visit.

The commanding officer of any fleet, squadron, or vessel will, after anchoring in any foreign port, make the first visit to the commanding naval officer of the station to which the port belongs, and to the authorities of the place: *Provided*, The usual offers of civilities shall have been first made to him by the commanding officer of the naval force.

ARTICLE 31.

Vessels of the United States may salute a foreign place, when.

Vessels of the United States may, on their arrival in a foreign port, salute the place, upon receiving an assurance that the salute shall be returned gun for gun. The sails shall be furled when a port or place is saluted.

ARTICLE 32.

Vessels of the United States may salute a foreign vessel.

Vessels of the United States may salute vessels of war of other nations in foreign ports when commanded by officers wearing broad pendants or of superior rank, on receiving an assurance of a return, gun for gun. If at anchor, the topsails shall be loosed when a vessel is saluted.

ARTICLE 33.

United States vessels may hoist flags of other nations and fire salutes, when.

Vessels of the United States may fire salutes, and wear the ensign of the country saluted at one of the mast-heads, when in foreign ports, upon the celebration of any national anniversary of the country to which the port belongs, or when the national anniversary of another country in amity with the United States shall be celebrated by the vessels of war of such country which may be lying in the same port.

ARTICLE 34.

Honors to foreign naval or military officers visiting United States vessels.

When naval or military officers of a foreign nation shall visit a vessel of the United States, they may be received with the same honors as are herein prescribed as salutes or returns to salutes for officers of the United States of the same rank; if of higher rank, according to the rule of their own service.

ARTICLE 35.

A United States vessel in a foreign port shall conform to the established usages of the place.

On the arrival of any United States vessel in any foreign port, the commanding officer shall ascertain, through the American consul or otherwise, what salutes and ceremonies have been usually given and observed by other vessels-of-war visiting the port, also the civil and military regulations of the port, and shall govern himself accordingly.

ARTICLE 36.

Foreigners of distinction may be saluted.

Foreigners of distinction, not being naval officers in command, may, when they shall visit vessels of the United States, be saluted with a number of guns corresponding with their rank, upon leaving the vessels.

ARTICLE 37.

Vessels of the United States mounting less than ten guns not to fire a salute with a greater number, unless.

No vessel of the United States mounting less than ten guns shall fire, as a salute or a return to a salute, a greater number of guns than

she mounts, excepting when it may be necessary to salute or return a salute to a foreign port or vessel and there is no opportunity to make this rule known.

ARTICLE 38.

Vessels prohibited from firing salutes, unless.

No vessel of the navy mounting five guns or less, no storeship or transport, shall fire a salute on any occasion, nor return a salute, unless the declining to do so would give offence, in which case the return salute is to be limited to the guns mounted; and no surveying vessel is ever to fire or return a salute.

ARTICLE 39.

United States vessels not to lower their sails or ensigns, unless.

Vessels of war of the United States are never to lower their sails or ensigns as a salute to any foreign ship or ships, unless such foreign ships shall, at the same time, lower their sails or ensigns to the vessels of the United States.

ARTICLE 40.

Funeral honors to a President or ex-President of the United States.

The funeral honors to be paid upon the death of a President, or an ex-President of the United States, will be those prescribed by special orders from the Secretary of the Navy.

ARTICLE 41.

Funeral honors to the commander-in-chief of a fleet, squadron, or division.

When the commander of a fleet, squadron, division, or vessel, shall die during his command, the ensign and pendants of all the vessels present which have been under their respective commands shall, when at sea, be hoisted half-mast during the performance of the funeral service; and, when in port, from the time of his decease until sunset of the day in which the funeral service is performed. At sea when the body shall be committed to the deep, and in port when it leaves the vessel to proceed on shore, the vessel in which he shall have been embarked shall fire as many guns, at intervals of a minute, as shall be equal to the number designated as the salute or return salute for officers of his rank and command.

ARTICLE 42.

Funeral honors to other commission officers, masters, and secretaries to flag-officers.

When a commission officer, other than those enumerated in Article 41, or a master, or a secretary to a commander-in-chief, shall die in

actual service, the ensign of the vessel to which he belonged shall be worn at half-mast during the performance of the funeral service when at sea ; and in port till sunset of the day of the funeral. When the body is committed to the deep, or to the grave on shore, the full marine guard shall fire three volleys.

ARTICLE 43.

Funeral honors to warrant officers.

For warrant officers the ensign shall be worn at half-mast during the performance of the funeral service, and a sergeant's guard of fourteen men shall fire three volleys.

ARTICLE 44.

Funeral honors to petty officers and persons of inferior ratings.

For petty officers, seamen, and persons of inferior rating, the ensign shall be worn at half-mast during the performance of the funeral service ; and a corporal's guard of ten men for petty officers, and of eight for seamen and persons of inferior rating, shall fire three volleys.

ARTICLE 45.

Funeral honors to members of the marine corps.

The funeral honors to be rendered to officers, non-commissioned officers, and privates of the marine corps, shall be regulated by their assimilated rank.

ARTICLE 46.

Funeral honors to others of the navy who may die on board.

Whenever any other person belonging to the navy shall die on board a vessel of the navy, the ensign shall be worn at half-mast during the performance of the funeral service.

ARTICLE 47.

Funeral honors not to be paid to officers not on duty, except to senior captain, except.

When any officer in the navy, not on duty, other than the senior captain shall die, public funeral honors will not be paid, except by order of the Secretary of the Navy, nor in any case at any other place than the place of his decease, unless otherwise specially directed.

ARTICLE 48.

Military honors to be paid between sunrise and sunset.

No military honors shall be paid except between the rising and setting of the sun.

ARTICLE 49.

Commanders of squadrons will call on ministers and chargé d'affaires; captains on them and consuls general, &c.

Commanding officers of squadrons and of single vessels visiting a port where there is a representative of the United States of rank not less than chargé d'affaires, will call upon him in person. Captains of single vessels will, under similar circumstances, call upon such and consuls general; and commanders and lieutenants commanding vessels, upon the foregoing and on consuls.

ARTICLE 50.

Ceremonies to be observed by officers in boats.

Boats not heavily laden will, on meeting or passing other boats, observe the following marks of respect:

1st. To a boat bearing a flag or broad pendant, boats carrying narrow pendants will lie on their oars; all other boats will toss their oars.

2d. To a boat bearing the narrow pendant of a captain of a frigate, all boats will lie on their oars.

3d. Officers in boats meeting or passing their own immediate commander with a pendant on his boat, will salute him by lying on their oars.

4th. All officers in boats will touch their hats to each other when passing, and boats saluted will return the salute by tossing the bow oars.

5th. The same marks of respect are to be paid to boats carrying foreign officers as to our own.

ARTICLE 51.

Ceremonies to be observed at the gangway.

The ceremonies to be observed at the gangway on officers leaving or coming on board shall be regulated by the assignment of quarters, as cabin officers, wardroom officers and steerage or forward officers, as follows:

1st. A commander-in-chief of a squadron shall be attended by the boatswain and eight side boys.

2d. A commander of a squadron not commanding in chief, by the boatswain and six side boys.

3d. Other cabin officers by the boatswain and four side boys.

4th. Wardroom officers by a boatswain's mate and two side boys.

5th. Steerage and forward officers by two side boys.

6th. A commander when doing duty as executive officer, if messing in the wardroom, shall be considered as a wardroom officer.

7th. The sentinel at the gangway will present arms to cabin officers, and carry arms to wardroom officers.

8th. Officers who may be invited to mess in the cabin, will not on that account receive any higher honors or ceremonies than those accorded to officers of their proper apartments.

9th. In going into or leaving boats the executive officer will always have the precedence, and other officers will go according to precedence.*

ARTICLE 52.

Ceremonies at the gangway may be dispensed with.

These ceremonies may be dispensed with for others than foreign officers after tattoo, and only one light be shown by the quartermaster of the watch.

ARTICLE 53.

When commanders of squadrons or single vessels are absent at night.

When the commanding officer of a squadron or of a single vessel is absent from his ship, and is expected to return to her during the night, a light shall be hoisted at the peak, and for the commander of a squadron the top-light shall also be shown.

ARTICLE 54.

Starboard gangway for the use of commission and warrant officers.

As a general rule, in port, the starboard gangway is to be reserved for the use of commission and warrant officers and visitors. When boats are about to leave or to approach it, and more than one are near at the same time, those with junior or inferior officers are to give precedence to those with senior or superior officers.

ARTICLE 55.

Ladders used by commission and warrant officers.

The after hatchway ladder of ships of the line and frigates is to be used by cabin and wardroom officers; the hatchway ladder next forward of it by other officers.

ARTICLE 56.

All officers to salute when they meet.

All inferiors, in passing a superior or when they address him on duty, shall touch their hats, and superiors are strictly enjoined to

* A motion was made to strike out section 9. *Vots.*—Ayes 3—Colonel Harris, Purser De Bree, Surgeon Maxwell. Noes 3—Commander Shubrick, Commander Lardner, Lieutenant Maury. The vote being a tie, the section was not stricken out. *Vote on the article.*—Ayes 3—Commander Shubrick, Commander Lardner, Lieutenant Maury. Noes 3—Colonel Harris, Purser De Bree, Surgeon Maxwell. The vote being a tie, the article was not accepted; but no other provision on this subject being offered, the article is submitted to the Secretary of the Navy for consideration.

return such salutes. The fact that an officer is not on duty or in uniform shall not be regarded as an excuse for any act of disrespect or omission of naval courtesy on the part of an officer to a superior whose rank is known; and no personal feelings are to be allowed to interfere with reciprocal courtesy, or pleaded as an excuse for its neglect.

ARTICLE 57.

Officers coming on quarter-deck to salute.

Every officer on coming on to the quarter-deck, either from a boat or from below, is to salute by touching his hat, which salute shall be returned by the officer of the deck.

ARTICLE 58.

Officers to show respect to foreign officers.

Officers are never to omit any mark of respect which may be due to the rank of foreign officers.

ARTICLE 59.

No officer under rank of captain to hoist a broad pendant.

No officer under the rank of captain shall be entitled to wear a broad pendant; nor shall any captain hoist one without the direction of the Secretary of the Navy.

ARTICLE 60.

Captains entitled to broad pendants.

When a captain shall be authorized to hoist a broad pendant he shall be entitled to wear it until ordered to strike it by the Secretary of the Navy, except when he shall be in the presence of a senior captain wearing a narrow pendant.

ARTICLE 61.

When two or more captains meet.

When two or more captains entitled to wear broad pendants shall meet the senior in rank shall wear a blue pendant; the second in rank shall wear a red pendant, and those junior shall wear white pendants.

ARTICLE 62.

A captain may shift his broad pendant from one vessel to another of his fleet, &c.

A captain entitled to wear a broad pendant may, if circumstances require it, shift his pendant to any of the vessels of his fleet, squadron,

or division, assigning by the first opportunity to the Secretary of the Navy, or the commander-in-chief, his reasons for doing so.

ARTICLE 63.

Pendant of the commander of a squadron not to be worn by any vessel, unless.

The pendant of the commander of a squadron shall not be worn by any vessel at sea, unless the officer entitled to it shall be embarked in her, nor upon any vessel in a port in the United States when the officer entitled to it is absent from the port; and such officer is to direct it to be struck when he leaves such port with an intention to remain more than twenty-four hours; and during such absence the senior officer present shall issue necessary orders according to such directions as may have been given to him by the commander of the squadron.

ARTICLE 64.

During the absence of commander-in-chief in a foreign port, his pendant to be worn by vessel commanded by officer next in rank, except.

When the commander of a squadron shall, in a foreign port, leave his command with intention to be absent as aforesaid, his pendant shall not be struck, but shall be worn by the ship commanded by the officer next in rank to him, if such officer is senior to the captain of the fleet or to his principal aid; but if either of those officers should be the senior present, the pendant will not be shifted, and such officer will command in the absence of the commander of the squadron, according to such directions as he may have received from him.

ARTICLE 65.

National anniversaries falling on a Sunday.

When a national anniversary, for which a salute shall be fired, shall fall on a Sunday, the salute and the other ceremonies shall be observed on the succeeding day, and in no case shall a salute be fired on Sunday unless the failure to do so would give offence; but salutes may be returned on that day.

ARTICLE 66.

Vessel joining a commanding officer on Sunday may salute on Monday.

If a vessel shall join a commanding officer who is entitled to a salute on Sunday, it shall be fired on Monday immediately after hoisting the colors.

CHAPTER VI.

THE COMMANDER-IN CHIEF OF A FLEET OR SQUADRON.

ARTICLE 1.

Shall inform himself of the condition of his command.

When an officer shall be appointed to the command-in-chief of a fleet or squadron he shall, as early as possible, inform himself of the state and condition of the vessels, and the qualifications and characters of the commanding and other officers placed under his command, so that he may be able to select for any special service the officer best qualified to perform it.

ARTICLE 2.

He will use every exertion to equip his fleet expeditiously.

He will use every exertion to equip the fleet or squadron as expeditiously as possible, and make weekly reports to the Navy Department of his progress or the cause of any unusual delay.

ARTICLE 3.

His command to be kept in perfect condition for service.

He will at all times keep the fleet or squadron in the most perfect condition for service that may be practicable.

ARTICLE 4.

Reports to be made immediately before sailing.

Immediately before sailing for foreign service, he will cause reports to be made to the proper bureaus of the length of time for which the fleet is provided with provisions and stores; and he must, thereafter, give them such information as will enable them to forward supplies in time to prevent the necessity of disadvantageous purchases abroad.

ARTICLE 5.

To be frugal in expenditure of stores and provisions.

As many circumstances may arise to prevent or delay the arrival of provisions and stores upon foreign stations, the commander-in-chief will strictly enjoin upon all commanding officers of vessels to take the greatest care of stores, to practice the utmost economy in their expenditure, not to apply for survey until articles are reported unfit for use, and to convert those which may be unfit for one purpose to any other for which they will answer.

ARTICLE 6.

To make no alterations without the consent of the Secretary of the Navy.

He shall not order or authorize any alteration in vessels without the previous consent of the Secretary of the Navy, unless in cases of pressing emergency, of which he shall give the department the earliest information.

ARTICLE 7.

To direct frequent examinations of hospitals.

He shall direct frequent examinations of the hospitals and hospital ships, and will require from the examining officers written reports of their state and condition, and cause every attention to be paid to the comfort of the sick.

ARTICLE 8.

All requisitions for supplies to be approved, by whom.

All requisitions for supplies for vessels must receive his approval before the articles will be furnished, unless the vessels should be separated so as to render it impracticable; and in such cases the requisitions must be approved by the senior officer present, and copies transmitted to the commander-in-chief by the earliest opportunity.

ARTICLE 9.

Approving officer must satisfy himself that articles and quantity are required.

The officer approving a requisition must, in all cases, satisfy himself that the articles and quantity required are necessary for the public service and conformable to such allowances as are or may be established.

ARTICLE 10.

Copies of bills to be forwarded to proper bureau.

A copy of every bill for purchases made abroad must be forwarded quarterly to the proper bureau, with a statement of the reasons which rendered the purchase necessary.

ARTICLE 11.

When there is no regular agent he may employ one, and to prefer consul.

Where there is no regular agent established, he may employ one, or adopt such other measures for the purpose of procuring supplies as he may deem most advantageous for the United States, giving preference to a consul of the United States, if one resides at the place.

ARTICLE 12.

To exercise vessels under his command whenever circumstances permit.

He will exercise the vessels of the fleet or squadron, whenever circumstances will admit, in performing the various evolutions that are essential to order and safety, and particularly those which it may be necessary or useful to adopt in presence of an enemy.

ARTICLE 13.

To cause boats to be inspected when armed and manned.

He will cause the boats of the squadron to be frequently assembled and inspected when manned and armed, and exercised in fleet sailing, in the evolutions for landing or embarking from the shore, and for boarding the vessels of an enemy.

ARTICLE 14.

To inspect the vessels under his command.

He shall inspect the vessels under his command once a quarter when practicable, and at other times as frequently as he may deem necessary; and he will see that all proper attention is paid to order, discipline, efficiency, and cleanliness, to the laws and regulations, and to the instructions from the Navy Department; and shall be careful that the ship in which he himself sails shall be a proper example to others.

ARTICLE 15.

To be attentive to conduct of officers and men in battle.

He shall be attentive, in battle, to observe the conduct of those under his command, that he may be able, if necessary, to correct their errors and prevent ill effects from any accident or neglect, and to make correct reports of their conduct.

ARTICLE 16.

May transfer or suspend officers under his command, and report to department.

Should he find cause to transfer or suspend any officer under his command, he shall, in such case, transmit to the Secretary of the Navy, by the earliest conveyance, his reasons for the same.

ARTICLE 17.

He will issue general orders regulating leave of absence.

He shall issue general orders regulating the extent of leave of absence which may be granted to officers and men to visit the shore by

the commanding officers of vessels ; but no officer shall be allowed to be absent on leave from the vessel to which he belongs, when in squadron, more than forty-eight hours without the written permission or authority of the commander-in-chief.

ARTICLE 18.

He will make semi-annual reports to the Secretary of the Navy.

He shall make to the Secretary of the Navy semi-annual reports of the professional skill and attainments of all commanding officers of vessels under his command, and also of the order and efficiency in which they keep their vessels ; and if an unfavorable report is made, the officer shall be informed of the fact.

Quarterly reports.

He shall also make quarterly reports of the number and rates of their crews and the expiration of their service.

ARTICLE 19.

He will correspond regularly and frequently with the department.

He shall correspond regularly and frequently with the Secretary of the Navy, keeping him informed of his proceedings and of the state and condition and probable wants of the vessels under his command, and of all other important information within his knowledge relative to the service on which he may be employed, or to any foreign naval force employed upon the station, or in its vicinity, sending duplicates, and, if necessary, triplicates, when on foreign service.

ARTICLE 20.

He will forward monthly returns of state and condition of fleet.

He shall forward, by all convenient opportunities, to the Secretary of the Navy monthly returns of the condition, distribution, and employment of the vessels of the squadron.

ARTICLE 21.

He will keep copies of all orders and letters.

He shall keep, in the most intelligible form, copies of all orders given or received by him, and of all his official correspondence ; and at the end of every cruise he will transmit to the Secretary of the Navy a list of all the numbers of his correspondence with the department, and shall furnish duplicates of all such as the Secretary shall inform him have not been received. Every letter to the department must be endorsed with its date and number, and the number of enclosures it contains, and each enclosure must be marked with the date and number of the letter to which it belongs.

ARTICLE 22.

To forward plans or suggestions for improvements.

He will forward to the Navy Department any suggestions or plans for the improvement of public works in navy yards, or in the construction, equipment, or arrangement of vessels-of-war, or upon any subject connected with the navy, which he may deem important to the interests of the United States, accompanying the same with plans and estimates of their cost when practicable.

ARTICLE 23.

When about to return home he will leave all surplus provisions.

When a vessel of a squadron is to return to the United States, he shall withdraw all provisions and stores not necessary for her passage home, if required for the vessels which remain, and take care to transfer to her invalids and all persons whose terms of service have expired or are about to expire, unless the public interests should require their detention.

ARTICLE 24.

Not to resign his command without consent of the Secretary of the Navy, except.

He shall not resign his command without the previous consent of the Secretary of the Navy, unless a medical survey shall certify that the state of his health renders it absolutely necessary.

ARTICLE 25.

When he resigns he will surrender all orders, copies, &c.

When he shall, for any cause, resign or transfer his command, he shall deliver to his successor accurate copies of all unexecuted instructions and orders, taking receipts for the same, together with all information relating to the squadron or the service which may be useful to him.

ARTICLE 26.

Should he be killed in battle his pendant to be kept flying.

Should he be killed in battle his flag or pendant shall be kept flying while the enemy remains in sight, and the officer next in rank shall be immediately informed thereof, and will take command of the fleet or squadron.

ARTICLE 27.

If obliged to leave his station on account of ill health, the officer next in command to succeed.

Should he die or leave his station in consequence of ill health before permission can be received from the Secretary of the Navy, the

officer of the squadron next in rank shall succeed to the command, and exercise the powers of commander-in-chief, and, if a captain, shall retain them until otherwise ordered by the Secretary of the Navy; but if a commander or inferior officer, he may be superseded by order of any *captain* with whom he may meet in command of a squadron or vessel.

ARTICLE 28.

Officers succeeding to command to relinquish it as soon as a successor arrives.

Any officer who shall have succeeded to the command-in-chief of a fleet under the circumstances named in article 27, shall discontinue to exercise the powers and authority of commander-in-chief so soon as he shall receive official information of the arrival within the limits of the station of an officer who has been duly appointed to the command-in-chief upon the station, without waiting to meet with, or to receive an order directly from, such commander-in-chief.

ARTICLE 29.

To examine and compare internal regulations of vessels.

He will examine and carefully compare the internal regulations for general police, prepared by the commanders of vessels, (see article 8, section 1, chapter 9,) in order to secure uniformity in the time and manner of executing the duties of the several vessels of the squadron.

ARTICLE 30.

He shall direct course to be steered.

He will direct the course to be steered by all vessels present under his command.

ARTICLE 31.

When he takes immediate command of vessel.

If from any circumstance he shall deem proper to take the immediate command of the ship in which he sails, he will cause the fact to be entered on the log.

 CHAPTER VII.

COMMANDERS OF SQUADRONS AND DIVISIONS OF FLEETS.

ARTICLE 1.

They are responsible to commander-in-chief.

The commanders of squadrons under a commander-in-chief will be held responsible to him for the efficiency, discipline, and management of the vessels under their immediate command.

REPORT OF THE

ARTICLE 2.

Reports, returns, and requisitions, to whom and how made.

All reports, returns, and requisitions from vessels belonging to squadrons or divisions of a fleet must be made to their respective commanding officers, and by the commanders of divisions or ships to commanders of squadrons, and receive their approval or remarks before they are transmitted to the captain of the fleet or to the commander-in-chief.

ARTICLE 3.

Commanders of squadrons or divisions may correct mistakes or the negligence of ships in another squadron, &c.

The commander of one squadron or division may correct, by signal or otherwise, any mistake or negligence of ships in another squadron or division, when it is probable they cannot be distinctly seen by the commander of the squadron or division to which they belong, or whenever, being in the presence of an enemy, the officer commanding that squadron or division does not himself immediately correct such negligence or mistake; and in battle he shall carefully observe the conduct of all ships which may be near to him, that, if required, he may report on it.

ARTICLE 4.

If he sees a vessel avoiding battle he may take the measures the case requires.

If a commander of a squadron or division should, during battle, perceive any vessel of a squadron or division commanded by an officer of inferior rank or junior to himself evidently avoiding battle, or not doing his duty, he shall make proper signals to him, or take such other measures as the case may require, and give the earliest information of his proceedings to the commander-in-chief.

ARTICLE 5.

To inspect vessels before going to sea and on returning to port.

Commanders of squadrons and divisions shall, when practicable, inspect the vessels under their command immediately before going to sea and after their return into port, and at other times, when it can be done, as often as once a quarter, or whenever the commander-in-chief may direct; and shall make reports in writing to him of the state of their efficiency, preparation for battle, and discipline, in such form as is or may be prescribed by the department.

ARTICLE 6.

To make all necessary signals when the commander-in-chief does not manœuvre the fleet in detail.

Whenever the commander-in-chief shall not declare his intention of manœuvring the fleet in detail, it shall be the duty of the com-

manders of squadrons and divisions to make all the signals which may be necessary to regulate the movements of their squadrons or divisions, so as to carry into execution any general evolution, or to preserve any prescribed position that may have been ordered by the commander-in-chief.

ARTICLE 7.

Reports, after battle, of the conduct of officers.

They will, after battle, call upon the captains for written reports of the conduct of the officers, and the state and condition of the vessels under their command, and will forward such reports, with full remarks of their own, to the commander-in-chief through the prescribed channel.

ARTICLE 8.

Orders to the commander of the vessel in which commander of division is embarked.

The captain or commanding officer of a vessel in which the commander-in-chief of a squadron, or the commander of a squadron or division, but not commanding in chief, shall be embarked, will be particularly careful to conform strictly to all orders he may receive from such superior officer respecting the management of the vessel, the sail to be carried, and all matters which may regulate or influence the movements of the vessels of the squadron; and such superior officer will communicate all his orders which may relate to the vessel in which he is embarked immediately to the commanding officer of such vessel, unless the urgency of the case should require an order to be given directly to the officer of the deck, in which case the commanding officer of the vessel is to be immediately notified.

CHAPTER VIII.**CAPTAIN OF A FLEET.**

ARTICLE 1.

He will be in same vessel with commander-in-chief.

The captain of a fleet shall be embarked in the same vessel commander-in-chief.

ARTICLE 2.

He will keep a journal of the operations of the fleet.

It shall be his duty to keep a journal of the movements and operations of the fleet or squadron, and to note particularly the various evolutions which may be ordered, or which may take place in action,

and every other circumstance of importance which may pass under his observation. He will present the journal to the commander-in-chief for his inspection whenever he shall require it.

ARTICLE 3.

He will transmit all orders from the commander-in-chief.

He will transmit such orders as he may receive from the commander-in-chief, and, in his name, to the persons for whom they are intended, according to his directions, either in writing or verbally, as may be necessary. These orders shall be obligatory upon all persons in the fleet to whom they may be addressed, when issued at the place where the flag or pendant of the commander-in-chief is flying.

ARTICLE 4.

He will report neglect or disobedience of orders.

He shall immediately report to the commander-in-chief any neglect or disobedience of his (the commander-in-chief's) orders.

ARTICLE 5.

Register of orders to be kept.

He shall keep a register of all orders of the commander-in-chief, noting the day and the hour when he shall have received them. This register shall be kept according to form No. 1 in Appendix.

ARTICLE 6.

Register of number and dates of all orders.

He shall keep another register, in which he shall insert the register number of all the orders he may transmit, noting the day and the hour when they were transmitted.

ARTICLE 7.

He will see that officers called on board to receive orders come provided with an order book.

He shall take care, when officers are called on board to receive verbal orders, that they note in an order book, which they must bring for that purpose, the substance of the order given.

ARTICLE 8.

All signals to be inserted in a register.

He shall cause to be inserted in a register all signals which may be made in the fleet or squadron, as in form No. 2.

ARTICLE 9.

He shall be subject to the orders of the commander-in-chief.

The captain of the fleet shall be subject only to the orders and directions of the commander-in-chief, or whoever may act as commander-in-chief for the time being.

ARTICLE 10.

On other service he will take rank according to his commission.

Whenever the captain of the fleet shall be detailed for or employed on other service, he shall take rank and command according to his commission.

ARTICLE 11.

A commander when appointed as aid to commander-in-chief will act as captain of the fleet.

A commander, when duly appointed as principal aid to the commander-in-chief of a squadron, shall, in that squadron, perform the duties herein prescribed for the captain of a fleet, except that all orders must be signed by the commander of the squadron.

CHAPTER IX.

SECTION 1.

COMMANDERS OF VESSELS.

ARTICLE 1.

Examination of vessel when appointed to command.

When an officer shall be appointed to the command of a vessel, he shall join her forthwith, examine her throughout, and ascertain her state and condition.

ARTICLE 2.

Report to commanding officer of navy yard defects or deficiencies.

If the vessel is still under the charge of the commanding officer of a navy yard, he will be attentive to her repair and equipment, and will report to the commanding officer of the navy yard any defects or deficiencies which, in his opinion, require further attention.

ARTICLE 3.

He will be particular in examination and reports when vessel is transferred to his charge.

He will be particular in his examination and reports at the time when it may be proposed to transfer the vessel entirely to his charge, so as to prevent any subsequent complaints in relation to neglects or deficiencies in the repairs or equipments.

ARTICLE 4.

He will exercise no authority over the vessel until she is delivered to him.

He will exercise no authority or control over the repairs or equipments of the vessel before she is delivered into his charge, nor over the officers and mechanics of the navy yard, unless with the assent or direction of the commanding officer of the yard.

ARTICLE 5.

Examination and formal transfer of the vessel.

When a vessel is ready to be transferred from the navy yard to the officer appointed to command her, the commanding officer of the yard and the said officer will together make a personal examination of the vessel; after which the transfer will be formally made in the presence of as many of the officers and crew as can be assembled, and the appointment of the officer to the command read, and the vessel placed in commission by hoisting her ensign and pendant.

ARTICLE 6.

The act for the government of the navy will be read.

After a vessel is placed in commission, the commander will take the earliest opportunity to cause to be read to the officers and crew, or as many of them as can be assembled at muster, the 1st section of the act for the government of the navy.

ARTICLE 7.

He will be held responsible after assuming the command.

After assuming the command he will be held responsible for the whole conduct and good government of the officers and others belonging to the vessel, according to the laws and regulations for the government of the navy, and must himself set an example of respect and obedience to his superiors, and of unremitting attention to his duties.

ARTICLE 8.

He will prepare internal regulations.

He will immediately prepare such internal regulations for the general police of the vessel under his command as he may think necessary or expedient; but, when under the command of a superior officer, he shall submit the same for his approval or modification.

ARTICLE 9.

He will use every exertion to complete her arrangements and make weekly reports.

When a vessel shall be transferred by the commanding officer of a navy yard to him for service, he shall use every exertion to complete the arrangements that may be necessary for her efficient employment at sea, and shall report weekly, or oftener if directed, to the proper authority, her state and any deficiency of officers or men, for the information of the Secretary of the Navy.

ARTICLE 10.

A statement of the vessel's condition and qualities will be furnished him.

When appointed to the command of a vessel, he shall be furnished with a statement, as in form No. 3 of the Appendix, of her condition and her presumed or ascertained qualities, by the commandant of the navy yard, or by the previous commander, if the vessel be already in commission.

ARTICLE 11.

Shall station officers and crew as soon as possible, exercise them frequently, and have station bills made out and hung up.

He shall, as soon as possible, have the officers and crew at their quarters, and at the various stations for the performance of their different duties, and shall exercise them as frequently as other duties will permit before going to sea; and shall cause the quarter, watch, fire, and other station bills to be fairly made out, and hung in some conspicuous place, where all persons on board may have access to them

ARTICLE 12.

He will clear for action when approaching a vessel-of-war at sea.

When approaching any vessel-of-war at sea whose friendly character is not fully ascertained, and whose comparative apparent force is not greatly inferior, he shall take care that the vessel under his command is so far cleared for action as to guard against any possible danger from surprise.

ARTICLE 13.

In preparing vessels for action, &c., to follow instructions of Bureau of Ordnance.

In all matters connected with the preparation of his vessel for battle, and the exercise of his crew at quarters, he shall follow carefully such instructions as have been or may be issued by the Bureau of Ordnance and approved by the Secretary of the Navy.

ARTICLE 14.

He shall not exceed the established number of men in each rating, except.

The number of men in any rating which may be established shall in no case be exceeded, except to make good a deficiency in some superior rating, or by the express order of the Secretary of the Navy, or the commander-in-chief of a squadron on foreign service.

ARTICLE 15.

Quarterly returns of the state of the crew.

He shall make quarterly returns to his immediate commander of the state of his crew, according to form No.—, in Appendix.

ARTICLE 16.

Men not to part with their clothing, except.

The men shall not be allowed to sell, exchange, or in any manner dispose of clothing or necessaries, without special permission.

ARTICLE 17.

Encouragement for good behavior.

He will give due encouragement to such persons as may distinguish themselves by meritorious behavior.

ARTICLE 18.

Reports of punishments.

He shall make reports, quarterly, according to such form as may be prescribed, to the commander of the fleet, squadron, or division, to be by him transmitted, through the proper channel, to the Secretary of the Navy, of all punishments which shall have been inflicted on board the vessel under his command, stating the offence and the nature and degree or extent of the punishment, with such explanatory remarks as he may think proper, as per form No. 4.

ARTICLE 19.

Monthly reports in the United States and bi monthly reports on a foreign station.

When in the ports of the United States he shall transmit, through the proper channels, to the Secretary of the Navy, monthly reports, in such forms as may be prescribed, of all persons who have been received on board, or who may have died, been discharged, or deserted from the vessel under his command within that period. When on a foreign station similar reports shall be made monthly to the commander-in-chief of the fleet or squadron, to be forwarded to the Navy Department.—(See forms 5, 6, 7, 8, 9, and 10.)

ARTICLE 20.

Encouragement to officers to improve themselves. Midshipmen to keep journals.

He is to encourage the officers to improve themselves in every branch of nautical science, and shall require midshipmen to keep regular journals, according to such form as may be prescribed, and present them to him for inspection on the first of every month; and he will sign his name to them in evidence of his having examined the same.

ARTICLE 21.

He may require certain officers to make observations and report them.

He may, at his discretion, require the lieutenants, master, passed and other midshipmen to make frequent observations and calculations for determining the latitude and longitude and the variation of the compass, and report results to him.

ARTICLE 22.

Certain officers to provide themselves with a sextant or octant and some approved work containing tables for ascertaining the ship's place.

He shall require each of the lieutenants, the master, passed and other midshipmen, belonging to the vessel, to procure a good sextant or octant and some approved work containing the usual tables for ascertaining the ship's place from observations for latitude and longitude, that, in case it should be necessary to place any of them in charge of a prize or other vessel, they may have the necessary means for navigating her.

ARTICLE 23.

On being transferred from one vessel to another he may take certain persons with him.

Whenever a commander is removed from one vessel to another, he may take with him his clerk, coxswain, one officers' steward, one officers' cook, and one person of inferior rating.

ARTICLE 24.

Books and papers that he will deliver to his successor.

He shall deliver to the officer appointed to succeed him in command all signal books and the originals or attested copies of all unexecuted orders which he may have received, for which he must take receipts in duplicate, sending one copy through the proper channel to the Navy Department.

ARTICLE 25.

He will leave his successor a muster book and expense book.

He will leave with his successor in command a complete muster book and expense book, duly audited and signed by him, to the time of his resigning his command.

ARTICLE 26.

He will leave his successor a report of the qualities of his vessel.

He shall leave with his successor a report of the qualities of the vessel according to such forms as may be prescribed, together with every other information which he may deem serviceable to her commander, and he will forward a similar report to the Navy Department whenever he is removed from or resigns the command of a vessel.—(See form No. 3, p. 233.)

ARTICLE 27.

Women not to be taken to sea, except.

Women are not to be taken to sea from the United States in any vessel of the navy without permission from the Secretary of the Navy; nor when on foreign service, without the express permission of the commander-in-chief of the fleet or squadron, or of the senior officer present, and then only to make a passage from one port to another.

ARTICLE 28.

To keep the sea the time required by his orders.

When directed to cruise, he is to keep the sea the time required by his orders, or produce satisfactory reasons for deviating from them.

ARTICLE 29.

To visit no port not designated in his instructions.

He is not to go into any port but such as may be designated or permitted by his instructions, unless from necessity, and then to make no unnecessary stay.

ARTICLE 30.

He will give convoy to vessels of the United States, and to others entitled to protection.

In time of war, or appearance thereof, he shall give convoy to vessels of the United States, or others entitled to his protection, when it can be done without deviation from his orders, or improper detention of the vessel under his command.

ARTICLE 31.

He must explain satisfactorily the cause of separation from a fleet or squadron.

Should a vessel be separated from a fleet or squadron to which it belongs, the commander must show, in the most satisfactory manner, that such separation was not caused by any neglect of his, and that he had complied strictly with all instructions which may have been given for his government in case of such separation.

ARTICLE 32.

He will facilitate examinations by custom-house officers of the United States.

He will facilitate any examination which it may be the duty of any custom-house officer of the United States to make on board the vessel he commands.

ARTICLE 33.

No public punishment nor general exercise to be ordered while a superior is on board.

The commanding officer of a vessel in which there shall be a superior officer in actual command shall order no public punishment nor general exercise while such superior officer is on board, without his knowledge and consent.

ARTICLE 34.

Boys of the ship to be instructed.

He shall, when practicable, cause some competent person among the petty officers, or persons of inferior rating, to instruct the boys of the ship in reading, writing, and arithmetic.

ARTICLE 35.

Apprentices are not to serve as waiters, but are to be instructed.

He will not permit any boy who shall have been shipped to serve until he is twenty-one years of age to act as a waiter upon any person, unless in case of absolute necessity, but shall take great pains to have him so instructed in the duties of the service as to best qualify him for becoming a good seaman and petty officer.

ARTICLE 36.

Vacancies among petty officers, how filled.

He shall cause vacancies amongst petty officers and seamen to be filled from the ship's company, if persons qualified be found on board, in preference to those from other ships.

ARTICLE 37.

Instruction to ordinary seamen and landsmen.

He shall cause the ordinary seamen and landsmen to be instructed in steering, heaving the lead, knotting and splicing, and in rowing, in the use of the palm and needle, and generally in other duties, such as bending and reefing sails, &c., that they may become qualified for the rating of seamen.

ARTICLE 38.

Report of all passengers.

He shall make a report to the commander-in-chief of the squadron, or to the Secretary of the Navy, if cruising alone, of all passengers carried in the vessel under his command, assigning his reasons for having them on board.

ARTICLE 39.

He will be governed by regulations for commanders-in-chief.

When not acting under the orders of a superior officer, he will be governed by the regulations for commanders-in-chief, so far as they may be applicable to his situation.

ARTICLE 40.

Bill of health.

Before leaving port he will take care that the ship is provided with a bill of health, to be exhibited, if required, to the health officer at any foreign port that he may visit.

ARTICLE 41.

Remark book.

He is to keep a remark book, in which he is to note all useful information regarding the places he may visit, stating, in every case, their latitude and longitude at least, and, as occasions may allow him to ascertain them, the variation of the compass, the prevailing winds and currents, the dangers in approaching the various anchorages, and the

means of avoiding such dangers ; the supplies, particularly of water, provisions, and spars, which the said places can afford; and generally every other information regarding them which may be deserving of notice, and shall, when practicable, cause surveys to be made by the officers under his command, and shall make reports to the naval bureaus and to the Superintendent of the Observatory on the subjects appropriate to each, and at the conclusion of his cruise the *remark book* shall be sent to the Navy Department.

ARTICLE 42.

Spare spars, sails, &c., to be tried in their places before going to sea.

He will ascertain, by having them tried in their places, that the spare spars, sails, tiller, and other spare articles of importance, are of the proper size and ready for use, and will not allow them to be stowed for sea until they have been so tried.

ARTICLE 43.

Divine service.

When the state of the weather and other circumstances will permit, if there is a chaplain on board, and in case there is no chaplain, if there is any other proper person on board who will voluntarily perform that duty, he will see that divine service is performed in "a solemn, orderly, and reverent manner," and will take care that no duty but such as is absolutely necessary be carried on during Sunday, and more particularly during the hours of service, choosing such hour for the service as will insure it against interruption, or dispensing with it altogether if there is an imperious necessity for work.

SECTION 2.

PRESERVATION OF THE SHIP.

ARTICLE 1.

One of the three, or one of the two senior officers to be at all times on board. Leaves of absence restricted.

He shall not allow the vessel under his command to be left without one of the three, and in roadsteads and exposed situations one of the two senior officers, including himself; nor shall he grant leave of absence to any officer at any time when it will retard the public service, or render it necessary to place the watch in command of an officer inferior in rank to that required by the general instructions.

ARTICLE 2.

Lieutenants to be watch officers in all vessels, except.

Lieutenants are to be considered commanding officers of the watch in all vessels except brigs, schooners, or smaller vessels, in which

officers not below the rank of passed midshipmen may be employed as the regular watch officers, if there should not be lieutenants enough for that duty.

ARTICLE 3.

No officer other than those named in two preceding articles to have charge of watch, unless.

The deck or watch is never to be left in charge of an officer of lower rank than those designated in the preceding articles as the regular commanding officers of the watch, unless the number of such officers who may be attached to the vessel and fit for duty shall be less than four; when, if he shall deem it safe and expedient, the commander of such vessel may direct other officers to take charge of a watch, so that the number for that duty shall not exceed four.

ARTICLE 4.

Crew to be allowed to go on shore.

He will take suitable occasions to indulge the petty officers and men with leave to visit the shore when it can be done without injury to the public service, and in foreign ports with the permission of the municipal or proper authorities.

ARTICLE 5.

Liberty-book.

He shall have a liberty-book kept in the form prescribed. See form No. 11.

ARTICLE 6.

Conduct-book.

He will cause a conduct-book to be kept by the executive officer, in which the names of all petty officers and persons of inferior rating shall be entered, with remarks from time to time on the conduct of each, and a record made of any fact or circumstance that may aid him in preparing proper discharges at the end of the cruise.

ARTICLE 7.

Cables to be bent when approaching land.

On approaching land or anchorage of any kind, he shall be careful to have the cables bent in due time.

ARTICLE 8.

Hand-leads to be used when ship is in less than twenty-one fathoms.

When standing towards the land or shoals, he shall have the hand-leads used whenever the ship is in twenty fathoms water, or less.

ARTICLE 9.

In going into port, or near shoals, regular soundings to be taken.

When going into any port or harbor, or approaching near to shoals or rocks, whether with or without a pilot, he shall cause regular soundings to be taken.

ARTICLE 10.

Report to be made in case the vessel gets on shore.

In the event of the vessel under his command getting on shore, he is, in addition to stating the circumstances in the log-book, to report, by the first opportunity, the same to his commanding officer, if he should be under one; if not, to the Navy Department, stating the time she lay on the ground, and the supposed injury she may have received.

ARTICLE 11.

Precautions when ship comes to an anchor.

Upon all occasions of anchoring he is, if possible, to select a safe berth, and have the depth of the water and the quality of the ground examined for at least three cables' length round his vessel, in places that are not well known, or where he is a stranger, and have such bearings and angles noted in the log-book as shall enable him to recover an anchor, in case it should be necessary to cut or slip a cable.

ARTICLE 12.

Chain cables to be guarded against corrosion, and inspected.

He will cause the chain cables to be carefully guarded against corrosion, and have them inspected once a quarter.

ARTICLE 13.

Lightning conductors.

He shall take care that the lightning conductors are at all times ready for service.

ARTICLE 14.

Meteorological, barometrical, and sympiesometrical observations to be taken and recorded.

He shall see that the meteorological observations are taken and recorded as per form in log-book; and on indications of the approach of gales or hurricanes he shall cause hourly or more frequent observations of the barometer and sympiesometer to be made, and every change in the force and direction of the wind recorded.

ARTICLE 15.

He will guard against fire.

He must be particularly careful to guard against accident from fire.

ARTICLE 16.

Lights and fires to be carefully guarded.

He will not permit lights or fires in any part of the vessel, except when necessary, and then only under the special care of some trusty persons.

ARTICLE 17.

Reading in bed by candle or lamp light forbidden ; smoking restricted to certain parts of the ship.

No person shall be permitted to read in bed by the light of a lamp or candle ; and no smoking must be permitted except at or forward of the galley, or, in a steamer, in such places as the commander may appoint, or in the cabin of the commander of the squadron or commander of the vessel, who shall be responsible for any accident that may arise from it ; nor must any friction matches or similar composition be allowed on board any vessel.

ARTICLE 18.

Precautions when spirit-room is opened.

The spirit-room is never to be opened, nor spirits to be drawn off, except in day time, unless in cases of extreme necessity, and at such times every precaution is to be observed ; and it is never to be opened except in the presence of an officer.

ARTICLE 19.

Lights not to be taken into spirit-room.

Lights must never be taken into the spirit-room to draw off spirits.

ARTICLE 20.

No spirituous liquors to be taken on board without his permission.

No spirituous liquors, or any inflammatory matter, shall be taken on board of any vessel without the permission of the commanding officer.

ARTICLE 21.

Precautions when powder is taken on board.

Lights and fires are to be extinguished, and all other proper precautions taken to guard against accidents, when it is necessary to receive, discharge, or remove powder, or to open the magazine.

ARTICLE 22.

The magazine never to be opened without his consent.

The magazine is never to be opened without the knowledge and consent of the commanding officer for the time being.

ARTICLE 23.

The vessel is to be kept well caulked.

The vessel is to be kept well caulked, particularly about the bitts, water-ways, and other parts liable to be strained. This work is to be done as far as practicable by the carpenters and caulkers of the vessel.

ARTICLE 24.

In case of shipwreck, he will save all he can, particularly certain books and papers.

In cases of shipwreck, or any other disaster whereby the ship may be lost, the commander, with the officers and men, shall stay by her as long as possible, and save all they can. He shall particularly endeavor to save the muster, pay, and receipt books, and other valuable papers.

ARTICLE 25.

He will carefully preserve or destroy signals, secret orders, &c.

He shall take special care to destroy, or carefully preserve, all signals, secret orders or instructions, to prevent their falling into improper hands.

ARTICLE 26.

He will preserve strict discipline, and prevent irregularities.

He will use every effort to preserve discipline, and prevent any irregularities which might give just cause of offence to the inhabitants of the country where they may be.

ARTICLE 27.

In case of shipwreck, he, and his officers and crew, will return to his station or to the United States.

He shall, in case of shipwreck without the United States, lose no time in returning to the fleet or squadron to which he may belong, or, if acting alone, to the United States, with his officers and crew; to effect which he may dispose of the property saved, or draw bills, as he may deem most advantageous to the public interests.

ARTICLE 28.

If shipwrecked within United States he will repair to nearest navy yard or station and report.

If shipwrecked within the United States he shall repair to the nearest navy yard or station, and in all cases make the earliest possible report to the Navy Department.

ARTICLE 29.

He will, in case of capture, destroy all signals or other papers.

Should the commanding officer of a vessel be compelled to strike his flag, he is to take special care to destroy all signals, or other papers, the possession of which by an enemy might be injurious to the United States; and he will keep them so prepared, with weights attached to them, that they will sink immediately on being thrown overboard.

ARTICLE 30.

He will not make any alterations in the internal arrangements of the vessel, except.

He will not, without authority and permission of the Navy Department, or the commander-in-chief of the fleet or squadron, make, or allow to be made, any changes in the internal arrangements, or decks, cabins, or state-rooms of the vessel, or in her armament, or masts, yards, sails, or rigging, except in cases of necessity; and when such changes occur he will report the same to the department by the first opportunity, and carefully note and report the effects which such changes may produce in the qualities, performances, or efficiency of the vessel. He will, however, in forwarding his reports of the qualities of the vessel, and at other times, if he deems it important, suggest any alterations which, in his opinion, would render the vessel more efficient, or improve her qualities in any particular, and the probable expense attending such change.

ARTICLE 31.

Lights, when and where to be carried.

He shall cause a light to be carried on the bowsprit end, or some other conspicuous place forward, at all times in the night at sea, and in harbors when there is any danger of collision.

ARTICLE 32.

Night order-book.

He shall keep a night order-book, in which shall be entered all orders given to the officer of the deck for his government during the night.

SECTION 3.

PRESERVATION OF THE MEN.

ARTICLE 1.

Cleanliness, dryness, and pure air. Wet clothes and bedding not to be taken below.

As cleanliness, dryness, and pure air are essentially conducive to health, he is to use his utmost endeavors to insure them to the ship's company. He shall not suffer the men to sleep in wet clothes or bedding, or to take them below the gun-deck when it can be avoided.

ARTICLE 2.

Inspection of the vessel.

He will personally inspect the vessel every day, if circumstances will admit, on which occasions he shall be accompanied by the executive officer, and shall satisfy himself that nothing has been neglected for the efficiency of the vessel or the health of the crew.

ARTICLE 3.

The decks to be frequently cleansed and dried.

He shall cause the decks to be frequently washed, or otherwise cleansed, having proper reference to the state of the weather, taking care to have the decks where the men sleep as thoroughly dried as possible before they are permitted to take their meals or their bedding below.

ARTICLE 4.

Bedding and clothing to be aired and cleansed.

He shall cause the bedding and clothing of the crew to be opened, dried, and cleansed as often as once a fortnight, and oftener in warm climates, when the weather will permit.

ARTICLE 5.

The men not to sleep where exposed to night dews.

He shall not allow men to sleep about the deck in situations where they will be exposed to night dews or rains.

ARTICLE 6.

The men shall bathe and wash.

He shall cause the men to bathe or wash themselves frequently when the weather is warm.

ARTICLE 7.

Attention to be paid to the suitable clothing of the men.

He shall pay great attention to the suitable clothing of the men, obliging them to make such changes as in the opinion of the medical officers and himself will be most conducive to health, according to the changes of climate to which they may be subjected.

ARTICLE 8.

Boats' crews to have their breakfasts before leaving vessels, &c.

He shall take care that the boats' crews have their breakfasts before leaving the vessel, and their other meals at the usual times, except special duties shall prevent it.

ARTICLE 9.

Boats not to be detained on shore after watch is set, unless.

He shall not allow the boats to be detained on shore for officers after the setting of the watch, unless the officers are upon duty.

ARTICLE 10.

Prevent all unnecessary exposure of men.

He shall prevent all unnecessary exposure of those under his command which may tend to produce disease.

ARTICLE 11.

He will guard against improper use of fruit.

He shall adopt suitable precautions to prevent the use of improper quantities of fruits, or of other articles which may endanger the health of the crew.

ARTICLE 12.

He will order such issues of clothing as may be required.

He will order in writing such quantities of clothing and small stores, and such only, as may be required for the health and comfort of the men, to be issued by the paymaster; but when the men are indebted to the United States he will limit the quantity to mere necessaries.

ARTICLE 13.

Water not to be drank until it is clear of impurities.

He will not allow water to be drank by the men until the mud and other impurities it may contain shall have had time to settle.

ARTICLE 14.

Men not to be placed on an allowance of less than one gallon of water, except.

The men shall not be placed on a daily allowance of less than one gallon of water unless the commander should deem the interest of the service absolutely to require it.

ARTICLE 15.

Issues of fresh meat and vegetables.

When in port, he may cause fresh meat and vegetables to be issued to the crew, not exceeding four days in the week, unless the surgeon may think a more frequent issue necessary to their health.

ARTICLE 16.

Induce the discontinuance of spirit ration, provided.

He shall endeavor to induce the men to relinquish the spirit part of their ration, provided they will relinquish it for not less than three months, or for the remainder of the cruise; and may withhold it from all persons who may be guilty of drunkenness.

ARTICLE 17.

Attention to the comfort of the sick and wounded.

He will cause every attention to be paid to the comfort of the sick and wounded by the surgeon and others, and take care that proper persons be appointed to attend upon them.

ARTICLE 18.

Sick reports, &c.

He will require from the surgeon a daily report of the state of the sick, and whenever he may think proper his opinion of the best means of preserving or restoring health.

ARTICLE 19.

Men sent to hospital.

When men are sent to the hospital, (which is not to be done without the sanction of the superior officer in command of the station, except in cases not admitting of delay,) they are, if practicable, to be accompanied by a medical officer, with a statement of the case, who is to see that the clothing and bedding of the men are carefully delivered to the proper officer of the hospital, with a complete list of the same.

ARTICLE 20.

Men sent to hospital in United States from a vessel in commission to be borne on ship's books.

Men who may be sent to a hospital in the United States from a vessel in commission are to be borne on the books of the vessel from which they are sent, as a part of her complement, until the vessel shall proceed to sea or be paid off, unless they shall sooner be discharged, or transferred from the vessel by competent authority.

ARTICLE 21.

Before a vessel sails application must be made for men in hospital.

Application must be made, when practicable, before a vessel sails, for all men who have been sent to the hospital, and all such as are, in the opinion of the surgeons of the ship and hospital, in a state to join the vessel are to be returned on board, with their clothing and bedding.

ARTICLE 22.

Clothing furnished to persons in hospital.

If any clothing or other articles have been furnished to persons whilst at a hospital with which they ought to be charged, the articles and their cost are to be particularly stated, returned to the vessel upon the back of the clothes lists which were sent to the hospital with them, duly certified by the proper officer of the hospital, and charged against the pay of the persons who received the same.

ARTICLE 23.

Accounts of persons left in hospital.

Before proceeding to sea, he shall take care that the accounts of all persons who may be left in the hospital shall be transferred to the paymaster of the station.

ARTICLE 24.

Precaution not to board a vessel that would subject to quarantine.

He shall direct officers who may be sent to board a vessel to ascertain, before boarding, if the state of such vessel would expose persons visiting her to quarantine; and the officers shall not, except in cases of emergency, allow any such communication as would subject to quarantine, without orders from his commander.

ARTICLE 25.

Yellow flag to be hoisted when vessel is subject to quarantine.

Should any vessel of the navy have had any communication, or visited any port, or have any disease on board which would subject her to quarantine, it shall be the duty of the commander to have a yellow flag hoisted to warn others against any improper communication with her.

ARTICLE 26.

Life buoys to be kept ready for service.

He shall take particular care that the life buoys are at all times ready to be dropped, and at sea and in strong tide-ways in port, shall have men stationed by them. He shall cause them to be examined every evening by the gunner, and their condition reported to the executive officer.

ARTICLE 27.

Quarter-boats to be kept in readiness for lowering.

He shall take care that the quarter-boats are kept in condition to be immediately lowered, with a crew for each in each watch, in charge of a petty officer.

ARTICLE 28.

Lives of men not to be exposed unnecessarily.

He shall not unnecessarily expose the lives of the men by setting them to do work outside the ship at sea, such as painting or scrubbing ship, &c.

ARTICLE 29.

If course directed to be steered when sailing in squadron is leading into danger, he will give notice.

If, while sailing in squadron, he shall find that the course directed to be steered is leading the ship under his command or any other ship into danger, he will give notice to the commander-in-chief and to the ship endangered.

SECTION 4.

PRESERVATION OF THE STORES.

ARTICLE 1.

Inventories to be furnished and accounts to be kept.

The commander of a vessel, when she is first equipped, shall be furnished by the commandant of the yard with inventories of all the

articles belonging to the different departments; and he is thereafter to cause accurate accounts to be kept of all expenses incurred for the vessel in the different departments, and shall make quarterly returns to the commander of the division, squadron, or fleet, according to such forms as may be prescribed, to be by him transmitted to the Navy Department, so that the annual expenses of each vessel may be correctly ascertained. (See form No. 12.)

ARTICLE 2.

Account of stores when the ship is paid off or placed in ordinary.

When the ship is paid off, or placed in ordinary, he shall require from the yeoman and other officers charged with stores an abstract statement of the receipts and expenditures of stores during each fiscal year, and the total quantity during the cruise; and shall, under this abstract, enter the quantities remaining on hand, as shown by his general abstract expense book. If the remaining stores shall be landed or can be surveyed before he leaves the ship, the quantities actually landed, or found to be on hand by survey, shall also be stated under the quantities as shown by the abstract book; and if any differences shall be found to exist, he shall have inquiry made as to the cause, and note the result upon the report, and forward the same to the Navy Department. If the commander should be detached and the ship delivered over before the stores are landed or surveyed, he will sign and transmit to the commanding officer of the navy yard the required abstract of receipts and expenditures during the cruise, and quantities on hand, as shown by the expense books kept by him.

ARTICLE 3.

He will examine returns, requisitions, and accounts.

He shall examine all the returns of expenditures, all requisitions for supplies, all accounts rendered against the vessel, and, on being satisfied of their correctness, shall approve the same.

ARTICLE 4.

In making or approving requisitions he is not to exceed allowances.

In making or approving requisitions for stores of any kind he will, unless otherwise specially authorized, only require or approve for the articles which may be necessary to complete such quantities as are or may be established as the allowance for the vessel, or specially authorized; and the requisition must state that it is so made.

ARTICLE 5.

Economy and care in expenditures.

He shall use the utmost economy and care in everything which relates to the expenses of the vessel or the public service; and shall

require from all those under his command a rigid compliance with the regulations for the receipt, conversion, and expenditure of stores of every description.

ARTICLE 6.

In case a cable be cut, slipped, or parted.

Should a cable be cut, slipped, or parted, the commander of the vessel, or, if he cannot, the senior officer present, shall use every exertion to recover it; but should neither have an opportunity, such information must be forwarded to the Navy Department, or the nearest public agent of the United States, as may best enable them to have it done.

ARTICLE 7.

Disposition of stores when a vessel is placed in ordinary.

When a vessel is ordered to be placed in ordinary, he shall, unless otherwise directed, after a survey shall be made upon the different articles, cause all her stores to be tallied and properly marked and safely delivered to the proper officers of the navy yard.

ARTICLE 8.

Disposition of empty barrels or packages.

When any barrels or packages in which provisions or other articles have been received on board shall have been emptied, they shall, if they cannot be returned to a navy yard, either be converted to some public use in the vessel or be sold, and the amount received for the same shall be paid to the paymaster, and reported and accounted for by him in the same manner as other public moneys; and all articles so sold and the amounts paid to the paymaster shall be entered in the log-book.

ARTICLE 9.

Disposition of "slush" money.

All "slush" which may not be required for the use of the vessel shall be sold and the proceeds paid over to the paymaster, who shall receive, expend, and account for the same, under the direction of the captain, for the following purposes, viz: for premiums to the captains of guns who shall fire most accurately at a target when exercising with ball; to men making the best shots with small arms; for musical instruments and music; for furnishing rough clothing for the cook and his assistants and the captain of the hold, and for dress clothing for side and messenger boys whose pay may be inadequate to meet the expense.

ARTICLE 10.

He will not land stores unless ordered, and will re ship them unless otherwise directed.

He shall not land any articles of outfits or stores with which the vessel may be supplied, unless the commander-in-chief of the squadron should so order; and he shall, before he leaves a foreign station, take on board any articles so landed, unless otherwise directed.

ARTICLE 11.

Masts not to be strained in setting up stays, &c.

He shall be particularly careful that the masts of the ship are not crippled or strained in setting up the stays and rigging, and that the masts retain the same angle with the keel after the stays and rigging are set up that they did when they were only wedged.

ARTICLE 12.

How lower and topmast stays and shrouds are to be set up.

He shall not allow any lower or topmast stays or shrouds to be set up otherwise than by lanyards rove through hearts or dead-eyes, properly fitted to the stays and shrouds, or by screws of sufficient length to allow the stay or shroud to be set up after it shall have been spliced or knotted.

ARTICLE 13.

Ships' company to be mustered before going to sea. Muster roll to be kept and forwarded to the Secretary of the Navy.

He will cause the ship's company to be mustered just before proceeding to sea, and thereafter as often at least as once a fortnight; and he is strictly to observe the law which requires him to cause an accurate list or muster roll of all the persons belonging to the vessel under his command to be kept, and that it embraces all the information directed by the law, and that such list or muster roll is forwarded to the Secretary of the Navy immediately before the ship proceeds to sea, after first receiving her crew, and at the prescribed intervals thereafter.

CHAPTER X.

COMMANDER OF A STEAM VESSEL.

ARTICLE 1.

To use diligence to acquaint himself with the construction of engines.

When an officer shall be appointed to the command of a steam vessel he is, in addition to the duties required from captains of sailing

vessels, to use all possible diligence to make himself acquainted with the principles and construction of the engines; the uses and effects of the various parts of the machinery; the period at which the engines were constructed, and of any extensive repairs which they may have undergone; the time when the last repairs were made, and when the vessel last received new boilers.

ARTICLE 2.

To ascertain the usual daily consumption of coals.

He is carefully to inform himself of the usual daily consumption of coals, and to obtain all other information which may increase his knowledge of the history and capabilities, and the most economical and efficient use of the engines and their appendages.

ARTICLE 3.

To guard against spontaneous combustion.

To prevent accidents by spontaneous combustion, he is to order the greatest care to be observed that the coals are not taken on board when wet, and that when on board they be kept as dry as possible. When a fresh supply is received, he is to direct that those remaining in the coal bunkers be, as far as practicable, so stowed as to be used first.

ARTICLE 4.

Cleanliness and ventilation to be secured.

As cleanliness and complete ventilation are of the greatest importance, he is to take care that every possible means be taken to insure that the air may circulate freely, and, if possible, that room be left for a man to get down upon the keelson to clear the timbers of all offensive matters which may accumulate.

ARTICLE 5.

Before leaving port to take on board all spare gear and to land none.

He is, before leaving the port where the vessel was fitted, to take on board all the spare gear belonging to the engines and machinery; and he is to land no part of it at any port where he may touch, without the written authority of the commanding officer of the station, or of the commander of the squadron to which he belongs.

ARTICLE 6.

He will allow firemen time to remove incrustations and deposits.

He is to allow the necessary time for the firemen to remove the incrustation and deposits which may have formed in the flues, chimneys, and boilers, as frequently as may be necessary or proper.

ARTICLE 7.

To make repeated trials of the best means of using steam, of the amount of coals required, &c.

Immediately on going to sea, he is, by careful and repeated trials, under various circumstances of weather and roughness of sea, to ascertain the best means of using steam to secure the greatest average speed relatively to the coal consumed, and also the attainment of any given distance, with the most economical expenditure of coals in either case; and also what amount of coals may be required to steam, under ordinary circumstances, to any given port, upon the supposition that the steam is worked without being cut off, or when cut off, at one-quarter, one-third, one-half, or three-quarters of the stroke of the piston.

ARTICLE 8.

Not to use steam except.

He is not to use steam in any case where the sails will enable him to perform the service in which he is engaged, without material delay.

ARTICLE 9.

To report the number of hours the vessel was under steam.

Whenever he joins his commanding officer after separation, or when he arrives at any port where there is a superior officer in command, he shall report the number of hours the vessel was under steam and under sail, and the circumstances which rendered the use of steam necessary, and he will be held accountable for any unnecessary expenditure of coal.

ARTICLE 10.

Precautions when a steam vessel is met.

When steam vessels meet on different courses (under steam,) which must unavoidably or necessarily cross so near that, by continuing their courses there would be a risk of collision, each is to put her helm to *port*, so as to pass the other on the port side.

ARTICLE 11.

Precautions when passing a steam vessel.

When passing another steam vessel in the same direction, and in a narrow channel, he must, if there is room, always leave the vessel he is passing on the port hand.

ARTICLE 12.

Precautions when meeting a sailing vessel.

With regard to sailing vessels, he is to bear in mind that ships on a wind are directed to keep their wind on the starboard tack, and he will therefore be careful so to act as to keep out of their way.

ARTICLE 13.

Lanterns to be kept in good order.

He shall take care that the proper lanterns, to prevent collision at sea, be kept in good order and always lighted at night.

ARTICLE 14.

Examination of engines, &c., when the steamer arrives in port.

Upon the arrival of a steamer in port, the senior officer present will direct an examination of the engines, boilers, and their dependencies, by a captain or commander and two senior engineers, and a report made of the defects, and whether they are such as cannot be made good by the engineers and artificers on board.

ARTICLE 15.

Proposed alterations not to be entered in list of defects.

No proposed alterations or additions to the machinery are to be inserted in the lists of defects, as on those points separate special applications must be made to the proper authorities.

ARTICLE 16.

Boilers to be filled with *fresh* water before going to sea.

When practicable he shall, before going to sea, cause the boilers to be filled with *fresh* water.

ARTICLE 17.

Repairs of engines to be made by engineers.

When repairs or cleaning are required for the engines or boilers, they are to be made, as far as practicable, by the engineers, firemen and coal-heavers of the vessel.

ARTICLE 18.

Force-pumps to be kept in order.

The force-pumps, hose and all other means for extinguishing fires must always be kept in order and ready for immediate use, and so

reported at the end of each watch, by the senior engineer on duty; and the utmost care must be taken, at all times, in the stowage of stores, the use of lights and fires, and the adoption of other precautionary measures to prevent danger from fire.

ARTICLE 19.

Bilge-pumps not to be used on ordinary occasions.

The bilge-pumps are not to be used on ordinary occasions, but are to be kept in good order, ready for use, and worked only sufficiently often to secure their efficiency at all times.

ARTICLE 20.

Steam-log.

A steam-log is always to be kept when the vessel is moved by steam, which log is to be signed in the column of "Remarks," by the senior engineer of the watch at the expiration of each watch, and at noon of each day by the senior engineer of the vessel.

ARTICLE 21.

Steam-log to be handed to commander daily.

The steam-log is to be handed to the commander of the vessel daily by the senior engineer on board; and it shall be the duty of the said commander to examine the same, and, when satisfied of its correctness, to sign it at the end of every calendar month, or oftener, should the vessel in the meantime arrive at or anchor in any port.

ARTICLE 22.

Steam-log to be transmitted to the Bureau of Construction, &c.

The commander of the vessel must transmit to the Bureau of Construction, &c., by the first safe opportunity after the close of the months of March, June, September, and December, a fair copy of the steam-log book for the preceding quarter, and, whenever a steamer is placed in ordinary, for the period which has not been previously transmitted.

ARTICLE 23.

Steam engineers to conform to orders.

He will require the steam engineers, when embarked, to conform to the orders of the officer of the watch for the time being; but they are not, except in cases of great emergency, to be ordered to perform other duties than those immediately connected with the preservation, repair, management or supplying of the engines and their dependencies.

ARTICLE 24.

Engineers to be arranged in watches.

He will cause the engineers, firemen and coal-heavers to be arranged in watches, and when on watch they are to be under the immediate direction of the senior engineer of the watch, and are not to be ordered on other duties than those connected with the engines, boilers and their dependencies, except in cases of emergency, and then the engineer on duty is to be informed that he may adopt all necessary precautions.

ARTICLE 25.

Senior engineer to prepare and submit station bills.

He will cause the senior engineer to prepare and submit for his approval station bills, showing the specific duties of the respective engineers, firemen, and coal-heavers in their watches, for attending to and for cleaning the different parts of the engines and their dependencies; and require him to give particular attention that the prescribed duties are performed in a proper manner, and, in case of misconduct or neglect, to report offenders to the officer of the watch, to the executive officer, or to the commander of the vessel, as the case may require.

ARTICLE 26.

Senior engineer to make daily inspection of the engines.

He will direct the senior engineer on board to examine daily the engines and their dependencies, and all parts of the vessel which are occupied by them, or by stores for their use, and to report them to the executive officer for inspection; to make immediate report, should any defect or danger be discovered; to give timely notice to the commander of the vessel of the probable wants of his department, and, whenever articles are received for it, to carefully examine if they are of proper quality, and report any which, in his opinion, may be objectionable.

ARTICLE 27.

Oat meal to be supplied for firemen and coal-heavers.

A supply of oat meal shall be put on board of steamers for the use of the firemen and coal-heavers, to be issued without charge to them, in such quantities and at such times as the commanding officer of the ship may direct.

ARTICLE 28.

Air below to be rarified when fires have not been lighted for a considerable period.

Where from any cause the fires of the engines may not have been lighted for a considerable period he will, to rarify the air below, cause the fires to be temporarily started, or well ignited charcoal in hand furnaces to be distributed in appropriate places, in the care of trusty persons.

CHAPTER XI.

EXECUTIVE OFFICER.

ARTICLE 1.

Who shall be executive officer.

The officer entitled to exercise general military command next in rank to the commander of the vessel, is to be considered the executive officer.

ARTICLE 2.

He shall have general superintendence.

He shall, under the direction of the commander, have the superintendence of the general duties to be performed, and of the police, to such extent as the commander may authorize or prescribe.

ARTICLE 3.

He shall have quarter, watch, and station bills made out.

He shall take care that the quarter, watch, and station bills are made out and kept complete, according to the orders which he may receive from the commander, and that copies of them, and of the internal regulations, are so disposed that all persons may readily refer to them for information.

ARTICLE 4.

He will examine ship dally.

He shall examine the ship daily, and report to the commander when she is ready for his inspection.

ARTICLE 5.

He shall require reports from the master, boatswain, gunner, carpenter, and sailmaker.

He shall require from the master, boatswain, gunner, carpenter, and sailmaker, reports of the state of the vessel in their respective departments, at the setting of the watch in the evening, and at eight o'clock in the morning.

ARTICLE 6.

He shall report the condition of the vessel in the evening.

He shall at the setting of the watch in the evening, report the condition of the vessel to the commander, and receive any orders he may have for him.

ARTICLE 7.

Have control of expenditure of stores.

He shall, under the direction of the commander, control the expenditure of all stores, (surgeon's, paymaster's, marine officer's, and engineer's excepted,) and examine weekly the reports of receipts and expenditures; and upon being satisfied of their correctness, will approve the reports and hand them to the commander.

ARTICLE 8.

He will require vigilance and conformity to orders.

He shall require vigilance from the officers of the deck; and that they and all other officers perform their duties in strict conformity with any orders that may be given for securing uniformity in the mode of carrying them into execution.

ARTICLE 9.

He shall have charge of the deck, when.

He shall have charge of the deck when the ship is getting under way or coming to anchor, or when all hands are called for any special exercise or to perform particular duties, unless the commander shall otherwise direct.

ARTICLE 10.

He shall report defects or deficiencies.

He shall immediately report to the commander any defect or deficiency which he may discover, and that may in any manner endanger the safety or impair the efficiency of the vessel.

REPORT OF THE

ARTICLE 11.

Shall have charge of cistern and store-room keys.

He shall have charge of the keys of the cistern and of the store-room.

ARTICLE 12.

Never to absent himself from the vessel, except.

He shall never absent himself from the vessel without the previous approbation of his commanding officer.

ARTICLE 13.

Not required to keep watch, unless.

He shall not be required to keep a watch unless the number of officers on board and fit for duty, who are authorized to take charge of a watch, shall be less than three.

ARTICLE 14.

He may advise the officer of the deck, when.

When the captain is not on deck, he may advise the officer of the deck in the working and management of the ship; and if, in his judgment, circumstances should make it necessary, he may take charge of the deck. But the presence of the captain or of the executive officer on deck is not to be considered as relieving the officer of the watch from any of his responsibility.

ARTICLE 15.

He shall inform himself of the capacity of each man on board.

He shall take pains to inform himself of the capacity of each man on board, and of the stations they may have previously filled, that he may station them to the best advantage.

ARTICLE 16.

His duty in case of fire.

In case of fire, or any other calamity which may place the ship in danger, he is to exert himself to maintain order; and if it should become necessary to abandon the vessel, he is, under the direction of the captain, to see that the sick and wounded are first cared for.

ARTICLE 17.

Shall attend when magazine is opened.

He shall personally attend whenever the magazine is opened for receiving or moving powder, and see that all the prescribed precautions against accidents are observed.

ARTICLE 18.

Must know when persons leave or return to the ship.

No person is to leave or return to the ship without his knowledge.

ARTICLE 19.

To act when the captain is absent.

In the absence of the captain he is to act in his stead, but is not to alter or change any of his regulations.

ARTICLE 20.

To correct abuses and report violations of laws.

He is to correct, as far as his power extends, all abuses; and if he observes or has knowledge of any violation of the laws or regulations for the government of the navy on the part of any person whomsoever, he is not to exercise any discretion in the matter, but to make immediate report to his commander.

ARTICLE 21.

When a boat leaves the ship at sea, to be provided with a compass.

If it shall be necessary to send a boat from the ship at sea, he shall be careful that she is provided with a compass.

ARTICLE 22.

Quarter boats—how to be prepared for sending from ship at sea.

He shall keep a breaker of water on board of each quarter boat at sea, and have a supply of provisions at hand sufficient for the support of the crew for one week, which will be placed in the boat whenever there is a probability of separation from the ship by fog or otherwise.

CHAPTER XII.

SECTION 1.

LIEUTENANTS.

ARTICLE 1.

To be attentive to duty and obedient to orders.

A lieutenant is to be attentive to his duties, and to obey with promptitude the orders which he may receive from his superiors.

ARTICLE 2.

To conform to the practice and words of command of the executive officer.

He shall conform as nearly as possible to the practice and words of command of the executive officer in the performance of his duties, when there is no particular regulation upon the subject.

ARTICLE 3.

Shall carry an order book when called on board flag ship to receive orders.

When called on board the ship of the commander of the fleet or squadron by signal, or when he shall be sent on board to receive orders, he is to take with him an order book, and insert therein the orders which he may receive.

ARTICLE 4.

To be attentive to the men of his division.

He is to be particularly attentive to the men belonging to his division at quarters, and give personal attention to the examination of their clothing at the stated periods which the captain may direct, and report to him upon their wants.

ARTICLE 5.

To have charge of a boat.

He shall have charge of one of the boats to be designated by the executive officer, and shall be responsible that it is kept properly equipped for service of all kinds.

SECTION 2.

WATCH OFFICERS.

ARTICLE 1.

His duties when in charge of the watch.

When an officer has charge of the watch, he is not to leave the deck until regularly relieved. He is to see that the officers and men are alert and attentive to their duty; that every precaution is taken to prevent accidents; that the ship is properly steered, the sails properly set and trimmed, and the log regularly hove; the proper lookouts placed, and all necessary remarks duly entered upon the log-slate, which he shall examine and sign at the expiration of his watch.

ARTICLE 2.

He will sign the log-book.

After the occurrences of the day shall have been copied into the log-book, he will sign the remarks of the different watches when he had charge of the deck.

ARTICLE 3.

Shall give information to the captain.

He shall inform the captain of all strange sails that are seen, the making of land, all appearances of danger, all signals that are made, all changes in the sails or movements of the ship of the commander of the fleet or squadron, and of all other circumstances which may alter the relative position of the vessels of the fleet or squadron or prevent the ship from steering the course ordered.

ARTICLE 4.

He is not to change the ship's course, nor to alter sails, except.

He is never to change the course ordered, nor increase or diminish the sails of the vessel, without authority of the captain, except to avoid some imminent danger, in which case he will give him immediate information.

ARTICLE 5.

To direct an officer to look out for signals.

He is to direct some careful officer to look out for signals, particularly from the commander of the fleet or squadron; but he is not to hoist the answering pendant until he is certain that he sees the signal distinctly, and understands its signification.

REPORT OF THE

ARTICLE 6.

To make no signals, except.

He is not to make any signal without orders from his commander, unless to warn vessels of some danger; but he will see that everything is in readiness to make them, by day or by night.

ARTICLE 7.

He will inform his relief of all unexecuted orders.

He is to be very particular to inform the officer who relieves him of all orders and signals which remain to be executed, of the position of the commander of the fleet or squadron, and give him all such other information as may be necessary or serviceable to him in keeping the vessel in her proper station, or for her safety.

ARTICLE 8.

His duty when boats are alongside the ship.

No boat is to be allowed to leave the ship or come alongside without the knowledge of the officer of the watch. When boats or tenders come alongside with provisions, water, or stores of any kind, he is to see them cleared without delay, and that all articles which may be ordered to be sent out of the vessel are carefully and properly put on board the vessel or boats which are directed to receive them.

ARTICLE 9.

No boat to remain alongside without a boatkeeper.

He is to allow no boat to remain alongside without a boatkeeper, and two or more, if the weather should make it necessary.

ARTICLE 10.

To take account of stores received on board and sent from vessel.

He shall take care that a strict and accurate account is taken of all stores received on board or sent from the vessel during his watch, and see that those which are received are delivered in charge of the proper officer, and that the number or quantity received or sent from the vessel is correctly entered upon the log-slate.

ARTICLE 11.

Crews of boats to be properly clothed; men belonging to boats cannot exchange.

When boats leave the ship, he shall be particular to see that they have their proper crews, suitably clothed, and that no man not belonging to a boat shall take the place of one who does, without the authority of the executive officer.

ARTICLE 12.

Not to enter into conversation.

He is not to enter into conversation with any one, except on business relating to his immediate duties.

ARTICLE 13.

When a strange sail is seen at night during war.

If, *during war*, a strange vessel be seen in the night, he is to send an officer to inform the captain, and to make such immediate preparation for action as circumstances may admit.

ARTICLE 14.

Uniform of the officer of the watch.

While he is in charge of the deck in port during the day, he shall be in uniform, with epaulets; and at night, or in bad weather, or in climates where such dress would be oppressive, he shall wear some distinctive marks of his rank.

ARTICLE 15.

Officers and others coming to or leaving the ship shall receive proper respect.

He shall give his attention that all officers or others coming on board or leaving the ship shall receive the marks of respect to which they are entitled.

ARTICLE 16.

When offences are committed by day or night.

If any offence is committed by any petty officer or person of inferior rating during his watch, he is, during the day, to report the offender at once to the executive officer; if during the night, he may order him to be confined, and make his report in the morning.

ARTICLE 17.

He will preserve decorum on the quarter-deck.

He will be responsible for the preservation of decorum on the quarter-deck; suppressing all loud talking, and preventing lounging about the ports; and generally any violation on deck of the orders for the police of the ship.

CHAPTER XIII.

MASTER.

ARTICLE 1.

He will superintend the stowage, &c., of the vessel.

The master, or the officer appointed to perform his duties, will, if ordered to a vessel before her stowage is commenced, superintend, under the direction of the commanding officer of the yard, or commander of the vessel, as circumstances may require, the stowing of the ballast, water, provisions, and all other articles, in the hold and spirit room.

ARTICLE 2.

Oldest provisions to be so stowed as to be first issued.

In stowing provisions he shall take care that the oldest be stowed so that they may be first issued; breaking out and restowing those already on board, if necessary for that purpose, unless otherwise directed.

ARTICLE 3.

Entries to be made in log-book in regard to stowage.

When the stowage of the hold shall be completed, an entry must be made in the log-book, specifying particularly the quantity and arrangement of the ballast, the number, size, and disposition of the tanks and casks, and of the quantity and stowage of provisions and other stores.

ARTICLE 4.

Plans of the stowage of the hold to be made.

Accurate plans must be made of the stowage of the hold, showing the disposition of all the articles, which must be inserted in the first page of the log-book; and if any material change should afterwards be made in the stowage, the change must be noted, and new plans be inserted in the log-book.

ARTICLE 5.

Plans of stowage to be furnished commander of vessel.

If the stowage of the hold is made under the direction of the commandant of the yard, the commander of the vessel is to be furnished with the plans and descriptions.

ARTICLE 6.

Plans of stowage to be furnished commandant of yard.

If made at a navy yard but under the direction of the commanding officer of the vessel, he will furnish the commanding officer of the yard with them, that they may be inserted in the diary of the yard.

ARTICLE 7.

He will visit hold and cable tiers frequently.

The master is to visit the hold daily, and cable tiers and chain lockers very frequently, and see that they are kept in as good order as circumstances will admit.

ARTICLE 8.

He will have charge of hold and spirit-room keys.

He is to have charge of the keys of the hold and spirit room, and shall only deliver them to a commission or warrant officer.

ARTICLE 9.

He will see that the cables are secured and protected from injury.

He is, under the direction of the commanding or executive officer, to see that the cables are at all times properly secured and protected from injuries; that the tiers are kept clear; and that all necessary arrangements are made for anchoring, mooring, unmooring, or getting under way with the greatest facility and despatch.

ARTICLE 10.

He will examine chain cables, &c.

He will, when directed, examine the chain cables, and particularly the shackles and shackle-pins, to see that they can be readily removed, in case it should be necessary to ship the cable, or shift parts from one cable to another.

ARTICLE 11.

He will see that the rigging, &c., is in good order.

He is, in the same manner, to see that the standing and running rigging and the sails of the vessel are at all times in good order, protected from injury, and ready for service, and to report all such as may require alteration or repairs; and he will always attend in person to setting up the rigging.

ARTICLE 12.

He will prevent waste of fuel and water, and report expenditure of each.

He is to be particularly careful to prevent any waste or improper expenditure of fuel or water; and he is to report daily, when at sea, to the captain the quantity of each, except the fuel in charge of the engineer, expended in the last twenty-four hours, and the quantity remaining on hand.

ARTICLE 13.

His duty when approaching land or shoals.

When the vessel shall be approaching any land or shoals, or entering any port or harbor, he shall be very attentive to the soundings; and he shall at all times inform the commander of any danger to which he may think the vessel exposed, whether under charge of a pilot or not.

ARTICLE 14.

He will examine charts and note errors.

He shall examine the charts of all coasts which the vessel may visit, and note upon them any errors which he may discover, and inform the commanding officer of the same, who shall transmit them to the Navy Department.

ARTICLE 15.

He will examine compasses, time-glasses, &c.

He shall frequently examine the compasses, time-glasses, log and lead lines, and keep them in proper order for service.

ARTICLE 16.

He will report ship's place at meridian, and bearing of nearest headland.

He shall ascertain, and report daily to the commanding officer the ship's place at meridian, and at any other time which the commanding officer may direct the variation of the compass, and the bearing and distance of the nearest headland, or of any danger that may be near.

ARTICLE 17.

He will have charge of all nautical books, charts, flags, &c.

He is to have charge of, and must account for, all nautical books, instruments, charts, national flags and signals.

ARTICLE 18.

He will have charge of the keeping of the log-book ; his duties in reference to the same.

He shall have charge of keeping the ship's log-book, and shall see that all particulars are duly entered in it, according to such forms as are or may be prescribed; and he shall, immediately after such entries, send it to the watch officers, that they may sign their names at the end of the remarks in their respective watches, while the circumstances are fresh in their memories; and he shall take it to the commanding officer for his inspection immediately after noon of each day.

ARTICLE 19.

Log-book. Entries to be made therein.

There shall be entered on the log-slate and log-book, with minute exactness, the following particulars:

1. The name and rank or rating of all persons who may join or be discharged from the vessel, the names of all passengers, with times of coming on board and leaving, the direction of the wind, state of the weather, courses steered, and distances sailed; the time when any particular evolution, exercise, or other service was performed; the signal number of all signals made; the time when, by what vessel, and to what vessel they were made; nature and extent of public punishments inflicted, with the name and crime of the offender; the result of all observations made to find the ship's place, and all dangers discovered in navigation.

2. The groundings of the ship, and the loss of or serious injury to boats, spars, sails, rigging, and stores of any kind, with the circumstances under which they happened, and the extent of the injury received.

3. A particular account of all packages of stores received, with their marks, contents, or quantities, from whom received, or by whom furnished, and the department for which they were received.

4. A particular account of all stores condemned by survey, or converted to any other purpose than that for which they were originally intended.

5. A particular account of all stores lent or otherwise sent out of the vessel, and by what authority it was done.

6. All the marks and numbers of every cask or bale which, on being opened, is found to contain less than is specified by the invoice or than it ought to contain, with the deficiency found.

7. Every alteration made in the allowance of provisions, and by whose order.

8. The employment of any hired vessel, her dimensions in tonnage, the name of the master or owner, the number of her crew, how or for what purpose employed, by whose order, and the reasons for her employment.

9. The draught of water of the vessel when light, as furnished from the navy yard, and always before going to sea, and upon arriving in port, fore and aft; and the height of the forward part of the forward port-sills, after part of after port-sills, and of the midship port-sills from the water; and the rake of the respective masts in every ten feet, with reference to the water-line at the time.

ARTICLE 20.

After the log is signed, no alteration is to be made, except.

After the log has been signed by the officers of the watches no alteration shall be made therein except to correct some error or supply some omission, and then only with the approbation of the commanding officer, and the recollection of the officer who had charge of the watch in which the alteration or addition is proposed, who will sign the same, if satisfied of its correctness.

ARTICLE 21.

A fair copy of the log-book will be transmitted to the Navy Department.

The master shall deliver to the commanding officer of the vessel, signed by himself, and, after careful comparison, certified to be correct, a fair copy of the log-book, every six months, to be transmitted by the first safe opportunity to the Navy Department.

ARTICLE 22.

Log-book, how disposed of.

The original log-book shall be kept by the vessel until she is paid off, when it shall be placed in charge of the commanding officer of the yard, and by him transmitted to the Navy Department.

ARTICLE 23.

Remark-book.—Particulars relating to navigation, which he will note.—Latitude.—Longitude.—Variation of compass.—High water.—Tides.—Winds.—Wet and dry seasons.—Hurricane seasons.—Temperature of chronometer room.—Latitude and longitude of places.—To obtain lunar distances.—He will note the variation of the compass.—Local attraction to be determined.—He will ascertain particulars respecting currents and tides.—He will describe appearance of foreign coasts and landmarks.—He will sound and survey, and project the results.—To note inaccuracies in charts.—Captain to examine remark-book.—A copy thereof and of all charts, plans, and views, to be forwarded to the department.

Besides the log-book, he is to keep a remark-book, in which all the hydrographical information he can obtain is to be carefully inserted, as well as a description of the instruments he may employ in any of the observations hereafter mentioned.

He is to determine as accurately as he can the various particulars

relating to navigation of every place which the vessel may visit, entering the results in his remark-book, under the following heads:

1. Latitude.
2. Longitude.
3. Variation of the compass.
4. Time of high water, immediately following new and full moon.
5. Rise and fall of the tides at springs and neaps.
6. Prevailing winds.
7. Periods of the year at which the wet and dry seasons prevail, if any.
8. Seasons at which hurricanes prevail.
9. The temperature of the chronometer room at the time observations are taken.

The particular spot at the place visited, to which the latitude and longitude refer, is to be carefully noted; also the number and nature of the observations, and the means by which they were made, whether the artificial or sea horizon was used; and with reference to the longitude, if obtained with chronometers by means of meridian distances from another place, he is to state the number employed, their general character, the age of the rates used, or the interval since which they were last rated, with the longitude he has assumed of the place measured from.

He is not to lose any opportunity of obtaining lunar distances, both with the view of determining the longitude the ship may be in at sea, as well as serving as a salutary comparison with his chronometers, either at sea or in harbor.

He is to observe the variation of the compass by amplitudes or azimuths, at least once every day, whether at sea or in port, excepting only when refitting in harbor. The azimuth compass is to be always placed, when practicable, in the same precise situation amidships, marking the point where each of the tripod legs stands; and he is to take care that the direction of the ship's head at the time of observation shall be recorded as well as the difference between the standard or azimuth and the steering compasses, by which precaution alone can the real course of the ship be regulated. These variations are to be daily inserted in columns at the end of his remark-book, along with the ship's place and the direction of her head at the time of observation.

The local attraction is to be determined before the ship leaves the United States, as well as after any material change of latitude, and is then to be tabulated by him for every point of the compass, so that the corrections on each course may be readily applied in working the ship's reckoning.

In all places he is to ascertain the direction and velocity of the currents, the set and strength of the tides, with the limits of their rise and fall, and the time of high water of the tide which immediately follows the periods of the new and full moons. He is to describe as particularly as he can the appearances of foreign coasts, pointing out the remarkable objects by which they may be distinguished, so as to render a stranger certain of recognizing his land fall.

He is to apply to the captain, whenever the service will admit of it, for boats to sound and survey any shoals or harbors which have not been correctly laid down in the charts, and the results are to be projected on a large and intelligible scale.

In his remark-book he is carefully to note all inaccuracies in any of the charts supplied to the ship.

He is frequently to present this remark-book to the captain for examination; and on the first of January, in every year, he is to deliver to him a correct copy of it, accompanied by all the charts, plans, and views of the coasts and head lands, which he has made during the past year; all which the captain will transmit by the first safe opportunity to his commander-in-chief to be forwarded to the department.

ARTICLE 24.

He will not keep watch, unless.

He shall not be required to keep watch, except in cases of necessity, and then only by order of the commander of the vessel.

ARTICLE 25.

All vessels to be furnished with a skeleton chart.

Every vessel before sailing shall be furnished with a skeleton chart embracing her probable cruising ground, on which shall be laid down her track and daily run during the whole time of her absence; which chart shall be transmitted to the Navy Department at the end of the cruise.

ARTICLE 26.

In case of removal or suspension he will deliver log-book to his successor.

Should the master be removed or suspended, he shall sign the log-book and deliver it to his successor, taking his receipt for the same, and for all other articles under his charge, and shall deliver to his commander a fair copy of the remark-book, made up to the day of his removal or suspension.

CHAPTER XIV.

PASSED MIDSHIPMEN.

ARTICLE 1.

Attention, zeal, and diligence, enjoined.

Passed midshipmen will be attentive and zealous in the discharge of their various duties, and diligently carry into effect the several orders they may receive from their superiors.

ARTICLE 2.

To require punctuality in those under them.

They are to require all subordinate officers and those under them to perform their duties with punctuality.

ARTICLE 3.

Instruments and books with which they will supply themselves.

They are to provide themselves each with a sextant, some work on navigation containing the necessary nautical tables, the Nautical Almanac, and some approved work on marine surveying.

ARTICLE 4.

Daily observations.

They are to make daily observations for ascertaining the position of the vessel at sea and send the result to the captain.

ARTICLE 5.

Journal.

They shall keep journals in which shall be inserted important occurrences on board and all observations made by them, their remarks relative to ports or anchorages, and everything worthy of record, or that may be useful to navigators, and are to show this journal to the commander whenever he may require them to do so.

ARTICLE 6.

They are to be preferred for more responsible duties

They are to be preferred to midshipmen who have not passed their examination for the more responsible duties; but they are nevertheless to perform whatever duties pertaining to that class of officers may be assigned to them.

CHAPTER XV.**MIDSHIPMEN.**

ARTICLE 1.

They shall keep themselves provided with uniforms and instruments.

Midshipmen shall keep themselves provided with complete full and undress uniforms, with all equipments, a sextant or octant, Bowditch's or some other approved treatise upon navigation, some approved treatise on marine surveying, and blank journals.

ARTICLE 2.

They will ascertain daily the position of the ship.

They are daily to ascertain the position of the ship when at sea, by observations, when practicable, and send the same to their commanding officer.

ARTICLE 3.

They will keep journals.

They are to keep journals in such form as may be prescribed, which they will present to the commanding officer for inspection on the first day of every month ; and they will at all times embrace every opportunity of acquiring useful information which may be applicable to their profession as seamen and officers.

ARTICLE 4.

They will attend to the means of instruction provided for them.

Whenever it shall be required of them by their commanding officer, they shall attend regularly to the means of instruction which may be provided for them.

ARTICLE 5.

They are not to absent themselves from the ship, except.

They are not to have permission to absent themselves from the ship unless their journals are kept up, and they have copies of the watch, quarter, and station bills, and of the separate quarter bills for their divisions made out for use, and shall give proper attention to their duties.

CHAPTER XVI.

BOATSWAIN, GUNNER, CARPENTER, AND SAILMAKER.

SECTION 1.

ARTICLE 1.

They and the yeoman will examine all articles and stores for their departments and report.

They must, with the yeoman, carefully examine all the articles belonging to, and all stores received for, their respective departments, and see that they are of good quality, that they agree in quantity with the invoice or bill sent with them, and that they are in good order ; and must make immediate report to the commanding or executive officer, or officer of the watch, of any defect or deficiency which they may discover.

ARTICLE 2.

Their responsibility in regard to articles not in actual use.

They are to be responsible for all articles not in actual use *in their respective departments* which are not in the immediate charge of the yeoman, and are to carefully examine all articles which are in use, and report if any additional means are required for their proper preservation.

ARTICLE 3.

They shall conform to dimensions of articles as prescribed.

They shall conform strictly to the length, dimensions, or quantity of articles which may be prescribed by general regulations, in all their expenditures, unless expressly ordered to vary from them, which order they must preserve as a voucher.

ARTICLE 4.

Surveys upon stores injured, &c.

They shall request a survey upon all stores which may be injured, or become unfit for service, in their respective departments; and such as the surveying officers condemn shall be expended, preserving a copy of the survey as a voucher; but if the survey shall direct articles to be converted to some other use, they shall be charged accordingly, and expended in the same manner as any other stores.

ARTICLE 5.

They will be watchful and report neglect or misconduct in the yeoman.

They shall be particularly watchful, and make immediate report to the commanding or executive officer of any neglect or misconduct which they may discover in the yeoman or person having charge of their stores.

ARTICLE 6.

Their duties when a ship is about to be dismantled.

When a ship is about to be dismantled, they are to be careful that all the articles belonging to their respective departments are properly secured and tallied, with their name and quantity, whether "serviceable," "requiring repairs," or "unserviceable," and that all precautions are taken to prevent their being in any manner injured. They will only receive credit according to the receipt given for them by the navy storekeeper or other person into whose charge they may be delivered, or according to the report of the surveying officers, duly appointed; and they will attend the survey which may be made to

ascertain the quantity of stores so returned by them, and will be called upon to account for any deficiency that may be found to exist.

ARTICLE 7.

Reports to executive officer.

The boatswain, gunner, carpenter, and sailmaker are to report daily at 8 a. m., and at 8 p. m., to the executive officer the state of all things in their respective departments.

SECTION 2.

BOATSWAIN.

ARTICLE 1.

Attendance upon deck.

He is to be frequently upon deck in the day, and at all times both by day and night when any duty shall require all hands being employed. He is, with his mates, to see that the men go quickly upon deck when called, and that when there they perform their duty with alacrity.

ARTICLE 2.

To examine rigging.

He is, every day, before 8 a. m., and as much oftener as may be desirable, according to the service the ship is employed on, to examine the state of the rigging, to ascertain whether any part be chafed or likely to give way, and to report to the officer of the watch the state in which he finds it. He is, at all times, to be careful that the anchors, booms, and boats be properly secured; and he is to be very attentive to have ready at all times a sufficient number of mats, plats, nippers, points, and gaskets, that no delay or inconvenience may be experienced when they are wanted.

ARTICLE 3.

Working up junk.

He is to be very attentive in observing, in the working up of junk, that every part of it is converted to such purposes as may be ordered.

ARTICLE 4.

Preparation for battle.

When the ship is preparing for battle he is to be very particular in seeing that everything necessary for repairing the rigging is in its proper place, that the men stationed to that service may know where to find immediately whatever may be wanted.

ARTICLE 5.

On paying off.

When the ship is ordered to be paid off he is to be very attentive to prevent any of the rigging being damaged or cut. He is to see every part of it properly tallied and stopped together for returning into store.

SECTION 3.

GUNNER.

ARTICLE 1.

Charge of anchor and life buoys.

Besides the duties assigned to the gunner in the "Ordnance Regulations," he is to have charge of the anchor buoys and life buoys, to see that they are at all times in good order, and the latter ready to be dropped into the water at a moment's warning.

ARTICLE 2.

Charge of lower rigging and main yard rigging

He will have charge of the main lower rigging and the rigging on the main yard, and will report their condition at the prescribed hours to the executive officer.

ARTICLE 3.

Charge of small arms.

He is to see that the muskets and other small arms are kept clean, in good order, and proper repair.

ARTICLE 4.

Report of expenditure of powder, &c.

He is to report to the master, for entry in the log-book, after an action, or after an exercise in which powder and shot, or either, is used, the quantity of each expended, and is to sign the entry in attestation of its correctness.

SECTION 4.

CARPENTER.

ARTICLE 1.

Masts and yards to be examined daily.

When the vessel is at sea he is every day, before 8 a. m., and as much oftener as may be desirable, according to the service the ship is

employed on, to examine into the state of the masts and yards, and to report to the officer of the watch when he discovers any of them to be sprung, or in any way defective.

ARTICLE 2.

Lower deck ports to be examined.

In ships of two or more decks he is frequently to examine the lower deck ports, to see that they are properly lined; and when they are barred in he and his mates are frequently to see that they are all properly secured.

ARTICLE 3.

Pumps to be kept in good order.

He is to be particularly careful in keeping the pumps in good order, always having at hand whatever may be necessary to repair them.

ARTICLE 4.

Boats, ladders, and gratings.

He is to keep the boats, ladders, and gratings in as good condition as possible, always repairing every damage they may sustain as soon as he discovers it.

ARTICLE 5.

Shot plugs for stopping shot holes.

He is to keep always ready, for immediate use, shot plugs and every other article necessary for stopping shot holes and repairing other damage in battle.

ARTICLE 6.

List of defects to be prepared on going into port.

When the ship is going into port he is to prepare as correct an account as possible of the defects of the hull, masts, and yards of the ship, and the repairs she may stand in need of.

ARTICLE 7.

Caulking of ship's sides and decks.

He is to have a caulker's gang, and see that the sides and decks of the ship are frequently examined, and, if necessary, caulked, particularly in those parts where the seams are most likely to be opened by the working of the ship.

SECTION 5.

SAILMAKER.

ARTICLE 1.

To examine sails when received on board.

He is to examine the sails carefully when they are received on board, and to report to the executive officer if he discovers any defect in them.

ARTICLE 2.

To see that sails are dry.

He is to examine very carefully whether they be perfectly dry when they are put into the sail room.

ARTICLE 3.

To keep sails tallied and stowed away.

He is to keep all the sails correctly tallied, and so stowed in the sail room as to enable him to find easily any that may be wanted.

ARTICLE 4.

To inspect the sails.

He is to inspect frequently the sails in the sail room, to see that they are not injured by leaks or vermin.

ARTICLE 5.

When sails are landed.

When sails are landed he is to see that they are dry, properly made up, and tallied.

CHAPTER XVII.

CHIEF ENGINEER.

ARTICLE 1.

He will make himself acquainted with engines and appurtenances, and see that they are in proper order.

The chief engineer, on being appointed to a ship, will make himself acquainted with all the parts of the machinery, boilers, coal bunkers,

and store-rooms ; he will examine carefully to see that all parts of the machinery and everything appertaining to it is in proper order, and report to the commanding officer anything that is defective.

ARTICLE 2.

He will cause the assistant engineers to acquaint themselves with all parts of the engine.

He will cause the assistant engineers, on their joining the vessel, to become familiar with all the cocks, valves, pipes, and the different parts of the machinery and boilers, more particularly those which come immediately under their supervision.

ARTICLE 3.

He will see that his stores are sufficient and well stored away.

He will see that he has the requisite amount of stores, of good quality, on board, and that they are stored away in good condition.

ARTICLE 4.

He will make out station bills for the engineer department.

He will make out the watch, station, quarter, fire, and cleaning bills for the engineer department, assigning to each person his proper station and duty, and submit the same to the captain of the vessel for his approval and signature ; which bills shall then be hung up in some conspicuous place, where all persons in the department may refer to them.

ARTICLE 5.

Reports that he will make.

He will report to the captain any accident or defect that may occur to the machinery, boilers, or their dependencies, and at meridian of each day report the quantity of coals consumed, the revolutions made by the engines, and the average revolutions per minute for the last twenty-four hours ; also, the quantity of coal remaining on hand, and if at any time in his judgment the machinery is driven too hard, or undue strain put upon any of its parts by stress of weather, motion, or position of the vessel, he will report the same to the captain, noting such report and the causes for it in the steam-log.

ARTICLE 6.

Account of expenditure of coals, stores, &c.

He will keep a strict account of and be responsible for the expenditure of the coals, stores, duplicate pieces, and all articles in the engineer department which come under his control. He will examine each day's log and expenditure, and approve them by his signature.

ARTICLE 7.

He will have the control of the men in his department.

He will have the general control of the men in his department, subject to the order of the commander and the internal regulations of the vessel.

ARTICLE 8.

He will control their going on shore.

He will regulate, under the control of the commander, the permission of the men belonging to his department to go on shore.

ARTICLE 9.

He will inspect his department daily, and see that all persons in it do their duty.

He will inspect in person, at least once in twenty-four hours, all parts of his department so far as can be done, and will see that all persons attend to their duties properly, that the water in the boilers is carried to the proper density, and that the coals and other stores are used to the best possible advantage.

ARTICLE 10.

He will encourage the assistant engineers to improve themselves.

He shall offer every facility and encourage in every possible way his assistant engineers to improve themselves in their profession; and at the end of a cruise, or on their leaving the ship, will give each a letter, stating his department and character and his qualifications as an engineer.

ARTICLE 11.

Examination of the quantity of coal in bunkers.

He will examine the bunkers each time the ship arrives in port, or oftener, to see if the amount of coals corresponds with the log, and if any discrepancy appears, he will report the same immediately to the captain, and note it in the log.

ARTICLE 12.

He will commence cleaning and repairing on discontinuance of steaming.

On the arrival of the ship in port, or on the discontinuance of steaming at sea, he will at once commence cleaning and repairing, with the assistant engineers, firemen, and coalheavers.

ARTICLE 13.

Engineer watches.

He will cause an engineer watch to be kept constantly in the engine room when the ship is in commission, and not less than two watches of engineers must at all times be on board.

ARTICLE 14.

In the absence of the chief engineer.

When there is no chief engineer on board, the duties assigned to him will devolve on the senior assistant engineer.

ARTICLE 15.

Duty in reference to steam-log.

The engineer of the watch will be careful to note hourly, on the steam-log, all the information which the columns in it require, and to place in the column of "remarks" full information of the state of the weather and sea, and all accidents to, or defects in, the engines or their dependencies, the quantity of the coal, or other circumstances which may be useful for determining the powers and qualities of the vessel and the engines, under the various circumstances to which they may be exposed. He will carefully note in it the draught of water of the vessel, and immersion of the bucket-boards, just before going to sea and on arriving in port, and frequently when receiving coal and other stores.

ARTICLE 16.

One engineer to be always on duty in engine-room.

The chief engineer and the two assistants next in rank to him are never to be out of the ship at the same time, and one engineer is at all times to be on duty in the engine-room.

ARTICLE 17.

When engines are working, hourly reports to be made to the officer of the deck.

When the engines are in operation, reports are to be made hourly to the officer of the deck whether the engines and their dependencies are in good order; and immediate notice must be given him at any time if anything should occur to require a change in the orders under which the engineer is then acting, or special attention to any particular object, to insure safety or more efficiency.

ARTICLE 18.

Firemen are to be instructed.

The firemen are to be instructed, as far as may be practicable, to qualify them for managing the engines and dependencies with safety, in case accident or other causes should prevent the attendance of the engineer.

CHAPTER XVIII.

FLEET SURGEON.

ARTICLE 1.

Duties of a fleet surgeon.

The fleet surgeon is to have a general supervision over all medical officers of the squadron to which he may be attached, and he will report to the commander-in-chief any neglect of duty that may come under his notice. He is charged with receiving and forwarding (through the prescribed channel) all communications and reports from medical officers for the Bureau of Medicine and Surgery, and with the examination and approval of all requisitions and bills for the medical department, and procuring supplies from the depots or naval storekeepers abroad, and with purchasing them when the required supplies cannot be otherwise obtained.

ARTICLE 2.

To co-operate with the Chief of the Bureau of Medicine and Surgery.

The fleet surgeon is expected to co-operate with the Chief of the Bureau of Medicine and Surgery, by close attention to the duties of his own office and to those placed under his supervision, and to secure proper economy and promptness and punctuality in making and forwarding reports and returns.

ARTICLE 3.

Prevention of disease.

He will suggest to the commander-in-chief, for his consideration, proper measures for preventing or checking disease, or for promoting the comfort of the sick or wounded.

ARTICLE 4.

He will specify vessels whose crews are least fit for active service.

He will, when required by the commander-in-chief, specify those vessels which may appear, from the state of the health of the crews least fit for active service, or requiring change of climate or diet.

ARTICLE 5.

Persons unfit for the cruise, and deteriorated articles to be reported.

He will report to the commanding officer such officers and persons of inferior ratings as he may deem unfit for the cruise, with a view to a survey on them; and when out of the United States, such articles as in his opinion have deteriorated, and with the approval of the commanding officer he will detail the medical officers for surveys.

ARTICLE 6.

Journal of daily practice.

He will keep a journal of daily practice, according to such form as may be prescribed by the Bureau of Medicine and Surgery; inspect the like journals of the other surgeons of the fleet, and make such suggestions to the surgeon in charge as he may deem proper.

ARTICLE 7.

Note-book.

He will keep a *note-book* in addition to his journal, in such form as the Chief of the Bureau of Medicine and Surgery may prescribe, in which he will record such matters of interest as may come under his notice in relation to climate, diseases, medical statistics, and any other professional matter.

ARTICLE 8.

Disposition of journal and note-book.

His journal and note-book, with those of the other surgeons, will be transmitted to the department at such periods as the Secretary of the Navy may direct through the prescribed channels.

CHAPTER XIX.

SURGEON.

ARTICLE 1.

He will take charge of all medicines, &c.

A surgeon will, on joining a vessel, navy yard, or hospital, for duty, take charge of and receipt for all medicines, surgical instruments, and hospital stores.

ARTICLE 2.

He will conform to regulations and allowances of medicines.

He will conform to the regulations, and to such allowances of medicines, instruments, and stores as may be established by the Bureau of Medicine and Surgery, when making requisitions, unless there should be some special cause for varying from them, when such cause must be stated upon the requisition.

ARTICLE 3.

Account of receipts and expenditures.

He will keep a regular account of receipts and expenditures in his department, according to such forms as may be prescribed by the Bureau of Medicine and Surgery, and when on sea duty will make quarterly reports of hospital stores expended and on hand to his commanding officer.

ARTICLE 4.

He will be allowed a store-room.

He will be allowed, to his exclusive use, a convenient store-room for the preservation of articles in his charge.

ARTICLE 5.

He will be attentive to cleanliness and supply of medicines.

He will be attentive to the cleanliness of the sick, their bedding and the sick bay, and will take special care that the sick are supplied at proper times with the medicine and food their condition may require.

ARTICLE 6.

Hospital stores instead of rations to sick.

When necessary to subsist any sick person, he will inform the paymaster, that the ration may be stopped, and the amount be carried to the credit of the proper fund. (Ambiguous; see act approved March 3, 1851. Navy Register, page 124.)

ARTICLE 7.

Daily report to commanding officer.

He will report to the commanding officer, daily, the names and condition of the sick, according to such forms as may be prescribed; and will, at the same time, suggest any measures he may deem important for the health of the crew.

ARTICLE 8.

Binnacle list.

He will cause to be deposited daily, in the binnacle, a list of the officers and other persons whose condition requires that they should be excused from duty, or whose allowance of spirits is temporarily stopped.

ARTICLE 9.

Infectious diseases.

He will take all possible precautions to prevent the introduction or progress of any infectious disease, and make immediate report to the commander of any probable danger from, or the appearance of, any such disease.

ARTICLE 10.

Examination of the men when they join the vessel.

He is carefully to examine the crew as soon as practicable after joining the ship, for the purpose of reporting to the commanding officer any necessity that may exist for vaccination, which, if possible, is to be performed before the sailing of the vessel.

ARTICLE 11.

Persons to assist in preparing food for the sick.

He will, upon application to the commanding officer, be allowed proper persons to assist in the preparation of articles for the nourishment of the sick, and to perform other services for their comfort.

ARTICLE 12.

To be prepared to relieve wounded.

He is at all times to have in readiness everything necessary for the relief of the wounded.

ARTICLE 13.

Tourniquets to be distributed prior to an engagement.

On the probability of an engagement he will cause a sufficient number of tourniquets to be distributed to the officers, in different parts of the ship, and see that all persons stationed with him, and such others as may be designated, are instructed in the proper mode of using them.

ARTICLE 14.

Sick sent to hospital.

When practicable, sick persons who may be sent to a hospital, or hospital vessel, are to be accompanied by a medical officer, and the surgeon will send with them a statement of their diseases or injuries, with a synopsis of treatment, according to such forms as may be prescribed by the Bureau of Medicine and Surgery.

ARTICLE 15.

Examination of articles in bumboats.

He will cause the boats attending the ship with articles of food for sale to be examined, and if any contain articles the use of which would, in his opinion, be injurious to the crew, he will represent the same to the commanding officer.

ARTICLE 16.

Journal of daily practice.

He will keep a journal of his daily practice according to such form as may be prescribed by the Bureau of Medicine and Surgery. The journal to be subject, if required, to the inspection of the commanding officer and the surgeon of the fleet, and to be forwarded, as directed for correspondence and other reports, for deposit with the chief of the Bureau of Medicine and Surgery, through the proper channels.

ARTICLE 17.

Note book.

He shall, in addition to a journal of daily practice, keep a note book similar to that prescribed in article 7 of chapter XVIII, and forward it as provided for in article 8 of the same chapter.

ARTICLE 18.

Return of the articles in his charge when the ship is placed in ordinary.

When the ship is placed in ordinary he will return into the proper store all articles remaining in his charge, and will be held strictly accountable for any deficiency or injury that may not be satisfactorily accounted for.

ARTICLE 19.

Reports and surveys on persons who receive wounds that may entitle them to pensions.

Whenever any person on board shall receive any wound or injury which may probably entitle him to make application for a pension, the surgeon shall report the same to the commander, in writing, be-

fore the person be removed or discharged from the vessel, that a proper survey may be held, and certificate issued, according to such form as may be prescribed by the Pension Office.

ARTICLE 20.

Persons left in hospital.

When petty officers or persons of inferior rating are left in a hospital after the sailing of the vessel from which they were sent, the surgeon of the hospital must report to the commander of the station whenever any of them are in a situation to justify their removal, that they may be sent to some other vessel or discharged.

ARTICLE 21.

Reports on persons in hospital who are convalescent.

If any petty officer or person of inferior rating shall not have so far recovered as to justify his removal from the hospital when his time of service shall have expired, or if the injuries or disease of any person sent to the hospital will, in the opinion of the surgeon, prove incurable or produce long-continued inability to perform duty, the surgeon must immediately report such cases to the commander of the station, making a particular statement of all the facts and circumstances connected with each case within his knowledge, that they may be transmitted to the Secretary of the Navy for his decision.

CHAPTER XX.

PASSED AND OTHER ASSISTANT SURGEONS.

ARTICLE 1.

They shall see that medicines are properly prepared.

Assistant surgeons, whether passed or otherwise, shall attend personally to see that medicines are properly weighed or measured and labelled for distribution to the sick.

Extract from the journal, under date of September 29, 1857.

“ An amendment to article 1 was offered, as follows :

“ ‘ That the words ‘ and when there is no passed or other assistant surgeon, then the surgeon’ be inserted between the words ‘ otherwise’ and ‘ shall,’ in the first [second] line.’

“ A vote upon the amendment being taken, it resulted as follows :

“ *Ayes*—Commodore Shubrick, Lieutenant Colonel Harris, Commander Lardner.

“ *Noes*—Purser DeBrec, Lieutenant Maury, Surgeon Maxwell.

“ The vote being a tie, the question was decided in the negative.”

ARTICLE 2.

They shall perform the duties assigned to them, and conform to orders.

They shall perform all the professional duties which may be required from them, and conform to the instructions which may be given by the surgeon of the vessel, navy yard, or hospital, to which they may be attached ; and will be unremitting in their attentions to the comfort and cleanliness of the sick, and exact from those under their direction a rigid performance of their duties.

ARTICLE 3.

The oldest passed or other assistant surgeon will perform the duties of surgeon.

In the absence of the surgeon, the passed or other assistant surgeon oldest in commission is to perform all the duties of the surgeon.

CHAPTER XXI.

PAYMASTER.

ARTICLE 1.

He will make requisitions.

The paymaster will make requisitions for money, and for such articles of provisions, clothing, and small stores as may be needed ; but such requisitions are at all times to be subject to the approval of the commanding officer of the vessel, and the revision and approval of the senior officer present in command.

ARTICLE 2.

Approval of requisitions.

Where a paymaster shall present a requisition for money for the approval of his commanding officer, or such commanding officer shall direct a paymaster to prepare a requisition for his approval, the paymaster shall present a statement of the amount of public money then in his possession ; and the commanding officer shall not direct or approve a requisition for a larger sum than may appear to be necessary for the public interests, in addition to such unexpended balance as may then be reported in the hands of the paymaster.

ARTICLE 3.

He will furnish the approving officer with a written statement of amount in his hands.

If the requisition of a paymaster shall require the approval of any officer superior to his immediate commanding officer, it is hereby made

the duty of such superior officer to require of the commanding officer of the vessel or navy yard to which the paymaster belongs to furnish such superior officer with a written statement of the amount of money reported to be in the hands of the paymaster, and to specify the particular objects for which the money then required may be intended or wanted, and the amount under each head of appropriation.

ARTICLE 4.

When he has received or paid over public moneys without previous sanction.

In all cases where a paymaster shall have received, or shall have been duly authorized or directed to pay over any public money without the previous knowledge or sanction of his immediate commanding officer, it shall be the duty of such paymaster to report forthwith to his commanding officer the amount of such receipt or payment, and the authority under which it was received or paid.

ARTICLE 5.

No money in his charge is to be paid away without authority therefor.

No money which may be placed in charge of a paymaster by order of, or authority from, his commanding or other superior officer, or of the Treasury or Navy Department, is to be used or paid away by him without the sanction or approval of his immediate commanding officer or the commander of the squadron or station to which he belongs, or of the Fourth Auditor, or the Second Comptroller of the Treasury, or of the Secretary of the Navy.

ARTICLE 6.

Suitable store-rooms to be prepared for his stores.

Suitable and sufficient store-rooms shall be prepared for the safe-keeping of the clothing and small stores in the paymaster's department before they are received on board; and said rooms shall not be diverted to any other use or purpose, nor shall any other articles than those in charge of and receipted for by the paymaster be put in them, except by the written order of the commanding officer, which shall state the reasons. The keys of such rooms will be kept by the paymaster, or under his responsibility.

ARTICLE 7.

No paymaster's stores to be sent from the vessel without an order.

Provisions or any other articles for which the paymaster is responsible are not to be sent out of the vessel without an order in writing to him from the commanding officer, that proper account and receipts may be taken.

ARTICLE 8.

No articles stowed in spirit room or hold to be stowed elsewhere, unless.

No articles in the paymaster's department which may be stowed in the spirit-room or hold are to be removed for stowage in other places without the knowledge of the paymaster and the order of the commanding officer.

ARTICLE 9.

He shall report articles of improper quality.

The paymaster shall report to the commanding officer any articles which may be received in his department that he may think of improper quality, deficient in quantity, or requiring additional means for their preservation.

ARTICLE 10.

When an officer joins his ship, he will furnish the paymaster with a copy of his orders.

Every officer, on joining a ship, navy yard, or station, shall furnish the paymaster with a copy of his orders, with a certificate attached stating the day he left his domicile to obey the order, or the day on which he accepted the order, and the day he reported for duty, that he may be properly entered on the muster and pay roll, the paymaster being required to produce such orders, or copies thereof, and certificates, on the settlement of his accounts at the Treasury Department.

ARTICLE 11.

He shall be informed of all resignations, dismissals, &c.

The paymaster shall be duly informed by his commanding officer of the resignation, dismissal, discharge, transfer, desertion, death, or change in the rating or pay of any person who is or may be borne upon the muster-roll of the ship.

ARTICLE 12.

The paymaster is to be notified when any person is to be discharged, &c.

When a person is to be discharged, or transferred from one ship or station to another, due notice is to be given to the paymaster, so that time may be had for the settlement and approval of such person's account.

ARTICLE 13.

He will be furnished with a list of the names and the number of the messes of the men.

When men are received on board, the paymaster shall be furnished by the executive officer with a list of the names and the number of

the messes among which they may be distributed. Messes will not be reconstructed oftener than once a month, and the paymaster is to be furnished with a list of any changes in time to enable him to regulate the distribution of provisions.

ARTICLE 14.

Accounts of men transferred.

The accounts of men transferred will be made out, in conformity to the regulations of the Treasury Department, on pay-rolls, in duplicate, if numerous, or in transfer accounts in triplicate, if few, as may be most convenient; and the said pay-rolls or transfer accounts must accompany the men. These rolls or accounts, duly approved, are to be sent by the paymaster making the transfer directly to the paymaster of the vessel, navy yard, or station, to which the transfer is made; and the paymaster who receives them, after comparing the rolls and transfer accounts so sent to him, receipt one copy and return it to the paymaster who made the transfer, as a voucher for the settlement of his accounts.

ARTICLE 15.

He may nominate ship's steward.

The paymaster may nominate the ship's steward, subject to the approbation of his commanding officer.

ARTICLE 16.

Iron chests, &c., shall be furnished him.

Iron chests and other conveniences shall be furnished for the safe-keeping of the public money, books, and papers of account.

ARTICLE 17.

Bills or accounts.

One copy of all bills or accounts is to be left with the officer who approves the same to be transmitted to the department; but duplicates or triplicates of all such bills or accounts, after their approval by the proper officers and payment by the paymaster, are to be left in the possession of the paymaster making the payment, as they are necessary vouchers for the settlement of his accounts and for the safety of his sureties.

ARTICLE 18.

Issues of money, clothing, and small stores.

~~The paymaster will only issue clothing and small stores and money to petty officers and persons of inferior ratings in such quantities and at such times as shall be directed in writing by the commanding officer; and all~~

issues which shall be made shall be *received* for or certified to at the time, in the presence of a commission or warrant officer, and the receipts be witnessed or certified by him. Monthly issues of clothing, will be made upon clothes or division lists, made out in a neat and careful manner by the officers of the different divisions, and of small stores on mess bills, made out by the different messes, which are to be approved by the commanding officer.

ARTICLE 19.

When he purchases clothing on a foreign station.

Whenever it shall be absolutely necessary upon foreign stations to purchase clothing, the articles shall be as nearly as possible of the same kind and quality as those furnished by the United States; and no more shall be purchased than shall be sufficient to meet the existing exigency.

ARTICLE 20.

When articles shall be packed in bales, packages, or casks, they shall be opened in the presence of an officer.

When articles shall be furnished packed in bales, packages, or casks, for preservation, which cannot be opened without injury, they need not be opened to ascertain their contents, but the paymaster will receipt for them according to their marks. And whenever they shall be opened, it shall be in the presence of an officer, and their contents then compared with the invoice, and, if found to vary from it, a survey shall be held to authenticate the facts.

ARTICLE 21.

Articles condemned by survey.

Articles of clothing which shall be found damaged by regular survey may be valued by the surveying officers, and issued in the same manner as other clothing, at the reduced prices fixed by the surveying officers. Clothing which shall be condemned by survey as unfit for use shall not be thrown overboard without a written order due from the senior officer in command of the place, but must be turned into some public store.

ARTICLE 22.

No change to be made in allowance of provisions, except.

There shall be no change in the daily allowance of provisions, except by the written order of the commanding officer.

ARTICLE 23.

No one to draw more than his allowance of ration.

No person shall be allowed to draw more than the established allowance of any particular part of the ration, nor to have any preference in the distribution of the rations.

ARTICLE 24.

Persons may relinquish spirit part of ration, provided.

Every person entitled to a ration may relinquish the spirit part of it for a period of not less than three months, unless sooner detached. And persons not having three months to serve may relinquish it for the unexpired portion of their time. And the commander of a squadron or of a single ship, acting independently, may direct the paymaster to pay the established value of the same in money to the men at such times as the law directs.

ARTICLE 25.

Rations that messes may relinquish.

The messes of the ship's company may, with the approbation of the commanding officer, relinquish one complete ration in any mess of eight, and two in messes of more than eight and not less than fourteen persons, for not less than three months, unless sooner detached, or unless their terms of service should expire in less than three months; and they may receive the established value in money from the paymaster when in port, at such times (not oftener than once a month) as the commander of the squadron, or the commander of a vessel, acting independently, may direct.

ARTICLE 26.

Persons in debt to be paid no money, except.

No money shall be paid to any person in debt to the United States, except for stopped spirits or rations.

ARTICLE 27.

He shall not pay to administrators, unless.

No paymaster shall pay over to any administrator or executor any balance of wages which may be due to any person deceased without orders from the proper accounting officers of the treasury.

ARTICLE 28.

Reports of expenditures.

The paymaster shall make monthly reports to his commanding officer of all expenditure of provisions, and quarterly reports of the expenditures of money, clothing, and small stores in his department, and of the quantity of each kind remaining on board, and the length of time for which there is a supply.

ARTICLE 29.

Bills of exchange.

Bills of exchange must be drawn and negotiated in conformity with such instructions as the Secretary of the Navy may give upon the subject.

ARTICLE 30.

Quarterly reports of expiration of men's service.

He shall report quarterly, or oftener if required, to the commanding officer of the vessel, the expiration of service of the men which will occur in each subsequent month in each rating, giving the number only in each rating.—(See form No. 13.)

ARTICLE 31.

He shall take charge of dead men's effects.

He shall take charge of the clothes and effects of all deceased persons belonging to the vessel, and of all persons who may desert or be reported as absent without leave. When directed by the commanding officer of the vessel, he shall sell at public auction the clothes and effects of persons marked "R" on the ship's books, or who shall have died indebted to the United States. He shall sell, in like manner, the clothes and effects of those who may die not indebted to the United States, or preserve them for their legal representatives, as the commanding officer may direct, having due regard to the interests and circumstances of the parties.

ARTICLE 32.

His books and accounts to be kept as directed.

He shall keep his books and accounts, and make reports and returns in relation to them to the Fourth Auditor of the Treasury, and to the Chief of the Bureau of Provisions and Clothing, as they may respectively direct or require.

ARTICLE 33.

Officers may draw portion of rations under certain circumstances.

On foreign service, when the stores on hand will admit of it being done without an undue reduction of any article, officers' messes may be permitted to draw from the public stores, at contract prices, such articles as bear exorbitant prices in the market where they may be, provided such article is for their own use on board ship.

CHAPTER XXII.

CHAPLAIN.

ARTICLE 1.

Respect to the chaplain.

All officers are required to treat the chaplain with the respect due to his holy office, and to afford him every proper facility for the discharge of his sacred duties.

ARTICLE 2.

He will be attentive to the performance of his duties.

He is to be attentive to perform with due solemnity the duties of the Lord's Day, that the ship's company may be impressed with devotion, and he will carefully adapt his discourses to the capacity of the majority of his hearers, that his instructions may be intelligible and beneficial to them.

ARTICLE 3.

To perform divine service when required.

He will perform divine and funeral service when required to do so by his commanding officer.

ARTICLE 4.

He will be attentive to the requests of persons requiring his attendance.

He shall be very attentive to the requests of all sick persons who may desire his attendance, and shall, although not requested, visit all such as may be dangerously ill, and offer such consolations as they may require.

ARTICLE 5.

Religious instruction of boys, &c.

He is to instruct in the principles of the Christian religion the boys and such other persons as the captain may put under his care.

ARTICLE 6.

Instruction of the boys in the elementary branches of education.

He will apply to the captain to direct some intelligent and well-disposed person of the crew to instruct, under his directions, the boys of the ship in reading, writing, and the first rules of arithmetic, and will examine the boys often, and will report to the captain those whom he may find diligent and well disposed, that they may be rewarded.

ARTICLE 7.

Chaplain's reports.

He will make to the commander of the ship a report on the first of January, April, July, and October, of the duties performed by him in the previous three months, and a condensed report at the end of the cruise.

CHAPTER XXIII.

PROFESSOR OF MATHEMATICS.

ARTICLE 1.

He will give his attendance when required, and instruct midshipmen and others.

The professor of mathematics is to give his attendance regularly at such times as shall be directed by his commanding officer, and to instruct the midshipmen and others who may be directed to attend, and report weekly to the commanding officer the attendance which they may give and the proficiency they may make.

ARTICLE 2.

He will report quarterly.

He shall present to his commanding officer, made up to the last days of March, June, September, and December, reports of the attendance and proficiency of those whom he has instructed, for transmission to the Secretary of the Navy.

REPORT OF THE
CHAPTER XXIV.

MASTER-AT-ARMS.

ARTICLE 1.

He will see orders about lights, &c., enforced, and report improprieties.

The master-at-arms is to see the orders respecting lights and fires duly executed, and report improprieties committed by the men below.

ARTICLE 2.

He will examine all craft alongside.

He, or the ship's corporal, is to examine all lighters, craft, and boats that come to the vessel, and see that no improper articles are brought on board or taken from the ship, and that none of the crew leave in them without proper authority.

ARTICLE 3.

He will report prisoners.

He shall report daily, in writing, to the commanding officer, the name and offence of every person confined, by whose order, and the number of days he has been confined.

ARTICLE 4.

Charge of clothing.

He shall take charge of the clothing and effects of deserters, dead men, and liberty men, and proper means and facilities will be afforded him for the taking care of them.

ARTICLE 5.

Ship's corporal to be subordinate to him.

The ship's corporal is to be subordinate to, and to assist the master-at-arms; and when there is no master-at-arms, he is to perform the duties of master-at-arms.

CHAPTER XXV.

YEOMAN.

ARTICLE 1.

He will receipt and be responsible for stores.

The yeoman shall receipt and be responsible for all *stores* in the boatswain's, carpenter's, and sail-maker's departments, and for all stores in the gunner's department, ammunition and armament excepted.

ARTICLE 2.

He will take precautions against fire, &c.

He shall see that all the regulations respecting lights in the store-room are strictly observed, and that every precaution is taken to guard against fire or other accidents; and must never suffer any wines, spirituous liquors, or private stores of any kind to be kept in the store-room without written orders to that effect from the commander.

ARTICLE 3.

The accounts he shall keep shall be according to forms prescribed

He shall keep regular accounts, according to the forms which are or may be prescribed, of all receipts, expenditures, conversions, or transfers of stores in the respective departments, specifying the time and place, and the person from whom the articles were received, and to whom and for what purpose they were delivered, and, if converted to other purposes than those for which they were received, by whose order.

ARTICLE 4.

His accounts shall be presented weekly to the executive officer.

He shall present his accounts of receipts and expenditures weekly to the executive officer of the vessel for his examination, who shall, if he finds them correct, certify the same, and hand them to the commander, who will regulate his monthly entries in his expense books from them.

ARTICLE 5.

His abstract expense books shall be presented to commanding officer.

He shall exhibit his abstract expense books to the commanding officer within the first week of each month, that he may cause the same to be compared with his own, and if found correct, the commander shall approve the same, as a voucher for the yeoman's accounts.

ARTICLE 6.

His duties when a vessel is paid off or placed in ordinary.

He shall, when a ship is to be paid off or placed in ordinary, present to the commander his expense books, to be returned into the navy store, and an abstract statement of the total quantities of the respective articles which may have been received and expended in each year during the cruise, and which may then remain on hand, or have been returned into store, as shown by his expense books; and the commander shall forward the same to the proper bureaus of the Navy Department, and shall state whether the quantities reported by the yeoman's expense books correspond with the quantities actually on hand or returned into store, as ascertained by survey; and if there should be any difference, he will note the same, and, if in his power, will state the probable cause of such difference.

ARTICLE 7.

One-quarter of his salary to be retained, except.

Unless ordered by the Secretary of the Navy, the yeoman shall not receive more than three-fourths of his pay until the stores in his charge shall have been examined and found correct.

CHAPTER XXVI.

COOK.

ARTICLE 1.

He is responsible for fresh meat in his charge. Meat must be tallied.

The cook is to be responsible for the safe keeping and proper distribution of the fresh water, meat, and vegetables which may be delivered into his charge. He is to receive no meat unless it is properly tallied.

ARTICLE 2.

Rations to be properly cooked.

He is to have the rations of the ship's company properly cooked, and delivered to the cooks of the messes at such times as may be directed by the commanding officer.

ARTICLE 3.

Boilers, &c., to be kept clean; shall preserve order.

He is to see that the boilers and cooking utensils are kept perfectly clean, and shall preserve order and silence about the galley, and report offenders.

ARTICLE 4.

To allow no unauthorized cooking.

He shall see that the cooks who are authorized to be at the galley or range do no cooking except for the officers or others entitled to have cooking done at those places, and will immediately report to the executive officer any cooks whom he may detect in doing or permitting such cooking to be done.

CHAPTER XXVII.

PETTY OFFICERS AND PERSONS OF INFERIOR RATINGS.

ARTICLE 1.

They shall set a good example to their inferiors.

Petty officers are required to show to persons of inferior ratings a good example of cleanliness, subordination, zeal, and alacrity.

ARTICLE 2.

They shall aid in maintaining order and discipline.

Petty officers will aid their superiors to the utmost of their ability in maintaining order and discipline.

ARTICLE 3.

To be distributed among the messes.

Petty officers will be distributed equally, as far as may be, among the messes, and the senior petty officer in any mess will be held responsible for the orderly conduct and cleanliness of the mess. They will be excused from serving as *mess books*.

ARTICLE 4.

Every admissible indulgence will be allowed them, except.

Petty officers will be allowed every indulgence that the duties of the ship and the nature of the service will admit of, unless the claim for such indulgence should be forfeited by improper conduct.

ARTICLE 5.

Badge to be worn for honorable discharges.

Every petty officer or person of inferior rating who shall receive an "honorable discharge" will wear upon the left sleeve of the jacket

or frock, above the elbow, a foul anchor, two and a half inches in length, to be white if worn on blue, or blue if worn on white, to be called the "honorable discharge badge;" and for every additional honorable discharge a star half an inch in diameter will be added to the badge.

ARTICLE 6.

Maintenance at naval asylum.

A petty officer or person of inferior rating who has served for twenty years or more, with honorable discharge at the termination of each enlistment, shall be entitled to maintenance in the naval asylum for the remainder of his life, provided his conduct conforms to the regulations of the establishment; or he may receive an allowance of — dollars per month in lieu of such provision, holding himself in readiness to perform such service as the Navy Department may require of him, provided that when he receives pay for such services the allowance of — dollars shall cease during the time that he receives such pay.

ARTICLE 7.

Boys in messes to be berthed by themselves.

The boys will be distributed amongst the messes, but shall be berthed by themselves, under the charge of the schoolmaster or one of the petty officers.

ARTICLE 8.

Education of boys.

Boys shall receive every encouragement to learn the duties of seamen and to improve themselves in the elementary branches of education.

CHAPTER XXVIII.

MARINES.

MARINES WHEN IN VESSELS.

ARTICLE 1.

When a vessel is put in commission a guard to be sent on board.

When a vessel is to be put in commission the Secretary of the Navy will give the necessary instructions to the commandant of the marines to have the proper number of officers and marines prepared to go on board.

ARTICLE 2.

Commanding marine officer to be notified when the vessel is ready for their reception.

When a vessel is ready for the reception of the marines, the commanding officer of the station will notify the commanding marine officer, whose duty it shall be to have sent to the designated place of embarkation the detachment which may have been previously ordered for such vessel.

ARTICLE 3.

They are to be entered separately on ship's books.

When marines are received on board a vessel they are to be entered separately on her books as part of the complement, or as supernumeraries, as the case may require, and are to be, in all respects, upon the same footing as the seamen with regard to provisions and short allowances.

ARTICLE 4.

Senior marine officer will report daily in writing.

The senior marine officer shall report daily, in writing, to the commander of the vessel the state of the guard.

ARTICLE 5.

Locker for uniforms, &c.

A convenient locker shall be built, with shelves and pins arranged as a fixture on the berth deck, for the marines, where they may keep their uniform caps, pompons, belts, &c.

ARTICLE 6.

Not to be diverted from appropriate duties, except.

They are not to be diverted from their appropriate duties, or called upon to coal ship or work as mechanics, except in case of emergency.

ARTICLE 7.

A musket-rack to be constructed.

A musket-rack shall be constructed against the cabin bulk-head, or other appropriate place, with a canvas screen to protect the muskets from the salt air and spray while at sea, where the arms will be in the most suitable place in case of any emergency.

ARTICLE 8.

They may be furnished with slop clothing.

They may be furnished by the paymaster with slop clothing and small stores when the commanding marine officer shall certify that they require them, and the commander of the vessel approves the issue.

ARTICLE 9.

Commanding marine officer to have charge of arms.

The commanding marine officer is to have charge of, and he will be accountable for, the arms, accoutrements, and clothing belonging to the marines, and he will be careful to have the whole preserved in the best possible manner. He will report any injury that may result to them from the neglect or misconduct of any person, that the amount may be recovered from him.

ARTICLE 10.

Officer to be allowed a store-room.

The marine officer will be allowed the exclusive use of a store-room, for the preservation of the clothing, accoutrements, and other articles belonging to the marines.

ARTICLE 11.

Detachments will be accompanied by one commissioned officer.

A detachment of marines, on joining a vessel-of-war for sea service, will always be accompanied by at least one of the commissioned officers who are attached to it.

ARTICLE 12.

They are to be frequently exercised.

They are to be frequently exercised by their own officers. A suitable place on deck will be assigned for that purpose, upon the application of the senior marine officer, when the other duties of the ship and the weather will, in the opinion of the commanding officer, permit.

ARTICLE 13.

Marines serving at great guns.

As occasions may arise when it may become necessary to employ marines at the great guns, they shall be instructed as full gun's crews

by their own officers, and may also be assigned as parts of ordinary gun's crews under other officers of divisions. But the commanding officer will be careful not so to assign marines, except in cases of necessity.

ARTICLE 14.

When not on guard they are subject to orders of sea officers.

When not on guard, or on duty as sentinels, they are to be subject to the orders of the sea officers, in the same manner as the seamen.

ARTICLE 15.

General and special orders.

All "general orders" to sentinels shall pass through the marine officer. The sentinels on the spar-deck may receive "special orders" from the officer of the deck when an emergency may require it.

ARTICLE 16.

Reports of misbehavior to whom made.

Any misbehavior of the marines on guard duty or on duty as sentinels is to be reported to the officer of the deck, and by him made known to the senior marine officer on board, who will report the same to the commanding officer of the vessel for his decision.

ARTICLE 17.

No officer of inferior relative rank shall give orders to a marine officer.

No officer of the navy of inferior relative rank shall give orders to a marine officer, unless such navy officer be at the time in command of the ship.

ARTICLE 18.

Detachments of marines and sailors, who shall command.

When detachments of sailors and marines are landed from a squadron or ship, the senior officer in rank shall command.

ARTICLE 19.

A navy officer who has succeeded to command shall be entitled to command all detachments of sailors and marines from his ship.

If a navy officer, who has succeeded to the command of a vessel, in consequence of the death or removal in any way of her commander, shall find it necessary to land with a detachment of seamen and marines from the ship under his command, his command shall continue as if on board.

ARTICLE 20.

Precedence at courts martial, &c.

At courts martial, courts of inquiry, boards of officers, and upon all occasions of ceremony, the relative lineal rank between the officers of the navy and the marine corps shall be the same as now is, or may hereafter be established between the army and navy.

ARTICLE 21.

Commanding marine officer to attend to the comfort, &c., of his men.

The commanding marine officer will be particularly attentive to the comfort and cleanliness of his men, as well as their soldier-like appearance and efficiency. He will inspect the clothing at least once a month, and report to the commanding officer of the ship in case of any loss or abuse.

ARTICLE 22.

He will have charge of arm chest.

The commanding marine officer shall have charge of the arm chest intended for the use of the detachment.

ARTICLE 23.

Repairs of arms and accoutrements.

If repairs of the arms and accoutrements become necessary, the marine officer will apply to the commanding or executive officer of the ship for such assistance as can be afforded.

ARTICLE 24.

Non-commissioned officers may be reduced and promoted.

The marine officer, with the approval of the commander of the ship, may reduce non-commissioned officers and make promotions to supply vacancies.

ARTICLE 25.

Accounts that senior marine officer shall keep, and disposal thereof.

Such accounts are to be kept by the senior marine officer as may be directed or required by the commandant of the marine corps; and such reports and returns as he may require are to be forwarded through the senior marine officer, as directed in chapter on "Correspondence and Reports."

ARTICLE 26.

One officer shall be on board at all times, except.

When there shall be more than one marine officer attached to a vessel, one shall at all times be on board for duty, unless upon very particular occasions, to be judged of by the commanding officer of the vessel.

ARTICLE 27.

They shall remain on board until the vessel is turned over to officers of the yard.

On the return of a vessel from a foreign station, the marine officer, with the guard, shall remain on board until all the officers, seamen, &c., are detached, and the ship regularly turned over to the officers of the navy yard where they may arrive.

ARTICLE 28.

Liberty on shore.

He will regulate, under the control of the commander of the vessel, the permission of the marines to go on shore.

CHAPTER XXIX.**OFFICER OF DETAIL.**

ARTICLE 1.

Officer of the rank of captain to be attached to the Navy Department as officer of detail.

There shall be attached to the Navy Department an officer of the rank of captain, whose duty it shall be, under the direction and control of the Secretary of the Navy, to attend to the detail of officers for service.

ARTICLE 2.

He will keep a register of the service of officers.

He will prepare and keep up a register of all officers of the navy, showing the time that each officer has served, and in what grades, the time in each grade, the station on which the service was performed, the class of vessel, and the nature of the service.

ARTICLE 3.

He will submit to Secretary of the Navy a list of officers for a vessel preparing for sea.

When a vessel is ordered to be prepared for service, the detail officer shall submit to the Secretary of the Navy a list of officers for her, according to the complement table.

ARTICLE 4.

He will equalize the service of officers.

He will be careful in making his detail to equalize, as much as may be consistent with the requirements of the public interests, the service officers on different stations and in the several classes of vessels.

ARTICLE 5.

Record that he shall keep. —Applications. —Declining service. —Returning before completion of service. —Charges or complaints. —Leaving a service before its completion. —Facts or information useful to the Department.

He will keep an exact record of the services of each officer of the navy, showing :

1st. His applications for service.

2d. If at any time he shall have declined service, his assigned reasons for doing so.

3d. If he shall have returned from foreign service before the completion of a cruise, his reasons therefor.

4th. If charges have been preferred, or complaints at any time made against him, the disposition made of such charges or complaints, and the results.

5th. If, having commenced any service, either in the United States or abroad, he shall leave said service before its completion, the manner of and reasons for his so doing.

6th. Any other facts which will aid the department in forming a correct opinion of the availability of the officer.

 CHAPTER XXX.

GENERAL MUSTER-BOOK.

ARTICLE 1.

Muster-book.

Every person on board any United States vessel-of-war, who receives either wages or provisions, must be entered in the general muster-book ; but, as they will not all be in the same class or situation,

it will be necessary to have several lists, separated from each other on the book by convenient spaces, and a separate series of numbers for the several entries in each list. The lists required to keep the necessary distinctions are the following :

1st. A list of the commission and warrant navy officers, including secretaries and clerks.

2d. A list of petty officers, seamen, ordinary seamen, landsmen, boys, firemen, coal heavers and others borne for pay and provisions.

3d. A list of officers, non-commissioned officers, musicians and privates of marines.

4th. A list of supernumeraries for pay and provisions only.

5th. A list of all other supernumeraries.

6th. A list of prisoners of war.

ARTICLE 2.

Marks opposite names in the muster-book.

The single letter "D" is to be placed against the name of every person who has been detached or transferred by order, or who has been discharged from the service ; the two letters "D D" are to be placed against the name of every person who may die whilst attached to or borne on the muster-book of the vessel ; and the letter "R" when any person shall have been convicted of desertion, or when it shall have been decided by other competent authority that he has run or deserted from the vessel.

ARTICLE 3.

How entries are to be made.

The entry in each list of the muster-book must be distinguished by a number in the first column, to be exclusively appropriated to it, and which must never be applied to any other entry in the same list ; but to each new entry a new number must be given.

ARTICLE 4.

Navy Department will prescribe form of muster-book.

The muster-book shall be kept in such form as the Navy Department shall prescribe.

ARTICLE 5.

Desertion.

Any person belonging to the naval service who shall be arrested or seized in the act of attempting to leave without permission, the ship, navy yard, or boat to which he may be attached, shall be considered a deserter and so noted.

REPORT OF THE

ARTICLE 6.

Desertion.

Any person belonging to the naval service who shall leave the ship, navy yard, or boat, to which he may be attached, without permission to do so, and shall not return within twenty-four hours, and shall fail to give reasons satisfactory to the commanding officer for such absence may be deemed a deserter and so noted.

ARTICLE 7.

Desertion.

Any person belonging to the naval service, who shall have leave to be absent from the ship, or navy yard to which he may be attached for a specified time, and shall not return on or before the expiration of that time, and shall fail to give reason satisfactory to the commanding officer for such failure, may be deemed a deserter.

CHAPTER XXXI.

PAY AND ALLOWANCES.

ARTICLE 1.

Travelling expenses.

Travelling expenses, when incurred by an officer in obedience to any order or in conformity with any rule or regulation of the navy, will be paid at the rate of ten cents a mile upon the mail route, or, when there is no mail route, then by the shortest route usually travelled, except when the officer proceeds in a public vessel or conveyance, or they are incurred to make an exchange of situation at the request of the officer. The amount which would be due when an order shall be obeyed will be advanced by the navy agent or paymaster upon a foreign station upon the order of the commanding officer of the station.

ARTICLE 2.

Travelling pay when a vessel returns from foreign service and is paid^{off}.

When a vessel returns from foreign service and the officers and crew are paid off the officers shall have the usual allowance for travel to the place of their domicile, and the petty officers and men of inferior ratings shall be entitled to conveyance or the actual cost of travel to the place at which they enlisted, if within the United States.

ARTICLE 3.

Passage of an officer with recruits on board a vessel.

When an officer shall be ordered to proceed with recruits from one station to another in a vessel his passage on board the vessel shall be agreed for and paid by the navy agent.

ARTICLE 4.

Passage money of an officer ordered to join a vessel on a foreign station.

The usual and necessary passage money actually paid by officers when proceeding, by order, to join vessels upon a foreign station, or when returning from foreign service under orders, or upon sick ticket granted in conformity with these regulations, when they cannot return in a public vessel, may, if they have not been previously advanced, be paid by the paymaster of the vessel to which the officer may be attached on his joining the station, or by the navy agent at the port at which he may arrive when returning from a foreign station, upon the production of bills and receipts for passage money by sea, and bills for payments made for ordinary land travel in foreign countries, certified by him upon his honor, and approved by the commander of the station or squadron where the payment is to be made.

ARTICLE 5.

Duty pay of commission and warrant officers.

The duty pay of commission or warrant officers shall commence from the date of their acceptance of an order to perform duty, and will terminate when the officer shall have ceased to perform duty under that order.

ARTICLE 6.

An officer sick on duty at a place where there is no medical officer of the navy.

If any officer of the navy shall be sick while on duty at any place where there is no medical officer of the navy, and shall find it necessary to call in a physician, the bill for medical attendance and medicines shall be paid, provided said bill shall not exceed the usual charges for similar services at said place.

ARTICLE 7.

Officers returning from a foreign station as passengers, under orders, or sick.

Officers returning from foreign service as *passengers, under orders*, or on sick leave, in conformity with the regulations, shall receive sea duty pay until their arrival within the United States.

ARTICLE 8.

Officers who claim pay under an order or acting appointment.

Officers claiming pay under any order or acting appointment must furnish to the disbursing officer from whom the payment is claimed the original order, or a copy of such order, or appointment, certified by himself to be correct; and must state on such order, or copy, the time when he acknowledged the receipt of such order or appointment, and when he obeyed the order or entered upon his duties under the appointment.

ARTICLE 9.

When the pay of secretaries and clerks shall commence

Secretaries and clerks will only be paid from the actual commencement and during the actual continuance of their service, without regard to any previous date of appointment or acceptance of orders; and the actual commencement and termination of the service of secretaries and clerks must be certified by the officers to whom they may be allowed, as a voucher, to enable them to be entered on the muster-books and to receive the final payment of their accounts.

ARTICLE 10.

When an officer not attached to a vessel or station claims pay of a paymaster.

When an officer not attached to any vessel or station presents a claim for pay to a paymaster he must certify his rank, and, if employed, the nature of the service, and, if not employed, whether waiting orders, on leave of absence, or on furlough; and such application is to be made to the paymaster of the station nearest his residence.

ARTICLE 11.

Officers applying for pay to the Fourth Auditor, who are not regularly paid by him.

Officers applying to the Fourth Auditor for their pay, who are not regularly paid by that officer, must produce statements of their accounts, signed by the paymaster who last paid them, whenever it shall be practicable, or their own certificate, stating by whom and to what date they were last paid.

ARTICLE 12.

Officers in debt to the United States may receive one ration or its value.

Although officers indebted to the United States can receive no part of their pay, they may, when employed on sea duty, receive one ration, or its value.

ARTICLE 13.

A library may be allowed to vessels in commission and navy yards.

There may be allowed to vessels in commission and to navy yards, to constitute a library for the use of the officers, such books as are, or may hereafter be, specially designated by the Secretary of the Navy; and the Secretary of the Navy may make an allowance, at his discretion, for books for the use of the petty officers and persons of inferior ratings on board of vessels going on long or distant cruises.

ARTICLE 14.

Funeral expenses of persons dying in actual service.

The *necessary* and proper funeral expenses of all persons who shall die while in actual service in the United States will be paid, when sanctioned by the Navy Department, or by the commander-in-chief of the squadron when on foreign service.

ARTICLE 15.

The pay of persons who are examined and promoted shall commence with that of others of their date.

When an officer, on his return from foreign service, shall be examined and found qualified, and receive promotion, he shall receive the pay of his new commission or warrant from the time at which it would have commenced if he had been examined with others of his date.

ARTICLE 16.

Allotment of pay.

No person shall be permitted to allot a greater part of his pay than will leave for his own use at least six dollars a month, and in no case for an amount exceeding one-half his pay, except by special authority of the Secretary of the Navy; and no allotment is to be authorized excepting to a parent, wife, near relative, or a guardian.

ARTICLE 17.

When allotments shall commence, and how long they may continue.

An allotment must not be made to commence until the time when the person making it will probably be out of debt to the United States. When made by a person performing duty in the United States, it must not be made for a longer time than one year. When made by a person upon, or ordered to a foreign station, it may be

made for not exceeding the term the person is bound to serve, if less than three years. Should the person be employed on foreign service for a longer period, the allotment may be renewed.

ARTICLE 18.

Allotments to be made in duplicate, to be approved, &c.

All allotments must be made in duplicate, be approved by the commander of the vessel or station, be witnessed and registered by the paymaster and forwarded to the Fourth Auditor of the Treasury, through the proper channel, except in the case of officers, to whom one copy will be delivered.

ARTICLE 19.

No allotment or power to receive pay to be irrevocable.

No allotment, or power of attorney to receive any part of the pay of a person belonging to the navy is to be made irrevocable, as the whole pay of such person may become essential to his support.

ARTICLE 20.

No allotment to be made by an officer unless on duty and absent from his family.

No allotment or pay is ever to be made or continued by an officer, except when he is on duty and absent from his family.

ARTICLE 21.

Travelling allowance not allowed to an officer who is relieved from orders at his own request.

When an officer shall be ordered to a vessel preparing for foreign service, and shall have reported for duty in such vessel, if he shall be relieved from such orders at his own request or for his own mere convenience, he shall not be allowed travelling expenses under said order, and if the allowance for said travel has been paid, it shall be checked from his pay or otherwise refunded to the United States.

CHAPTER XXXII.

FURLoughS AND LEAVES OF ABSENCE.

ARTICLE 1.

No officer to leave the United States unless with permission of the Secretary of the Navy.

Permission to leave the United States can only be granted by the Secretary of the Navy; and no officer is ever to leave the United States under any leave of absence, unless such leave shall expressly authorize it.

ARTICLE 2.

Within the United States the Secretary of the Navy alone can grant leave for more than a week except.

Within the United States, leave of absence for a longer time than one week will only be granted by the Secretary of the Navy, except in cases of great emergency, which must be immediately reported to him.

ARTICLE 3.

Commanding officers within the United States can grant leave of absence of not over a week, provided.

Commanding officers acting under the immediate orders of the Secretary of the Navy may, within the United States, grant leave of absence to persons under their command for not exceeding one week: provided it can be done without delaying the equipment of the vessel to which they may belong, or producing other injury to the public service; and that no leave is granted to any officer belonging to a vessel under sailing orders.

ARTICLE 4.

Commanders-in-chief of navy yards or stations not to leave their commands for more than a week, except.

Commanders-in-chief of squadrons and commanders of navy yards or stations in the United States shall not leave the limits of their command for a longer period than one week in any successive two months, without the permission of the Secretary of the Navy.

ARTICLE 5.

Commanders of fleets or squadrons abroad may grant leave to return to the United States

Commanders-in-chief of fleets or squadrons abroad may grant permission for officers to leave the squadron for the purpose of returning to the United States when it shall be duly certified that it is absolutely necessary on account of their health; but in no other case, unless previously authorized by the Secretary of the Navy.

ARTICLE 6.

Furlough.

Officers can only be placed on furlough by the Secretary of the Navy, or by sentence of a court martial.

REPORT OF THE
CHAPTER XXXIII.

RECRUITING SERVICE.

ARTICLE 1.

strict and constant attention to duty required.

As the appointment of officers to attend to the recruiting service is intended not only to hasten the collection of recruits for the navy, but to guard against the enlistment of improper, unsound, or incompetent persons, strict and constant attention to the duties of the rendezvous is to be given.

ARTICLE 2.

Junior officers to act as assistants and not as substitutes, except.

The junior officers who may be ordered upon this duty are intended as assistants to the commanding officer, and not to act as his substitutes, except in cases where he is unable to attend by reason of sickness, or when absent on leave with the sanction of the department. Under all other circumstances he will be expected to attend daily at the rendezvous, and to personally question the persons offering to enlist, examine into their qualifications, and determine himself whether they may enter or not, and in what capacity or rating.

ARTICLE 3.

Age, stature, and qualifications of recruits.

Recruiting officers shall enter no boy under fourteen years of age, nor unless he be at least four feet eight inches in height; nor any person whatever under twenty-one years of age, without the consent of his parent or guardian, if any such may be found; nor any landsman over twenty-five years of age, unless he shall have a knowledge of some mechanical trade which will be useful on board a vessel; nor any landsman having such mechanical trade, unless he is under thirty-five years of age. No person is to be entered as ordinary seaman unless he shall have been at sea two years; nor as a seaman unless he shall have been at sea four years and passed satisfactory examinations.

ARTICLE 4.

Persons not to be entered as petty officers, except.

Recruiting officers are not to enter persons as petty officers, unless specially authorized.

ARTICLE 5.

Free colored persons not to be entered without permission.

Free blacks or free colored persons are not to be entered, except with the approbation of the commander of the station, or by special order from the department.

ARTICLE 6.

Officer in command of rendezvous and medical officer shall concur in opinion.

No person shall be entered for service in the navy, unless the officer in command of the rendezvous and the medical officer in attendance, shall concur in opinion as to his fitness for the service.

ARTICLE 7.

If a recruit receive an injury after enlistment and before he appears on board the receiving ship.

If, between the time of a person's being entered at the rendezvous, and his appearance on board the receiving or other ship, he shall receive an injury, which in the opinion of the inspecting and medical officer of the receiving or other ship, unfits him for the service, he shall not be received.

ARTICLE 8.

When persons are entered for particular ratings with complaints or injuries.

If persons should be entered for particular ratings as petty officers with complaints or injuries which, in the opinion of the medical officer and the commander of the station, may not interfere with the proper performance of their duties in those ratings, their condition must be fully described and carefully noted on all the descriptive lists containing their names, that no improper claims for pensions may be subsequently allowed.

ARTICLE 9.

The law regulating enlistments to be printed on shipping articles and both to be read to recruit.

The law for the time being which authorizes and regulates the enlistment of persons for the navy, must be printed at the head or on the back of the shipping articles, and recruiting officers shall cause the articles and the law authorizing enlistment to be read to every person before such person signs them.

ARTICLE 10.

No intoxicated person to sign shipping articles. No felon to be enlisted.

Recruiting officers shall not allow any one to sign the shipping articles when intoxicated; nor shall they enter any person known to have been convicted of a felony.

ARTICLE 11.

Advances of pay and bounty.

Recruiting officers shall make no advance of pay nor give any bounty, except by express orders from the Secretary of the Navy, or of the officer under whose orders they may be placed; and in all cases of making advances, the *amount* advanced to petty officers, if any such enlistment should be authorized, shall not exceed the amount authorized for seamen, and good security is to be taken for the same until the person receiving it shall have been duly received and mustered on board the receiving vessel, or some other vessel of the United States.

ARTICLE 12.

Advance money, when it may be paid.

Recruiting officers shall not pay over any advance money or bounty, except to the person entitled to receive the same, nor until he shall be examined and found fit for service; and they are, if possible, to induce the men to repair on board with their effects, or to receive the amount of their advance in clothing or other necessaries from the vessel; in which case the recruiting officer is to give the necessary information to the commanding officer of the vessel, and will be excused from taking security when an advance is so made.

ARTICLE 13.

Persons who receive advance shall supply themselves with clothing.

The recruiting officer shall take care that each person who receives advance or bounty, furnishes himself with suitable clothing of the navy pattern to the amount of two-thirds his advance, and that the articles are sent on board with him.

ARTICLE 14.

Recruits brought on board receiving ship, shall not be received if so intoxicated as to require constraint.

When persons who have entered at the rendezvous, are brought on board the receiving vessel, care shall be taken that they are in a proper state, and if any person when brought on board shall be so much intoxicated as to require restraint, he shall not be received until he becomes sober.

ARTICLE 15.

Receipts that the recruiting officers must produce.

Recruiting officers must produce receipts for the amounts advanced from the persons to whom they make advances or pay bounty; a

receipt for each individual from the commanding officer of the vessel on board which he may be sent, and a certificate from the paymaster of such vessel that he has received lists showing their rating, the date of entry, the time of service and the amounts advanced to the individuals respectively, before they can receive credit for the advances made.

ARTICLE 16.

Amount to which recruiting officers are restricted.

Recruiting officers shall not receive, without the sanction of the commanding officer of the station, more than one thousand dollars at any one time, which they may obtain by requisitions upon the navy agent, when duly approved by the senior officer in command of the station, who shall not approve such requisition, however, until satisfied that the amount asked is required for the public service.

ARTICLE 17.

Recruiting officers shall report weekly.

The recruiting officer must report weekly to the Secretary of the Navy and the commander of the station the number of persons he may have enlisted, and the amount of money remaining in his hands, in such form as may be prescribed. (See form Nos. 15, 16, 17.)

ARTICLE 18.

Vessels of the navy to have shipping articles; cases in which persons may repair on board without passing through the rendezvous.

Each vessel of the navy shall be furnished with a set of shipping articles, and in cases where persons are desirous to repair on board without passing through the rendezvous they may, by order of the commanding officer of the station, be so entered, who may order an advance not exceeding two months' pay; but such persons shall be subject to the same examination by the commander of the ship and one of the medical officers as would be made at the rendezvous, and shall be subject to transfer for general service.

ARTICLE 19.

In case of doubt as to age, oath to be taken.

In all cases of doubt as to the full age of persons offering themselves for enlistment, it will be the duty of the recruiting officer to require them to make oath before a justice of the peace, or some other person lawfully authorized to administer oaths, that they are of the full age of twenty-one years, and note the same in the descriptive lists.

CHAPTER XXXIV.

HONORABLE DISCHARGES.

ARTICLE 1.

Honorable discharges as testimonials of fidelity and obedience to be granted.

It shall be the duty of the commanding officer of any vessel in the navy, on returning from a cruise, to grant an honorable discharge to such of the seamen, ordinary seamen, landsmen and boys who enlisted for three years, as in his opinion are, on being discharged, entitled to it, as a testimonial of fidelity and obedience, and to forward, immediately on his arrival in port, to the Secretary of the navy a list of their names. To aid him in this duty he may associate with him two lieutenants, one of which shall be the senior lieutenant of the ship.

ARTICLE 2.

Commander will report names of crew entitled to honorable discharges.

The commander will, immediately on his arrival in port, at the termination of a cruise, forward to the Secretary of the navy the names of those of the crew of the vessel under his command who have been found, as provided for in article 1, to be entitled to honorable discharges.

ARTICLE 3.

A person who receives an honorable discharge will be allowed three months' pay on re-enlistment.

When any seamen, ordinary seaman, landsman, or boy who, having received an honorable discharge from the navy, (the form of which will be prescribed by the Navy Department,) shall within three months from the date thereof present said honorable discharge at any naval rendezvous, or account in a satisfactory manner for its loss, answer the description of such discharge and be physically qualified, he shall be re-enlisted for three years, and, upon his transfer to a receiving ship, will be entitled to receive three months' pay, equal to that to which he would have been entitled if he had been employed in actual service in the rate specified in the honorable discharge. (See form No. 14.)

ARTICLE 4.

The three months' pay under an honorable discharge to be considered "Honorable Discharge Money."

The three months' pay to which a seaman, ordinary seaman, landsman, or boy is entitled who shall enlist for three years, within three months after his honorable discharge, shall be considered "Honorable

Discharge Money," and so denominated. It will not, however, be paid in one sum at the time of re-enlistment, but shall be reserved for payment during the term of the re-enlistment, at such times and in such sums as the Secretary of the Navy may direct.

ARTICLE 5.

Loss of honorable discharge.

If the honorable discharge should have been lost, reference can be made to the files of the department for corroboration that the person presenting himself did receive an honorable discharge, and for a descriptive list of his person.

ARTICLE 6.

Endorsement on honorable discharge on re-enlistment.

The recruiting officer will write on the face of the honorable discharge, over his official signature, the date of re-enlistment. After the reception on board the receiving ship of the person re-enlisted, the commanding officer also will write on the face of the honorable discharge, over his official signature, that the three months' pay has been credited or paid in part to him, with the date of such credit or payment, and the amount thereof.

ARTICLE 7.

Advance of pay.

To those re-enlisting under an honorable discharge the authorized advance of pay will also be made.

ARTICLE 8.

Person holding an honorable discharge physically disqualified.

Should the person holding an honorable discharge prove physically disqualified, it will be so written by the recruiting officer on the face of the discharge, and such discharge will not entitle the holder to be received under it.

ARTICLE 9.

Reference to be made to re-enlistments under honorable discharges on returns of enlistments.

On the returns made to the Navy Department of enlisted men from rendezvous and receiving ships, special reference will be made to those men who have re-enlisted under an honorable discharge, and from what vessel they received their discharge.

ARTICLE 10.

Discharge of a yeoman.

A yeoman is not to be discharged until his accounts have been examined and found correct, as required in article 7, chapter XXV. If found correct, the commandant of the yard will then grant the honorable discharge, if the yeoman is entitled to it in the opinion of the commanding officer of the vessel to which he belonged.

ARTICLE 11.

Honorable discharges to invalids sent to the United States from a foreign station.

When invalids are sent to the United States from a foreign station the commanding officer of the vessel to which they belonged will transmit a list of their names to the department, stating the general character of each, and designating such as, in his opinion, are entitled to the honorable discharge, in order that the commandant of the station at which they may arrive in the United States may be directed to grant the said discharge to those deserving it. A duplicate of the list is to be sent also to the commandant of the station where they are to arrive.

ARTICLE 12.

Men discharged at their own request not entitled to honorable discharge.

When any seaman, ordinary seaman, landsman, or boy shall be discharged at his own request, or for his own convenience, before the expiration of his term of enlistment, he shall not be entitled to the honorable discharge.

CHAPTER XXXV.**RECEIVING VESSELS.**

ARTICLE 1.

Commander of receiving vessel shall take charge of recruits.—The paymaster to receipt for them.—If considered unfit for service, they are to be re-examined and report made to the Secretary of the Navy.

The commander of a vessel which may be used for the reception of recruits, until they shall be transferred to some sea going vessel, shall take charge of all such recruits as may be sent to the vessel; and if, upon their examination, they shall be considered fit for service, he shall direct the paymaster to receipt for them, and to certify that he

has charged to them, respectively, the amounts which, by the accounts sent by the recruiting officer, may have been advanced to them; or, if received from another vessel or station, by the paymaster of such vessel or station. If any of the recruits should be considered unfit for service, the fact must be reported to the commander of the station, who will order a survey by three commissioned officers, of which at least one must be a medical officer, and, if practicable, senior to the medical officer of the rendezvous where the recruit was shipped; and in case they should find him unfit for service they will particularly specify the causes of his disability in their report, a copy of which must be transmitted by the commander of the station to the Secretary of the Navy for his decision. (See form No. 18.)

ARTICLE 2.

Descriptive list to be made out.

When the men shall have been received on board and have passed the required examination, a particular description of each shall be taken, in which shall be specified the rendezvous where entered, when entered, expiration of service, their age, place of birth, complexion, height, color, rating, trade, and particular marks; and if they should have any marks of wounds or injuries which might form a ground for application for pensions, they must be particularly noted, as a check against fraudulent applications. These descriptive lists must be entered in a book to be kept in the vessel; a copy must be transmitted to the Secretary of the Navy semi-annually—first July and first January.

ARTICLE 3.

Transfer of recruits.

Whenever recruits are transferred to any other vessel their transfers and the vessel to which they are transferred must be noted in the descriptive list, as well as in the muster-books, and complete descriptive lists must be sent with them, accompanied by a statement of their apparent qualifications, and, if it can be ascertained, whether any, and who, have been petty officers in the service. All these books and lists must be signed by the paymaster, and approved by the commanding officer of the receiving vessel, in proof of their accuracy.

ARTICLE 4.

Clothing to be examined, marked, and a list made out.

The commander will take care that the clothing and bedding of all recruits are carefully examined and marked, and that lists of the same are taken when they are first received on board, and all other measures taken for their preservation and safe keeping.

ARTICLE 5.

Recruits shall receive no advance of clothing, stores, or money, except.

While men are on board the receiving vessel they shall receive no supplies of clothing or small stores so long as they are indebted to the United States, except upon the written order of the commanding officer; and the paymaster who may be directed to furnish such articles must preserve such order as a voucher, in case the person to whom they are made should die or desert before he is out of debt to the United States.

ARTICLE 6.

Recruits to be exercised and instructed.

Receiving vessels shall be sufficiently equipped to furnish the means of exercising the recruits who may be on board, and the commanding officer will, under the direction of the commanding officer of the station, have them exercised, with the men forming the permanent crew of the vessel, as frequently as their other duties will permit, at the cannon and small arms, reefing and furling sails, pulling in boats, and in all such other duties as may best prepare them for service on board vessels-of-war at sea or in port. Particular attention is to be paid to the instruction of the boys and the young landsmen and ordinary seamen, so as to give them all the opportunities of improvement which circumstances will permit.

ARTICLE 7.

Desertions to be prevented.

The commander of the receiving vessel is to adopt all proper precautions to prevent desertions, and is not to allow any recruit to go on shore on liberty without the consent of the commanding officer of the station.

ARTICLE 8.

Recruits not to be rated as petty officers.

No recruit is to be rated a petty officer whilst he is on board a receiving vessel, as that authority is to be exercised by the commanding officer of the sea going vessel to which he may be transferred.

ARTICLE 9.

Recruits not to be employed on other duties than those connected with the equipment of vessels.

The recruits on board a receiving vessel are not to be employed upon duties unconnected with that vessel, except by the order or

sanction of the commander of the station; and when employed in aid of the force in navy yards for rigging or equipping vessels, or for any other service, he will see that they are placed under the direction of proper navy officers. Unless for some special service, he will not authorize the employment of the recruits in a navy yard upon other duties than such as are immediately connected with the equipment of vessels, or the preparation of their outfits and stores.

ARTICLE 10.

When transfers are made to a sea going vessel, a due proportion of each class of recruits to be selected.

When the commanding officer of a receiving vessel is directed to transfer men to a sea going vessel, if there be more than a sufficient number of any class on board to comply with the order, he is to make an impartial selection, preferring those who have been longest shipped, and sending a fair proportion of such as may be supposed qualified for petty officers, of useful mechanics, and persons of foreign birth, and blacks and colored persons; but not more than one-twentieth of a vessel's complement shall consist of blacks or persons of color, unless by written order of the commander of the station. (See form No. 19.)

ARTICLE 11.

In case of complaint of commander of a sea going vessel, a survey of the men transferred to be made.

In case of complaint or dissatisfaction as to the character or condition of the draft on the part of the commander of the vessel to which men are transferred from a receiving vessel, it shall be the duty of the commander of the station to order a survey, on which he will decide the case as soon as practicable; but no men are to be returned and exchanged except for good causes and by his written order, in which the reasons for the same will be expressed.

ARTICLE 12.

Commander of the receiving vessel to select draft for sea going vessel.

When men are to be drafted from the receiving vessel to a sea going vessel the selection shall be made by the commander of the receiving vessel, and no officer, whatever may be his rank, shall be permitted to visit the receiving vessel and make selections for the vessel which he is to command.

ARTICLE 13.

Transportation of recruits from one station to another.

The senior officer in command of the station will give the necessary instructions to the navy agent to procure proper transportation for

such men as he may be directed to send to any other place, when he has no public vessel at his disposal for that purpose, and will send proper officers to take charge of them, informing the Secretary of the Navy of every draught so sent, and their number, the rate and amount of passage money, and the names of the officers under whose charge they were placed.

ARTICLE 14.

Officers attached to a receiving vessel to live on board and conform to general regulations for other vessels in commission, except.

The commander and other officers attached to the vessel designated to receive recruits are to conform to the general regulations for other vessels in commission in all matters not specially provided for in this chapter, and are to live on board, unless specially exempted by the Secretary of the Navy, in the same manner as though under orders for sea service, and they will be considered as entitled to sea pay; but employment in these vessels will not be considered as "sea service" in regulating the promotion or appointment of the officer.

CHAPTER XXXVI.

SURVEYS.

ARTICLE 1.

The persons whom it shall be proper to employ to inspect or survey.

When an inspection or survey of articles is to be held to determine whether they ought to be received under any contract or purchase, great care is to be taken that such officers or other persons are selected as will best secure the government against imposition or loss. Although the master workmen of the different classes of mechanics ought always to be among the officers for inspecting materials intended to be used under their directions, and their own reports may, in ordinary cases, be deemed sufficient, yet, when they are themselves in doubt, or their decision is questioned, or the commanding officer should from any cause consider it expedient, he will have the inspection made by a greater number of persons, and by such as he may deem most competent.

ARTICLE 2.

Applications for surveys to be made in writing, by whom and how made.

All applications for surveys upon articles supposed to be defective or unfit for use, or deficient in quantity, must be made in writing by the person having charge of the same to his immediate commanding officer,

and if he deems such survey necessary, he will, if serving in a fleet, approve and transmit the same to the commanding officer of the division or squadron to which he belongs, who is to order such survey to be taken, unless the commander-in-chief shall have otherwise directed. But when officers are not in company with the commander of a division or squadron, the applications are to be transmitted to the senior officer present.

ARTICLE 3.

Two commission officers will be selected to survey articles reported defective.

Officers who may order surveys upon articles reported as defective, or requiring repairs, will, when practicable, select at least two commission officers for that duty, and of a rank proportioned to the importance of the survey to be held, so that the United States may not be exposed to loss from the inexperience of the surveying officers; and, when it can be done, the officers shall be selected from other vessels than those to which the articles may belong.

ARTICLE 4.

Surveying officers may call for information upon the subject under investigation.

Surveying officers may call upon the person having charge of the articles to be surveyed, or upon any other person, for information which may assist them in making correct statements upon the subject they may have been directed to investigate; and if any person shall endeavor to deceive the surveying officers by knowingly giving false statements, or if the surveying officers shall discover, or find reason to suspect, any fraud, they shall notice it particularly in their report.

ARTICLE 5.

How the report of surveying officers shall be made.

The report of officers directed to survey articles represented to be unfit for service must specify by whose order the survey was held, each particular article surveyed, the state in which found, and the most proper disposition to be made of it; and if the articles are found to be damaged or of improper quality, their report must further state, if possible, by whom they were furnished, and whether the damage or injury was or was not owing to the misconduct or neglect of any particular person or persons.

ARTICLE 6.

When surveying officers receive information in relation to articles under survey from the person who has charge of them.

When officers are ordered to ascertain the quality of articles, they are not to take the account of them from the officer who has charge of

them, unless it shall be impracticable to make a personal examination, or they shall be directed to take the account from him by the person ordering the examination; and when the quality of articles shall be so taken, it must be particularly noted in their report, with the reasons why it was so taken, and they shall state if any, and what, articles are found to be defective.

ARTICLE 7.

Survey to ascertain the quantity of articles.

When a survey is held to ascertain the quantity of articles, and they are found deficient, one report of the survey, duly signed, and made upon the back of or attached to the order, is to be furnished to the officer who requested the survey; another to the commander of the vessel; and a third transmitted to the proper bureau of the Navy Department.

ARTICLE 8.

Stores or provisions are not to be thrown overboard, unless.

No stores or provisions are to be thrown overboard, unless they are entirely useless, and except the surveying officers shall, in their report, represent them as being, in their own opinion and that of the surgeon, prejudicial to the health of the ship's company, in which case the commander of the vessel shall cause them to be thrown overboard as soon as the report of survey is duly approved or confirmed, and the certificate of one of the surveying officers to that effect is to be attached, but all other articles are to be converted to some other use, or turned into store.

ARTICLE 9.

Survey and report to be made when an officer in charge of money or articles shall die, &c.

If any officer of the navy having charge of money, provisions, or other stores belonging to the United States, shall die, be suspended, removed, or otherwise separated from his vessel or station, so as to render it necessary to appoint another person to perform his duties, it shall be immediately reported by his commander to the senior officer present in command, who shall order in writing a survey to be held by proper officers, and, when practicable, in presence of the officer who is to succeed to the charge of the articles aforesaid; and the surveying officers shall make out a statement in writing of the amount, quantity, or number, state, and condition of such articles, in quadruplicate, and sign the same, and transmit them in a report to the officer ordering the survey, one copy to be retained by him, and three sent to the officer appointed to take charge of the money and stores, two of which he will receipt and hand over to the officer relieved or to the representative of the officer if deceased, one to be retained by him and the other to be forwarded to the Navy Department.

ARTICLE 10.

Survey on an officer whose health requires that he shall leave a station.

Whenever it shall be represented that the ill health of an officer requires that he should leave any foreign station, the commander-in-chief, before acting in his case, shall direct a survey to be held upon him by three medical officers, if so many can be obtained, but if so many are not available, then the commanding officer shall be authorized to take such action as the senior medical officer shall certify to be necessary, as well for the public interests as for the recovery of the officer or other disposition of the case.

ARTICLE 11.

Survey to ascertain title to a pension.

When any person shall be surveyed, to ascertain if he is entitled to a pension, the order and report of survey shall be made upon the certificate of the commander and surgeon of the vessel in which he sustained the injury, setting forth the circumstances under which it occurred. The certificate of the commanding officer, surgeon, and paymaster, with one copy of the report of survey, is to be forwarded to the Secretary of the Navy, one to the Bureau of Medicine and Surgery, and a copy of the report of survey given to the person surveyed to be kept by him.

ARTICLE 12.

Officer ordered on a survey to use attention, fidelity, and impartiality.

All officers ordered upon surveys are strictly required to perform that duty with the utmost attention and fidelity, and to make their reports with the strictest impartiality, so that, should they be called upon, they may be able conscientiously to make oath of their correctness.

ARTICLE 13.

Copies of surveys, how forwarded.

Copies of all surveys which may have been held upon officers or others, with an abstract of the same, shall be forwarded by the commanding officers of fleets, squadrons, or navy yards, to the Secretary of the Navy, and of all other surveys to the proper bureaus of the Navy Department, quarterly.

ARTICLE 14.

Quantities to be stated at length, and not in figures.

The quantities of articles must be written, and not in figures, in all reports of survey.

CHAPTER XXXVII.

CORRESPONDENCE AND REPORTS.

ARTICLE 1.

Communications that are to be addressed to the Secretary of the Navy.

All letters which relate to the appointment, promotion, or conduct of officers, the employment of vessels, and the execution of duties under immediate orders from the Secretary of the Navy, are to be addressed "to the Secretary of the Navy."

ARTICLE 2.

Communications to be addressed to the different bureaus of the Navy Department.

Communications in relation to the construction, equipment, or repairs of vessels are to be addressed to the "Bureau of Construction, Equipment, and Repair;" those relating to armaments, ordnance and ordnance stores, nautical instruments, charts, and books, to the "Bureau of Ordnance and Hydrography;" those relating to docks, wharves, and buildings in navy yards, or at other naval establishments on shore, or the employment and pay of mechanics, are to be made to the "Bureau of Yards and Docks;" those relating to provisions, clothing, and small stores, to the "Bureau of Provisions and Clothing;" and those relating to medical supplies and subjects, or to the treatment of the sick and wounded, are to be made to the "Bureau of Medicine and Surgery."

ARTICLE 3.

When the same communication is made to the Secretary of the Navy and to a bureau, the writer shall so state.

Should the same communication be made to the Secretary of the Navy and any bureau, the person forwarding such duplicates shall state the same in his communication.

ARTICLE 4.

In cases of doubt communications will be addressed to the Secretary of the Navy.

When doubts exist as to the proper address of communications, they are to be directed "to the Secretary of the Navy."

ARTICLE 5.

How communications, reports, or requests are to be made and transmitted.

All communications, reports, or requests connected with the public service, which shall be made by officers and others belonging to the

navy, when acting under the orders of other officers, shall (unless otherwise specially directed in these regulations or by the Secretary of the Navy) be sent open, under cover, to their immediate commanding officer; and, if they are intended for or require transmission to his superior officer or the Navy Department, such commanding officer shall forward the same, accompanied by such remarks as he may deem proper, to his immediate commanding officer, if any there be, to be acted on by him or transmitted to the Navy Department, as the case may require, unless the public interests would be hazarded by the delay of transmission in this manner, in which case the communications may be direct. But duplicates must be forwarded to the proper commanding officer, and information given to him of the deviation from this regulation by the earliest opportunity.

ARTICLE 6.

Official rank must be annexed to signature.

Officers, in signing reports, certificates, returns, official letters, or documents of any kind, must annex to their names their official rank.

ARTICLE 7.

The operations of the vessel, &c., not to be commented upon in private correspondence.

Officers are prohibited from commenting, in their private correspondence, upon the operations of the vessel or squadron to which they may be attached, or from giving any information of their destination or intended operations, lest such communications may be published to the injury of the public service.

ARTICLE 8.

Copies of letters to be kept and official documents filed

Officers must enter, in proper books, copies of all the official letters they may write, and of all orders they may receive, and carefully file and preserve all other official documents.

ARTICLE 9.

Receipt of orders, &c., to be acknowledged.

The receipt of all orders or instructions must be immediately acknowledged.

ARTICLE 10.

Official communications not to be published.

Official instructions and official communications must not be published without the permission of the Secretary of the Navy.

ARTICLE 11.

Size of the paper on which official communications are to be made.

All official communications must be written on paper of the size lodged at the different navy yards as samples for "official paper," and must have a margin of at least one and a half inch wide, so that they may be bound up. And all such communications to the department must be enclosed in blank envelopes; every letter must be endorsed with its date and number, and the number of enclosures it contains; and each enclosure must be marked with the date and number of the letter to which it belongs; and the paragraphs of letters must be numbered.

ARTICLE 12.

Letter books, &c., to be kept at navy yards and stations.

Letter books, containing copies of all orders given, or official letters written, and the originals of all letters received on public service, at the different navy yards and at other shore stations, by the commanding officer thereof, must be left at those yards and stations and carefully preserved as records. The commanding officers may, if they think proper, take copies for their own use of all orders or letters which they may receive or write.

ARTICLE 13.

Reports in relation to official conduct of officers to be communicated to them, unless.

Commanding officers shall observe great care in forwarding representations to the department in relation to the official conduct of those under their command, and shall in all cases, when it will not be clearly injurious to the public service, inform the officer complained of or reported of the nature of the representations in relation to him.

CHAPTER XXXVIII.**APPROVAL OF REQUISITIONS AND ACCOUNTS.**

ARTICLE 1.

Definition of the approval of a requisition, and such approval will have the force of an order.

The approval of a requisition for money or other articles is to be considered as a certificate on the part of the approving officer that, in his opinion, the articles named in the requisition are necessary for the public service; and the approval of such requisition by the officer whose approval will authorize the procurement or delivery of such articles, according to these regulations, or instructions from the Navy Department, is to have the force and responsibility of an order.

ARTICLE 2.

Purchases by an agent of the Navy Department.

Purchases made for the navy by any agent of the Navy Department, upon requisitions or orders addressed to him, are to be made after due inquiry and comparison by such agent on the most favorable terms for the government, and upon prices agreed upon before the purchase is made ; and, if required, he shall certify the same upon the bills rendered for the articles.

ARTICLE 3.

Duties of the officer who shall receipt for articles purchased by an agent.

Where articles are delivered by or under the direction of an agent who purchased the same, the officer who is to take charge of and receipt for them shall examine the bills rendered ; and if, in his opinion, any of the articles are charged above the fair market price, he shall report the same to the officer under whose approval they were required before receipting for them, that such approving officer may institute inquiries and take such other measures as the case may require.

ARTICLE 4.

No receipt to be given until inspecting officers have approved the articles.

Where inspections are required to determine the quality of articles, or their conformity with contracts or agreements, no receipts are to be given for them until the inspecting officers shall have certified their satisfaction with the articles delivered.

ARTICLE 5.

The approval of a commanding officer to a muster-book is a certificate of its correctness.

The approval or signature of a commanding officer of a vessel to a muster-book or muster-roll is to be considered as his certificate of the correctness of all the entries made therein, in relation to the date of enlistment, ratings, terms and expiration of service ; and he will be particularly careful to examine all such books or rolls, that full confidence may be placed in such as are thus signed or approved.

ARTICLE 6.

Approval of a commanding officer is a certificate of correctness of certain parts of a roll or account.

The approval of a commanding officer to a "quarterly muster and pay-roll," or to a "transfer roll" or "account" given to or sent with men transferred, is to be considered as his certificate of the correctness of those parts which are a transcript from the general

muster-book, relating to the dates of enlistment, ratings, terms and expiration of service, but not to the correctness of those parts relating to their accounts, which are upon the responsibility of the paymaster, and to be certified by his signature to the said transfer rolls or accounts.

ARTICLE 7.

The approval of an officer to a bill for articles purchased or services rendered.

The approval of an officer to a bill for articles purchased or services rendered is to be received as a certificate that the purchase or service was duly authorized; that the articles have been received by a responsible officer of the government, or that the service has been performed; that they conform to the contract, or are otherwise satisfactory as regards the performance of the duty and the quality and price of the articles; but not for the correctness of the calculations determining the amounts charged.

ARTICLE 8.

Approval of an officer that will authorize the payment of money.

The approval of an officer whose approval, by the instructions of the Treasury or Navy Department, will authorize the payment of money is to have the force and to be given under the responsibility of an order for such payment, and is always to be accompanied by the rank of the officer and the date of the approval.

ARTICLE 9.

An officer relinquishing a command will see that all bills are settled, &c.

On a change of command on a foreign station, the officer who relinquishes the command will take care that all bills for articles, the requisitions for which have been approved by him, are settled before he relinquishes the command; but if from any circumstances this can not be done, the officer who approved the requisitions will be responsible for the correctness of the purchases, though the bills may be authorized to be paid by his successor.

ARTICLE 10.

Commanders of fleets or single ships to approve bills before leaving port.

The commander of a fleet or a single ship, when acting alone, shall, before leaving a port at which he may have received supplies, notify the persons who may have furnished the same to attend at some specified time and place with their accounts, so that none may be left without receiving his inspection, and approval should they be correct.

ARTICLE 11.

Accounts to bear date of approval.

All accounts must bear the date of approval; and the sum for which the account is approved must be written in words at length.

CHAPTER XXXIX.

OFFICERS' APARTMENTS, SLEEPING BERTHS, AND MESSES.

ARTICLE 1.

Apartments of officers on board ships of the line.

In ships of the line of three decks with a poop cabin the captain of the ship shall have for his use the cabin upon the upper gun deck; the ward room officers the cabin on the middle gun deck for a mess room; and the steerage officers shall have their mess room on the after part of the lower gun deck. If without a poop cabin, the captain shall then have the use of the cabin on the middle gun deck; the ward room officers the after part of the lower gun deck as a mess room; and the steerage officers shall have their mess room on the orlop. If in a ship of the line of two decks with a poop cabin, the captain shall have for his use the cabin upon the upper gun deck; the ward room officers shall mess on the lower gun deck; and the steerage officers shall mess upon the orlop.

ARTICLE 2.

Apartments of officers on board a frigate.

In a frigate having a poop cabin the captain shall be entitled to the use of the poop cabin, or the cabin next below the poop cabin, which may not have been selected by the commander of the squadron; and the ward room officers occupy the after part of the berth deck, and the steerage officers be placed immediately forward of them.

ARTICLE 3.

Apartments on board a ship on which the commander of a squadron is embarked.

The commanding officer of a squadron, when embarked in any vessel carrying his flag or pendant, shall be entitled to the poop cabin, where there is one, and where there is no poop cabin, then to the cabin upon the upper gun deck of all ships above the class of frigates, and in frigates having a poop cabin to the choice of the poop or the gun deck cabin; provided, that whenever there shall be no commanding officer of a squadron embarked in any vessel the captain of the vessel shall occupy the cabins which are hereby assigned to the commanding officer of the squadron, excepting in a frigate having a poop cabin. And the ward room and steerage officers in these vessels, excepting in frigates with poop cabins, shall respectively be entitled to occupy the cabins as mess rooms of the next superior class which may be vacated by such change.

ARTICLE 4.

Apartments of the commander of a squadron and a captain on board a frigate without a poop.

The captain of a frigate having no poop cabin shall be entitled to the port state room and to one-third of the forward cabin, divided by

a fore and-aft bulkhead. And if a commander of a squadron shall be embarked in such vessel, he shall be entitled to the other parts of the cabin, if the division shall be desired by him; but if no such commander of a squadron shall be so embarked, then the captain shall have the use of the whole of such cabin, except there shall be a commander on board for duty, in which case the commander shall be entitled to the port state room for a sleeping room, unless otherwise provided for in these regulations.

ARTICLE 5.

Any difficulty in arranging apartments will be referred to the Secretary of the Navy.

In frigates having a poop cabin, where no commander of a squadron is embarked therein, and in other vessels where no decision shall have been previously made by competent authority, if any difficulty should occur in arranging the apartments for the commanding officers of such vessels, it shall be finally determined by the Secretary of the Navy when in the United States, and by the commander-in-chief of a squadron if on foreign service.

ARTICLE 6.

Apartment of a captain of the fleet.

When a captain of the fleet shall be embarked in a vessel where the captain of the ship will, by these regulations, have the use of two state rooms, the captain of the fleet shall in such case have the use of one of them in preference to a commander; and in other cases he shall be accommodated in some part of the cabins assigned to the commanding officer of the squadron.

ARTICLE 7.

Sleeping apartments of ward room, steerage, and other warrant officers. Lieutenant embarked as aid to commander of a squadron. Choice of rooms between lieutenants of marines *not* in command of guard, and assistant surgeons.

The sleeping apartments for the ward room, steerage, and other warrant officers, will be regulated by the Bureau of Construction, with the approval of the Secretary of the Navy, and the occupation of these by the respective officers shall be arranged as follows: The lieutenants shall occupy the state rooms in the ward room on the starboard side, according to rank, the senior lieutenant taking the forward room. The rooms on the port side, and such on the starboard side as may not be required for the lieutenants, shall be occupied in the following order: masters, paymasters, surgeons, captains of marines, chaplains, first lieutenants of marines, passed assistant surgeons, second lieutenants of marines, assistant surgeons, secretaries to commanders of squadrons, and professors of mathematics; provided, that when a lieutenant is embarked as aid to the commander of a squadron, he shall be arranged with other lieutenants of the navy, according to

his rank, unless other special arrangements have been made for his accommodation; provided further, that when a first or second lieutenant of marines shall not be in command of the guard, choice of rooms between the first lieutenant of marines and passed assistant surgeon, and the second lieutenant of marines and the assistant surgeon, shall be according to date of commission.

ARTICLE 8.

Room for chief engineer.

A room shall be provided for the chief engineer in the most appropriate place for the execution of his duties.

ARTICLE 9.

Choice of apartments of steerage officers.

Officers or persons forming the steerage mess shall have priority of choice, according to the order in which they have precedence, and in case of disagreement, the commanding officer shall decide; but any changes may be made by mutual agreement between them.

ARTICLE 10.

Apartments of supernumerary officers.

No officer who is ordered to a ship as a supernumerary shall displace any officer of the regular complement from his accommodations.

ARTICLE 11.

Officers will mess in the apartments assigned them.

Officers are required to mess in their proper apartments as assigned by the department.

CHAPTER XL.

THE COMMANDING OFFICER OF A STATION.

ARTICLE 1.

Geographical limits of command to be prescribed.

Whenever an officer shall be appointed to the command of a station in the United States, the geographical limits of the command will be defined by the Secretary of the Navy.

ARTICLE 2.

All reports and requisitions to be made to him.

All vessels of the United States in commission which shall arrive or be stationed within the limits of his command shall make their reports and submit all requisitions to him for examination and approval, and shall obey his orders, unless they shall be commanded by superior officers, or shall be under the orders and in the presence of his superior officer.

ARTICLE 3.

He will conform to the regulations prescribed for commanders of fleets for procuring supplies, &c.

The commanding officer of a station will conform to all the regulations prescribed for commanders-in-chief of fleets or squadrons respecting the procuring and disbursement of stores and the discipline of the service, unless otherwise specially directed.

ARTICLE 4.

He will exercise no authority over navy yards, except.

The commanding officer of a station in the United States shall exercise no authority or control over the commanding officer of a navy yard or other shore establishment, or over the vessels and persons which may have been placed in charge of such commanding officer of a navy yard, or under his orders, without the express permission or order of the Secretary of the Navy, except in cases of great emergency, where there is not time to refer to the department for orders; and in such cases he will make immediate report of his doings to the department.

ARTICLE 5.

He will inspect vessels not commanded by his seniors.

It shall be his duty carefully to inspect, with the commander of the vessel, (and the inspector of ordnance, when one shall be so directed,) all vessels in commission at the port where he may be, and which are not commanded by his superior or senior officer, a short time before they proceed to sea, or when about to be paid off, and report to the Secretary of the Navy the state of their preparation for battle, of their discipline, and their general condition and efficiency for service, in such form as may be prescribed by the Navy Department.

ARTICLE 6.

When the vessel to be inspected is under the orders of a superior, how to proceed.

Whenever the vessel to be inspected shall be under the orders and in the presence of a superior or senior officer, such superior or senior

officer shall, with the commanding officer of the station, (and the inspector of ordnance, when so directed,) make and report such inspection.

ARTICLE 7.

Inspecting officer of ship to ascertain if any alterations have been made.

The inspecting officers shall, when vessels have just returned from sea, ascertain and report if any alterations have been made in the vessel, her armament, equipment, or arrangement, during the cruise; and if so, the extent, and by whose orders, or by what authority.

ARTICLE 8.

Receiving vessel and recruiting service under his command.

The receiving vessel and the recruiting service will be under the command of the commanding officer of the station.

ARTICLE 9.

Commanding officer of a navy yard and of a station when temporarily absent.

When the commanding officer of a navy yard is also commanding officer of a station, and shall be temporarily absent, either on leave or on duty, the commander of the receiving ship or of the recruiting service, if superior or senior to the second in command of the yard, will be considered as commander of the station during such absence, and will be governed by the regulations for the commanding officer of a station; and all letters and communications having reference to the duties of the station that may be received by the officer in temporary command of the yard will be transferred to said temporary commander of the station, and he will himself act upon all relating to the duties of the yard without reference to said temporary commander of the station.

 CHAPTER XLI.

NAVY YARDS.

COMMANDING OFFICER.

ARTICLE 1.

He will exercise entire control and be responsible for public property.

The commanding officer shall, under the direction of the Secretary of the Navy and heads of bureaus, exercise entire control over every department in the navy yard, and will be considered responsible for

the due preservation of all buildings and stores contained therein, and of all vessels in ordinary or repairing, and for the judicious application of all labor.

ARTICLE 2.

His duties in regard to the employment of mechanics.

He will cause the mechanics and others employed in the yard to be mustered conformably to the instructions which have been or may be given on the subject. He will be particularly careful that none but effective men are employed, and no more than are requisite, and that they are obtained on the most favorable terms to the United States which may be consistent with the instructions he may receive from the Navy Department.

ARTICLE 3.

Working hours ; rates of wages.

The hours for commencing and discontinuing work in the navy yards, and the rates of wages to mechanics and laborers, shall be regulated by the Navy Department, and made to conform, as much as may be consistent with the public interests, to the hours and rates in the private establishments in the immediate vicinity.

ARTICLE 4.

Approval of rolls and bills.

He is to approve all pay-rolls for labor, and bills for supplies furnished, upon being satisfied of their correctness and with the prices charged.

ARTICLE 5.

He shall see that all perform their duties and that reports are duly made.

He shall see that all officers, and other persons employed in the yard, perform their duties in a proper manner, and that all reports and returns are made within the time and in the manner which may be directed by the Navy Department.

ARTICLE 6.

Lights and fires to be extinguished.

He will cause all lights and fires on board vessels under his control to be extinguished as early in the evening as is directed to be done on board vessels in commission ; and he will establish proper regulations to guard against accident from fire in the vessels under his charge and in the dwellings and other buildings within the yard.

ARTICLE 7.

Fire engines to be kept in order. Organization of a fire department.

He will see that the fire engines are at all times in good order, and will organize a fire department in the yard, and appoint proper fire companies, including hook and ladder, from the navy officers and the master and other workmen, excepting those who belong to or are members of fire companies without and in the vicinity of the yard; and once in every month, before the time of breaking off work in the afternoon, the fire companies shall exercise one hour, or until the time to break off work arrives.

ARTICLE 8.

Refusal of a workman to perform duty in a fire company good cause for removal.

The refusal of any master or other workman in the yard to perform duty in the fire companies of the yard shall, unless he belongs to a fire company without and in the immediate vicinity of the yard, be considered good cause for his immediate dismissal from the government employ; or when, on any alarm of fire in the yard, any such person does not appear at his post, unless he can give satisfactory reason for his absence, he shall be considered equally liable to dismissal. All absentees at the exercise of the fire companies are to be reported to the commandant.

ARTICLE 9.

Frequent examinations of engines and apparatus. A person to be placed in charge.

The person appointed to direct the fire department will frequently examine the engines and all apparatus for subduing fires, and report at once any deficiencies and once a month, at least in writing, their actual condition. The chief engineer of the yard, or other proper person, will be appointed by the commandant to take charge of and keep in order the engines, hose, and fire buckets, and will report to the officer in command of the fire department any deficiencies, that they may be immediately remedied.

ARTICLE 10.

Fire alarm.

An alarm of fire in the yard will be given by the ringing of the yard and ship's bells, and the firing of a gun if it can be readily done; and the same alarm may be given for fires adjacent to or near the yard which may expose it to danger.

ARTICLE 11.

Fire apparatus to be used to extinguish fires near the yard.

When he shall deem it prudent and advisable, he will direct the fire engines and other apparatus to be sent to extinguish fires near to

the yard ; but they are to be kept under the control of their own officers, and must return to the yard immediately, if so directed by the commanding officer.

ARTICLE 12.

Reports to be approved by commanding officer.

All reports or returns made to the Navy Department by officers attached to the yard or to vessels in ordinary must be approved by the commanding officer, as an evidence of his having satisfied himself of their correctness.

ARTICLE 13.

No alterations in the arrangements of the yard to be made, except.

He is not to authorize or allow any alterations in the prescribed arrangements or plans of the yard, nor the purchase of any surplus stores, nor the sale of any article, unless specially directed or authorized by the Navy Department.

ARTICLE 14.

Slaves not to be employed, except.

No slaves are to be employed in navy yards without the previous sanction of the Navy Department.

ARTICLE 15.

Password and countersign.

The password for the night, and the countersign, when he shall deem proper, may be issued by the commanding officer of the yard to such persons only as he may direct to be intrusted with them.

ARTICLE 16.

Police regulations.

He shall draw up regulations for the police of the yard, and transmit them to the Navy Department for alteration or approval.

ARTICLE 17.

Journal.

A regular journal shall be kept by the master, under the direction of the commanding officer, in which shall be entered the time when any vessel is received for repairs or put in commission, the number of mechanics and others employed, the arrival and departure of all vessels-of-war and of vessels with stores of any kind for the yard, the time when any vessel is taken into or removed from the dock, the state of the wind and weather as well as the barometer and thermometer, and the other principal transactions of the yard.

ARTICLE 18.

He shall exercise no authority over vessels in commission, except.

He shall exercise no authority over, nor in any manner interfere with, vessels in commission, when they are not placed under his direction, unless in cases of urgent necessity; and should such cases occur, he shall give immediate information to the Secretary of the Navy.

ARTICLE 19.

When a vessel is placed in ordinary.

When a vessel is directed to be placed in ordinary, or given into his charge for repair, he will cause her to be properly moored or otherwise scoured, in which he is to be assisted by the officers and crew of the vessel, unless otherwise directed by the department or the senior officer in command upon the station.

ARTICLE 20.

Commander of vessel to point out deficiencies.

Although the control of the commander of a vessel is to cease when the vessel is placed in charge of the commanding officer of a yard for repairs or equipment, it is hereby made the duty of such commander to point out to the commandant of the yard any defects or deficiencies which he may have discovered.

ARTICLE 21.

Officers and others of a vessel undergoing repairs shall assist in equipping her.

Whenever the commander or other officers belonging to a vessel under repairs at a navy yard shall be directed to report to the commanding officer of the yard, such officers, and any other persons belonging to the vessel, may be employed in stowing or equipping her, or in preparing her equipments, whenever it can be done to advantage.

ARTICLE 22.

Crew of a vessel undergoing repairs to be removed to some other vessel or quarters.

When a vessel in commission shall be placed in a proper situation to receive any repairs that may have been ordered, her officers and crew may, if it is deemed necessary, be removed to some other vessel or quarters until her repairs shall be completed; and strict care must be taken that such vessel or quarters, and all articles belonging to them, are at all times kept perfectly clean and in good order by the persons using them for the time being.

ARTICLE 23.

Vessels in commission not to be repaired without permission, except.

No vessel in commission shall be repaired at a navy yard without the previous sanction of the Navy Department, except in cases of emergency; and in all such urgent cases surveying officers shall be duly appointed, and a copy of the report of survey shall be forwarded to the Navy Department without delay.

ARTICLE 24.

He will report to Bureau of Construction.

He shall report to the Bureau of Construction the time when he receives a vessel for repair, when the repairs are commenced, and the time when she is returned into the charge of the commander, or when her repairs are completed.

ARTICLE 25.

Equipment of a vessel for service to be under his direction.

When a vessel in ordinary is to be equipped for service, the equipments shall be made under the direction of the commanding officer of the yard, conformably to general regulations, or to such orders as he may receive from the proper bureau, or the Secretary of the Navy.

ARTICLE 26.

He will see that the commander of the vessel has plans of stowage.

When a vessel shall be stowed and equipped under his direction, he shall take care that the officer who is appointed to take command shall be furnished with plans showing the stowage of the ballast, water, and provisions, and with lists of all the stores and provisions which may have been put on board of her in the respective departments, and their cost, with the draught of water when the vessel is light and at other times.

ARTICLE 27.

Account to be opened against a vessel ordered to be built, repaired, or equipped.

When he shall be directed to build, repair, or equip any vessel, or to construct any building, or to make any improvement in the navy yard, he will direct an account to be opened against such vessel, building, or improvement, debiting it with the number of days' work, and the cost of labor performed by each class of mechanics and laborers, and the quantity and cost of the different materials used; detailed reports of which are to be forwarded to the proper bureau when the objects are completed.

ARTICLE 28.

Requisitions.

When requisitions duly approved are made upon the storekeeper for articles which are not in store, he will direct the storekeeper to make requisitions for such as he may deem necessary upon the navy agent, and will approve and forward them, that the articles may be promptly furnished.

ARTICLE 29.

He shall keep a bill book.

He will keep a bill book, in which shall be copied all bills for articles which may be delivered for any special object in the yard, and be approved by him, keeping each appropriation and object distinct from every other. He shall keep marginal duplicates of all requisitions upon the storekeeper which he may approve. He shall cause his clerks to examine the entries in the storekeeper's returns, and compare them with the bill books and marginal duplicate requisitions, and certify that they are correctly entered, before he approves the storekeeper's returns of receipts and expenditures.

ARTICLE 30.

Navy officers to have charge of rigging, arming and equipping, dismantling, &c., all vessels at the yard.

The officers of the navy employed in navy yards are to have the charge of masting, rigging, stowing, arming, equipping, dismasting and mooring all vessels at the yard; and all persons employed for those purposes are to be under their general superintendence and direction, as may be ordered by the commandant of the yard.

ARTICLE 31.

Distribution of workmen employed in the yard.

He will direct the constructor to furnish the clerk of the yard daily with lists of the distribution of the workmen employed under his superintendence; the chief and civil engineers, the same in reference to those employed under their direction; and the master workmen not under the constructor, chief or civil engineer, will report in the same manner as to those employed under them.

ARTICLE 32.

Scrutiny of articles passing in and out of the yard.

A prudent scrutiny must be exercised over all articles and packages passing in or out of the yard; and when articles or packages

shall be suspected as improper to be passed, they are to be stopped and examined, and if found to be of improper character to be passed in or out of the yard, are to be detained and reported to the commanding officer.

ARTICLE 33.

Mechanics and others to conform to regulations.

Mechanics and all others will consider it as one condition of their employment that they conform to the established regulations of the yard.

ARTICLE 34.

No smoking allowed in the yard, except.

No smoking will be allowed in the yard, except in the officers' quarters and their enclosures, and the quarters of the ordinary men.

ARTICLE 35.

Entering gates to be closed at sunset.

The entering gates of all yards will be closed at sunset, and no visitors allowed after that time, unless to the officers attached to the yard, or persons on board the vessels alongside the yard.

ARTICLE 36.

No alterations to be made in the equipment of a vessel, except.

No alterations must be made in the arrangements of the hull, the dimensions or arrangements of the masts, spars, boats, or other equipments of any vessel which may be ordered for repair or equipment, without the previous sanction of the department; but if, in the opinion of the commanding officer of the yard, any changes can be made to improve the qualities of a vessel, or increase the accommodation of her crew, he will make timely reports of the same to the proper bureau, with the reasons for recommending the alterations, and an estimate of the probable increase of expense which such alterations would occasion.

ARTICLE 37.

Reference to article 2, section 4, chapter IX, in regard to ships' stores.

When a ship is transferred to the command of the commandant of a yard, at the termination of a cruise, he will be governed in regard to her stores by the provisions of article 2, section 4, chapter IX.

ARTICLE 38.

Two senior officers to be at all times in the yard.

When the commandant, commander, and two lieutenants reside within a navy yard, the yard is never to be left without the presence of two of said officers.

ARTICLE 39.

One officer to be at all times in the yard.

If there are fewer than four of said officers, and not less than two of them residing in the yard, one shall at all times be in the yard.

CHAPTER XLII.

NAVY YARDS.

SECOND IN COMMAND.

ARTICLE 1.

He will perform the duties assigned to him by his commanding officer. During absence of commandant he will take command. Not to alter regulations.

The officer who shall be attached to a navy yard as second in command shall be considered as the executive officer of the yard, and perform such duties as may be assigned to him by the officer appointed to command the yard. During the absence of such commanding officer, by order or upon leave, or whenever unable to perform his duties, the officer next in command shall perform all the duties assigned to the commanding officer of the yard; but he shall not alter any of the regulations established for the yard.

ARTICLE 2.

He will regulate the police and correct abuses.

He shall, under the direction of the commandant, regulate the police of the yard, correct all abuses, and report to him such as are important.

CHAPTER XLIII.

NAVY YARDS.

LIEUTENANTS.

ARTICLE 1.

Responsibility of senior lieutenant.

The senior lieutenant, being responsible in a degree for the good order and discipline of the yard, is to observe a general superintendence over the same; he will correct, as far as is in his power, all irregu-

larities that may come under his notice, and report such as may require further notice to the executive officer.

ARTICLE 2.

Muster of the mechanics and laborers.

He is to be present at the muster of the mechanics and laborers, to see that they answer properly to their names, and repair without noise or delay to their respective places of employment.

ARTICLE 3.

Absence of senior lieutenant.

In the absence of the senior lieutenant, the lieutenant next in rank will attend to the duties prescribed for him.

ARTICLE 4.

Junior lieutenant to do duty of master.

If there should be no master to a navy yard, the junior lieutenant will keep the journal of the yard in the prescribed form.

CHAPTER XLIV.

NAVY YARDS.

NAVAL CONSTRUCTOR.

ARTICLE 1.

Duties of the constructor.

The naval constructor will, under the direction of the commandant of the yard, have the general superintendence of building and repairing vessels, and the direction of all master and other workmen employed, as well as the materials used on the hull, masts, spars, boats, and gun-carriages of ships; and he will submit to the commandant, in writing, the number of persons he may desire to have employed on those objects for his approval; and he shall be present at the muster of the mechanics at least twice in each month.

ARTICLE 2.

He will conform to instructions.

He will conform rigidly to such instructions as he may receive from the commandant of the yard for the building and repairs of ships, and communicate in writing to him any modifications which will be likely to diminish the expense or increase the utility of such works, and any suggestions in the line of his profession or duty which he may consider to be to the interest of the service.

ARTICLE 3.

Discharge of workmen.

He will inform the commandant when there are more persons employed in any department under his superintendence than are required, who will order such discharges as he may deem proper.

ARTICLE 4.

He will prevent waste of timber ; returns to be made.

He will take care that proper measures are adopted to prevent any waste in the use of timber or other materials, or the use or conversion of any timber or wood materials or metals, until such account is taken of them as shall secure a correct expenditure ; and that daily returns be made to the inspector and measurer of timber of the particular timber or wood materials which may have been used or converted, and to what particular object applied, so that the inspector may at all times be able to furnish the information necessary to make requisitions to cover the expenditure, and to know the particular species or quantity remaining on hand.

ARTICLE 5.

When defects are discovered not previously known.

If, in the course of the repairs of any vessel, defects should be discovered which were not previously known, and which will be likely to materially increase the expense beyond that which had been originally estimated, or delay the work, it shall be his duty to make immediate report of the same to the commanding officer of the yard for further instructions.

ARTICLE 6.

Examination of vessels upon the stocks and in ordinary.

He will carefully and thoroughly examine, at least once a month, all the vessels which may be upon the stocks or in ordinary, to see that they stand securely and true, and that they are as effectually guarded against any change of form, or decay, as circumstances will admit, and make written report to the commandant of the yard upon the subject.

ARTICLE 7.

Defective timber to be considered "refuse timber."

Such timber as from latent defects shall be found unfit for naval purposes shall be considered "refuse timber," and so entered in the

storekeeper's books ; and such, as under similar circumstances, shall be found unfit for any use as navy timber shall be designated "condemned timber;" and both shall be placed in situations appropriated for the reception of each kind, respectively. All "condemned timber" shall be expended as such, and shall be included in the semi-monthly requisitions accordingly, as if expended in any other manner.

ARTICLE 8.

Requisitions.

He shall direct proper requisitions to be made upon the navy store, on the middle and last days of each month, to cover the expenditure of all timber and wood materials which may have been condemned or used during the preceding half month by the different master workmen.

ARTICLE 9.

Returns.

He will see that his clerk furnishes to the commanding officer of the yard, on the first and sixteenth of each month, a return showing the total number of days' work performed during the preceding half month by each class of mechanics and laborers under his superintendence, with a general statement of the labor performed upon each object, according to such form as may be prescribed, that the pay-rolls may be correctly made out by the clerk of the yard.

ARTICLE 10.

Docking a vessel.

In docking a ship he will, under the direction of the commandant, lay the ways and make all needful preparation for receiving the ship, and shall superintend the placing her on the ways, in which he will receive all necessary assistance from the executive and other officers of the yard ; but the moving and hauling of the ship shall be under the direction of the executive officer of the yard.

ARTICLE 11.

Undocking a ship.

When the ship leaves the dock she shall be under the charge of the executive officer of the yard; and if the work on the hull is not finished, the constructor will have superintendence of it until finished.

CHAPTER XLV.

NAVY YARDS.—CONSTRUCTING, OR CIVIL ENGINEER.

ARTICLE 1.

He will act under the direction of the chief of the Bureau of Yards and Docks.

When there shall be a civil engineer or architect employed at any navy yard, he will act under the direction of the commandant and chief of the Bureau of Yards and Docks.

ARTICLE 2.

Objects over which he has superintendence.

The engineer will have the superintendence and charge of the erection and repairs of all buildings in the yard, and of all docks and wharves. He will have the immediate superintendence and direction of the architect, when one is employed at the same yard with the engineer, and of all master and other workmen employed on said works, and will recommend their respective wages, and be responsible for the proper distribution and employment of all materials for said work.

ARTICLE 3.

He will conform to instructions and prepare plans and estimates.

He will conform strictly to the instructions he may receive for executing the work, and will prepare plans and estimates of cost, with bills of materials and schedules for advertisements which may be necessary for such works as may be directed. These plans and estimates of cost must be prepared in duplicate for transmission to the Bureau of Yards and Docks, one of which, when duly approved, will be returned to the commander of the yard for the guidance of the commandant and engineer and the other retained in the bureau.

ARTICLE 4.

Yearly statement to commandant.

He will, at the end of each fiscal year, submit to the commandant a report giving a clear and distinct statement of the condition of the several works of improvement confided to his charge, the original estimate to complete, the amount appropriated for each object, progress made upon each, and the total amount expended during the year, the amount of appropriations unexpended for each, and the additional amount, if any, required to complete such work; and, if more is required than was originally estimated, the reasons must be fully stated.

ARTICLE 5.

He will offer suggestions to the commandant.

He will make such suggestions to the commandant of the yard in relation to orders received, or otherwise in the line of his profession or duty, as he may consider advantageous to the interest of the service.

ARTICLE 6.

Report of laborers required.

He will inform the commandant, in writing, of the number of persons required in the various departments under his control, and when the services of any are no longer required he will report to the commandant the number that may be dispensed with.

ARTICLE 7.

Selection of materials.

The inspection and measurement of all materials and of all works under his charge will be under his supervision and control.

ARTICLE 8.

Certification of bills, reports, &c.

He will examine and certify to the correctness of all bills for materials and supplies for works under his charge; will examine as to the correctness of the pay-roll for labor and sign monthly and semi-monthly reports, in his department, that are required to be made by the commandant of the yard to the Bureau of Yards and Docks.

ARTICLE 9.

Requisition for materials.

All requisitions for materials or articles in his department are to be made by the master workmen employed under his direction, countersigned by him, and sent for approval to the commandant of the yard, who will allow such as he may deem necessary. No articles or materials are to be purchased without previous requisitions, nor any to be used till they are duly inspected, approved, and receipted for.

ARTICLE 10.

Reports of master workmen.

Master workmen under him will report, at the middle and end of each month, the expenditure of materials and labor upon the several objects under their immediate superintendence.

ARTICLE 11.

Responsibility for waste, &c.

He will be responsible for all waste or improper use of materials by those under his general superintendence.

ARTICLE 12.

Mechanics, &c., on temporary duty in his department.

He will have the direction of such mechanics and laborers in the yard as may be ordered for temporary duty in his department, charging their service for the particular work for which it was required; and will report any irregularity or misconduct of persons under his direction.

ARTICLE 13.

Account of expenditure on each object.

He will keep an exact account of all materials and labor expended upon each object, and report to the commandant, semi-monthly, the operations on the same, distinguishing the number and classes of the men employed, and the kind and quantities of materials used on each.

ARTICLE 14.

Appropriations not to be exceeded.

He will be careful that the sums expended and the liabilities incurred shall not exceed the appropriation for any work, to which end he will be furnished by the commandant with copies of appropriations and contracts made, and of orders issued in relation to any of the works under his control; and he will be held responsible for the execution of the works confided to him, according to the plans approved by the bureau, and within the time and amount estimated by him. On failing to do so, he will be required to account satisfactorily therefor.

CHAPTER XLVI.

NAVY YARDS.—CHIEF ENGINEER.

ARTICLE 1.

One shall be attached to each navy yard.

When it can be done with due regard to the other interests of the service, there shall be a chief engineer of the navy attached to each of the navy yards, who shall, under the direction of the commandant

have the superintendence of the construction and repairs of the steam and other machinery.

ARTICLE 2.

Superintendence of workmen in work-shops, foundries, &c.

He shall have the supervision, under the commandant, of the master workmen and men employed in the machine and boiler shops and foundries, and of all the material used in his department, and be responsible for its preservation and proper use.

ARTICLE 3.

Statement of number of persons required in his department.

He will state in writing to the commandant the number of persons required in the various departments under his charge, and when the services of any are no longer necessary, he will inform the commandant of the number that may be dispensed with.

ARTICLE 4.

Duties required of a civil engineer or architect; required of a chief engineer.

The duties required of a civil engineer or architect in Articles 5, 7, 8, 9, 10, 11, 12, 13, and 14 of Chapter XLV, being in every respect analogous to those of a chief engineer, he is hereby required to conform in all respects to the provisions of said articles.

CHAPTER XLVII.

NAVY YARDS.—MASTER WORKMEN.

ARTICLE 1.

Inspection of stores.

The master workmen shall, either alone or with others who may be employed in the navy yard, when they may be directed, inspect stores that may be received into the yard in their respective departments, and certify as to their quality.

ARTICLE 2.

Account of labor performed.

They shall be in the yard at the times of commencing work, and keep in due form an account of the labor performed by each individual in their respective departments, upon different objects, and hand copies of the same, daily, to the clerk of the commanding officer and to the naval constructor, chief engineer, or civil engineer under whom they may be employed, and, if not under their direction, to the clerk of the yard.

ARTICLE 3.

Control of those under them.

They shall have the immediate control of and be vigilant to insure constant diligence from all those who may be employed under their special direction.

ARTICLE 4.

Surveys and conversions of materials.

They shall attend all surveys and conversions of materials in their respective departments, and, if necessary, they may suggest measures for their better preservation.

ARTICLE 5.

Selection and employment of operatives.

They will be allowed the selection of the operatives to be employed in their respective branches of labor, subject to the approval of the chiefs of departments and the sanction of the commandant, and will be held accountable for the proper execution of the work under their charge, and that none but efficient and competent men be employed.

ARTICLE 6.

Account of materials used.

They will hand to the clerk of the naval constructor, chief engineer, or civil engineer daily, an account of all the timber and timber materials which may have been taken for use the preceding day by them, or by their direction.

ARTICLE 7.

No article to be used without their knowledge.

No article whatever is to be taken or used without the knowledge of the proper master workman.

ARTICLE 8.

Personal attendance.

The master workmen must give their regular personal attendance, and are only to be paid, like all other persons who receive daily pay, for the time they actually attend to their duty in the yard, except when special exemptions shall be granted by the approbation of the Navy Department.

ARTICLE 9.

Not to leave the yard without permission.

No master workman, or other person employed in a navy yard, shall leave the yard during working hours without the permission of the commandant or executive officer.

ARTICLE 10.

No person dismissed at one yard to be employed at another, except.

If any mechanic or other person employed in a navy-yard, shall be dismissed for misconduct by proper authority, such person shall not again be employed in any navy-yard, except by direction of the Secretary of the Navy.

CHAPTER XLVIII.

NAVY YARDS.—PAYMASTER.

ARTICLE 1.

He shall have charge of paying and victualling enlisted persons.

The paymaster of a navy yard shall have charge of paying and victualling all enlisted persons belonging to the navy attached to the yard and to vessels in ordinary at the yard, and, if so ordered, of those belonging to receiving vessels, and of such officers as may have their accounts transferred to him.

ARTICLE 2.

He will pay mechanics and laborers.

He shall pay all mechanics and laborers who may be employed under the direction of the commandant, upon pay-rolls, (which shall have been properly made out, certified and approved,) after he shall have satisfied himself of the correctness of the calculations.

ARTICLE 3.

Payments to be made in specie or in funds of equal value.

He will make all payments in specie or in funds which shall be of fully equal value with those which he may receive from the government for public use.

ARTICLE 4.

Requisitions.

He shall make requisitions monthly, under the direction and with the approval of the commanding officer, for such amount of money as may be deemed necessary for the public service in his department.

ARTICLE 5.

Manner in which his accounts shall be kept.

He shall keep distinct accounts of moneys received and expended under the different appropriations, and never apply them to any other objects than those for which they were drawn, except by special written authority from the Secretary of the Navy.

CHAPTER XLIX.

NAVY YARDS.—NAVY STOREKEEPER.

ARTICLE 1.

He shall have charge of all stores and materials.

The navy storekeeper shall take charge of all stores and materials which may be received into the yard for the public service, and be held responsible for the expenditure of the same, conformably to the general instructions of the service or to the special orders of the Navy Department.

ARTICLE 2.

He shall have charge of the keys of all store-rooms, &c.

He will, under the direction of the commanding officer of the yard, have charge of the keys of all store houses and buildings containing articles for which he is responsible.

ARTICLE 3.

Requisitions.

Whenever he may be directed by the commanding officer he shall make requisitions upon navy agents or contractors for all articles which may be wanted, and present the same to him for his approval. Such requisitions must always specify the appropriation, and, when practicable, the particular object for which the articles are required; and separate requisitions must be made under each appropriation for which articles may be wanted.

ARTICLE 4.

He shall not receipt for articles until invoices are furnished.

He shall not give a receipt for any articles delivered in the yard, whether purchased by navy agents or delivered by contractors, until

he shall have been furnished with an invoice or bill stating the particular articles, their cost and the object or appropriation for which they were purchased, nor until they shall have been certified to be of proper quality by the inspecting officers, unless directed by written order of the commanding officer.

ARTICLE 5.

Articles received in the yard shall be entered in his books.

All articles which may be received into the yard for public service, or which may be placed in the storekeeper's charge by the orders of the commanding officer, shall be immediately entered by the storekeeper in his books under the respective appropriations to which they belong.

ARTICLE 6.

No article to be delivered for any other object than that for which it was received, except.

He shall not deliver articles for any other object or appropriation than that for which they were originally received, except by a written order of, or upon a requisition approved by the commanding officer of the yard, which order or requisition he must produce as the authority for such transfer or loan.

ARTICLE 7.

He will issue articles only on written orders or requisitions, except.

He will issue no articles (timber, timber materials and coal excepted) but by the previous written order of, or upon requisitions duly approved by the commanding officer of the yard. These requisitions or orders must specify the appropriation and the object for which the articles are wanted; and when they are to be drawn from an appropriation different from that for which they are wanted it must be distinctly stated on the face of the requisition. Requisitions for timber and coal must be made semi-monthly, to cover the quantities which may have been used, condemned, or transferred during the preceding half month.

ARTICLE 8.

Articles to vessels in commission to be delivered upon requisitions.

He will deliver articles to vessels in commission, upon requisitions when signed by the commanding officer of the vessel, approved by the senior officer present in command of such vessels and by the commanding officer of the yard, taking receipts, as directed in the next following article.

ARTICLE 9.

He will take receipts.

He will take receipts for all articles delivered, upon the requisitions themselves, and preserve them as vouchers for his expenditures; and also upon invoices prepared in triplicate, one of which he will leave for the use and government of the officer receipting for the same. He shall give credit to the proper objects, and charge himself on his books with all surplus stores that may have been required for any object and returned to him again as not having been wanted.

ARTICLE 10.

Examination of accounts rendered.

He shall examine all accounts rendered for supplies furnished which shall have been duly certified to have passed inspection, and, on being satisfied of their accuracy and the reasonableness of the prices charged, shall receipt the same and send them immediately to the commanding officer for approval; but if he shall believe any article to be overcharged, or shall discover any defect or deficiency, he shall call the attention of the commanding officer to such charge, defect, or deficiency before receipting for the same.

ARTICLE 11.

After survey upon articles from a ship, shall receive them.

After survey shall have been held upon stores returned from a ship he shall receive them on store account, excepting such as shall have been condemned. When articles recommended for repairs are repaired he will credit the vessel with their original value, less the cost of repairs. The articles so received may be issued to other vessels by order of the commandant of the yard, when it can be advantageously done; and these second-handed articles must be entered and expended on separate lines from other articles.

ARTICLE 12.

He will notify commanding officer when stores are nearly expended.

He will notify the commanding officer whenever any article of stores may be so nearly expended as to require replenishing, and when any additional measures may be necessary for the proper preservation of articles in his charge.

ARTICLE 13.

Articles may be used when not of the dimensions, form, or quality specified in requisition, except.

When there are any articles in store which may be used without impairing efficiency, though not of the precise dimensions, form, or

quality named in a requisition upon the navy storekeeper, they are to be supplied in place of those required, to prevent the necessity of open purchases, unless otherwise specially directed by the commandant of the yard.

ARTICLE 14.

He shall have charge of transportation of stores.

He shall be responsible for the shipment of all stores under his charge from the yard at which he is stationed to other places, by such conveyances as may be furnished by the navy agent, and conformably to such orders as he may receive upon the subject. Particular attention must be paid by him to have all the articles thus to be transported delivered by the bills of lading at the *precise place* to which they may have been ordered, and that they are in good shipping order. The price, rate, or amount of freight to be paid must be specifically inserted in all bills of lading, and not left to the phrase, "according to usage."

ARTICLE 15.

Articles sent from the yard.

All articles sent from the navy yard must be accompanied by a bill or invoice stating the particular contents of each package, the cost of the separate articles, and the appropriation to which they belong.

ARTICLE 16.

His books, &c., to be kept as directed by the Navy Department.

He shall keep his books and make his returns in such manner and at such times as may be prescribed by the Navy Department.

CHAPTER L.

NAVY YARDS,—CLERK OF THE YARD.

ARTICLE 1.

His duties.

The clerk of the yard will receive his orders from the commandant or commanding officer in regard to the times and manner of mustering the workmen. He must be present, prepared, and commence the musters precisely at the times prescribed. He will make out semi-monthly pay-rolls, upon which workmen are to be paid, and certify to their correctness, showing the names, classes, number of days, amount of work performed by each, the rate of pay as established by the commandant of the yard, amount due to each, and the whole amount chargeable to each appropriation, with remarks in the margin noting any extra work.

ARTICLE 2.

Copy of semi-monthly pay-roll to be prepared.

A monthly copy or transcript of the semi-monthly pay-roll is to be made by him, and when approved is to be forwarded by the commandant to the Bureau of Yards and Docks.

ARTICLE 3.

An officer will keep a duplicate muster-roll.

An officer or other person will be appointed and be present and keep a duplicate check muster-roll when the men are mustered, and compare it with the clerk's list; and if they should not agree, an examination must be immediately made to ascertain the cause and correct the error.

CHAPTER LI.

NAVY YARDS.

MARINES IN NAVY YARDS.

ARTICLE 1.

Detachment subject to orders of commandant of yard.

The marine detachment serving within a navy yard is to be subject to the orders of the commandant of the yard; but no part of the detachment shall be relieved or withdrawn therefrom except by order of the commandant of the marine corps, approved by the Secretary of the Navy. All such orders shall pass through the commandant of the yard.

ARTICLE 2.

Officer relieving the commanding marine officer to report to commandant of yard.

When a marine officer is ordered to relieve another officer commanding the marines within a navy yard, he shall on his arrival report himself to the commandant of the yard. Marine officers joining a navy yard will report to the commandant and commanding marine officer.

ARTICLE 3.

Commanding officer to post sentinels and report disposition of the force.

The commanding marine officer within a navy yard will cause to be posted such sentinels for the protection of the yard and vessels in

ordinary as may be directed by the commandant of the yard. He will make to the commandant of the yard a daily report of the amount and disposition of the force under his command, specifying by name officers who may have joined in the previous twenty-four hours.

ARTICLE 4.

Countersign.

He will, unless the commandant shall think proper to issue it himself, transmit every morning, in writing, and under seal, to the commandant of the yard, and to such other officers and such only as he may designate, the countersign for the ensuing night.

ARTICLE 5.

During the absence of the commandant of the yard.

In the absence of the commandant of the yard no navy officer temporarily in command shall give orders to a marine officer of superior relative lineal rank; but such navy officer may give to the marine officer of the day any orders in relation to the duties of the guard.

ARTICLE 6.

Police and internal government of the marine barracks.

The police and internal government of the marine barracks and the instruction of the marines within a navy yard shall be under the direction of the commanding marine officer, but must not conflict with the general police regulations of the commandant of the yard.

ARTICLE 7.

Non-commissioned officers may be reduced by commanding marine officer.

Non-commissioned officers serving within a navy yard or garrison may be reduced by the commanding marine officer, he reporting the particulars of the case to the commandant of the corps; and he may promote to fill vacancies, with the sanction of the commandant of the corps.

ARTICLE 8.

Leaves of absence.

Marine officers belonging to a navy yard desiring leave of absence will conform to the general rules of the navy on that subject. The customary liberty to non-commissioned officers, music, and privates may be granted at the discretion of the commanding marine officer.

ARTICLE 9.

Official communications.

All official communications to and from officers and enlisted men of the marine corps serving at navy yards shall be forwarded through their immediate commanding officer; but if such communications affect the commandant of the yard, or relate to any duties of the yard, they shall be forwarded by the commanding marine officer through the commandant of the yard.

ARTICLE 10.

Deficiencies in the complements of marines in vessels may be supplied.

Deficiencies in the complements of marines in vessels on the eve of sailing may, by order of the commandant of the yard, be supplied by the commanding marine officer, and the circumstances of the case reported without delay to the commandant of the corps by the commanding officer of marines, and by the commandant of the navy yard to the Navy Department.

ARTICLE 11.

Offences by marines on post.

All offences or neglects which may be committed by marines as sentinels, or in violation of orders given by the commandant of the yard, must be reported to him. Other offences which may be committed by marines, either in barrack enclosures or elsewhere, may be punished by the commanding marine officer, as by law allowed, or be reported to the commandant of the marine corps.

ARTICLE 12.

They will conform to regulations.

Marines, when stationed at or employed within a navy yard, are to conform to all regulations which may be issued by the commandant thereof for its government and security.

ARTICLE 13.

Interior police and government of marines in barracks.

The interior police and government of marines when in barracks within or without a navy yard, and their military instruction, shall be under the immediate direction of the commanding marine officer.

ARTICLE 14.

Reviews and exercises.

The exercises and formation of marines at parades, reviews, inspections, escorts, guard mountings and funerals, challenges of persons, police and regulations for camp and garrison duties, and salutes, will be the same as those established, or which hereafter may be established for the army.

ARTICLE 15.

Transfer of marines from one station to another.

Where marines are transferred from one station to another it shall be the duty of the officer transferring them to forward their returns forthwith to the officer to whom they are transferred.

ARTICLE 16.

Officers to assist in preparing rolls.

It is the duty of officers serving with detachments to assist their commander in making out rolls, reports, and returns; keeping the books of the detachment, attending to issues, and to everything connected with the welfare of the command. And the commander will see that their assistance is rendered.

ARTICLE 17.

Officer of the day. Inspection of meals.

The officer of the day will inspect the provisions daily issued to the troops, and if not of good quality, will report the same to the commanding officer. He will also inspect the different meals, to see that the rations are properly cooked and served.

ARTICLE 18.

Marines in garrison to wear prescribed uniform.

Officers and soldiers in garrison will wear the prescribed uniform of the corps.

ARTICLE 19.

Apprehension of a deserter.

When a deserter is apprehended, or surrenders himself, the officer in whose charge he is will immediately report the same to the headquarters of the corps, and to the commanding officer of the station or detachment from whence he deserted.

ARTICLE 20.

Maintenance at Naval Asylum.

A non-commissioned officer, private, or musician of the marine corps, who has served for twenty years or more with honorable discharge at the termination of each enlistment, and produces a certificate from a surgeon of the navy that he is unable to gain his support by labor, shall be entitled to the privileges of the Naval Asylum for the remainder of his life; provided, his conduct conforms to the regulations of that establishment; or he may receive an allowance of ——— dollars per month in lieu of such provision, holding himself in readiness to perform such service as the Navy Department may require of him; provided, that when he receives pay for such services the allowance of ——— dollars shall cease during the time that he receives such pay.

CHAPTER LII.

NAVY AGENT.

ARTICLE 1.

He will purchase articles not furnished by contract.

Supplies for the navy not furnished by contract are to be purchased by the navy agent, when directed by the Navy Department, or upon requisitions approved by the commanding officer of the navy yard; or, if there be no navy yard at the place where he is directed to reside, then upon requisitions approved by the senior officer in command upon the station.

ARTICLE 2.

He shall make purchases and engagements.

He shall make purchases and engagements for the naval service upon the most advantageous terms, under such directions as the department may adopt, and at prices agreed upon before the articles are ordered, or the agreements are signed or become obligatory, and shall certify the same on such bills or agreements; and shall require that all articles supplied through him shall be of the best quality, be deliverable in good order, and, when sent to a navy yard or vessel, that they be accompanied by proper bills, showing their number or quantity and their price, and the appropriation and object for which they were procured.

ARTICLE 3.

To have no private interest in articles purchased.

He shall have no private interest, directly or indirectly, in the supply of any article which it may be his duty to procure for the navy.

ARTICLE 4.

To make no sales or purchases, except.

He is to make no sale of articles belonging to the United States, nor any purchases, nor incur any public expense, without the sanction of the senior officer upon the station, the commanding officer of the navy yard, or the Navy Department.

ARTICLE 5.

To pay no bills without approval and certificate, except.

He shall pay no bills for articles furnished, or services rendered to navy yards or vessels under the control of the commanding officer of the yard, without the previous approval of that officer; nor any bill for articles furnished, or services rendered directly to vessels in commission without the certificate of the commander of the vessel and the approval of the senior officer in command of the station, unless sanctioned by the Navy Department.

ARTICLE 6.

Not to pay bills under one appropriation out of money belonging to another, except.

He is not to pay bills or requisitions under one appropriation from any money belonging to another appropriation, without the express sanction of the Secretary of the Navy; and whenever money shall be so transferred, he shall note it particularly in his next return.

ARTICLE 7.

Requisitions.

His requisitions upon the department for money must be made under the specific heads of appropriation, and must be accompanied by triplicates of the bills or requisitions for the payment of which they are intended.

ARTICLE 8.

Charter parties, bills of lading, &c.

If he shall send articles from one place to another for the navy, particular attention must be paid to make them deliverable by the

charter party, bill of lading, or other agreement, at the precise place where they may be specially required, and a particular rate of freight be inserted, and not left "according to usage."

ARTICLE 9.

He will make monthly returns.

He must make monthly returns to the Navy Department of all moneys received, expended and remaining on hand under each appropriation, in such form as may be prescribed. These returns must be made within ten days after the expiration of each month.

CHAPTER LIII.

CONVOYS.

ARTICLE 1.

Written directions and signals to be prepared.

The commanding officer of a vessel who shall be appointed to convoy the trade of the United States shall give the necessary printed and written directions and signals to the master of each vessel which is to sail under his protection.

ARTICLE 2.

List of vessels under convoy.

He shall take a list of the vessels under his convoy, specifying their names and descriptions, the places where bound and to which they belong, the names of their masters, their owners or supercargoes, if any, and transmit a copy of the same to the Secretary of the Navy, with the date of their joining the convoy.

ARTICLE 3.

Contraband articles.

Before he shall take under his convoy any vessel bound to a belligerent port he shall require satisfactory proof that there are no articles on board such vessel of a contraband nature; and without such satisfactory evidence he shall not be bound to take such vessel under his convoy, or to give her any protection against the other belligerent nation, unless specially directed.

ARTICLE 4.

Vigilance in defending from attack or surprise.

Every officer charged with a convoy must be very vigilant in defending it from attack or surprise, and must never weaken the con-

voying force by detaching a part in chase beyond signal distance, nor must he separate from the convoy, unless such separation shall be the best means of preserving a convoy from an enemy.

ARTICLE 5.

Separation to be prevented.

He shall adopt all possible measures to prevent the separation of the convoy, and may direct such vessels to repeat his signals as he may deem proper.

ARTICLE 6.

Different convoys sailing at the same time.

When different convoys shall sail at the same time, or shall meet at sea, they shall sail together so long as their course shall be in the same direction; but the different convoys shall be kept as distinct from each other as circumstances will allow.

ARTICLE 7.

Delinquent vessels to be reported.

He will make report to the Secretary of the Navy of the name of any vessel, and of the master, who shall disobey the instructions or signals for the convoy, or leave the convoy without permission, or otherwise misbehave, stating the particulars of his misconduct, so that insurance offices may be informed of the same.

ARTICLE 8.

Masters disobeying orders to be refused further protection.

Whenever the master of any vessel under convoy shall wilfully or repeatedly neglect or refuse to conform to the instructions or signals of the commanding officer of the convoying force, the said commanding officer may refuse him any further protection, and be released from any further responsibility for the safety of the vessel.

 CHAPTER LIV.

PRIZES AND PRIZE-MONEY.

ARTICLE 1.

Captor to preserve all papers, books, &c. relating to prize, and transmit them to the Judge of the district court where such prize may arrive.

The commanding officer of every ship or vessel of the United States, who shall capture or seize upon any vessel, or any goods, wares or merchandise, as prize, shall carefully preserve all the papers, books,

and other writings found with the same, or which may come into his possession, relating to the same, and transmit the whole (signals and signification of signals excepted) unmutilated, undefaced, or otherwise changed by him, to the judge of the district court in which such captured vessel or other prize property may arrive, on pain of suffering such punishment as a general court-martial may adjudge.

ARTICLE 2.

List of officers and crew of a vessel making a prize to be transmitted to Navy Department.

The commanding officer of every ship or vessel of the United States making a capture of any kind whatever shall transmit, as early as practicable, to the Navy Department, and to the person appointed to receive and pay the prize-money, complete lists of the officers and crew and others on board their vessel at the time entitled to a share of the capture, setting forth the rank, quality and rating of each person at the time of the capture, and the class in which they are entitled to receive prize-money, certified by himself and the paymaster of the vessel, on pain of being punished at the discretion of a general court-martial.

ARTICLE 3.

Nothing to be taken out of a prize, but every thing in her is to be brought in.

No person in the navy shall take out of a prize or vessel seized as prize any money, plate, goods, or any part of her cargo or rigging, unless it be for the better preservation thereof, or necessary for the use of any of the vessels of the United States, or under instructions from the Navy Department, before the same shall be adjudged lawful prize by a competent court; but the whole, without fraud, concealment, or embezzlement, shall be brought in and judgment passed thereon, upon pain of every person offending herein forfeiting his share of the capture, and of suffering such further punishment as a general court-martial shall impose.

ARTICLE 4.

Ill treatment of prisoners of war forbidden,

No person in the navy shall strip of their clothes, or pillage, or in any manner treat with cruelty or unnecessary severity any person or persons found on board a prize or captured vessel, on pain of dismissal from the service, or such other punishment as a general court-martial shall adjudge.

ARTICLE 5.

Net proceeds of captured men-of-war, privateers and pirates, belong to captors; those of all other vessels to be equally divided between navy pension fund and captors.

The net proceeds of all ships and vessels of war, privateers and pirates, and the goods, wares, or merchandise found on board of them

shall, when captured by any vessel of the navy, and adjudged good and lawful prize by the competent court, belong wholly to the captors; and the net proceeds of all other vessels, goods, wares and merchandise which shall be captured or re-captured by vessels of the navy, shall be equally divided between the navy pension fund and those making the capture, when the same shall be adjudged good and lawful prize, or awarded as salvage, or deemed as forfeited by the competent authority.

ARTICLE 6.

Bounty for capturing or destroying an enemy's vessel-of-war.

A bounty shall be paid by the United States for each person on board any ship or vessel-of-war belonging to an enemy at the commencement of an engagement, which shall be sunk or otherwise destroyed in such engagement, by any ship or vessel belonging to the United States, or which it may be necessary to destroy in consequence of injuries sustained in action, of seventy-five dollars, if the enemy's vessel was of inferior force; and of one hundred and fifty dollars, if of equal or superior force; to be divided among the officers and crew in the same manner as prize-money; and when the actual number of men on board any such vessel cannot be satisfactorily ascertained, it shall be estimated according to the complement allowed to vessels of their class in the navy of the United States; and there shall be paid as bounty to the captors of any vessel-of-war captured from an enemy, which they may be instructed to destroy, or which shall be immediately destroyed for the public interest but not in consequence of injuries received in action, fifty dollars for every person who shall be on board at the time of such capture.

ARTICLE 7.

Division of prize-money.

The net proceeds of all prizes to which the officers and crews of vessels belonging to the navy of the United States shall be lawfully entitled shall be distributed in the following manner:

1st. To the commanding officers of fleets, squadrons, or single ships, three-twentieths, of which the commanding officer of the fleet or squadron shall have one-twentieth, if the prize be taken by a ship or vessel acting under his command, and the commander of single ships two-twentieths; but when the prize is taken by a ship acting independently of such superior officer, the three-twentieths shall belong long to her commander.

2d. To sea lieutenants, captains of marines, chief engineers, and sailing masters, two-twentieths; but when there is a captain without a lieutenant of marines, these officers shall be entitled to two-twentieths and one-third of a twentieth; which third, in such case, shall be deducted from the share of the officers mentioned in Class No. 3.

3d. To surgeons, paymasters, chaplains, lieutenants of marines,

passed assistant surgeons, passed midshipmen, first assistant engineers, boatswains, gunners, carpenters, two-twentieths.

4th. To assistant surgeons, midshipmen, master's mates, (warranted,) second assistant engineers, third assistant engineers, sailmakers, captain's clerks, paymaster's clerks, schoolmasters, sergeants of marines, ship's stewards, masters-at-arms, armorers, cockswains to commanders-in-chief, boatswain's mates, gunner's mates, carpenter's mates, ship's cooks, quartormasters, three-twentieths and the half of a twentieth.

5th. To yeomen, cockswain, quarter-gunners, sailmakers, coopers, captains of the forecastle, captains of the tops, captains of the after-guard, corporals of marines, music of the marines, two-twentieths and a half.

6th. To seamen, armorer's mate, painters, officers' stewards, officers' cooks, captains of the hold, ship's corporals, masters of the band, fireman, coalheavers, three-twentieths.

7th. To ordinary seamen, landsmen, boys, musicians, (band,) marines, (privates,) all other persons doing duty on board, four-twentieths.

ARTICLE 8.

Commanding officers of all vessels assisting at or in sight at the time of a capture shall share in prize-money.

Whenever more than one vessel of the navy of the United States shall assist at any capture, or be in sight at the time of such capture, and shall have made itself known, by signal or otherwise, as a vessel-of-war of the United States, the share of the prize-money accruing from such capture which may belong to the commanding officers of vessels so assisting shall be divided among them according to the established complements of the vessels they may respectively command.

ARTICLE 9.

Shares of a commander doing duty in a line of battle ship, of commanders of vessels in command of fleets, &c., and of all other persons in such vessels.

A commander doing duty on board a ship of the line, under a captain, shall share as though he was in command of a sloop-of-war of the first class. If any of the said commanding officers of vessels shall at the same time be commanders of fleets or squadrons by order of or authority from the Secretary of the Navy, or in conformity with the regulations of the navy, they shall be further entitled to their share as commanders of fleets or squadrons from such of the vessels assisting in the capture as may belong to their fleet or squadron, as hereinafter defined and limited. All the other officers and persons belonging to, or serving in such vessels, shall share equally in the respective classes to which they may belong.

ARTICLE 10.

When the commander of a vessel shall be deemed under the command of a flag-officer.

The commanding officer of a vessel shall be deemed to be under the command of a flag-officer, or commander of a fleet or squadron, when he shall have actually been placed or taken under his command, and shall have actually received some order directly from, or be acting in execution of some order issued by such officer; and when he shall be directed to join and report to any such commander of a fleet or squadron he shall then be deemed to be under the orders of such commander from the time that he arrives within the limits of such officer's station, and shall be considered under the command of the commander of such fleet or squadron until such commander of a vessel shall have received some order directly from, or be acting in execution of some order directly from, some other commander of a fleet or squadron, or from the Secretary of the Navy.

ARTICLE 11.

Rights of flag-officers to share in prize-money.

A flag-officer, or other officer sent to command any station, shall have a right to share, as commander-in-chief, in all prizes taken by ships or vessels employed upon or belonging to the station from the time that he arrives within the limits of such station; but if a junior officer be sent to relieve a senior as commander-in-chief, he shall not be entitled to share, as commander-in-chief, in any prize taken by the squadron until the command shall be resigned to him, but shall share only as a junior commander of a squadron until he assumes the command.

ARTICLE 12.

A flag-officer passing through the station of another flag-officer shall not be entitled to share as such in a prize taken out of his station.

A flag-officer, or other officer appointed to command a squadron upon any station, and passing through or into any other station, shall not be entitled to share, as a commander of a squadron, in any prize taken out of the limits of the station to which he belongs or is appointed, by any vessel under the command of the commander of a squadron on any other station, or under orders direct from the Secretary of the Navy.

ARTICLE 13.

When an inferior in command of a squadron is sent to reinforce a superior, such superior shall not share in the prizes of the inferior until—share of the inferior.

When an inferior officer in command of any squadron shall be sent to reinforce a superior officer in command upon any station, the supe-

rior shall have no right to any share of prizes taken by the inferior until such inferior shall arrive within the limits of the station, or shall actually receive some order from him, or be actually in execution of some order issued by him; and such inferior shall be entitled to his proportion of all captures made by the squadron to which he is sent to reinforce from the time that he shall arrive within the limits of the command of such superior.

ARTICLE 14.

Share of prizes of a commander-in-chief absent from his station.

A commander-in-chief of a fleet or squadron quitting his station for any reason except upon some particular urgent service, with the intention of returning to such station as soon as such service is performed, shall have no share of prizes taken by ships or vessels left behind after he shall have surrendered the command to another officer appointed commander-in-chief of such station, or after he shall have passed the limits of his command, without being superseded.

ARTICLE 15.

An inferior commander of a squadron absent from his station, unless under orders, will not share in prizes of remaining vessels; nor the commander-in-chief in the prizes of such inferior absent from his station.

An inferior commander of a squadron quitting his station, except when detached by orders from the commander-in-chief, out of the limits thereof, upon a special service, with orders to return to such station as soon as such service is performed, shall have no share in any of the prizes taken by the vessels remaining on the station after he shall have passed the limits thereof; and, in like manner, the commander-in-chief, or commander of squadrons remaining on the station, shall have no share of prizes taken by such inferior commander of a squadron, or by the vessels under his command, after he shall have quitted the limits of his station, except when detached as aforesaid.

ARTICLE 16.

How prizes shall be shared when vessels belonging to different fleets are joint captors.

When vessels under the orders of commanders of fleets or squadrons belonging to different stations shall happen to be joint captors, the commanding officer of each vessel shall pay one-third of the share to which he is entitled to the commander of the fleet or squadron to which he belongs; but the commanding officers of vessels acting under orders direct from the Secretary of the Navy, being joint captors with vessels under the command of a commander of a fleet or squadron, shall retain their whole share.

ARTICLE 17.

Share of an officer sent to command a port or station.

If an officer of the navy shall be sent to command at any port or station on the coast of the United States he shall have no share of the prizes as commander of a fleet or squadron which may be taken by any vessels, excepting such as shall have been expressly directed to act under his orders by the Secretary of the Navy, and only those captures made within the limits of his station.

ARTICLE 18.

Share of a flag-officer with no other flag-officer under his command.

A flag-officer being the commander-in-chief of a fleet or squadron, and having no other flag-officer or commander of a squadron under his command, shall have to his own use the one-twentieth of the net proceeds of prizes taken by vessels under his command, as herein provided for and limited.

ARTICLE 19.

Division of the one-twentieth set apart for commanders of fleets, &c., in certain cases.

When there shall be commanders of squadrons or divisions duly appointed by the Secretary of the Navy, or in conformity with the regulations of the navy, acting under a commander-in-chief of a fleet or squadron, the one-twentieth of the net proceeds of prizes taken by any vessels of the fleet or squadron, which is set apart for the commanders of fleets and squadrons, shall be divided as follows: If there be but two officers to share, including the commander-in-chief, the commander-in-chief shall have two-third parts, and the junior one-third part; but if the number of such officers who may be entitled to share shall be more than two, then the commander-in-chief shall have one-half, and the other half shall be equally divided among the said juniors.

ARTICLE 20.

Share of the captain of the fleet.

The captain of the fleet shall, while actually serving as such, be considered as a junior commander of a squadron in the distribution of all prizes made by the fleet or squadron to which he belongs; but he shall be entitled to only two-thirds of the share of such junior commander of a squadron, to be taken from the share of the flag-officers or commanders of squadrons.

ARTICLE 21.

Money accruing to United States to remain forever a fund for the payment of pensions, and further provision to such as may merit it.

All money accruing, or which has already accrued, to the United States from the sale of prizes, shall be, and remain forever, a fund for

the payment of pensions and half-pay, should the same be hereafter granted, to the officers, seamen, and marines who may be entitled to receive the same: and if the said fund shall be insufficient for the purpose, the public faith is hereby pledged to make up the deficiency; but if it should be more than sufficient, the surplus shall be applied to the making of further provision for the comfort of the disabled officers, seamen, marines, and for such as, though not disabled, may merit, by their bravery or long and faithful services, the gratitude of their country.

ARTICLE 22.

In case of difficulty in the distribution of prize-money, to be referred to the President of the United States.

In case any difficulty should arise in the distribution of prize-money, or money to be distributed as such, not sufficiently provided for in this act, the same shall be referred to the President of the United States, for his direction thereupon, which shall be final, and have the same force and effect as if herein inserted.

 CHAPTER LV.

ARRESTS, COURTS-MARTIAL, AND COURTS OF INQUIRY.

ARTICLE 1.

A superior may suspend his inferior.

In cases requiring immediate decision, any superior may *suspend* his inferior, and require him to confine himself within such limits as may be assigned, until further directions shall be received from the officer in command of the vessel, or of the squadron, or of the station, or of the Secretary of the Navy, as the case may require.

ARTICLE 2.

Authority to arrest an officer.

No officer is to be placed under *arrest* without authority from the Secretary of the Navy or the commander-in-chief of a fleet or squadron upon a foreign station, or on stations in the United States where the commanding officer is authorized to convene a court-martial.

ARTICLE 3.

In making complaints or explanations officers are to confine themselves to facts.

Officers who make complaints against other officers, or who may forward complaints against other officers, or who may forward explana-

tions, are to confine themselves to the facts connected with the case, and are not to express opinions of the conduct or motives of the parties, or to use any abusive epithet or other improper language in their communications.

ARTICLE 4.

Suspension from duty; superior officer shall call for explanation, &c.

When an officer shall be suspended from duty and reported to a superior officer, the superior officer will call upon the officer so suspended for such explanation as he may choose to furnish in relation to the offence with which he may be charged, and for a list of persons whom he may wish to have questioned in support of his explanation; and the superior officer aforesaid may institute general inquiry into the facts and circumstances for the purpose of regulating his further proceedings.

ARTICLE 5.

If offence is not of a character to require a court-martial, officer shall be restored to duty.

If, after such investigation, the officer ordering the same shall not deem the offence of a character sufficiently serious to require a court-martial, the officer against whom the complaint has been made shall be restored to duty.

ARTICLE 6.

If an offence is of a nature to require a court-martial, the superior officer shall report to the Secretary of the Navy.

If, on the contrary, after an investigation has been made, the officer ordering the same should consider the offence sufficiently important for investigation by a court-martial, he shall transmit to the Secretary of the Navy, or to the commander of the squadron, as the case may require, a particular statement of the offences with which the officer is charged, embracing the dates, places, and all other facts which may be necessary to enable the proper officer to judge of the expediency of ordering a court-martial, and to frame charges and specifications if a court should be ordered; and he should also forward with such statement the explanation of the party accused, with a list of the witnesses proposed, stating where they are to be found, and a brief statement of the information given by the different persons at the previous investigation. In such cases the officer complained of may be continued under suspension until the Secretary of the Navy or other properly authorized officer shall have directed whether or not he shall be arrested and brought to trial.

ARTICLE 7.

When a court-martial is ordered on an officer, charges and specifications are to be prepared, and a copy delivered to the accused.

If the Secretary of the Navy, or other person authorized by law, shall decide to order a court-martial upon an officer, he will cause such charges and specifications to be prepared as he may consider

proper, and will transmit the same, with an order for the arrest of the accused, to the proper officer, and will cause a copy of the charges and specifications to be delivered to the accused, with the order for his arrest, so that he may have due notice to prepare for trial.

ARTICLE 8.

Officer empowered to convene a court may dismiss complaint, or order a court-martial.

The officer empowered to convene a court-martial will exercise his discretion either to dismiss the complaint against an officer or order a court. But if he shall be of opinion that the complaint is well founded, and the offence be such as to affect seriously the discipline or character of the service, he must bring the offender to trial.

ARTICLE 9.

He may direct what shall be embodied or omitted in the charges.

If he shall decide to order a court, he may direct what portions of the complaint shall be embodied or omitted in the charges and specifications preferred.

ARTICLE 10.

The letter to the president or judge advocate to try charges to be filed.

The letter from the officer who transmits the charges and specifications to the president or judge advocate of the court, or a properly authenticated copy of the same, shall in all cases be filed with the charges as a part of the records of the court.

ARTICLE 11.

On release from suspension or arrest, reasons to be given, and accused furnished with a copy.—Further proceedings foreclosed when accused is discharged at his own request.

If, from any emergency of the service or other cause, an officer be released from suspension or arrest by the proper authority, the reasons shall be assigned in writing, and the accused furnished with a copy, and the officer so released will return to duty; which release, however, shall not prejudice the case in future either on the part of the government or the accused. But when an accused person shall, at his request, or with his approbation, be fully discharged from suspension or arrest by competent authority, such discharge shall foreclose forever further proceedings in the case, under the laws for the government of the navy.

ARTICLE 12.

Offences shall not be accumulated; offence not to be revived when offender has been once reprimanded, except.

Offences shall not be allowed to accumulate, so as to form collectively sufficient matter for prosecution, without giving due notice

to the offender, and any offence for which an offender has been reprimanded shall not be revived and subsequently investigated, except when it may be indispensable to prove a particular habit charged.

ARTICLE 13.

Offences of a different character not to be embraced in the same charge.

In making out charges, offences of different character shall not be embraced in the same charge, but a separate charge shall be made for each offence.

ARTICLE 14.

Proceedings after a court-martial is convened.

When a court-martial shall be assembled in conformity to order, the person to be brought before it for trial shall be introduced. The precept for convening the court and the appointment or warrant of the judge advocate shall then be read by the judge advocate, in the presence of the accused; the accused shall then be asked by the judge advocate if he objects to any member of the court, or to the court proceeding to his trial, and if he answers in the negative the oaths prescribed by law will then be administered in the presence of the accused; if, however, the accused shall make any objection, such objection shall be considered, decided upon, and recorded, before the court is sworn.

ARTICLE 15.

Proceedings after the court is sworn.

The court having been duly sworn, and that fact noted on the minutes, the charges and specifications against the accused shall be read by the judge advocate, and the accused shall then be asked by him if he pleads guilty or not guilty to the charges. If he pleads guilty, the court shall warn him of the consequences, and he may then withdraw his plea; but if he repeats his plea of guilty, it shall be recorded, and the court may proceed to investigate, or at once to deliberate and determine upon the sentence. If he pleads not guilty, or stands mute, the court shall proceed to examine the testimony in the case. The record of the court must state distinctly that these questions were put, and the answers, if any, which may be given.

ARTICLE 16.

Oath to witnesses.

The following oath shall be administered to witnesses before courts-martial and courts of inquiry:

“You do solemnly swear (or affirm, as the case may be,) that the evidence you shall give in the case now before this court shall be the

truth, the whole truth, and nothing but the truth, and that you will state everything within your knowledge and recollection in relation to the charges, so help you God."

ARTICLE 17.

If the president of a court is sworn as a witness.

If it shall be necessary to swear the president of a court-martial or of a court of inquiry as a witness, the prescribed oath shall be administered by the member next in rank.

ARTICLE 18.

Duties of the president of a court-martial or court of inquiry.

The president of a court-martial or of a court of inquiry shall be empowered to preserve order, to decide upon matters relating to the routine of business, and to adjourn the court from day to day at and to such hours as in his judgment will be most convenient and proper for the transaction of the business before it; but should an adjournment be announced by the president to which a member might have some reason for objecting, he may ask leave to present such objection, which thereupon may be submitted for decision to the court.

ARTICLE 19.

List of witnesses and statement of facts to be proved to be laid before the court.

It shall be the duty of the judge advocate to lay before the court a list of the witnesses which it may be intended to produce, with a general statement of the facts expected to be proved by each. He shall then, under the direction and control of the court, proceed to examine the witnesses which have been summoned on the part of the United States to support the charge or charges.

ARTICLE 20.

Cross-examination of a witness.

The examination of a witness having been closed on the part of the United States, he may be cross-examined by the accused; and when the cross-examination shall be closed the court will then ask or allow any further questions which it may deem necessary.

ARTICLE 21.

Examination of a witness on the part of the accused.

When the witnesses on the part of the United States shall have been examined, the witnesses on the part of the accused shall then be examined by the accused, or in his behalf, and afterwards cross-

examined and examined by the court in the same manner as those who had been called on the part of the United States. Further examination of witnesses may then be continued, if the court, or the accused, with the assent of the court, shall desire it. When the examination of a witness shall be closed the whole of his testimony shall be read over to him, that he may then correct errors, if any shall have been made.

ARTICLE 22.

Questions to witnesses to be in writing; in case of objection to a question.

Questions to be propounded to a witness shall be reduced to writing; and should any objection be made to any proposed question, or to the reception of any testimony, the court shall proceed at once to determine upon the same; and if they shall decide that such question shall not be put or against the reception of such testimony, the question or matter rejected shall be entered on the minutes of the court, or not, as it may decide.

ARTICLE 23.

Proceedings in case of the absence of a member of a court.

If a member of a court-martial shall, from any legal cause, fail to attend after the commencement of a case, and witnesses shall be examined during his absence, the court must, when he is ready to resume his seat, cause every person who may have been examined in his absence to be called into court, and the recorded testimony of each witness must be read over to him, and such witness must acknowledge the same to be correct, and be subject to such further examination as the said member may require; and without a compliance with this rule, and an entry of it upon the record, a member who shall have been absent during the examination of a witness shall not be allowed to sit again in that particular case.

ARTICLE 24.

Defence of the accused.

The examination of the witnesses being closed, the accused shall be at liberty to make his defence, in writing, against the charges and specifications, which defence he shall submit to the court for their inspection before it is publicly read, and if, in the opinion of the court, it shall contain anything disrespectful, they may prevent that part from being read; but it shall be filed with the proceedings, if the accused desire it, and he will be held responsible for the same.

ARTICLE 25.

Vote of the members upon each specification.

After the defence shall have been read, the court shall be cleared, and the members shall proceed to consider the testimony and the defence of the accused. When they shall have sufficiently examined

and considered the same, the question shall be put upon each specification of each charge by the judge advocate, beginning with the first, whether it is "proved," or "not proved," or "proved in part," the junior member voting first, and the rest in the inverse order of their rank—each member writing "proved," "not proved," or "proved in part," and, if in part, what part, over his signature; and each shall hand his vote to the judge advocate, who shall, when he has received all, read them aloud; and the court shall deliberate and consider until a majority shall agree on a finding, which shall then be recorded.

ARTICLE 26.

Vote upon the guilt of the accused on each charge.

When the members shall have thus voted upon all the specifications of any charge, the question shall then be put upon the charge, to each member, "is the accused guilty of this charge?" "guilty in a less degree than charged?" or "not guilty?" and then the members, in the order as above stated, shall write "guilty," "not guilty," or "guilty in a less degree than charged," and in what degree, over their signatures, and hand them to the judge advocate, who shall, after receiving all the votes, read them aloud, and record the general result. When the decision in one charge shall be completed, the court will then proceed to the next charge and specifications, until votes shall have been taken and recorded, as above directed, upon all the charges and specifications.

ARTICLE 27.

Vote upon the punishment to be inflicted.

When the court shall have voted upon all the charges, if the accused shall have been found guilty, or guilty in a less degree than charged, upon any one of them, by the number of members which the law may require in the particular case, they shall next proceed to vote upon the punishment to be inflicted. In this case each member shall, in the order before directed, write down and subscribe the measure of punishment which he may think the accused ought to receive, and hand it to the judge advocate, who shall, after receiving all the votes, read them aloud.

ARTICLE 28.

Proceedings in case a majority shall not agree as to the punishment to be inflicted.

If the requisite majority shall not have agreed on the nature and degree of the punishment to be inflicted, the judge advocate shall proceed in the following manner to ascertain which of the different votes will obtain the assent of the requisite number of the members: He shall begin with the mildest punishment which shall have been proposed, and, after reading it aloud, shall ask the members, in the order herein before prescribed, "shall this be the sentence of the court?"

and every member shall vote, and the judge advocate shall note the votes. In case the proper number shall not vote in favor of the punishment proposed on the first vote, he shall then take the next lowest proposed punishment, and proceed to take a vote as before directed, and shall thus proceed until a proper majority shall be obtained for some sentence, either by proposed at first or subsequently.

ARTICLE 29.

Sentence of suspension must state from rank or from duty, &c.

Sentences to suspension must state distinctly whether from rank or from duty only, and for what time; whether the pay is to be suspended, and if so, how long.

ARTICLE 30.

Proceedings in each separate trial to be signed.

The sentence having been recorded, the proceedings in each separate trial shall be signed immediately under the sentence by all the members present, and by the judge advocate.

ARTICLE 31.

Any member may move a recommendation to clemency.

Any member may, after the sentence is pronounced, move for a recommendation of the accused to the clemency of revising power; and such recommendation, with the reason therefor, shall be entered immediately after the sentence and signatures of the court, and shall be signed by the members concurring in it.

ARTICLE 32.

Counsel may be allowed to the accused.

The court may allow counsel to the accused for the purpose of aiding in his defence, but always under the restriction that all motions or communications shall be made in writing, and in the name of the accused.

ARTICLE 33.

Proceedings to be authenticated, if the number of members necessary to constitute a court shall not assemble on the day to which adjourned.

If, from any cause, after a court shall be organized, so many members as the law required to constitute a court shall not assemble upon any day to which the court may stand adjourned, and the court, by that fact, should be dissolved, the proceedings and the fact of the dissolution of the court must, nevertheless, be authenticated by the

signatures of the members who may be present, and of the judge advocate, and transmitted by the senior member to the officer by whom the precept was issued, that such further measures may be directed as circumstances shall require.

ARTICLE 34.

Sentences, how communicated.

The sentences of all courts martial which shall be approved on a foreign station will be communicated in a general order to the commander of each vessel in the squadron that they may be made public; and when approved in the United States, they shall in the same manner and for the same purpose be communicated to the commander of each vessel or station in the United States.

ARTICLE 35.

Irregularity or informality to be made known in general orders.

Should the proceedings of a court martial be disapproved for any informality or irregularity of the court, the particular irregularity or informality will be made known in general orders, so as to prevent if possible a recurrence of similar irregularities.

ARTICLE 36.

No person to be tried for offences committed three years before order for such trial, except.

No person in the navy shall be liable to be tried and punished by a court martial for any offence which shall appear to have been committed more than three years before the issuing of the order for such trial, unless the person by reason of having absented himself, or some other manifest impediment, shall not have been amenable to justice within that time.

ARTICLE 37.

An officer dismissed from the navy shall return his commissions and warrants.

When an officer shall be dismissed from the navy by sentence of a court martial, or in any other manner, he shall be required to return all commissions or warrants that he may have received, to be deposited in the Navy Department.

ARTICLE 38.

A provost marshal to be appointed.

A provost marshal may be appointed by the president of the court to attend a court martial.

REPORT OF THE

ARTICLE 39.

Duties of the provost marshal.

It shall be the duty of the provost marshal to take charge of and be accountable to the court for the appearance of the person on trial, and to act otherwise as the officer of the court.

ARTICLE 40.

Who shall be appointed provost marshal.

For the trial of a commission or warrant officer, an officer of the navy or marine corps may be appointed provost marshal; for a petty officer or person of inferior rating, a non-commissioned officer of marines.

ARTICLE 41.

Defence must not be published.

The defence made by an officer before a court-martial or a court of inquiry, being a part of the official record, and the trial not being complete until the finding or sentence has been passed upon by the revising power, it is strictly forbidden to any officer who shall be tried by either court to publish, or cause or permit to be published, his defence, in whole or in part, until final action has been had in his case, on pain of such punishment as a court-martial shall adjudge.

ARTICLE 42.

Marine officers to serve on courts-martial on members of said corps.

In detailing members for a court-martial, court of inquiry, or summary court-martial, before which an officer or other person belonging to the marine corps is to appear for trial, the officer ordering the court shall (if the interests of the public service will admit) place one or more marine officers on said court.

ARTICLE 43.

Officers are to serve on trials of officers of their respective departments.

In detailing members for a court-martial, or court of inquiry, before which a medical officer, a paymaster, or an engineer is to appear for trial, the officer ordering the court shall (if the interests of the public service will admit) place one officer, or more, of the same corps as the person to be tried on said court.

CHAPTER LVI.

SUMMARY COURTS MARTIAL.—FORMS AND RULES OF EVIDENCE.

ARTICLE 1.

Same forms and rules of evidence as general courts martial.

Summary courts martial will adopt the same forms of proceeding and rules of evidence as naval general courts martial, so far as they shall be applicable and not inconsistent with the conciseness and precision enjoined in Article 10, Section 4, Chapter LVI, nor with the provisions of this chapter.

ARTICLE 2.

Form of convening a summary court.

The form of convening a summary court martial will be by a brief written order addressed by the commander of the vessel to the senior member of the court, stating the names and rank of the members of the court, and of the recorder, and the time and place of meeting; and by written or verbal orders to the other members of the court, and the recorder. The written order to the senior member will be appended to the record of the proceedings.

ARTICLE 3.

Administration of the oath to members and recorder to be stated in the record.

The record will state that the oath prescribed in Article 3, Section 4, Chapter LVI, was duly administered to each member and to the recorder, in the presence of the accused.

ARTICLE 4.

When objection is made by the accused to a member of the court.

If objection is made by the accused to any member of the court it will be so stated in the record of proceedings, and made known, if the court think fit, to the commander of the vessel, who will, at his discretion, order another member of the court or continue the member objected to.

ARTICLE 5.

Specification of charges to be furnished to accused before trial.

The accused shall be furnished before trial with a written specification of the offence or offences for which he is to be tried. The specification shall be as brief as practicable, without unnecessary repetition or circumlocution, or accumulation of epithets, but explicit; and all

offences or misconduct committed at any one time by the same individual and intended to be charged against him shall be comprised in the same specification, which shall be approved before trial by the officer ordering the court, and a duplicate of it be annexed to the record.

ARTICLE 6.

The accused need not plead guilty or not guilty. Testimony that may be received.

The accused shall not be required to plead guilty or not guilty to the specification; but if a plea of guilty be made the court may, at its discretion, admit testimony as to the character of the offender or in extenuation of the offence. And, in any case, the court may find the accused guilty of the whole or any part of the misconduct charged, according to the evidence, and adjudge punishment for so much as shall be found proved.

ARTICLE 7.

Witnesses, how summoned.

Witnesses shall be summoned by the recorder through the executive officer of the vessel, and the summons shall be obeyed, unless disapproved by the commanding officer for some reason to be stated in the record.

ARTICLE 8.

Counsel may be allowed to the accused.

The court, if requested by the accused, may allow a commission, warrant, or petty officer, to appear as counsel and cross-examine witnesses in his behalf; but no written defence or argument, nor any protracted oral defence or argument shall be admitted. Nor shall any testimony not clearly relevant be admitted, nor any documentary evidence be read to the court or appended to the record.

ARTICLE 9.

When more than one case is tried.

If more than one case be tried by the same court, the record of each case shall be separate; the order for convening the court shall be appended to the record of the first case, and be referred to in each subsequent record, so as to show that the proceedings of the court are continuous. And in each case the prescribed oath shall be administered anew to the members and the recorder of the court.

AN ACT for the better government of the navy.

SECTION 1.

ARTICLE 1.

Exemplary conduct incumbent on commanders.

The commanders of all fleets, squadrons, navy yards, or vessels belonging to the navy are strictly enjoined and required to show in themselves a good example of virtue, honor, patriotism, and subordination; to be vigilant in inspecting the conduct of all who may be placed under their command; to guard against and suppress all dissolute and immoral practices, and to correct all who may be guilty of them, according to the laws for the government of the navy, upon pain of such punishment as a general court-martial may think proper to inflict.

ARTICLE 2.

Divine service on Sunday.

The commanders of vessels and navy yards to which chaplains shall be attached shall have divine service performed on Sunday, whenever the weather and other circumstances will allow it to be done; and they shall cause as many of the officers and men to attend as can be spared from other duty.

ARTICLE 3.

Punishment for certain scandalous offences.

If any officer in the navy shall be guilty of cruelty or oppression, or of gambling, drunkenness, profane swearing, or any other scandalous or dishonorable conduct unbecoming an officer, not otherwise provided for in this act, he shall, on conviction thereof, be cashiered, or suffer such less punishment as a general court-martial shall direct; and if any petty officer or inferior person belonging to the navy shall be guilty of profane swearing, gambling, drunkenness, or other immoral or disgraceful conduct, not specially provided for in this act, he may at the discretion of the commander be reduced to an inferior rating, or confined not exceeding ten days, or be brought to trial before a court-martial or a summary court, and shall, if convicted, suffer such punishment as either of said courts may adjudge.

ARTICLE 4.

Punishment for drunkenness while on duty.

Any commission or other officer who shall be found drunk upon his watch or when on any other special duty, or who shall have been so often drunk, either when on duty or off, as in the opinion of a court-martial to amount to a habit, shall on conviction be cashiered.

ARTICLE 5.

Cowardice or treachery in battle to be punished with death.

Any officer or other person belonging to the navy who shall when engaged in battle, pusillanimously cry for quarter, or treacherously yield, or shall strike or attempt to strike the flag without proper authority, shall suffer death on conviction thereof by a general court-martial.

ARTICLE 6.

Punishment for breach of duty on signal for battle, or probability of an engagement.

If any officer commanding a fleet, squadron, or vessel shall upon the probability of an engagement, or upon signal for battle, neglect to prepare his fleet, squadron or vessel for action, or shall not when so directed, use his utmost exertions to join in battle, or shall fail to encourage in his own person his inferior officers and men to fight courageously, he shall on conviction thereof suffer death, or such other punishment as a court-martial shall adjudge.

ARTICLE 7.

Neglect of duty, desertion of post, or cowardice in battle, how punished.

Every officer or other person belonging to the navy, who shall not do his utmost to take or destroy any vessel which it is his duty to encounter, or to afford relief to vessels belonging to the United States or their allies when engaged in battle; or who shall through cowardice, negligence, or disaffection, withdraw from or keep out of battle; or desert his duty or station, or shall induce others to do so, or shall not properly observe the orders of his commanding officer and use his utmost exertions to carry them into execution, when ordered to prepare for, join in, or when actually engaged in battle, or while in sight of an enemy, shall on conviction thereof by a general court-martial suffer death, or such other punishment as the said court shall adjudge.

ARTICLE 8.

Disobedience of orders, striking or offering to strike a superior, how punished.

If any officer or other person in or belonging to the navy, shall disobey the lawful orders of his superior officer, or strike him, or draw, or offer to draw or raise any weapon against him while he is on duty, or in the line of his duty, or for having performed any act of duty, he shall, on conviction thereof before a general court-martial, suffer death, cashiering, or such other punishment as the said court shall adjudge; and if any person in the navy shall treat his superior officer with contempt or disrespect, or shall use provoking or

reproachful words, menaces, or gestures to him, he shall be punished at the discretion of a general court-martial.

ARTICLE 9.

Mutiny or sedition.

If any person in the navy shall make or attempt to make any mutinous assembly, or shall utter any mutinous or seditious words, or shall conceal or connive at any seditious or mutinous practices; or knowing of the same, shall not forthwith communicate it to his superior or commanding officer; or being witness to any mutiny or sedition, shall not do his utmost to suppress it, he shall on conviction thereof suffer death, or such other punishment as a general court-martial shall adjudge.

ARTICLE 10.

Intercourse with an enemy forbidden.

No person in the navy shall give, hold, or entertain any intercourse or intelligence to or with an enemy or rebel, without leave from the President of the United States, the Secretary of the Navy, the commander-in-chief of the fleet, or the commander of a squadron, or the senior officer in command, who may be present; or if any letter or message from any enemy or rebel be conveyed to any officer or other person in the navy, and he shall not within twelve hours make the same known, having opportunity to do so, to his superior or commanding officer, or other proper authority, whose duty it may be to take cognizance thereof, every such offender shall suffer death, or such other punishment as a general court-martial shall adjudge.

ARTICLE 11.

Spies, how punished.

Spies and all persons who shall come or be found in the capacity of spies, or who shall bring or deliver any seducing letter or message from an enemy or rebel, or endeavor to corrupt any person in the navy to betray his trust, shall suffer death, or such other punishment as a general court-martial shall adjudge.

ARTICLE 12.

Desertion to an enemy.

If any person in the navy shall desert to an enemy or rebel, he shall on conviction thereof by a general court-martial suffer death.

ARTICLE 13.

Desertion in time of war.

If any person in the navy shall in time of war desert, or shall entice or aid others to desert, he shall suffer death, or such other punishment as a court-martial shall adjudge.

ARTICLE 14.

Desertion in time of peace.

If any person in the navy shall in time of peace desert, or shall persuade, aid, or entice any others to desert, or shall at any time know of any desertion and not communicate it to his superior or commanding officer, or shall receive or entertain any deserter, knowing him to be such, and shall not with all convenient speed give notice thereof to the commander of the vessel, navy yard or station to which he belongs, or to the commander-in-chief of the fleet or commander of the squadron, he shall on conviction thereof suffer such punishment as a general court martial shall adjudge.

ARTICLE 15.

Absence without leave.

If any person belonging to the navy shall absent himself without leave, or remain absent after his leave shall have expired, and shall voluntarily return within three days after such absence, or termination of leave of absence, he may, at the discretion of his commander, be punished as limited in the thirty-second article of this section and chapter.

ARTICLE 16.

Improper navigation of vessels.

If any person in the navy shall through intention, negligence, or any other fault, suffer any vessel of the navy to be stranded, or run upon rocks or shoals, or improperly hazarded; or if any person shall willfully or maliciously injure any vessel of the navy, or any part of her tackle, armament, or equipment, whereby the safety of the vessel shall be hazarded or the lives of the crew exposed to danger, he shall on conviction thereof by a general court-martial suffer death, or such other punishment as the said court shall adjudge.

ARTICLE 17.

Burning or destroying public property.

If any officer of the navy shall order any public property not then in the possession of or in imminent danger of falling into the possession of an enemy, pirate, or rebel, to be set on fire or otherwise unlawfully destroyed; or if any person in the navy shall set fire to, or otherwise unlawfully destroy any such property, he shall, on conviction thereof by a general court-martial, suffer death, or such other punishment as the said court shall adjudge.

ARTICLE 18.

Altering muster-roll.

If any person in the navy shall knowingly make or sign, or shall aid, abet, direct, or procure the making or signing of any false muster, or shall knowingly execute or attempt or countenance any fraud against the United States, he shall on conviction thereof by a general court-martial, be cashiered and rendered forever incapable of any further employment in the service of the United States, and shall forfeit to the navy pension fund all the pay and subsistence then due him, and suffer such other punishment as the said court shall adjudge.

ARTICLE 19.

Waste, embezzlement, &c., of public property.

If any person in the navy shall waste, embezzle, or fraudulently buy, sell, or receive any ammunition, provisions, or other public stores; or if any officer, or other person shall knowingly permit, through design, negligence, or inattention, any such waste, embezzlement, sale, or receipt, every such person upon conviction thereof by a general court martial, shall forfeit all the pay and subsistence then due him to the navy pension fund, and shall suffer such further punishment as the said court shall direct.

ARTICLE 20.

Sleeping upon post.

If any person in the navy shall during a time of war sleep upon his watch, he shall on conviction thereof suffer death, or such other punishment as a court-martial shall adjudge; and if any person as aforesaid shall at any other time sleep upon his watch, he may, if an officer, be punished at the discretion of a court-martial; if a petty officer, or person of inferior rating, of a summary court or of the commanding officer, as provided for in the thirty-second article of this section and chapter.

ARTICLE 21.

Performing duty negligently, or leaving post before relieved.

If any person in the navy shall negligently perform the duty assigned him, or shall leave his station before regularly relieved, he may be punished at the discretion of a court-martial, or of a summary court or otherwise, at the discretion of the commander, as limited by the thirty-second article of this section and chapter.

ARTICLE 22.

Duty of an officer giving convoy.

The officers and other persons belonging to any ship or vessel, appointed as convoy to merchant or other vessels, shall diligently and

faithfully discharge the duties of their appointment; they shall not demand or exact any compensation for their services, nor maltreat the officers and crews of such merchant or other vessels, on pain of suffering such punishment as a court-martial shall adjudge.

ARTICLE 23.

Punishment for receiving goods, merchandise, &c., on board.

If any commander or other officer shall receive, or permit to be received, on board his vessel any goods or merchandise for freight, sale, or traffic, except gold, silver, or jewels, for freight or safe-keeping; or shall demand or receive any compensation for the receipt or transportation of any other article than gold, silver, or jewels, without authority from the President of the United States or the Secretary of the Navy, he shall on conviction thereof by a general court-martial be cashiered, and be thenceforward incapacitated from holding any office or place in the navy of the United States.

ARTICLE 24.

Murder.

The crime of murder or other unlawful killing, when committed by any person belonging to any public ship or vessel of the United States without the territorial jurisdiction of the same, may be punished with death or otherwise at the discretion of a general court-martial.

ARTICLE 25.

Challenge to fight a duel.

If any officer of the navy shall challenge any other officer in the navy, or accept a challenge from any officer of the navy to fight a duel, or bear a challenge from one officer to another to fight a duel, while either of them is in actual service or under orders for service, or for any act of duty performed by either party, such officer shall on conviction thereof by a general court-martial be dismissed from the navy, or suffer such other punishment as the said court shall adjudge.

ARTICLE 26.

Quarrelling and using provoking language.

If any person in the navy shall quarrel with any other person in the navy, or use provoking or threatening language or gesture, he may at the discretion of the captain be punished as limited in the thirty-second article of this section and chapter, or be brought before a court-martial, and suffer such punishment as the said court may adjudge.

ARTICLE 27.

Theft.

Any theft committed by a petty officer or person of inferior rating may be punished at the discretion of the captain, as limited in the thirty-second article of this section and chapter, or as a court-martial or summary court shall direct.

ARTICLE 28.

Offences against people on shore.

If any person in the navy shall when on shore plunder, abuse, or maltreat any inhabitant, or injure his or her property in any way, he shall suffer such punishment as a court-martial or summary court shall adjudge.

ARTICLE 29.

Provost marshal or master-at-arms refusing to receive prisoners, or allowing them to escape

A provost marshal or master-at-arms, or other person of whom the duty of master-at-arms is required, who shall refuse to receive such prisoners as shall be committed to his charge, or having received them shall suffer them to escape, or dismiss them without orders from proper authority, shall be punished at the discretion of a court-martial.

ARTICLE 30.

Offences on shore.

All persons belonging to the navy who shall commit offences while on shore, or in port, or harbor, not provided for in articles twenty-four and twenty eight of this section and chapter, shall be subject to the same punishment as if such offences had been committed at sea.

ARTICLE 31.

Offenders to be brought to punishment.

Every person in the navy shall use his utmost exertions to detect, apprehend, and bring to punishment all offenders, and shall at all times aid and assist all persons appointed for this purpose, on pain of such punishment as a court-martial shall adjudge.

ARTICLE 32.

Punishments that may be inflicted by a commander, or commission, or warrant officers, petty officers, and persons of inferior rating.

No commander of a vessel shall of his own authority inflict any higher punishment upon a commission or warrant officer than rep-

rimand, suspension from duty, arrest, or confinement not exceeding ten days, unless longer confinement should be necessary to bring him to a court-martial; nor shall he inflict, or cause or permit to be inflicted upon any petty officer, or person of inferior rating, severer punishment for any one offence or at any one time than any one of the following punishments, viz:

1st. Reduction of rating.

2d. Confinement with or without irons, single or double, not exceeding ten days, and with restraint of person, but not so as to be injurious to health.

3d. Solitary confinement on bread and water not exceeding five days.

4th. Solitary confinement not exceeding seven days.

5th. Deprivation of liberty on shore.

6th. Extra duties.

ARTICLE 33.

Language tending to cause disaffection prohibited; offender to be reported.

No person in the navy shall use any language that may tend to render officers or others dissatisfied with any service in which they may be engaged, or upon which they may be ordered, or to diminish their confidence in or respect for their superiors in command, or which may in any manner tend to weaken that subordination which is essential to the security and usefulness of the navy; and it shall be the duty of any officer, and especially the senior officer present who may hear any such language, to reprove or suppress it, and to report offenders immediately to the proper officer if they disregard such interference.

ARTICLE 34.

Publications of a personal nature prohibited.

Publications relative to differences between officers of a private or personal nature are prohibited. Any newspaper publication or pamphlet or any hand-bill of such character, either written or printed, shall be cause for the arrest of any officer, and for charges against him, and shall be punished as a court-martial may direct.

ARTICLE 35.

Wreck, loss, or destruction of vessel.

In all cases when the crew of any ship or vessel of the United States shall be separated from such vessel by wreck, loss, or destruction of the same, all the command, power, and authority given to the officers of such ship or vessel, shall remain and be in full force as effectually as if such wreck, loss, or destruction had not occurred, until such ship's company be regularly discharged from or ordered again into the service, or until a general court-martial or court of

inquiry shall be held to inquire into the wreck, loss, or destruction as aforesaid; and if by the judgment of the said court, it shall appear that all or any of the officers and men of such ship's company did their utmost to preserve her, and after such wreck, loss, or destruction, conducted themselves agreeably to the discipline of the navy, then the pay and emoluments of such officers and men shall be paid as if they had continued on board such vessel, and a reasonable allowance shall be made to them for the loss of clothing or other private property. But if it shall appear, as aforesaid, that all or any part of the officers and crew as aforesaid, omitted or neglected such their duty, then the pay and emoluments of such offenders may be forfeited to the navy pension fund by sentence of a court-martial, and they shall not be entitled to allowance for loss of clothing or private property; and any officer or other person who shall, after the loss of such vessel, conduct contrary to the provisions of this act, shall be liable to the same trial before a court-martial, and on conviction shall suffer the same punishment as if such loss had not occurred.

ARTICLE 36.

When punishment is left to the discretion of a court-martial.

Whenever by any article of this Code no specific punishment is named, and a court-martial is authorized to inflict a punishment at its discretion, it shall not in the case of a commission or warrant officer, inflict any higher punishment than dismissal from the service; and in the case of a petty officer or person of inferior rating, no severer punishment than imprisonment with loss of pay, nor beyond one year.

ARTICLE 37.

Expiration of service on a foreign station.

It shall be the duty of the commanding officer of any fleet, squadron, or vessel acting singly, when on foreign service, to send to the United States in some public or other vessel, all petty officers and inferior persons at the expiration of their terms of service, or as soon thereafter as may be, unless in his opinion the detention of such persons for a longer period should be very essential to the public interests; in which case he may detain them or any of them until the vessel to which they belong shall return to the United States; and in case of such detention the persons so sent home, or so detained, shall be subject in all respects to the laws and regulations for the government of the navy, until their return to the United States and their regular discharge; and all persons who shall be so detained beyond their terms of service, or who shall after the termination of their service voluntarily re-enter to serve until the return to the United States of the vessel to which they may belong, and their regular discharge therefrom, shall, while they are so detained or shall so serve beyond their original terms of service, receive an addition of one-fourth to their former pay.

ARTICLE 38.

Petty Officers.

All officers not holding commissions or warrants, or who are not entitled to them, except such as are temporarily appointed to perform the duties of a commission or warrant officer, or secretaries and clerks, are to be deemed petty officers.

ARTICLE 39.

Pay of officers and crew taken by an enemy.

The pay and emoluments of such officers and crews of any of the ships or vessels of the United States, as may be taken by an enemy, pirate or rebel, who shall appear by the judgment of a competent court, to have performed their duty in endeavoring to preserve and defend such vessel, and after the taking thereof to have conducted themselves agreeably to the discipline of the navy, shall continue and be paid to them until their death, exchange or discharge.

ARTICLE 40.

Marines subject to laws for the government of the navy, except.

The officers, non-commissioned officers, privates, and musicians of the Marine Corps, shall be in all respects subject to the laws and regulations which are or may be established hereafter for the government of the navy of the United States, except when they shall be expressly placed under the direction of the Secretary of War, or the command of an officer of the army by direction of the President of the United States, in which case they shall be subject to the laws and regulations which are or may be established for the government of the army.

ARTICLE 41.

Army or militia serving on board.

Whenever any part of the army or of the militia of the United States shall be serving on board any vessel of the navy, they shall while so serving be subject to the laws and regulations of the government of the navy, and to the orders of the navy officers in the same manner as marines.

ARTICLE 42.

Army or militia embarked for transportation.

Whenever any part of the army or militia of the United States shall be embarked on board any vessel of the navy for transportation only, they shall not be subject to the laws and regulations for the government of the navy, but to the laws for the government of the army;

but they shall nevertheless be subject to and conform to the internal regulations of the vessel in which they may be embarked, upon pain of confinement by the commander of such vessel while on board, and of such punishment as any court-martial may direct after they shall have been landed.

ARTICLE 43.

Wages or prize money may be paid to an assignee.

Any person entitled to wages or prize money may have the same paid to his assignee, provided the assignment be attested by the captain and paymaster; and in case of the assignment of wages, the power will specify the precise time they commence. But the commander of every vessel is required to discourage his crew from selling any part of their wages or prize money, and never to attest any power of attorney until he is satisfied that the same is not granted in consideration of money given for the purchase of wages or prize money.

ARTICLE 44.

Offenders not specified may be punished at the discretion of a court-martial.

All crimes and offences committed by persons belonging to the navy, which are not specially provided for in this act, may be punished at the discretion of a court-martial.

ARTICLE 45.

This section to be publicly read once a month.

Every commanding officer of a vessel shall cause this first section of the act for the government of the navy to be publicly read to the ship's company as often as once a month, and to be hung in some public part of the vessel.

ARTICLE 46.

Enticing any enlisted man to desert, or concealing a deserter.

Any person who shall entice any seaman, ordinary seaman, landsman, or boy, who may have enlisted into the naval service of the United States to desert therefrom, or who shall conceal any person who may have so deserted, and shall refuse to deliver him up upon the order of his commanding officer, shall upon legal conviction thereof be fined at the discretion of the court, in any sum not exceeding three hundred dollars, or be imprisoned for any term not exceeding one year.

ARTICLE 47.

Offenders may be sent to the Penitentiary of the District of Columbia.

When by any of the provisions of this section and chapter, or the fourth section of this chapter, the punishment of any offence has been left to the discretion of a general court-martial, it shall be within the discretion of said court to sentence the offender on conviction to confinement in the penitentiary of the District of Columbia, provided that such confinement shall be for a period of not less than six months or more than ten years.

SECTION II.

COURTS OF INQUIRY.

ARTICLE 1.

By whom ordered, how composed, and may summon witnesses.

Courts of inquiry may be ordered by the President of the United States, the Secretary of the Navy, or the commander of a fleet or squadron when without the territorial jurisdiction of the United States, or by any commanding officer within the United States, who may be authorized by the Secretary of the Navy; which courts shall not consist of more than three members and a judge advocate, or person to officiate as such; and the witnesses shall be summoned in the same manner, and under the same penalties, and the testimony taken in the same manner as is prescribed in the first section of this chapter, in the case of courts-martial; and such courts shall have the same power to summon witnesses, to administer oaths or affirmations, and to punish contempts as courts-martial.

ARTICLE 2.

They shall report to the power convening them; will not express an opinion unless so ordered, and the party under examination may be present and cross-examine witnesses.

It shall be the duty of such courts to report to the authority by which they are convened the evidence which may be taken; but they shall not express any opinion unless specially required in the warrant for convening the court, and then only when such court is directed to inquire into the circumstances under which any ship or vessel of the navy has been wrecked or lost, or improperly hazarded; in which case it shall be the duty of said court to investigate and report upon the conduct of the officers and crew thereof; and in all proceedings before a court of inquiry, the party whose conduct shall be the subject of investigation shall be allowed an opportunity to be present, and to cross-examine the witnesses who may be adduced, and to offer such legal testimony as he may think proper to said court.

ARTICLE 3.

Authentication, transmission and approval of the proceedings. An authenticated copy of the same to be evidence before a court martial.

The proceedings of courts of inquiry shall be authenticated by the signature of the president of the court, and the judge advocate, or person officiating as such, and shall be forthwith transmitted by the judge advocate to the authority by whose warrant the court was convened; and after being approved or disapproved by the competent authority, shall be deposited and filed in the office of the Secretary of the Navy; and the proceedings of courts of inquiry, or a certified copy of the same, under the hand of the Secretary of the Navy, and seal of the Navy Department, shall, in all cases not capital or extending to the dismissal of a commission or warrant officer, be evidence before a court-martial, and of equal authenticity as if the witness whose testimony was then taken had been examined before such court martial, provided that the court shall be satisfied that the presence of such witness could not be had before such court martial.

ARTICLE 4.

Oaths or affirmations.

Before proceeding to make the investigation directed, the president and each of the members of the court of inquiry shall take the following oath or affirmation, to be administered by the judge advocate or person officiating as such:

“I, A. B., do swear (or affirm) that I will well and truly examine and inquire, according to the evidence, into (and if required report upon,) the matters to be investigated before this court, without partiality or prejudice.”

After which the president, or senior member present, shall administer to the judge advocate, or person officiating as such, the following oath or affirmation:

“I, A. B., do swear (or affirm) truly to record the proceedings of this court, and the evidence to be given to the same; and that I will, on all legal questions upon which my opinion may be required by the court, give the same without prejudice or partiality and according to my judgment and conscience.”

SECTION 3.

COURTS MARTIAL.

ARTICLE 1.

By whom convened and number of members.

General courts martial may be convened as often as the President of the United States, the Secretary of the Navy, or the commander-in-chief of a fleet or squadron without the territorial jurisdiction of the

United States, or on the Pacific coast of the United States, may deem proper, or by any commanding officer within the United States who may be duly authorized by warrant from the Secretary of the Navy. No general court martial shall consist of more than thirteen, nor less than nine members for the trial of capital offences, if nine members can be ordered without injury to the public service; and for all other offences a general court martial shall consist of not more than nine members, and in no case less than five members; and when the highest number required shall not be ordered, the reasons therefor shall be stated in the precept for convening the court. The senior officer of the court who may be present at any time shall preside; and the other members shall take rank according to their grade, or if of the same grade, according to the date or number of their commissions respectively.

ARTICLE 2.

How the complaint on which application for court martial is founded, shall be made.

All complaints on which an application for a general court martial is founded, shall be exhibited in writing to the proper authority, signed by the party or parties preferring the same, and shall be accompanied by a list of witnesses, and with a statement of the facts which it is expected each of such witnesses may be able to prove; and the accused shall be furnished with a copy of the complaint as soon as practicable, and shall be called upon to state what he may have to offer in explanation, and to name such persons as he may wish to have summoned as witnesses.

ARTICLE 3.

Charges and specifications; summons of witnesses not in naval or military service.

The officer authorized to convene a court martial, having received the complaint, statement and lists named in the preceding article, shall take care that the charges and specifications are put in proper and legal form, and that the accused be forthwith furnished with a copy of the same; and that all witnesses belonging to the naval or military service are duly summoned, and shall furnish the names of all witnesses not belonging to the naval or military service, to the marshal of the district in which they may respectively reside, annexing to such list the name of the accused, and the time and place of trial; and the said marshal shall be, and he is hereby authorized and directed to summon such witnesses to be and appear at the time and place specified, and to make return to the said court of his proceedings.

ARTICLE 4.

Challenge of members.

Before proceeding to the trial of any case, the accused shall be at liberty to challenge any member named in the precept to sit on said

court, for good cause shown; the truth and sufficiency of which cause of challenge shall, in each case, as it shall occur, be decided in a summary manner by the other members of the court; and if it be adjudged true and sufficient, the members so objected to shall not sit in trial of the accused by whom he has been challenged, but may resume his seat on any subsequent trial before the same court.

ARTICLE 5.

Oaths to the members and judge advocate.

In case no challenge shall be made, or if made, after the same shall be disposed of, the president and each member of the court shall, if a sufficient number remain to form a court, before proceeding to trial, take the following oath or affirmation, which the judge advocate is hereby authorized to administer:

"I, A. B., do swear (or affirm) that I will truly try, without prejudice or partiality, the case now depending, according to the evidence which shall be adduced, the laws for the government of the navy and my own conscience; and that I will not by any means divulge or disclose the vote or opinion of any member of the court, except to the President of the United States, the Secretary of the Navy, or other officer authorized to approve the proceedings of this court, unless required so to do before a court of justice in due course of law."

And the judge advocate shall then take the following oath or affirmation, to be administered to him by the president or senior member present:

"I, A. B., do swear (or affirm) that I will keep a true record of the proceedings of this court, and the evidence given before the same, and a separate record of the votes given by each of the members; and that I will not divulge or disclose the judgment of the court, until it shall have been approved by the competent authority; nor will I divulge or disclose the vote or opinion of any member of the court, except to the President of the United States, the Secretary of the Navy, or other officer authorized to approve the proceedings of this court, unless required so to do before a court of justice in due course of law; and that I will on all questions touching the case in which my opinion may be required by this court, give the same without prejudice or partiality, according to my judgment and conscience."

ARTICLE 6.

Depositions of witnesses.

In all cases prior to ordering a court-martial or court of inquiry, by the consent of the person ordering the court, and the accused before the trial, or of the judge advocate and the accused after the court has convened, the deposition of any witness may be taken under the direction of the court, on interrogatories and cross-interrogatories; and such deposition may be taken before any judge, justice, or notary public in the United States, or the mayor or chief magistrate of any

incorporated city or borough in the United States, or before any captain in the navy, or consul or vice-consul of the United States in any foreign country; and such deposition as aforesaid shall be admissible in evidence in the same manner as if the witness was himself produced and examined before the court; and in any case where the witness does not belong to the navy, and is about to leave the United States, or may reside more than one hundred miles from the place of trial; and if the judge advocate and the accused do not agree and consent to such deposition, or in case either of them shall omit or neglect in a reasonable time to prepare and transmit his interrogatories or cross-interrogatories, the deposition of such witness may be taken *ex parte*, and shall be equally available as if both parties had consented thereto; provided, that in all cases in which the punishment prescribed for the offence with which the accused is charged may be capital, the personal attendance of the witness against the accused shall be in no case dispensed with, except by the consent of the accused; but his evidence shall be given orally.

ARTICLE 7.

Evidence to be oral, on oath or affirmation, except in cases especially excepted.
Penalty for refusing to appear as a witness, and for contempt of court.

In all cases not specially excepted and provided for, the testimony given before a court of inquiry or a general court martial shall be oral, on oath or affirmation, to be administered by the senior member of the court who may be present; and if any person shall refuse to appear as a witness when legally summoned, or shall refuse to give his evidence, having no lawful excuse therefor, or shall prevaricate, or if any person, in the presence of said court, shall behave in a contemptuous or disorderly manner, it shall and may be lawful for said court, by the written order of the senior member of the same, to commit the party so offending to the custody of the provost marshal of the court, to be by him imprisoned, confined, or detained in close custody until released by order of the said court, or until such time as may be prescribed in such order, provided the same shall in no case exceed the period of two months; and the said provost marshal shall forthwith, on the receipt of such order, take the offender and commit him to close custody, agreeably to the terms of said order; and in all cases in which any suit or indictment shall be brought for any act done in obedience to such order the defendant may plead the general issue, and give the special matter in evidence; and upon the production of the original or a certified copy of said order, under the hand of the Secretary of the Navy and seal of the Navy Department, judgment shall be given for said defendant in any court of the United States.

ARTICLE 8.

Copy of a document in a department, certified by the Secretary thereof, admissible in evidence.

The copy of any document, record, or paper on file in the Departments of State, Treasury, Interior, War, or Navy, when certified

under seal to be a true copy by the Secretary thereof, shall be as valid and admissible in evidence, in any general court martial or court of inquiry, as if the original were produced.

ARTICLE 9.

Perjury and subornation of perjury.

Any person not belonging to the navy, or not subject to naval law, who shall, on his examination as a witness before a court of inquiry or a court martial, commit wilful perjury, and any such person who shall corrupt, procure, suborn, or persuade any such witness to commit wilful perjury, shall and may be prosecuted by indictment in any court of justice in the United States, having jurisdiction of the same; and shall on conviction suffer such penalties as are prescribed, or are or may be authorized by the laws of the United States in cases of perjury or subornation of perjury. And in every indictment for perjury or subornation of perjury under this act, it shall be sufficient to set forth the offence charged, without setting forth the authority by which the court was held, or the particular matters brought, or intended to be brought, before the said court. And any person belonging to the navy who shall be guilty of the beforementioned offences, or any one of them, may be tried by a general court martial, and upon conviction shall be cashiered, or suffer such punishment as such court may adjudge.

ARTICLE 10.

Sittings of the court.

When the proceedings of any general court martial shall have commenced, they shall not be delayed or suspended on account of the absence of any of the members, provided the minimum number required, or more, be assembled; but the court is enjoined to sit from day to day (Sundays excepted) until judgment be pronounced and signed, unless the court shall be adjourned or dissolved by the officer ordering the same, or by his superior in command; nor shall the president or any other member of said court, after the proceedings are begun, absent himself therefrom, unless in case of sickness, or being ordered to go on duty by a superior officer, or other sufficient excuse to be judged of by the court, on pain of being cashiered, or of suffering such punishment as a court martial shall adjudge. If less than the minimum number of members shall assemble, a majority of the members present may adjourn the court from day to day, for not exceeding ten days, when if the minimum number of members shall not attend, the court shall by such non-attendance be dissolved, and all its previous proceedings be rendered null and void: *Provided*, that nothing in this article shall be construed to prevent a court martial when it shall have no immediate business before it, from adjourning for not exceeding three days, when it can, in the opinion of a majority of the court, be done without prejudice to the case on trial.

ARTICLE 11.

Judgment of the court and record of its proceedings.

The judgment of every court martial shall be authenticated by the signature of the president, and all the members of the same who may be present when the said judgment shall be pronounced, and also of the judge advocate; and it shall be the duty of the judge advocate to transmit, with all convenient despatch, the record of the proceedings, the private record of the votes given by the court, and the judgment given by the court, to the Secretary of the Navy, or person ordering the court; and when such proceedings shall have been approved or disapproved by the competent authority, and the same finally acted upon, they, with all the documents relating to the case, shall be remitted to the Secretary of the Navy, to be filed upon record; the private record of the votes being first sealed and endorsed by the officer approving or disapproving the proceedings, who shall not disclose the vote of any particular member unless required so to do before a court of justice.

ARTICLE 12.

Sentences of courts martial.

All sentences of courts martial which shall extend to the loss of life, or to the cashiering or dismissal of a commission or warrant officer, shall require the concurrence of three-fourths of the members present; and no such sentence shall be carried into execution, until confirmed by the President of the United States, or if the trial takes place out of the United States, until it shall be confirmed by the commander-in-chief of the fleet or squadron; except such as go to the cashiering of a commission or warrant officer, which are in all cases, first to be approved by the President of the United States. All other sentences may be determined by a majority of votes, and carried into execution on the approval of the officer ordering the court.

ARTICLE 13.

Punishments left to the discretion of a court martial.

When the punishment of an officer is not made specific by the law, but is left to the discretion of a court martial, the following shall be the scale of punishments for commissioned or warrant officers, according to the nature of the offence:

- 1st. Death in those cases only specially named in this act.
- 2d. Cashiering, but in those cases only where death or this punishment is specially named in this act.
- 3d. Dismission from the navy.
- 4th. Loss of rank by placing him lower on the list of his grade.
- 5th. To suspension from rank for a certain time, and to receive no

advancement by promotion during his suspension, but to retain the number on the Register which he held at the time of his sentence.

- 6th. Suspension from duty without pay.
- 7th. Suspension from duty with part pay.
- 8th. Confinement.
- 9th. Dismission from the squadron or vessel.
- 10th. Public reprimand.
- 11th. Private reprimand.
- 12th. Forfeiture of pay then due.

More than one of the above mentioned punishments may, however, be included in the same sentence by a court-martial.

ARTICLE 14.

Second desertions and ignominious discharges.

A court-martial may cause the letter "D" to be marked on the right side of any person in the navy convicted of a second desertion, and the letters "I. D." on any person whose conduct it may deem deserving of ignominious discharge from the navy. Said marking to be pricked with India ink on some part of the person usually covered by clothing.

ARTICLE 15.

Malicious or frivolous charges.

Whenever it shall appear to any court-martial from the testimony in the case that the charges which shall have been preferred against any person on trial are malicious, frivolous, or vexatious, they may express such opinion in their proceedings.

ARTICLE 16.

Offences committed more than three years prior to the issue of an order for a trial by court-martial.

No person shall be liable to be tried or punished by a general court-martial for any offences which shall appear to have been committed more than three years before the issuing of the order for such trial, unless the person, by reason of having absented himself, or some other manifest impediment to be shown to the satisfaction of the court shall not have been amenable to justice within that period.

ARTICLE 17.

Sentences to be published. Certified copy of proceedings to be furnished.

All sentences of courts-martial, which shall go to acquit or cashier, dismiss, suspend from rank, or adjudge the death of any commission or warrant officer in the navy, shall be published in some one or more newspapers printed at the seat of the general government; and, if required by any officer who has been tried by a court-martial, a certified copy of the proceeding in his case shall be furnished after the same shall have been approved or disapproved by the authority ordering the court.

ARTICLE 18.

Amenableness for acts done as a member of a court martial.

No officer, or other person, shall be criminally or civilly amenable for any act done as a member of a court martial, or court of inquiry, or under the authority or direction of said court, on account of any irregularity in the form of the authority by which said court is convened, but may, in all cases, plead the general issue and give this act in evidence.

ARTICLE 19.

Pardon and mitigation of punishment.

Every officer who is by this act authorized to convene courts martial, shall have power to pardon or mitigate at any time the sentence of any such court, which by this act he is authorized to approve and confirm.

ARTICLE 20.

Courts martial shall be held in places under jurisdiction of the United States.

All naval courts martial shall be held on board of some vessel of the United States, or in some place in which the United States has special jurisdiction.

ARTICLE 21.

Provost marshal.

To every general court martial and court of inquiry there shall be attached a provost marshal, to preserve order in the court, and to execute its orders; which said provost marshal shall, if not before appointed, be furnished on the written requisition of the president of the court addressed to the proper officer within whose command the court may be convened.

ARTICLE 22.

Officer under arrest to deliver up his sword and confine himself within limits.

Every officer shall, when arrested, deliver up his sword when required, and shall confine himself to the limits assigned him, under pain of being dismissed from the service, by the sentence of a general court martial.

ARTICLE 23.

Courts convened beyond the territorial jurisdiction of the United States.

Whenever general courts-martial and courts of inquiry shall be held out of the territorial jurisdiction of the United States, the proceedings

preliminary to the trial as well as on the trial, shall correspond, as nearly as circumstances will permit, to the provisions of this act; and in such cases the authority convening said court shall appoint a judge advocate, none having been previously appointed by proper authority.

ARTICLE 24.

Punishments by summary courts martial may be inflicted by general courts martial.

Any punishment authorized by this act to be inflicted by a summary court martial may likewise be inflicted by any general court martial.

SECTION 4.

SUMMARY COURTS MARTIAL.

ARTICLE 1.

By whom convened and what class of persons and offences they may try.

Summary courts martial may be ordered upon petty officers and persons of inferior ratings by the commander of any vessel in the navy to which such persons belong, for the trial of offences which he may deem deserving of greater punishment than the commander of a vessel himself is by law authorized to inflict of his own authority, but not sufficient to require trial by general court martial.

ARTICLE 2.

Number and rank of members.

Summary courts martial shall consist of three officers not below the rank of passed midshipman, and of some competent person to act as recorder.

ARTICLE 3.

Oath to members.

Before proceeding to trial the members shall take the following oath or affirmation, which the recorder is hereby authorized to administer: "You, A. B., do solemnly swear (or affirm) that you will well and truly try, without prejudice or partiality, the case now depending, according to the evidence which shall be adduced, the laws for the government of the navy, and your own conscience, so help you God."

ARTICLE 4.

Oath to the recorder.

After which the recorder of the court shall take the following oath or affirmation, which the senior member of the court shall administer: "You, A. B., do solemnly swear (or affirm) that you will keep a true record of the evidence which may be given before this court, and of the proceedings thereof, so help you God."

ARTICLE 5.

Commander of ship to appoint recorder.

The commander of a ship shall have authority to order any officer under his command to act as the recorder of a summary court martial, and shall detail for such duty, if practicable, an officer who is junior to the officer who presides at the court.

ARTICLE 6.

Testimony.

All testimony given before such court shall be given orally, on oath or affirmation, which the senior member of the court shall administer.

ARTICLE 7.

Punishments.

Summary courts martial may sentence petty officers and persons of inferior ratings to any one of the following punishments, viz:

1. Discharge from the service with bad-conduct discharge, but the sentence not to be carried into effect in a foreign country.
2. Solitary confinement in irons, single or double, on bread and water or diminished rations, provided no such confinement shall exceed thirty days.
3. Solitary confinement in irons, single or double, not exceeding thirty days.
4. Solitary confinement not exceeding thirty days.
5. Confinement not exceeding two months.
6. Reduction to next inferior rating.
7. Deprivation of liberty on shore on foreign station.
8. Extra duties and loss of pay, not to exceed three months, may be added to any of the above mentioned punishments.

ARTICLE 8.

Sentence to be approved.

No sentence of a summary court martial shall be carried into effect without the approval of the officer ordering the court, who shall have power to remit in part, or altogether, but not to commute any such sentence.

ARTICLE 9.

Approving officer shall remit any punishment injurious to health.

It shall be the duty of any such commanding officer to remit any part or the whole of any sentence by a summary court martial, the execution of which would, in the opinion of the surgeon or senior medical

officer on board, given in writing, produce serious injury to the health of the person sentenced; or in case he shall refuse to do so, it shall be his duty, without delay, to submit the case again to the same or to another summary court martial, which shall have power, upon the testimony already taken, to remit the former punishment and to assign some other of the authorized punishments in the place thereof.

ARTICLE 10.

Proceedings to be concise and precise.

The proceedings of summary courts martial shall be conducted with as much conciseness and precision as may be consistent with the ends of justice, and under such forms and rules as are or may be prescribed by the Secretary of the Navy; and all such proceedings shall be transmitted in the usual mode to the Navy Department.

ARTICLE 11.

Oath to witnesses.

The following oath shall be administered to witnesses before summary courts martial:

“You do solemnly swear (or ‘affirm’) that the evidence you shall give in the case now before this court shall be the truth, the whole truth, and nothing but the truth, so help you God.”

REPORT OF THE

No. 4.—CHAP. IX, SEC. 1, ARTS. 15 AND 18.

*Quarterly returns of punishments on board the United States ———
 ——— up to ———, 18—.*

Names.	Rating.	Offence.	Punishment.	Remarks.

NOTE.—Lists of punishments must be sent in triplicate.

A. B., *Captain.*

No. 5.—CHAP. 9, SEC. 1, ART. 19.

*Monthly return of enlistments on board the United States ———
 up to the ——— day of ———, 18—.*

Names.	Ratings.	When.	Where.	Where born.	Age.

NOTE.—The names should be alphabetically arranged with surname to the left. The report should be, in all respects, full and accurate. Persons of the same name should be distinguished by information respecting their age, &c. (This note refers to all monthly returns.)

A. B., *Captain.*

C. D., *Paymaster.*

No. 6. CHAP. IX, SEC. I, ART. 19.

Return of deserters who have given themselves up, or have been apprehended, up to ——— ———, 18—.

Names.	Rating.	When.	Date of enlistment.	Age.

A. B., *Captain.*

(Place and date)
C. D., *Paymaster.*

NOTE —To be made *weekly* from *receiving* vessels and *monthly* from other vessels.

No. 7. CHAP. IX, SEC. I, ART. 19.

Monthly returns of transfers from the United States ——— ——— up to ——— ———, 18—.

Names.	Rating.	Where to.	Date of enlistment.	Amount due from United States.

A. B., *Captain.*

C. D., *Paymaster*

No. 8. CHAP. IX, SEC. 1, ART. 19.

Return of discharges from the United States ——— up to ———, 18—.

Names.	Rating.	When.	Where.	Date of enlistment.	Cause.

(Place and date.)

C. D., *Captain*.A. B., *Paymaster*.

NOTE.—This return to be made *weekly* from receiving vessels, and *monthly* from other vessels.

No. 9. CHAP. IX, SEC. 1, ART. 19.

Return of desertions from the United States ——— up to ———, 18—.

Names.	Rating.	When.	Where.	Date of enlistment	Amount due from or to the United States.

(Place and date.)

A. B., *Captain*.C. D., *Paymaster*.

NOTE.—To be made *weekly* from receiving vessels, and *monthly* from other vessels.

No. 10. CHAP. IX, SEC. 1, ART. 19.

Return of deaths on board the U. S. ——— up ——— to ——— 18——.

Names.	Rating.	Cause of.	When.	Date of en- listment.	Amount due to or from the United States.

(Date.)

A. B., *Captain.*

C. D., *Paymaster.*

NOTE.—To be made *weekly* by receiving vessels, and *monthly* from other vessels.

No. 11. ЧИТАП. IX, SEC. 2, ART. 5.

List of petty officers and persons of inferior rating who have had liberty to absent themselves from the United States

Names.	Rating.	Date of leave	To what time leave was granted	Time of return on board.	By whom leave was granted.	Remarks.

No. 12. CHAP. IX, SEC. 4, ART. 1.

Quarterly statement of expenses incurred for the United States _____,
between the _____ day of _____, 18—, and the _____ day of
_____, 18—.

Number of bill.	Date of approval.	Am't of bill, as per tripli- cate sent to bureau of—	By whom paid.	Remarks.

NOTE.—A similar return must also be made, at the same time, showing the value of articles received from public storehouses, vessels, or navy yards, and for which no *money* was paid—substituting the word “requisition” for “bill” in the headings. Separate returns of each kind must be made for the several bureaus which have a supervision of the objects of expenditure. Those which do not properly belong to any bureau are to be entered on another separate return for the Secretary of the Navy.

No. 13. CHAP. XXI, ART. 30.

Return showing the months, and the number in each month, in which the service of the petty officers and others of inferior rating of the United States ——— has expired or will expire.

Year	Month.	Boatswain's mates.	Gunner's mates.	Carpenter's mates.	Sailmaker's mates.	Ship's stewards.	Surgeon's stewards.	Master-at-arms.	Ship's corporals.	Armorer.	Ship's cook.	Cooper	Quartermasters.	Quarter gunners.	Captains of fore-castle, tops, and after-guard.	Armorer's mates.	Painter.	Captains of hold.	Officers' stewards and cooks.	Seamen.	Ordinary seamen.	Landsmen and boys.	Musicians	Coalheavers.	Firemen.

CHAPTER I.

RATES OF VESSELS OF THE NAVY AND COMPLEMENTS.

1. Rates of vessels of the navy.
2. Appropriate commands for captains, commanders, and lieutenants.
3. No paymaster of over twelve years' service to be appointed to vessels of third and fourth rates.
4. Table of complements to be established by the Secretary of the Navy.
5. When more officers are appointed than specified in complement table, to be borne as supernumeraries.
6. Commanders to be allowed as executive officers.
7. Commander of a fleet or squadron as supernumerary.
8. Supernumeraries on board flag-ships.
9. How a deficiency of seamen is to be supplied. Ship not to be detained if she has nine-tenths of her complement of petty officers.
10. Secretary of the Navy may order vessels to sail with smaller numbers.
11. Commanders of vessels may supply deficiency of petty officers.

12. Vessels not embraced in table of complements.
13. Distressed seamen.
14. They are to be amenable to laws, &c., of the navy.
15. Supernumerary officers shall take rank and do duty, unless.
16. Officers as passengers not entitled to quarters.

CHAPTER II.

RANK AND COMMAND.

1. Personnel of the navy.
2. General military command.
3. Officers restricted in their right to command.
4. Pursers to be paymasters.
5. Acts relating to pursers shall apply to paymasters.
6. Rank and command of commission and warrant officers.
7. Officers appointed to act in higher grades.
8. Command in cases of riot or quarrel.
9. Appointed officers.
10. Petty officers and their relative rank.
11. Precedence of petty officers with each other.
12. Order of precedence between officers of the navy.
13. Precedence of assistant paymasters.
14. Precedence of passed assistant surgeons and professors.
15. Precedence of assistant surgeons and first assistant engineers.
16. Precedence of second and third assistant engineers.
17. Precedence of secretaries and clerks with each other.
18. Precedence by date of commission or warrant.
19. Officer entitled to exercise general military command, in command of a vessel or on detached duty, shall command all other officers on same duty.
20. Precedence of officers acting on boards, surveys, &c.
21. Messes; senior officer, &c., to preside.
22. Command of officers of medical, pay, and engineer departments.

CHAPTER III.

GENERAL REGULATIONS.

1. Constant attention to duty enjoined on all.
2. All persons to conduct themselves with respect to their superiors.
3. If an inferior feels himself aggrieved.
4. If any person knows of any fraud.
5. If an officer shall receive an order contrary to his instructions.
6. If an officer is diverted from any duty.

7. Orders countermanding other orders to be given in writing.
8. No person to exchange with another for the performance of any duty.
9. When a commander of a fleet or single vessel meets with his superior.
10. No deviation allowed in armament or equipment.
11. To avoid unnecessary expenditures.
12. No public stores to be appropriated to private use.
13. Mechanics on board ships on foreign stations allowed to repair merchant vessels.
14. No officer to receive compensation.
15. Gratuitous assistance to be given, when.
16. No person in the navy to be interested in procuring supplies.
17. Tattoos to be beaten and colors to be hoisted when.
18. Lights and fires to be extinguished, when.
19. When criminal process is issued by civil authority.
20. No person to be discharged without order, from whom.
21. Enlisted men whose terms of service have expired while on duty on a foreign station may be discharged.
22. When persons are found unfit for service.
23. Enlisted persons may be discharged, when.
24. No person to be transferred from our vessel to another, in the United States, unless.
25. Accounts of persons transferred.
26. Gambling prohibited.
27. Officers incurring debts upon a foreign station.
28. Officers to advise the department of their address.
29. On being detached to advise the department of address and change of residence.
30. To acknowledge receipt of orders.
31. The uniform to be prescribed by the President.
32. Officers travelling, &c., to communicate useful information to the government.
33. When two or more vessels meet.
34. Boats to carry national flag.
35. All important orders to officer of the deck at night to be given in writing.
36. Duty of an officer who becomes privy to an intention to fight a duel.
37. Officers invited to act as seconds in duels to exert themselves to effect reconciliation.
38. If an officer shall have given offence; or if an officer shall have received offence.
39. If an officer is promoted while in command.
40. Treasure shipped for freight or safe keeping.
41. Combinations of officers or others prohibited.
42. Intoxicated persons, how they shall be dealt with.
43. Demand for the delivery of a deserter.
44. Detached parties of twenty or upwards to be commanded by a lieutenant or master.

45. Officers' duties are not limited to those prescribed in these regulations, but are promptly to obey all orders.
46. Offenders to be reported.
47. Sheath knives forbidden.

CHAPTER IV.

APPOINTMENTS AND PROMOTIONS.

1. Appointment of a person not holding a commission or warrant to perform the duty of a commission or warrant officer. Officer on leave or furlough.
2. When vessels may proceed to sea with smaller numbers than those designated in the table of complements.
3. Acting appointments, when and how to be made.
4. Acting appointments to be reported to the department, with reasons for the same.
5. An officer who has received appointment to act in a higher grade than his commission not to be reduced.
6. Vacancies by sickness, absence, &c., how to be filled.
7. Boatswains, gunners, carpenters, and sailmakers may be selected, when and how.
8. Officers receiving acting appointments to wear uniform and annex official signature.
9. Acting appointments to specify vessel.
10. Commanders-in-chief without the United States may appoint boards to examine candidates for higher appointments.
11. Commanders of vessels in certain cases to fill vacancies.
12. Commanders to rate petty officers from crew, except.
13. Petty officer so rated to be transferred in no higher grade than that in which he shipped.
14. Commanders may change the rates of petty officers.
15. Officers entitled to a secretary or clerk may appoint and discharge the same.
16. Paymasters may appoint and discharge their clerks, with captain's assent.
17. Ages prescribed for secretaries and clerks, and rules for their appointment.
18. Boatswains, gunners, carpenters, and sailmakers may receive warrants, when.
19. Age of second masters and master's mates, and rules for their appointment.
20. Second masters and master's mates not to be warranted until they have seen one year's sea service.
21. Admission, continuance, and examination of midshipmen.
22. Lieutenants nominated for promotion, when.
23. Commanders nominated for promotion, when, provided that.
24. Promotion of warranted master's mates.

25. A passed midshipman will be eligible for promotion to master, &c.
26. Masters not promoted from passed midshipmen.
27. Chaplains, qualifications required for their appointment.
28. Paymasters, qualifications required for their appointment.
29. Commanding officer of a squadron may appoint a fleet surgeon when a vacancy occurs.
30. Midshipmen not to serve more than twelve months on board schooners, when avoidable.
31. No person to be appointed in the engineer corps without testimonials.
32. Candidates for promotion in the engineer corps must produce testimonials.
33. Qualifications required for the appointment and promotion of engineers.
34. Engineers which shall be preferred when qualifications are equal.
35. Penalty for producing a false certificate.
36. Definition of sea service.
37. Boards of officers for examination to give certificates.
38. Officers who may be prevented from being present at a first examination, how to proceed.
39. In case of an officer failing to pass a first examination, his class and position if he passes a second examination.
40. Officers found unqualified on second examination to be dropped.
41. Officers appointed to shore stations to continue three years, unless.
42. When a captain of the fleet may be allowed.
43. A lieutenant allowed to a commander-in-chief as aid.
44. Limits of a command to be specified.
45. No person to receive an original appointment unless physically qualified.

CHAPTER V.

MILITARY HONORS AND CEREMONIES.

1. Military honors to the President.
2. National ensign to be hoisted at the main during the presence of the President on board.
3. Military honors to the Vice President.
4. Same to an ex-President.
5. Same to an ex-Vice President.
6. Same to a foreign sovereign.
7. Honors to cabinet officers, judges of the Supreme Court, and governors of States.
8. Honors to flag-officers.
9. Military honors to captains.
10. Military honors to commanders.

11. Same to lieutenants commanding.
12. Officers may dispense with guards.
13. Commission officers below rank of commander.
14. Warrant officers, how to be received.
15. Salutes for flag-officers.
16. No officer of the navy other than a flag-officer to be saluted, except.
17. Salute when an officer assumes command of a fleet.
18. Salute when a vessel first joins or meets a squadron.
19. No salute to be fired in the presence of a superior, except.
20. Salutes when squadrons, &c., meet.
21. When more than one vessel salutes an officer.
22. Officers of the army and marine corps, how to be received.
23. When colors are to be hoisted on 4th of July.
24. No national flag except the American shall be used in dressing ship.
25. Salutes on the 22d of February and 4th of July.
26. Commanders of vessels in foreign ports to give notice to authorities of any anniversary it is intended to celebrate.
27. Salutes to diplomatic corps.
28. Forts, &c., of the United States not to be saluted.
29. Salutes from foreign vessels to be returned, how.
30. Commanders on visiting foreign ports to make first visit.
31. Vessels of the United States may salute a foreign place, when.
32. Vessels of the United States may salute a foreign vessel.
33. United States vessels may hoist flags of other nations and fire salutes, when.
34. Honors to foreign naval or military officers visiting United States vessels.
35. A United States vessel in a foreign port shall conform to the established usages of the place.
36. Foreigners of distinction may be saluted.
37. Vessels of the United States mounting less than 10 guns not to fire a salute with a greater number, unless.
38. Vessels prohibited from firing salutes.
39. United States not to lower their flags or sails, unless.
40. Funeral honors to a President or ex-President of the United States.
41. Funeral honors to the commander-in-chief of a fleet, squadron, or division.
42. Funeral honors to other commission officers, masters, and secretaries to flag-officers.
43. Funeral honors to warrant officers.
44. Funeral honors to petty officers and persons of inferior ratings.
45. Funeral honors to members of the marine corps.
46. Funeral honors to others of the navy who may die on board.
47. Funeral honors not to be paid to officers not on duty, except to senior captain, except.
48. Military honors to be paid between sunrise and sunset.

49. Commanders of squadrons will call on ministers and chargé d'affaires; captains on them and consuls general.
50. Ceremonies to be observed by officers in boats.
51. Ceremonies to be observed at the gangway.
52. Ceremonies at the gangway may be dispensed with.
53. When commanders of squadrons or single vessels are absent at night.
54. Starboard gangway for use of commission and warrant officers.
55. Ladders used by commission and warrant officers.
56. All officers to salute when they meet.
57. Officers coming on quarter deck to salute.
58. Officers to show respect to foreign officers.
59. No officer under rank of captain to hoist a broad pendant.
60. Captains entitled to broad pendants.
61. When two or more captains meet.
62. A captain may shift his broad pendant from one vessel to another of his fleet.
63. Pendant of the commander of a squadron not to be worn by any vessel, unless.
64. During the absence of commander-in-chief in a foreign port, his pendant to be worn by vessel commanded by officer next in rank, except.
65. National anniversaries falling on a Sunday.
66. Vessel joining a commanding officer on Sunday may salute on Monday.

CHAPTER VI.

THE COMMANDER-IN-CHIEF OF A FLEET OR SQUADRON.

1. Shall inform himself of the condition of his command.
2. He will use every exertion to equip his fleet expeditiously.
3. His command to be kept in perfect condition for service.
4. Reports to be made immediately before sailing.
5. To be frugal in the expenditure of stores and provisions.
6. To make no alterations without consent of the Secretary of the Navy.
7. To direct frequent examinations of hospitals.
8. All requisitions for supplies to be approved, by whom.
9. Approving officer must satisfy himself that articles and quantity are required.
10. Copies of bills to be forwarded to proper bureau.
11. When there is no regular agent he may employ one, and to prefer consul.
12. To exercise vessels under his command whenever circumstances permit.
13. To cause boats to be inspected when armed and manned.
14. To inspect the vessels under his command.

15. To be attentive to conduct of officers and men in battle.
16. May transfer or suspend officers under his command, and report to department.
17. He will issue general orders regulating leaves of absence.
18. He will make semi-annual reports to the Secretary of the Navy. Quarterly reports.
19. He will correspond regularly and frequently with the department.
20. He will forward monthly returns of the state and condition of fleet.
21. He will keep copies of all orders and letters.
22. To forward plans or suggestions for improvements.
23. When about to return home, he will leave all surplus provisions.
24. Not to resign his command without the consent of the Secretary of the Navy, except.
25. When he resigns, he will surrender all orders, copies, &c.
26. Should he be killed in battle, his pendant to be kept flying.
27. If obliged to leave his station on account of ill-health, the officer next in command to succeed.
28. Officer succeeding to command to relinquish it as soon as a successor arrives.
29. To examine and compare internal regulations of vessels.
30. He shall direct course to be steered.
31. When he takes immediate command of vessel.

CHAPTER VII.

COMMANDERS OF SQUADRONS AND DIVISIONS OF FLEETS.

1. They are responsible to commander-in-chief.
2. Reports, returns, and requisitions, to whom and how made.
3. Commanders of squadrons or divisions may correct mistakes or the negligence of ships in another squadron, &c.
4. If he sees a vessel avoiding battle, he may take the measures the case requires.
5. To inspect vessels before going to sea and on returning to port.
6. To make all necessary signals when the commander-in-chief does not manœuvre the fleet in detail.
7. Reports, after battle, of the conduct of officers.
8. Orders to the commander of the vessel in which commander of division is embarked.

CHAPTER VIII.

CAPTAIN OF A FLEET.

1. He will be in same vessel with commander-in-chief.
2. He will keep a journal of the operations of the fleet.
3. He will transmit all orders from the commander-in-chief.
4. He will report neglect or disobedience of orders.
5. Register of orders to be kept.
6. Register of number and dates of all orders.
7. He will see that officers called on board to receive orders come provided with an order book.
8. All signals to be inserted in a register.
9. He shall be subject to the orders of the commander-in-chief.
10. On other service he will take rank according to his commission.
11. A commander, when appointed as aid to commander-in-chief, will act as captain of the fleet.

CHAPTER IX.

SECTION 1.

COMMANDERS OF VESSELS.

1. Examination of vessel when appointed to command.
2. Report to commanding officer of navy yard defects or deficiencies.
3. He will be particular in examination and reports when vessel is transferred to his charge.
4. He will exercise no authority over the vessel until she is delivered to him.
5. Examination and formal transfer of the vessel.
6. The act for the government of the navy will be read.
7. He will be held responsible after assuming the command.
8. He will prepare internal regulations.
9. He will use every exertion to complete her arrangements, and make weekly reports.
10. A statement of the vessel's condition and qualities will be furnished him.
11. Shall station officers and crew as soon as possible, exercise them frequently, and have station bills made out and hung up.
12. He will clear for action when approaching a vessel-of-war at sea.
13. In preparing a vessel for action, &c., to follow instructions of Bureau of Ordnance.
14. He shall not exceed the established number of men in each rating, except.

15. Quarterly returns of the state of the crew.
16. Men not to part with their clothing, except.
17. Encouragement for good behavior.
18. Reports of punishments.
19. Monthly reports in the United States and bi-monthly reports on a foreign station.
20. Encouragement to officers to improve themselves ; midshipmen to keep journals.
21. He may require certain officers to make observations and report them.
22. Certain officers to provide themselves with a sextant or octant and some approved work containing tables for ascertaining the ship's place.
23. On being transferred from one vessel to another he may take certain persons with him.
24. Books and papers that he will deliver to his successor.
25. He will leave his successor a muster book and expense book.
26. He will leave his successor a report of the qualities of his vessel.
27. Women not to be taken to sea.
28. To keep the sea the time required by his orders.
29. To visit no port not designated in his instructions.
30. He will give convoy to the vessels of the United States and to others entitled to protection.
31. He must explain satisfactorily the cause of separation from a fleet or squadron.
32. He will facilitate examinations by custom-house officers of the United States.
33. No public punishment nor general exercise to be ordered while a superior is on board.
34. Boys of the ship to be instructed.
35. Apprentices are not to serve as waiters, but are to be instructed.
36. Vacancies among petty officers, how filled.
37. Instruction to ordinary seamen and boys.
38. Report of all passengers.
39. He will be governed by regulations for commanders-in-chief.
40. Bill of health.
41. Remark book.
42. Spare spars, sails, &c., to be tried in their places before going to sea.
43. Divine service.

SECTION 2.

PRESERVATION OF THE SHIP.

1. One of the three or one of the two senior officers to be at all times on board. Leaves of absence restricted.
2. Lieutenants to be watch officers in all vessels, except.

3. No officer other than those named in two preceding articles to have charge of watch, unless.
4. Crew to be allowed to go on shore.
5. Liberty book.
6. Conduct book.
7. Cables to be bent when approaching land.
8. Hand leads to be used where ship is in less than 21 fathoms.
9. In going into port or near shoals regular soundings to be taken.
10. Report to be made in case the vessel gets on shore.
11. Precautions when ship comes to anchor.
12. Chain cables to be guarded against corrosion, and inspected.
13. Lightning conductors.
14. Meteorological, barometrical, and sympiesometrical observations to be taken and recorded.
15. He will guard against fire.
16. Lights and fires to be carefully guarded.
17. Reading in bed by candle or lamp light forbidden; smoking restricted to certain parts of ship.
18. Precautions when spirit room is opened.
19. Lights not to be taken into spirit room.
20. No spirituous liquors to be taken on board without his permission.
21. Precautions when powder is taken on board.
22. The magazine never to be open without his consent.
23. The vessel is to be kept well caulked.
24. In case of shipwreck he will save all he can, particularly certain books and papers.
25. He will carefully preserve or destroy signals, secret orders, &c.
26. He will preserve strict discipline and prevent irregularities.
27. In case of shipwreck he and his officers and crew will return to his station or to the United States.
28. If shipwrecked within the United States he will repair to the nearest navy yard or station and report.
29. He will, in case of capture, destroy all signals or other papers.
30. He will not make any alterations in the internal arrangements of the vessel, except.
31. Lights, when and where to be carried.
32. Night order book.

CHAPTER IX.

SECTION 3.

PRESERVATION OF THE MEN.

1. Cleanliness, dryness, and pure air. Wet clothes and bedding not to be taken below.
2. Inspection of the vessel.
3. The decks to be frequently cleansed and dried.
4. Bedding and clothing to be aired and cleansed.
5. The men not to sleep where exposed to night dews.
6. The men shall bathe and wash.

7. Attention to be paid to the suitable clothing of the men.
8. Boats' crews to have their breakfasts before leaving vessel, &c.
9. Boats not to be detained on shore after watch is set, unless.
10. Prevent all unnecessary exposure of men.
11. He will guard against improper use of fruit.
12. He will order such issues of clothing as may be required.
13. Water not to be drunk until it is clear of impurities.
14. Men not to be placed on an allowance of less than one gallon of water, except.
15. Issues of fresh meat and vegetables.
16. Induce the discontinuance of spirit ration, provided.
17. Attention to the comfort of the sick and wounded.
18. Sick reports, &c.
19. Men sent to hospital.
20. Men sent to a hospital in United States from a vessel in commission to be borne on ship's books.
21. Before a vessel sails application must be made for men in hospital.
22. Clothing furnished to persons in hospital.
23. Accounts of persons left in hospital.
24. Precaution not to board a vessel that would be subject to quarantine.
25. Yellow flag to be hoisted when vessel is subject to quarantine.
26. Life-buoys to be kept ready for service.
27. Quarter boats to be kept in readiness for lowering.
28. Lives of men not to be exposed unnecessarily.
29. If course directed to be steered when sailing in squadron is leading into danger, he will give notice.

SECTION 4.

PRESERVATION OF THE STORES.

1. Inventories to be furnished and accounts to be kept.
2. Account of stores when the ship is paid off or placed in ordinary.
3. He will examine returns, requisitions and accounts.
4. In making or approving requisitions he is not to exceed allowances.
5. Economy and care in expenditures.
6. In case a cable be cut, slipped, or parted.
7. Disposition of stores when a vessel is placed in ordinary.
8. Disposition of empty barrels or packages.
9. Disposition of "slush" money.
10. He will not land stores unless ordered, and will reship them unless otherwise directed.
11. Masts not to be strained in setting up stays, &c.
12. How lower and topmast stays and shrouds are to be set up.
13. Ship's company to be mustered before going to sea. Muster-roll to be kept and forwarded to the Secretary of the Navy.

CHAPTER X.

COMMANDER OF A STEAM VESSEL.

1. To use diligence to acquaint himself with the construction of engines.
2. To ascertain the usual daily consumption of coals.
3. To guard against spontaneous combustion.
4. Cleanliness and ventilation to be secured.
5. Before leaving port to take on board all spare gear and to land none.
6. He will allow firemen time to remove incrustations and deposits.
7. To make repeated trials of the best means of using steam, of the amount of coals required, &c.
8. Not to use steam, except.
9. To report the number of hours the vessel was under steam.
10. Precautions when steam vessel is met.
11. Precautions when passing a steam vessel.
12. Precautions when meeting a sailing vessel.
13. Lanterns to be kept in good order.
14. Examination of the engines, &c., when the steamer arrives in port.
15. Proposed alterations not to be entered in list of defects.
16. Boilers to be filled with fresh water before going to sea.
17. Repairs of engines to be made by engineers.
18. Force-pumps to be kept in order.
19. Bilge-pumps not to be used on ordinary occasions.
20. Steam log.
21. Steam log to be handed to commander daily.
22. Steam log to be transmitted to the Bureau of Construction, &c.
23. Steam engineers to conform to orders.
24. Engineers to be arranged in watches.
25. Senior engineer to prepare and submit station bills.
26. Senior engineer to make daily inspection of the engines.
27. Oat meal to be supplied for firemen and coalheavers.
28. Air below to be rarefied when fires have not been lighted for a considerable period.

CHAPTER XI.

EXECUTIVE OFFICER.

1. Who shall be executive officer.
2. He shall have general superintendence.
3. He shall have quarters, watch, and station bills made out.
4. He will examine ship daily.

5. He shall require reports from the master, boatswain, gunner, carpenter, and sailmaker.
6. He shall report the condition of the vessel in the evening.
7. Have control of expenditure of stores.
8. He will require vigilance and conformity to orders.
9. He shall have charge of deck, when.
10. He shall report defects or deficiencies.
11. He shall have charge of cistern and store-room keys.
12. Never to absent himself from the vessel, except.
13. Not required to keep watch, unless.
14. He may advise the officer of the deck, when.
15. He shall inform himself of the capacity of each man on board.
16. His duty in case of fire.
17. Shall attend when magazine is opened.
18. Must know when persons leave or return to the ship.
19. To act when captain is absent.
20. To correct abuses and report violations of laws.
21. When a boat leaves the ship at sea, to be provided with a compass.
22. Quarter boats, how to be prepared for sending from ship at sea.

CHAPTER XII.

SECTION 1.

LIEUTENANTS.

1. To be attentive to duty and obedient to orders.
2. To conform to the practice and words of command of the executive officer.
3. Shall carry an order book when called on board flag ship to receive orders.
4. To be attentive to the men of his division.
5. To have charge of a boat.

SECTION 2.

WATCH OFFICERS.

1. His duties when in charge of the watch.
2. He will sign the log-book.
3. Shall give information to the captain.
4. He is not to change the ship's course, nor to alter sails, except.
5. To direct an officer to look out for signals.
6. To make no signals, except.
7. He will inform his relief of all unexecuted orders.

8. His duty when boats are alongside the ship.
9. No boat to remain alongside without a boat-keeper.
10. To take account of stores received on board and sent from vessel.
11. Crews of boats to be properly clothed; men belonging to boats cannot exchange.
12. Not to enter into conversation.
13. When a strange sail is seen at night during war.
14. Uniform of the officer of the watch.
15. Officers and others coming to or leaving the ship shall receive proper respect.
16. When offences are committed by day or night.
17. He will preserve decorum on the quarter deck.

CHAPTER XIII.

MASTER.

1. He will superintend the stowage, &c., of the vessel.
2. Oldest provisions to be so stowed as to be first issued.
3. Entries to be made in log-book in regard to stowage.
4. Plans of the stowage of the hold to be made.
5. Plans of stowage to be furnished commander of vessel.
6. Plans of stowage to be furnished commander of yard.
7. He will visit hold and cable tiers frequently.
8. He will have charge of hold and spirit room keys.
9. He will see that the cables are secured and protected from injury.
10. He will examine chain cables, &c.
11. He will see that the rigging, &c., is in good order.
12. He will prevent waste of fuel and water, and report expenditure of each.
13. His duty when approaching land or shoals.
14. He will examine charts and note errors.
15. He will examine compasses, time-glasses, &c.
16. He will report ship's place at meridian, and bearing of nearest headland.
17. He will have charge of all nautical books, charts, flags, &c.
18. He will have charge of the keeping of the log-book; his duties in reference to the same.
19. Log-book; entries to be made therein.
20. After the log-book is signed no alteration is to be made, except.
21. A fair copy of the log-book will be transmitted to the Navy Department.
22. Log-book, how disposed of.
23. Remark book.

- Particulars relating to navigation, which he will note.
 Latitude.
 Longitude.
 Variation of compass.
 Tides.
 Winds.
 Wet and dry seasons.
 Hurricane seasons.
 Temperature of chronometer room.
 Latitude and longitude of places.
 To obtain lunar distances.
 He will note the variation of the compass.
 Local attraction to be determined.
 He will ascertain particulars respecting currents and tides.
 He will describe appearance of foreign coasts and landmarks.
 He will sound and survey, and project the results.
 To note inaccuracies in charts.
 Captain to examine remark book.
 A copy thereof, and of all charts, plans, and views, to be forwarded to the department.
 24. He will not keep watch, unless.
 25. All vessels to be furnished with a skeleton chart.
 26. In case of removal or suspension, he will deliver log-book to his successor.

CHAPTER XIV.

PASSED MIDSHIPMEN.

1. Attention, zeal, and diligence enjoined.
2. To require punctuality in those under.
3. Instruments and books with which they will supply themselves.
4. Daily observations.
5. Journal.
6. They are to be preferred for more responsible duties.

CHAPTER XV.

MIDSHIPMEN.

1. They shall keep themselves provided with uniforms and instruments.
2. They will ascertain daily the position of the ship.
3. They will keep journals.
4. They will attend to the means of instruction provided for them.
5. They are not to absent themselves from the ship, except.

CHAPTER XVI.

BOATSWAIN, GUNNER, CARPENTER, AND SAILMAKER.

SECTION 1.

1. They and the yeoman will examine all articles and stores for their departments and report.
2. Their responsibility in regard to articles not in actual use.
3. They shall conform to dimensions of articles as prescribed.
4. Surveys upon stores injured, &c.
5. They will be watchful, and report neglect or misconduct in the yeoman.
6. Their duties when a ship is about to be dismantled.
7. Reports to executive officer.

SECTION 2.

BOATSWAIN.

1. Attendance upon deck.
2. To examine rigging.
3. Working up junk.
4. Preparation for battle.
5. On paying off.

SECTION 3.

GUNNER.

1. Charge of anchor and life-buoys.
2. Charge of lower and mainyard rigging.
3. Charge of small arms.
4. Report of expenditure of powder, &c.

SECTION 4.

CARPENTER.

1. Masts and yards to be examined daily.
2. Lower deck ports to be examined.
3. Pumps to be kept in good order.
4. Boats, ladders, and gratings.
5. Shot plugs for stopping shot holes.
6. List of defects to be prepared on going into port.
7. Caulking ship's sides and decks.

REPORT OF THE

SECTION 5.

SAILMAKER.

1. To examine sails when received on board.
2. To see that sails are dry.
3. To keep sails tallied and stowed away.
4. To inspect the sails.
5. When sails are landed.

CHAPTER XVII.

CHIEF ENGINEER.

1. He will make himself acquainted with engines and appurtenances, and see that they are in proper order.
2. He will cause the assistant engineers to acquaint themselves with all parts of the engines:
3. He will see that his stores are sufficient and well stored away.
4. He will make out station bills for the engineer department.
5. Reports that he will make.
6. Account of expenditure of coals, stores, &c.
7. He will have the control of the men in his department.
8. He will control their going on shore.
9. He will inspect his department daily, and see that all persons in it do their duty.
10. He will encourage the assistant engineers to improve themselves.
11. Examination of the quantity of coal in bunkers.
12. He will commence cleaning and repairing on discontinuance of steaming.
13. Engineer watches.
14. In the absence of the chief engineer.
15. Duty in reference to steam log.
16. One engineer to be always on duty in engine room.
17. When engines are working, hourly reports to be made to officer of the deck.
18. Firemen are to be instructed.

CHAPTER XVIII.

FLEET SURGEON.

1. Duties of a fleet surgeon.
2. To co-operate with the chief of the Bureau of Medicine and Surgery.

3. Prevention of disease.
4. He will specify vessels whose crews are least fit for active service.
5. Persons unfit for the cruise and deteriorated articles to be reported.
6. Journal of daily practice.
7. Note book.
8. Disposition of journal and note book.

CHAPTER XIX.

SURGEON.

1. He will take charge of all medicines, &c.
2. He will conform to regulations and allowances of medicines.
3. Account of receipts and expenditures.
4. He will be allowed a store room.
5. He will be attentive to cleanliness and supply of medicines.
6. Hospital stores instead of rations to sick.
7. Daily report to commanding officer.
8. Binnacle list.
9. Infectious diseases.
10. Examination of the men when they join the vessel.
11. Persons to assist in preparing food for the sick.
12. To be prepared to relieve wounded.
13. Tourniquets to be distributed prior to an engagement.
14. Sick sent to hospital.
15. Examination of articles in bumboats.
16. Journal of daily practice.
17. Note book.
18. Return of the articles in his charge when vessel is placed in ordinary.
19. Reports and surveys on persons who receive wounds that may entitle them to pensions.
20. Persons left in hospital.
21. Reports on persons in hospital who are convalescent.

CHAPTER XX.

PASSED AND OTHER ASSISTANT SURGEONS.

1. They shall see that medicines are properly prepared.
2. They shall perform the duties assigned to them and conform to orders.
3. The oldest passed or other assistant surgeon will perform the duties of surgeon.

CHAPTER XXI.

PAYMASTER.

1. He will make requisitions.
2. Approval of requisitions.
3. He will furnish the approving officer with a written statement of the amount in his hands.
4. When he has received or paid over public moneys without previous sanction.
5. No money in his charge is to be paid away without authority therefor.
6. Suitable store-rooms to be prepared for his stores.
7. No paymaster's stores to be sent from the vessel without an order.
8. No articles stowed in spirit room or hold to be stowed elsewhere, unless.
9. He shall report articles of improper quality.
10. When an officer joins his ship he will furnish the paymaster with a copy of his orders.
11. He shall be informed of all resignations, dismissals, &c.
12. The paymaster is to be notified when any person is to be discharged, &c.
13. He will be furnished with a list of the names and the number of the messes of the men.
14. Accounts of men transferred.
15. He may nominate ship's steward.
16. Iron chests, &c., shall be furnished him.
17. Bills or accounts.
18. Issues of money, clothing, and small stores.
19. When he purchases clothing upon a foreign station.
20. When articles shall be packed in bales, packages, or casks, they shall be opened in the presence of an officer.
21. Articles condemned by survey.
22. No change to be made in allowance of provisions, except.
23. No one to draw more than his allowance of ration.
24. Persons may relinquish spirit part of ration, provided.
25. Rations that messes may relinquish.
26. Persons in debt to be paid no money, except.
27. He shall not pay to administrators, unless.
28. Reports of expenditures.
29. Bills of exchange.
30. Quarterly reports of expiration of men's service.
31. He shall take charge of dead men's effects.
32. His books and accounts to be kept as directed.
33. Officers may draw portion of rations under certain circumstances.

CHAPTER XXII.

CHAPLAIN.

1. Respect to the chaplain.
2. He will be attentive to the performance of his duties.
3. To perform divine service when required.
4. He will attend to the requests of persons requiring his attendance.
5. Religious instruction of boys, &c.
6. Instruction of the boys in the elementary branches of education.
7. Chaplain's reports.

CHAPTER XXIII.

PROFESSOR OF MATHEMATICS.

1. He will give his attendance when required, and instruct midshipmen and others.
2. He will report quarterly.

CHAPTER XXIV.

MASTER-AT-ARMS.

1. He will see orders about lights &c., enforced, and report improprieties.
2. He will examine all craft alongside.
3. He will report prisoners.
4. Charge of clothing.
5. Ship's corporal to be subordinate to him.

CHAPTER XXV.

YEOMAN.

1. He will receipt and be responsible for stores.
2. He will take precautions against fire, &c.
3. The accounts he shall keep shall be according to forms prescribed.
4. His accounts shall be presented weekly to the executive officer.
5. His abstract expense books shall be presented to commanding officer.
6. His duties when a vessel is paid off or placed in ordinary.
7. One quarter of his salary to be retained, except.

CHAPTER XXVI.

COOK.

1. He is responsible for fresh meat in his charge. Meat must be tallied.
2. Rations to be properly cooked.
3. Boilers, &c., to be kept clean; shall preserve order.
4. To allow no unauthorized cooking.

CHAPTER XXVII.

PETTY OFFICERS AND PERSONS OF INFERIOR RATINGS.

1. They shall set a good example to their inferiors.
2. They shall aid in maintaining order and discipline.
3. To be distributed among the messes.
4. Every admissible indulgence will be allowed them, except.
5. Badge to be worn for honorable discharges.
6. Maintenance at Naval Asylum.
7. Boys in messes; to be berthed by themselves.
8. Education of boys.

CHAPTER XXVIII.

MARINES.—MARINES WHEN IN VESSELS.

1. When a vessel is put in commission, a guard is to be sent on board.
2. Commanding marine officer to be notified when the vessel is ready for their reception.
3. They are to be entered separately on ship's book.
4. Senior marine officer will report daily in writing.
5. Locker for uniforms, &c.
6. Not to be diverted from appropriate duties, except.
7. A musket rack to be constructed.
8. They may be furnished with slop clothing.
9. Commanding marine officer to have charge of arms.
10. Officer to be allowed a store-room.
11. Detachments will be accompanied by one commissioned officer.
12. They are to be frequently exercised.
13. Marines serving at great guns.
14. When not on guard they are subject to orders of sea officers.
15. General and special orders.
16. Reports of misbehavior, to whom made.
17. No officer of inferior relative rank shall give orders to a marine officer.

18. Detachments of marines and sailors who shall command.
19. A navy officer who has succeeded to a command shall be entitled to command all detachments of sailors and marines from his ship.
20. Precedence at courts martial, &c.
21. Commanding marine officer to attend to the comfort, &c., of his men.
22. He will have charge of arm chest.
23. Repairs of arms and accoutrements.
24. Non-commissioned officers may be reduced and promoted.
25. Accounts that senior marine officers shall keep, and disposal thereof.
26. One officer shall be on board at all times, except.
27. They shall remain on board until the vessel is turned over to officers of the yard.
28. Liberty on shore.

CHAPTER XXIX.

OFFICER OF DETAIL.

1. Officer of the rank of captain to be attached to the Navy Department as officer of detail.
2. He will keep a register of the service of officers.
3. He will submit to the Secretary of the Navy a list of officers for a vessel preparing for sea.
4. He will equalize the service of officers.
5. Record that he shall keep.
 - Applications.
 - Declining service.
 - Returning before completion of service.
 - Charges or complaints.
 - Leaving a service before its completion.
 - Facts or information useful to the department.

CHAPTER XXX.

GENERAL MUSTER-BOOK.

1. Muster-book.
2. Marks opposite names in muster-book.
3. How entries are to be made.
4. Navy Department will prescribe form of muster-book.
5. Desertion.
6. Desertion.
7. Desertion.

CHAPTER XXXI.

PAY AND ALLOWANCES.

1. Travelling expenses.
2. Travelling pay when a vessel returns from foreign service and is paid off.

3. Passage of an officer with recruits on board a vessel.
4. Passage money of an officer ordered to join a vessel on a foreign station.
5. Duty pay of commission and warrant officers.
6. An officer sick on duty at a place where there is no medical officer of the navy.
7. Officers returning from a foreign station as passengers under orders, or sick.
8. Officers who claim pay under an order or acting appointment.
9. When the pay of secretaries and clerks shall commence.
10. When an officer not attached to a vessel or station claims pay of a paymaster.
11. Officers applying for pay to the Fourth Auditor, who are not regularly paid by him.
12. Officers in debt to the United States may receive one ration or its value.
13. A library may be allowed to vessels in commission or navy yards.
14. Funeral expenses of persons dying in actual service.
15. The pay of persons who are examined and promoted shall commence with that of others of their date.
16. Allotment of pay.
17. When allotments shall commence and how long they may continue.
18. Allotments to be made in duplicate, to be approved, &c.
19. No allotment or power to receive pay to be irrevocable.
20. No allotment to be made by an officer unless on duty and absent from family.
21. Travelling allowance not allowed to an officer who is relieved from orders at his own request.

CHAPTER XXXII.

FURLONGHS AND LEAVES OF ABSENCE.

1. No officer to leave the United States unless with the permission of the Secretary of the Navy.
2. Within the United States, Secretary of the Navy alone can grant leave for more than a week, except.
3. Commanding officers within the United States can grant leave of absence of not over a week: provided.
4. Commanders-in-chief or of navy yards or stations not to leave their commands for more than a week, except.
5. Commanders of fleets or squadrons abroad may grant leave to return to the United States.
6. Furlough.

CHAPTER XXXIII.

RECRUITING SERVICE.

1. Strict and constant attention to duty required.
2. Junior officers to act as assistants and not as substitutes, unless.
3. Age, stature, and qualifications of recruits.

4. Persons not to be entered as petty officers, except.
5. Free colored persons not to be entered without permission.
6. Officer in command of rendezvous and medical officer shall concur in opinion.
7. If a recruit receives an injury after enlistment and before he appears on board the receiving ship.
8. When persons are entered for particular ratings with complaints or injuries.
9. The law regulating enlistments to be printed on shipping articles, and both to be read to recruit.
10. No intoxicated person to sign shipping articles. No felon to be enlisted.
11. Advance of pay and bounty.
12. Advance money, when it may be paid.
13. Persons who receive advance shall supply themselves with clothing.
14. Recruits brought on board receiving ship shall not be received if so intoxicated as to require constraint.
15. Receipts that recruiting officers must produce.
16. Amount to which recruiting officers are restricted.
17. Recruiting officer shall report weekly.
18. Vessels of the navy to have shipping articles; cases in which persons may repair on board without passing through the rendezvous.
19. In case of doubt as to age, oath to be taken.

CHAPTER XXXIV.

HONORABLE DISCHARGES.

1. Honorable discharges as testimonials of fidelity and obedience to be granted.
2. Commander will report names of crew entitled to honorable discharges.
3. A person who receives an honorable discharge will be allowed three months' pay on re-enlistment.
4. The three months' pay under an honorable discharge to be considered "good conduct money."
5. Loss of honorable discharge.
6. Endorsement on honorable discharge upon re-enlistment.
7. Advance of pay.
8. Person holding an honorable discharge, physically disqualified.
9. Reference to be made to re-enlistments under honorable discharges on returns of enlistments.
10. Discharge of a yeoman.
11. Honorable discharges to invalids sent to the United States from a foreign station.
12. Men discharged at their own request not entitled to honorable discharges.

REPORT OF THE
CHAPTER XXXV.

RECEIVING VESSELS.

1. Commander of receiving vessel shall take charge of recruits. The paymaster to receipt for them. If considered unfit for service they are to be re-examined and report made to the Secretary of the Navy.
2. Description list to be made out.
3. Transfer of recruits.
4. Clothing to be examined, marked, and a list made out.
5. Recruits shall receive no advance clothing, stores, or money, except.
6. Recruits to be exercised and instructed.
7. Desertions to be prevented.
8. Recruits not to be rated as petty officers.
9. Recruits not to be employed on other duties than those connected with the equipment of vessels.
10. When transfers are made to a sea-going vessel, a due proportion of each class of recruits to be selected.
11. In case of complaint of commander of a sea-going vessel, a survey of the men transferred to be made.
12. Commander of the receiving vessel to select draught for sea-going vessel.
13. Transportation of recruits from one station to another.
14. Officers attached to a receiving vessel to live on board and conform to general regulations for other vessels in commission, except.

CHAPTER XXXVI.

SURVEYS.

1. The persons whom it shall be proper to employ to inspect or survey.
2. Applications for surveys to be made in writing; by whom and how made.
3. Two commission officers will be selected to survey articles reported defective.
4. Surveying officers may call for information upon the subject under consideration.
5. How the report of surveying officers shall be made.
6. When surveying officer receives information in relation to articles under survey from the person who has charge of them.
7. Survey to ascertain the quantity of articles.
8. Stores or provisions are not to be thrown overboard, unless.
9. Survey and report to be made when an officer in charge of money or articles shall die, &c.
10. Survey on an officer whose health requires that he shall leave a station.

11. Survey to ascertain title to a pension.
12. Officer ordered on a survey to use attention, fidelity, and impartiality.
13. Copies of surveys, how forwarded.
14. Quantities to be stated at length, and not in figures.

CHAPTER XXXVII.

CORRESPONDENCE AND REPORTS.

1. Communications that are to be addressed to the Secretary of the Navy.
2. Communications to be addressed to the different bureaus of the Navy Department.
3. When the same communication is made to the Secretary of the Navy and to a bureau, the writer shall so state.
4. In cases of doubt, communication will be addressed to the Secretary of the Navy.
5. How communications, reports, or requests are to be made and transmitted.
6. Official rank must be annexed to signature.
7. The operations of the vessel are not to be commented upon in private correspondence.
8. Copies of the letters to be kept and official documents filed.
9. Receipt of orders, &c., to be acknowledged.
10. Official communications not to be published.
11. Size of the paper on which official communications are to be made.
12. Letter-books, &c., to be kept at navy yards and stations.
13. Reports in relation to official conduct of officers to be communicated to them, unless.

CHAPTER XXXVIII.

APPROVAL OF REQUISITIONS AND ACCOUNTS.

1. Definition of the approval of a requisition, and such approval will have the force of an order.
2. Purchases by an agent of the Navy Department.
3. Duties of the officer who shall receipt for articles purchased by an agent.
4. No receipt to be given unless inspecting officers have approved the articles.
5. The approval of a commanding officer to a muster book is a certificate of its correctness.
6. Approval of a commanding officer is a certificate of correctness of certain parts of a roll or account.
7. The approval of an officer to a bill for articles purchased or services rendered.

8. Approval of an officer that will authorize the payment of money.
9. An officer relinquishing a command will see that all bills are settled, &c.
10. Commanders of fleets or single ships to approve bills before leaving port.
11. Accounts to bear date of approval.

CHAPTER XXXIX.

OFFICERS' APARTMENTS, SLEEPING BERTHS, AND MESSES.

1. Apartments of officers on board ships-of-the-line.
2. Apartments of officers on board a frigate.
3. Apartments on board a ship on which the commander of a squadron is embarked.
4. Apartments of the commander of a squadron and a captain on board a frigate without a poop.
5. Any difficulty in arranging apartments will be referred to the Secretary of the Navy.
6. Apartment of a captain of the fleet.
7. Sleeping apartments of wardroom, steerage, and other warrant officers.
Lieutenant embarked as aid to commander of a squadron.
Choice of rooms between lieutenants of marines, *not* in command of guard, and assistant surgeons.
8. Room for chief engineer.
9. Choice of apartments of steerage officers.
10. Apartments of supernumerary officers.
11. Officers will mess in the apartments assigned them.

CHAPTER XL.

THE COMMANDING OFFICER OF A STATION.

1. Geographical limits of command to be prescribed.
2. All reports and requisitions to be made to him.
3. He will conform to the regulations prescribed for commanders of fleets for procuring supplies, &c.
4. He will exercise no authority over navy yards, except.
5. He will inspect vessels not commanded by his seniors.
6. When the vessel to be inspected is under the orders of a superior, how to proceed.
7. Inspecting officer of ship to ascertain if any alterations have been made.
8. Receiving vessel and recruiting service under his command.
9. Commanding officer of a navy and of a station when temporarily absent.

CHAPTER XLI.

NAVY YARDS.—COMMANDING OFFICER.

1. He will exercise entire control, and be responsible for public property.
2. His duty in regard to the employment of mechanics.
3. Working hours. Rates of wages.
4. Approval of rolls and bills.
5. He shall see that all perform their duties, and that reports are duly made.
6. Lights and fires to be extinguished.
7. Fire-engines to be kept in order. Organization of a fire department.
8. Refusal of a workman to perform duty in a fire company good cause for removal.
9. Frequent examinations of engines and apparatus. A person to be placed in charge.
10. Fire alarm.
11. Fire apparatus to be used to extinguish fires near the yard.
12. Reports to be approved by commanding officer.
13. No alterations in the arrangements of the yard to be made, except.
14. Slaves not to be employed, except.
15. Password and countersign.
16. Police regulations.
17. Journal.
18. He shall exercise no authority over vessels in commission, except.
19. When a vessel is placed in ordinary.
20. Commander of vessel to point out deficiencies.
21. Officers and others of a vessel undergoing repairs shall assist in equipping her.
22. Crew of a vessel undergoing repairs to be removed to some other vessel or quarters.
23. Vessels in commission not to be repaired without permission, except.
24. He will report to Bureau of Construction.
25. Equipment of a vessel for service to be under his direction.
26. He will see that the commander of the vessel has plans of stowage.
27. Account to be opened against a vessel ordered to be built, repaired, or equipped.
28. Requisitions.
29. He shall keep a bill-book.
30. Navy officers to have charge of rigging, arming and equipping, dismantling, &c., all vessels at the yard.
31. Distribution of workmen employed in the yard.
32. Scrutiny of articles passing in and out of the yard.
33. Mechanics and others to conform to regulations.

34. No smoking allowed in the yard, except.
35. Entering gates to be closed at sunset.
36. No alterations to be made in the equipment of a vessel, except.
37. Reference to art. 2, sec. 4, chap. IX, in regard to ship's stores.
38. Two senior officers to be at all times in the yard.
39. One officer to be at all times in the yard.

CHAPTER XLII.

NAVY YARDS.—SECOND IN COMMAND.

1. He will perform the duties assigned to him by his commanding officer. During absence of commandant he will take command. Not to alter regulations.
2. He will regulate the police and correct the abuses.

CHAPTER XLIII.

NAVY YARDS.—LIEUTENANTS.

1. Responsibility of senior lieutenant.
2. Muster of the mechanics and laborers.
3. Absence of senior lieutenant.
4. Junior lieutenant to do duty of master.

CHAPTER XLIV.

NAVY YARDS.—NAVAL CONSTRUCTOR.

1. Duties of the constructor.
2. He will conform to instructions.
3. Discharge of workmen.
4. He will prevent waste of timber; returns to be made.
5. Where defects are discovered not previously known.
6. Examination of vessels upon the stocks and in ordinary.
7. Defective timber to be considered "refuse timber."
8. Requisitions.
9. Returns.
10. Docking a vessel.
11. Undocking a ship.

CHAPTER XLV.

NAVY YARDS.—CONSTRUCTING, OR CIVIL ENGINEER.

1. He will act under the direction of the chief of the Bureau of Yards and Docks.

2. Objects over which he has superintendence.
3. He will conform to instructions and prepare plans and estimates.
4. Yearly statement to commandant.
5. He will offer suggestions to the commandant.
6. Report of laborers required.
7. Selection of materials.
8. Certification of bills; reports, &c.
9. Requisition for materials.
10. Reports of master workmen.
11. Responsibility for waste, &c.
12. Mechanics, &c., on temporary duty in his department.
13. Account of expenditure on each object.
14. Appropriations not to be exceeded.

CHAPTER XLVI.

NAVY YARDS.—CHIEF ENGINEER.

1. One shall be attached to each navy yard.
2. Superintendence of workmen in work-shops, foundries, &c.
3. Statement of the number of persons required in his department.
4. Duties required of a civil engineer or architect, required of a chief engineer.

CHAPTER XLVII.

NAVY YARDS.—MASTER WORKMEN.

1. Inspection of stores.
2. Account of labor performed.
3. Control of those under them.
4. Surveys and conversions of materials.
5. Selection and employment of operatives.
6. Account of materials used.
7. No article to be used without their knowledge.
8. Personal attendance.
9. Not to leave the yard without permission.
10. No person dismissed at one yard to be employed at another, except.

CHAPTER XLVIII.

NAVY YARDS.—PAYMASTER.

1. He shall have charge of paying and victualling enlisted persons.
2. He will pay mechanics and laborers.
3. Payments to be made in specie or in funds of equal value.
4. Requisitions.
5. Manner in which his accounts shall be kept.

REPORT OF THE
CHAPTER XLIX.

NAVY YARDS.—NAVY STOREKEEPERS.

1. He shall have charge of all stores and materials,
2. He shall have charge of the keys of all store-rooms, &c.
3. Requisitions.
4. He shall not receipt for articles until invoices are furnished.
5. Articles received in the yard shall be entered in his books.
6. No article to be delivered for any other object than that for which it was received, except.
7. He will issue articles only on written orders or requisitions, except.
8. Articles to vessels in commission to be delivered upon requisitions.
9. He will take receipts.
10. Examination of accounts rendered.
11. After survey upon articles from a ship, shall receive them.
12. He will notify commanding officer when stores are nearly expended.
13. Articles may be used when not of the dimensions, form, or quality specified in requisition, except.
14. He shall have charge of transportation of stores.
15. Articles sent from the yard.
16. His books to be kept as directed by the Navy Department.

CHAPTER L.

NAVY YARDS.—CLERKS OF THE YARD.

1. His duties.
2. Copy of semi-monthly pay-roll to be prepared.
3. An officer will keep a duplicate muster-roll.

CHAPTER LI.

NAVY YARDS.—MARINES IN NAVY YARDS.

1. Detachment subject to orders of commandant of yard.
2. Officer relieving the commanding marine officer to report to the commandant of the yard.
3. Commanding officer to post sentinels and report disposition of the force.
4. Countersign.
5. During the absence of the commandant of the yard.
6. Police and internal government of the marine barracks.
7. Non-commissioned officers may be reduced by commanding marine officer.
8. Leaves of absence.
9. Official communications.

10. Deficiencies in the complements of marines in vessels, may be supplied.

11. Offences by marines on post.
12. They will conform to regulations.
13. Interior police and government of marines in barracks.
14. Reviews and exercises.
15. Transfer of marines from one station to another.
16. Officers to assist in preparing rolls.
17. Officer of the day. Inspection of meals.
18. Marines in garrison to wear prescribed uniform.
19. Apprehension of a deserter.
20. Maintenance at Naval Asylum.

CHAPTER LII.

NAVY AGENT.

1. He will purchase articles not furnished by contract.
2. He shall make purchases and engagements.
3. To have no private interest in articles purchased.
4. To make no sales or purchases, except.
5. To pay no bills without approval and certificate, except.
6. Not to pay bills under one appropriation out of money belonging to another, except.
7. Requisitions.
8. Charter parties, bills of lading, &c.
9. He will make monthly returns.

CHAPTER LIII.

CONVOYS.

1. Written directions and signals to be prepared.
2. List of vessels under convoy.
3. Contraband articles.
4. Vigilance in defending from attack or surprise.
5. Separation to be prevented.
6. Different convoys sailing at same time.
7. Delinquent vessels to be reported.
8. Masters disobeying orders to be refused further protection.

CHAPTER LIV.

PRIZES AND PRIZE MONEY.

1. Captor to preserve all papers, books, &c., relating to prize, and transmit them to the judge of the district court where such prize may arrive.

2. List of officers and crew of a vessel making a prize to be transmitted to Navy Department.
3. Nothing to be taken out of a prize, but everything in her to be brought in.
4. Ill treatment of prisoners-of-war forbidden.
5. Not proceeds of captured men-of-war, privateers, and pirates belong to captors; those of all other vessels to be equally divided between navy pension fund and captors.
6. Bounty for capturing or destroying an enemy's vessel-of-war.
7. Division of prize money.
8. Commanding officers of all vessels assisting at or in sight at the time of a capture shall share in prize money.
9. Shares of a commander doing duty in a line-of-battle-ship; of commanders of vessels in command of fleets, &c., and of all other persons in such vessels.
10. When the commander of a vessel shall be deemed under the command of a flag-officer.
11. Rights of flag-officers to share in prize money.
12. A flag-officer passing through the station of another flag-officer shall not be entitled to share as such in a prize taken out of his station.
13. When an inferior in command of a squadron is sent to reinforce a superior, such superior shall not share in the prizes of the inferior, until. Share of the inferior.
14. Share of prizes of a commander-in-chief, absent from his station.
15. An inferior commander of a squadron, absent from his station unless under orders, will not share in prizes of remaining vessels; nor the commander-in-chief in the prizes of such inferior absent from his station.
16. How prizes shall be shared when vessels belonging to different fleets are joint captors.
17. Share of an officer sent to command a fort or station.
18. Share of a flag-officer with no other flag-officer under his command.
19. Division of the one-twentieth set apart for commanders of fleets, &c., in certain cases.
20. Share of the captain of the fleet.
21. Money accruing to United States to remain forever a fund for payment of pensions and further provision to such as may merit it.
22. In case of difficulty in the distribution of prize money, to be referred to the President of the United States.

CHAPTER LV.

ARRESTS, COURTS-MARTIAL, AND COURTS OF INQUIRY.

1. A superior may *suspend* his inferior.
2. Authority to *arrest* an officer.
3. In making complaints or explanations, officers are to confine themselves to facts.

4. Suspension from duty ; superior officer shall call for explanation, &c.

5. If offence is not of a character to require a court-martial, officer shall be restored to duty.

6. If offence is of a nature to require a court-martial, the superior officer shall report to the Secretary of the Navy.

7. When a court-martial is ordered on an officer, charges and specifications are to be prepared, and a copy delivered to the accused.

8. Officer empowered to convene a court may dismiss complaint, or order a court-martial.

9. He may direct what shall be embodied or omitted in the charges.

10. The letter to the president or judge advocate to try charges shall be filed.

11. On release from suspension or arrest, reasons to be given, and accused furnished with a copy. Further proceedings foreclosed when accused is discharged at his own request.

12. Offences shall not be accumulated ; offence not to be revived when offender has been reprimanded, except.

13. Offences of a different character not to be embraced in the same charge.

14. Proceedings after a court-martial is convened.

15. Proceedings after the court is sworn.

16. Oath to witnesses.

17. If the president of a court is sworn as a witness.

18. Duties of the president of a court-martial or court of inquiry.

19. List of witnesses and statement of facts to be proved, to be laid before the court.

20. Cross-examination of a witness.

21. Examination of a witness on the part of the accused.

22. Questions to witnesses to be in writing, in case of objection to a question.

23. Proceedings in case of the absence of a member of a court.

24. Defence of the accused.

25. Vote of the members upon each specification.

26. Vote upon the guilt of the accused on each charge.

27. Vote upon the punishment to be inflicted.

28. Proceedings in case a majority shall not agree as to the punishment to be inflicted.

29. Sentence of suspension must state from rank or from duty, &c.

30. Proceedings in each separate trial to be signed.

31. Any member may move a recommendation to clemency.

32. Counsel may be allowed to the accused.

33. Proceedings to be authenticated, if the number of members necessary to constitute a court shall not assemble on the day to which adjourned.

34. Sentences, how communicated.

35. Irregularity or informality to be made known in general orders.

36. No person to be tried for offences committed three years before order for such trial, except.

37. An officer dismissed from the navy shall return his commissions and warrants.
38. A provost marshal to be appointed.
39. Duties of the provost marshal.
40. Who shall be appointed provost marshal.
41. Defence must not be published.
42. Marine officers to serve on courts.
43. Officers are to serve on trials of officers of their respective departments.

CHAPTER LVI.

SUMMARY COURTS-MARTIAL.—FORMS AND RULES OF EVIDENCE.

1. Same forms and rules of evidence as general courts-martial.
2. Form of convening a summary court.
3. Administration of the oath to members and recorder to be stated in the record.
4. When objection is made by the accused to a member of the court.
5. Specification of charges to be furnished to accused before trial.
6. The accused need not plead guilty or not guilty.—Testimony that may be received.
7. Witnesses, how summoned.
8. Counsel may be allowed to the accused.
9. When more than one case is tried.

AN ACT for the better government of the navy.

SECTION 1.

1. Exemplary conduct incumbent on commanders.
2. Divine service on Sunday.
3. Punishment for certain scandalous offences.
4. Punishment for drunkenness while on duty.
5. Cowardice or treachery in battle to be punished with death.
6. Punishment for breach of duty on signal for battle, or probability of an engagement.
7. Neglect of duty, desertion of post, or cowardice in battle, how punished.
8. Disobedience of orders, striking or offering to strike a superior, how punished.
9. Mutiny or sedition.
10. Intercourse with an enemy forbidden.
11. Spies, how punished.
12. Desertion to an enemy.
13. Desertion in time of war.
14. Desertion in time of peace.
15. Absence without leave.
16. Improper navigation of vessels.
17. Burning or destroying public property.
18. Altering muster roll.
19. Waste, embezzlement, &c., of public property.

20. Sleeping upon post.
21. Performing duty negligently, or leaving post before relieved.
22. Duty of an officer giving convoy.
23. Punishment for receiving goods, merchandise, &c., on board.
24. Murder.
25. Challenge to fight a duel.
26. Quarrelling and using provoking language.
27. Theft.
28. Offences against people on shore.
29. Provost marshal or master-at-arms refusing to receive prisoners or allowing them to escape.
30. Offences on shore.
31. Offenders to be brought to punishment.
32. Punishments that may be inflicted by a commander on officers, petty officers, &c.
33. Language tending to cause disaffection prohibited; offender to be reported.
34. Publications of a personal nature prohibited.
35. Wreck, loss or destruction of vessel.
36. When punishment is left to the discretion of a court-martial.
37. Expiration of service on a foreign station.
38. Petty officers.
39. Pay of officers and crew taken by an enemy.
40. Marines subject to laws for the government of the navy, except.
41. Army or militia serving on board.
42. Army or militia embarked for transportation.
43. Wages or prize money may be paid to an assignee.
44. Offences not specified may be punished at the discretion of a court-martial.
45. This section to be publicly read once a month.
46. Enticing any enlisted man to desert, or concealing a deserter.
47. Offenders may be sent to the penitentiary of the District of Columbia.

SECTION 2.

COURTS OF INQUIRY.

1. By whom ordered, how composed, and may summon witnesses.
2. They shall report to the power convening them; will not express an opinion unless so ordered, and the party under examination may be present and cross-examine witnesses.
3. Authentication, transmission, and approval of the proceedings. An authenticated copy of the same to be evidence before a court-martial.
4. Oaths or affirmations.

SECTION 3.

COURTS-MARTIAL.

1. By whom convened and number of members.
2. How the complaint on which application for court-martial is founded shall be made.

3. Charges and specifications. Summons of witnesses not in naval or military service.
4. Challenge of members.
5. Oaths to the members and judge advocate.
6. Depositions of witnesses.
7. Evidence to be on oath or affirmation, except in cases especially excepted. Penalty for refusing to appear as a witness, and for contempt of court.
8. Copy of a document in a department certified by the secretary thereof, admissible in evidence.
9. Perjury and subornation of perjury.
10. Sittings of the court.
11. Judgment of the court and record of its proceedings.
12. Sentences of courts-martial.
13. Punishments left to the discretion of a court-martial.
14. Second desertions and ignominious discharges.
15. Malicious or frivolous discharges.
16. Offences committed more than three years prior to the issue of an order for a trial by court martial.
17. Sentences to be published. Certified copy of proceedings to be furnished.
18. Amenableness for acts done as a member of a court-martial.
19. Pardon and mitigation of punishment.
20. Courts-martial shall be held in places under jurisdiction of the United States.
21. Provost marshal.
22. Officer under arrest to deliver up his sword and confine himself within limits.
23. Courts convened beyond the territorial jurisdiction of the United States.
24. Punishments by summary courts-martial may be inflicted by general courts-martial.

SECTION 4.

SUMMARY COURTS-MARTIAL.

1. By whom convened, and what class of persons and offences they may try.
2. Number and rank of members.
3. Oath to members.
4. Oath to the recorder.
5. Commander of ship to appoint recorder.
6. Testimony.
7. Punishments.
8. Sentence to be approved.
9. Approving officer shall remit any punishment injurious to health.
10. Proceedings to be precise and concise.
11. Oath to witnesses.

INDEX

TO THE

CODE OF REGULATIONS FOR THE GOVERNMENT OF THE NAVY.

	Chapter.	Sec.	Art.

ATTORNEY GENERAL'S OFFICE, *April 5, 1853.*

SIR: I have reflected on the matter submitted to me in your communication of the 22d of March.

By that communication, and the documents submitted, transmitted therewith, it appears that a code of regulations for the government of the naval service, prepared by the late Secretary of the Navy, with the aid and advice of a board of officers convened for that purpose, and approved by the late President of the United States, was, on the 15th February last, by a general order issued by the President as Executive of the United States, ordered to be adopted and observed in the navy, and to be regarded and obeyed as the established rules of the naval service until otherwise ordered by the President, or until modified, altered or repealed by the action of Congress.

I consider and speak of it as a code of regulations, though denominated in the general orders "a system of orders and instructions." The title thus given to it in the general order cannot change the nature of the fact. It is divided into forty-six chapters, filling two hundred and twenty-nine printed pages. It defines, among other things, a multiplicity of crimes and offences, with their punishment, and regulates the method of trial in courts-martial. It prescribes the duties and relative rank of the officers of the navy. In a word, it corresponds in character and contents to the "General Regulations for the Army." Some of the particular articles of the "system" may conflict with acts of Congress, and therefore be questionable on specific grounds of law. Others may be such mere instructions of discipline as to be in themselves free from legal exception. But the main question in the case appertains to the "system," regarded as a whole and as general regulations of the navy; and that question as put by you is, of the constitutional power of the President, or the Secretary of the Navy, acting by his discretion, to adopt and enforce this new code without the authorization of Congress.

The legality of this general order depends on the construction to be given to certain provisions of the Constitution of the United States. By one of these provisions Congress is empowered to "raise and support armies, to provide and maintain a navy, and to make rules for the government and regulation of the land and naval forces.—(Art. 1, sec. 8.)

The "system" before me, it seems to me, is neither more nor less than rules for the government and regulation of the naval forces, that precise thing which the Constitution empowers Congress to make.

It does not, however, pretend or profess to have been enacted by Congress.

Nor can the "system" lay claim to legality by virtue of any power delegated to the President by Congress, even if it be conceded, what might well be questioned, that Congress can delegate to others the power to make a law.

An act of Congress passed the 23d of April, 1800, prescribed rules and regulations for the government of the navy of the United States.

That act has never been repealed, and those regulations are undoubtedly still in force and operation as law.

An act passed the 7th February, 1815, established a board of navy commissioners, and authorized the commissioners to prepare additional regulations, and required these, when approved by the President, to be respected and obeyed until revoked by the same authority, and also to be laid before Congress. A code of regulations was prepared by the navy commissioners thus created, commonly called "The Blue Book," and published for the government of the naval service.

Those regulations cannot justify the present "system," for they were drawn up under special and limited authority expressly granted by Congress.

The act of 1815 provides that the regulations prepared by the commissioners, when approved by the President of the United States, shall be respected and obeyed *until altered and revoked by the same authority*. It has been supposed that this "system of orders" may be sustained under this act as being the previous regulations *altered by the same authority*, namely, that of the President. In answer to which it is conclusive to say, that the act of 1815 has been repealed by that of the 31st of August, 1842, with which falls the authority previously vested in the President.

The next material act of Congress is that of 19th May, 1832, which empowered the President to constitute a board of naval officers to be composed of the naval commissioners and two post captains, whose duty it should be, with the aid and assistance of the Attorney General, to prepare a new code of rules and regulations for the naval service, which, when approved by the President and *sanctioned by Congress*, should have the force of law. The present "system" does not pretend to have been prepared and promulgated in accordance with the provisions of this act.

Under the act of 1832, and also under a resolution of the House of Representatives of the 23d May, 1842, two successive codes of regulations were prepared—one under the authority of Mr. Paulding, Secretary of the Navy, and the other by Mr. Upshur, and submitted to Congress; but neither of them was sanctioned by that body, and they remain as historical facts only, and precedents indicating the sense of the government for the time being as to the relative powers of Congress and of the President in this matter.

Congress has not imposed on the President general power to make such a code of laws for the government of the navy. It is not justified by any special provision of law, as we have seen. If, therefore, this "system of orders and instructions" has legality, it must be derived, not from an act of Congress, nor through the power expressly given to Congress by the Constitution to make regulations for the government of the naval forces, but from some other provision of the Constitution.

The very peculiar date of the "general order," which is "Executive of the United States, February 18, 1853," would lead to the supposition that the "system" was intended to have legality in

virtue of the "executive power" vested by the Constitution in the President. A much safer and more plausible ground on which to claim authority for the "general order" would be the power of the President as commander-in-chief of the army and navy of the United States.

I do not think the authority assumed in the "general order" can be justified in either of these ways; and the same arguments, in substance, apply to both parts of the question.

On the letter and theory of the Constitution the President has no separate legislative power. The Constitution has expressly distinguished the two powers, the executive or administrative, and the legislative, one from the other. The President, whether as Executive of the United States or as commander-in-chief of the army and navy, has no legislative power of himself alone, and *except* in his peculiar legislative relation to and conjunction with the two Houses of Congress. But the "system of orders and instructions" is, in my judgment, an act in its nature essentially and emphatically legislative, not executive, and therefore can have no legality, unless and until sanctioned by Congress, either by previous authorization or by subsequent enactment, neither of which grounds of legality does it possess.

In conformity with this idea has been the whole course of legislation from the foundation of the government, by which the exclusive authority of Congress in this matter has been constantly recognized.

The distinction which the Constitution makes between functions legislative and functions executive is a precise one, and its maintenance is vital to the public liberties.

If the President may by a general order legislate on a military or a naval question, so may he on any other, and there is an end of all the barriers of the Constitution.

There is another doctrine of constitutional law which contradicts the assumed authority to make this general order. In this case, a power expressly given to Congress is, by a violent stretch of constructive implication, assumed to be transferred to the President.

It will not answer to say that this is the exceptional case of a power to be exercised provisionally by one branch of the government so long as it lies dormant in the hands of the branch to which it properly belongs; for Congress, whether completely or not is immaterial, at any rate exercised the power and provided regulations for the government of the navy.

Nor would it suffice to say, if it were true, that the new system is only of matters in addition, and not contradicting, to the regulations heretofore passed by Congress and still remaining on the statute-book unrepealed. The President can no more enact a law or a modification of law than he can repeal one.

These conclusions in regard to the present "system" are confirmed by the practice of the government in the analogous case of regulations for the direction of the army. For that branch of the public service there is permanent provision by an act of Congress, passed the 24th of April, 1816, which sanctions the regulations in force at the time under the previous act of 3d of March, 1813, subject to such alteration

as the Secretary of War may adopt, with the approbation of the President. Under this authority it is that the subsisting "regulations for the army" have legal effect.

In illustration of which is the fact that regulations for the army have at different times been submitted to Congress and either adopted or rejected by that body, so as to show that the practice of the government in regard to the army has been the same as in the cognate question of the navy, namely, to recognize the authority of Congress in the premises, and not to assume the subject-matter as within the scope of the executive power of the President.

In the views thus presented it is not intended to say that the President, as commander-in-chief of the land and naval forces, has not some power to issue directions and orders. So has a commodore in command of a squadron, or a general in the field. But such orders and directions, when issued by the President, must be within the range of purely executive or administrative action. Cases may be supposed in which it is not easy to draw the line between what is legislative and what is executive or administrative; and so it is in regard to every such question of the distinction of powers. That possible uncertainty in a given case does not affect the present inquiry, concerning which there seems to me to be no uncertainty whatever.

Among the obvious criteria of the true nature of the so-called "system of orders," which seem to be conclusive as to whether it really is, in constitutional construction, rules for government and regulation, or simply what it professes to be, namely, orders and directions, the following are sufficient to remove all doubt on the subject:

It is, on the face of it, a complete and connected system of rules "for the government of the naval service."

It is true, the question whether a regulation is legislative in its nature or executive and administrative, is not dependent on the length of the regulation or the number of its articles. On the other hand, whether an order be of a single paragraph or of a large volume is not, of itself, decisive of its character. But the length, arrangement, and other conditions of a document may serve as indications, among other things, of the quality of an act, as whether an act of legislation or an act of administration. No definition of the constitutional term *rules* for the *government* and *regulation* can be found or made which will not comprehend this case.

It covers the same plain topics and subjects and is for the same purpose and object as the rules and regulations of 1800, those of 1815, and the successive *projets* drawn up by Mr. Paulding and Mr. Upshur. If the act of 1800 is legislative, then also is the present "system" legislative. On the other hand, if this volume is not, so far as regards the substance, rules for the government of the naval forces, then we have never had any, and the navy has gone on from the beginning to this day without law.

It comprehends and has incorporated within it much of the very matter of the act of Congress of 1800, and therefore is, *pro tanto* at least,

such a regulation, so far as express enactment by Congress can define what is such.

If this document be not regulation, rules for the government of the naval forces, then it is impossible to conceive what would be regulation; no such thing exists; there is nothing to meet the express call of the Constitution, and the constitutional provision on the subject is a dead letter. Whoever denies this to be rule, regulation, is bound, if he would sustain the objection, to show what that other and different thing is which he would admit to be rules for the government and regulation of the naval forces within the provision of the Constitution.

I have characterized the "system of orders and instructions" as a code of laws. It obviously is such in its general framework, in its co-ordination of parts, and in what may be considered as the superficial aspect of the document. But a scrutiny of the substance and matter of the "system" and of its internal character sustains the *prima facie* appearance of the act.

It is a minor fact in this relation, but not unworthy of note, that the regulations for the government of the naval service expressly enacted by Congress, and which are still the only provisions on the subject having the constitutional forms and qualities of law, are in a great measure absorbed, and yet are nowhere specifically recognized in the "system of orders." To the contrary of which was the course pursued by the Secretary of War, Mr. Poinsett, in promulgating the "regulations for the army," which refer expressly to the rules enacted by Congress for the government of the army, and copy them *in extenso* for the information and guidance of whom it may concern. Instead of which the "system of orders" suppresses all notice of the paramount rules enacted by Congress, or but obscurely alludes to them in two or three phrases of doubtful import. In effect the "system of orders" is what a new act of Congress would be, which should cover the whole ground, adding to and amending by enlargement the previous acts of Congress, without mention of them by title or other distinct allusion.

A few examples will suffice in proof and illustration of the imputed legislative quality of the "system of orders."

Thus in the first chapter of the "system" we have a classification of the officers of the navy into "sea officers" and "—— officers;" and it proceeds to define their relative ranks in a manner which may or may not be wise and proper, but which is legislation in all its form and substance, as distinctly as any act of Congress in the statute-book. So in the thirty-fifth chapter articles occur on the subject of courts-martial, which are *in pari materia* with the provisions of the act of Congress, and are amendatory of the same as plainly as a new act of Congress could be.

Again, one of the articles in the same chapter changes the whole theory of judicial procedures by forbidding the court to receive evidence of the previous good character and former services of the accused in mitigation of the punishment to be awarded. This provision, which is the more observable when compared with another article which allows evidence to be introduced of previous bad

character, may or may not be wise; it is, at any rate, a very positive act of legislation.

Numerous other examples might be given of specific provisions of the "system of orders" which are, in every essential quality, acts of general legislation, as clearly and emphatically as any part of the subsisting laws enacted by Congress for the government of the navy or the army.

Some *dicta* occur in the books of law which speak of the obligatory character of regulations of this class, and which define, with more or less of precision the limits between what is *regulation*, and so legislative, and what is *order*, and so executive or administrative only.—(See, for example, *The United States vs. Eleason*, 15 Peters, 291-302; *De Hart's Courts-Martial*, 19.)

But the statute applies the term "rules and regulations" indifferently, as well to rules prescribed by Congress as to the orders of an executive or military officer.—(See act of March 2, 1799, sec. 11.) And there is no judicial or legal authority which changes the elements of the constitutional question submitted to me.

I am of opinion, therefore, that the "system of orders and instructions" under examination, being a code of laws and an act of legislation, and in derogation, as such, of the constitutional powers of Congress, and as the mere act of the President in a matter not within his executive jurisdiction, is destitute of legal validity or effect.

I am, very respectfully,

C. CUSHING.

Hon. JAMES C. DOBBIN,
Secretary of the Navy.

C.

NAVAL ACADEMY, ANNAPOLIS, MARYLAND,
June 17, 1858.

SIR: In compliance with your instructions of the 17th of May, the board of officers appointed to witness the examination of acting midshipmen, and to examine into the state of the police discipline and general management of this institution, have performed the duties assigned them.

The board were very favorably impressed with the discipline and good order prevailing throughout the institution, and with the efficient police regulations established by the superintendent for the cleanliness and comfort of the quarters.

The subordination which seems to prevail among the students, not only manifested in their general orderly conduct, but in an exact attention to the forms of naval etiquette, reflect great credit upon the superintendent and all the officers connected with the institution.

The exercises of the great guns, in naval tactics, of the boat guns ashore and afloat, as well as the land artillery and infantry exercises, were conducted with spirit and exactness, which evince careful and effective training.

The classes generally have attained a very creditable proficiency in all the departments of study comprised in the academic course.

The suggestions contained in the reports made by preceding boards of visitors leave the present board but a few points of primary importance which have not been already offered to the consideration of the department.

Before touching upon these, however, we beg leave to express our concurrence in the recommendation of the academic board in July, 1857, to raise the qualifications of candidates for admission to the Academy to a higher standard. If this should be deemed inexpedient on account of the numbers who, from want of means of elementary education, would be excluded from entering the navy, the object may be attained by providing for a preparatory course of study, as recommended by the board of visitors of the same year. Serious embarrassment is now experienced in bringing forward the students of the fourth class, owing to the great inequality which exists in the attainments of the students, and the time consumed in raising the inferior members of the class to anything like a uniform standard.

The board would remark, in this place, that the Academy has suffered from some of its most prominent students leaving before the completion of the course, after acquiring all the information taught, which is not strictly professional.

Presuming that it was never contemplated to educate young men here for any occupation but that of the sea, it would seem just and expedient to require of all pupils of this institution that they should bind themselves to serve in the navy, after graduating, for at least the same period of time that cadets are required to serve in the army.

In view of the tendency of young officers to relax their studies when the restraints of academic discipline have been withdrawn, and the

injury which may arise from this neglect to the service, as well as to individuals, the board recommend that the journals required by the regulations of the Naval Academy, (chap. 8, art. 2,) to be presented by the candidates for final examination, should contain the number of examples of the following observations, taken and worked out by themselves, together with remarks, specified in the annexed list.

In this connexion, the board also recommend that, to secure to the officers that essential part of their education, a knowledge of French and Spanish, competent teachers should be attached to our ships on foreign stations, that the young gentlemen may have the benefit of their services afloat where those languages are in general use, and be examined at their final examination upon the proficiency they have made in those languages, and to be credited accordingly.

The board are of opinion that seamanship, practical navigation, naval gunnery, and naval tactics, are the primary and most important branches of study pursued at this institution, and therefore that too much stress cannot be laid upon their early acquirement. Without a practical knowledge of his profession, however well versed the young officer may be in the purely scientific department of study, he can never become a thoroughly competent officer and skilful seaman. They, therefore, recommend that the practice ship, when not on her annual cruise, should be kept here, that the classes may be familiarized with all the duties of a sailor, and all the equipments of a ship-of-war. Should this suggestion meet the approval of the department, the board would recommend that the crew of the practice ship should be selected with a special view to their qualifications to lead in the exercises and duties of seamen, and in the practical operations of rigging and working ship. None but men of sobriety and steady respectful demeanor will answer the purpose; it will therefore be desirable to hold out every inducement to such men to engage and remain in this service.

No provision exists at present at the Academy for teaching the sword exercise; the board would, therefore, recommend that a competent sword master be employed.

The wooden superstructure over the old barbette battery is unsafe, and should be replaced as soon as possible by one of masonry.

It will be remembered that the magazine is situated in this battery, and contains at all times a sufficient quantity of powder to produce most disastrous effects in case of explosion; the structure should therefore be made as much as possible fire-proof. The vicinity of the laboratory to this battery exposes the delicate and expensive instruments to the constant danger of injury whenever the guns are fired in practice. The board, therefore, beg to renew the recommendation made last year to remove the laboratory to a secure position.

The board having now completed their duties will adjourn *sine die*.

I have the honor to be, very respectfully, your obedient servant,

GEORGE W. STORER,
President of the Board.

HON. ISAAC TOUCEY,
Secretary of the Navy.

 To find variation by compass, five examples.
 Sun's azimuth and amplitude, five examples.
 Also, the survey and sketch of some harbor entered during the cruise; remarks upon every port visited, describing the best anchorage, its bearings, depth of water, kind of holding ground, the prevailing winds, the best mode of anchoring; the character and position of lights; the facilities for watering and procuring wood and provisions. These remarks to be expressed in grammatical English, neatly written, and to be certified to by the captain.

D.

NAVAL ACADEMY,
Annapolis, Maryland, September 27, 1858.

SIR: I have the honor to forward herewith the report of Commander Craven, of his late cruise in the practice ship Preble.

I am satisfied that all possible pains were bestowed by Commander Craven and his officers on the instruction of the young gentlemen, and that the best results have been secured by their zealous and faithful services.

I am, very respectfully, your obedient servant,
 G. S. BLAKE, *Superintendent.*

HON. ISAAC TOUCEY,
Secretary of the Navy, Washington.

UNITED STATES NAVAL ACADEMY,
Annapolis, Md., September 20, 1858.

SIR: In obedience to your instructions for my government during the summer's cruise of the "practice ship," dated 21st of June last, I sailed on that day for Hampton Roads, where I anchored on the 23d; and after having received from the Gosport navy yard a few articles necessary for the proper equipment of the ship, I put to sea early on the morning of the 24th of June, and arrived at Oherbourg on the 18th of July; sailed thence on the 20th of the same month,

and arrived at Cadiz on the 3d of August; sailed thence on the 6th, and arrived at Madeira on the 11th; and sailed thence on the 14th of August, and arrived at Norfolk on the 12th of this month.

Owing to the very boisterous weather which commenced almost immediately after our departure from the Chesapeake, and continued during the entire passage to Cherbourg and Cadiz, and the very uncomfortable and wet condition of the ship, and the general disability of the young gentlemen by sea-sickness, much of our time for practice afloat and at the battery exercise was lost; but since leaving Cadiz there have been constant and steady drills, and great pains have been taken to instruct the young gentlemen in every branch of their profession, and I am happy to state the progress made is highly satisfactory.

Immediately after the young gentlemen were embarked they were divided, as usual, into two watches—stationed at the guns, and for getting under way, making sail, &c., &c., and day and night a quarter-watch was always required to be on deck.

Whenever the weather would permit, the watch on deck was exercised from 9 until 10.30 a. m., at reefing and hoisting, loosing and furling, making and taking in sail, &c., &c. From 10 until 11.45 a. m., and from 1 until 3.30, p. m., the watches below regularly attended school for the purpose of studying navigation. The watch on deck, after the morning's exercise aloft, when not otherwise employed, was practiced at knotting, splicing, fitting, rigging, turning in hearts, dead-eyes, &c., &c. In the evening, immediately after supper, there was a divisional or general exercise at quarters, when, besides the drill, the young gentlemen received instruction in practical gunnery; and to familiarize them with the duties and organization of the different divisions, each gun's crew was frequently charged to stations in the master's and powder divisions.

Besides the usual stations as firemen at quarters, there was a separate and well organized "fire bill" arranged, and all hands were frequently exercised as though the ship was actually on fire. So expert had the young gentlemen and crew become at this drill, that upon a sudden and unexpected alarm of fire the young gentlemen would be at their stations as firemen, wreckers, and smothering parties, provided with buckets, wet swabs, axes, &c.; the pumps would be rigged, and a full supply of water could be thrown on any part of the ship in less than five minutes, and all boats would be cleared away and ready for hoisting out in eight minutes.

Since our departure from Cadiz the members of the senior class have been required to take charge, as officers of the deck, from 8 a. m. until 8 p. m., and consequently have attained a confidence and high degree of proficiency in the execution of the ordinary evolutions of tacking and wearing, in making and taking in sail, &c.

In navigation they have been required to avail themselves of every opportunity to obtain the position of the ship by the various methods as taught by Bowditch; and by taking and working out their own observations, they have not only become familiar with the adjustments and use of the sextant, ascertaining the error and rate of the chronometer and variation of the compass, but have, with but few ex-

ceptions, become well qualified to navigate a ship. The members of the third class, generally, have become expert in working out a "day's work" by the different sailings, and in observing and determining the latitude by meridian altitudes, and some of them have attained skill in the adjustment and use of the sextant and the working of chronometer sights.

Towards the end of the cruise the members of the first class were divided into parties of five, and each party in turn required to cut and fit a regular and complete gang of rigging for a topgallant yard; and after they had all finished their work, the best fitted rigging was selected and placed upon the yard, and so "ship-shape" is its appearance, that I have thought proper to have the yard landed, and it is now at the battery, a creditable specimen of the handiwork of the pupils of this school. Although the time at sea had been fully, and I trust profitably occupied in the instruction of the young gentlemen, I had looked forward to our arrival in the Chesapeake as the field where to perform a series of evolutions, which former experience had taught me as being not only the most interesting, but in reality the most useful—especially so to the first class—in the course of my instructions on board ship. I cannot help expressing my regret and disappointment that these anticipations have been blasted by the very unexpected order which I received from Captain Dorwin, on the 15th instant, to proceed without delay with the "Preble" to Annapolis.

The withdrawal of the "practice ship" at this time from the service upon which she was detailed is to be lamented, not only as having marred in a great degree the objects of the cruise, but as having deprived me of the very best means of carrying out, through the coming sessions, a more thorough system of practical instructions in seamanship and gunnery than cannot be so well attained anywhere else as on board ship,

In conclusion, sir, it affords me unusual pleasure to testify to the general good conduct of the young gentlemen intrusted to my care. There are many of them who, I am confident, will become honorable ornaments to the profession.

To the officers of the ship I am under especial obligations for their exertions to aid me in the instructions of the young gentlemen. Lieutenant R. D. Minor was particularly zealous and efficient in exercising the young gentlemen aloft, and Lieutenant C. H. Cushman cannot be too highly commended for his efficiency and constant devotion to the duties assigned him as instructor of navigation.

Herewith I enclose what I believe to be a fair statement of the aptitude and general attention to duties of each one of the young gentlemen embarked; also, a report from Lieutenant Cushman, with abstracts showing the progress made by the acting midshipmen in navigation. By the latter you will perceive at a glance the ground gone over by the two classes, and can better judge of the intense industry with which Mr. Cushman has applied himself to his work.

Very respectfully, sir, your obedient servant,

THOMAS T. CRAVEN,
Commander of Midshipmen.

Captain G. S. BLAKE,
Superintendent Naval Academy, Annapolis, Md.

E.

OBSERVATORY, WASHINGTON, *October 11, 1858.*

SIR: The average time occupied by sailing vessels to all parts, the way to which lies across the equator in the Atlantic, has been considerably shortened since the publication of the last edition of Sailing Directions from this office, which accompany the Wind and Current Charts. This saving of time applies to the voyage to Rio, California, Australia, India, China, and to every other voyage that involves the doubling either of Cape Horn or of the Cape of Good Hope. This saving is to be accounted for by the increasing confidence with which shipmasters continue to regard the results of our investigations concerning winds and currents, and the growing boldness with which they follow the directions given.

All the commercial nations are now co-operating with us in collecting and digesting materials for proper wind and current charts. Many of the contributions made by them are of exceeding value.

As an evidence of the estimation in which the labors of this office concerning navigation and the physics of the sea are held in Europe, I may be excused for mentioning the fact that the rulers of the states whose subjects are generally most interested in commerce and navigation have made, or expressed their desire to make, some acknowledgment to me of the value which they set upon the labors of this office.

France, Russia, Denmark, Belgium and Sardinia, have either offered or asked the consent of this government to confer orders of knighthood or titles of nobility. Norway and Sweden, Holland, Prussia, and Austria, with the republic of Bremen, have either struck medals or voted their great gold medals of science in token of their appreciation of those labors.

And as a mark of still higher appreciation of practical results, Holland, England, and France, the three having the largest interest on the high seas, have each established a bureau upon the plan of this office, especially to co-operate and assist in those observations and researches which have brought the hydrographical labors of the Observatory into such favorable notice.

The bureau established for this purpose in England is called the Meteorological Department of the Board of Trade; Admiral Fitz Roy is at the head of it. There all the log-books kept on board of English ships are returned for discussion by him and his assistants; and in order to encourage British shipmasters in the undertaking, the government loans them certain instruments, and awards premiums and prizes for the best kept abstracts.

At the time that office was established it was estimated by Admiral Beechy that the commercial marine of Great Britain did not afford more than two hundred and fifty shipmasters capable of keeping the abstract log.

The Meteorological Department of the Board of Trade will therefore only permit the best among their merchant captains to make their observations. Here no such selection is made, for every American

sea captain capable of navigating his ship is found capable of making the requisite observations; consequently the number of vessels co-operating with this office is much greater than the number co-operating with that.

The publications issued from the English office are styled the Meteorological Papers of the Board of Trade; they contain much valuable information, and are liberally supplied to this office, without charge, for gratuitous distribution among American navigators.

The same is the case with the Dutch and the Royal Meteorological Institute of Utrecht. Its superintendency is dual. Professor Bays Ballot is in charge of the land observations, and Lieutenant Van Gogh of the sea.

They have made most valuable contributions. They went to work in a masterly manner, and by their discussion and their publications, the voyage from the north of Europe to India has been shortened about 10 per cent. in the average. The works of this office (and they are exceedingly valuable) are also supplied for gratuitous distribution among American shipmasters.

In Holland the observations have been extended from the land to the sea, as recommended by the Brussels conference. The importance of a like extension to the industrial pursuits of this country has been often represented to the department. As a result, that office is enabled to give the shipping in port and the people on shore warning of every gale from twelve to twenty-four hours before it comes upon them.

The French have established their wind and current bureau in the department of marine. It is in charge of Captain de la Marche, a hydrographical engineer of distinguished merit in the imperial navy. It is now in the course of organization, consequently it has yet made no publications, though, by order of the government, the last edition of Sailing Directions published from this office has been translated into French, by Lieutenant Vanéechont, of that service, and it is now in course of publication, as a national work, for the use of the marine of the empire.

The observations under all flags are made according to the plan of the log proposed by the maritime conference of Brussels in 1853.

With this uniformity of plan with standard instruments, and with the hearty co-operation enlisted in this system of research, the dangers of the sea and the time of passage under canvas have both been lessened.

The materials thus collected have enabled this office and that of Utrecht, together, not only to point out those routes across the ocean which united experience has proved to be the best, but to construct "time tables" for them also. By these time tables every sailing vessel will be enabled to know in any part of the voyage how much she is behind time or ahead of time; and the master who uses them will be able to perceive how, when, and where he gained or lost on the way.

In this system of physical research, observations, which in all others are generally so expensive, cost nothing. The system is capable of expansion, and results of high value would flow from it upon the industrial pursuits of the country generally, were it extended landward,

so as to include the great chain of lakes, and bring into play the powers of the magnetic telegraph as a meteorological implement.

On the 4th and 18th of February last I addressed you upon this subject, and beg now to call your attention to the views then expressed. Time and observation confirm me in them.

Volume 1, 8th edition, of Sailing Directions has been printed, and volume 2 is in the hands of the public printer. This work should have been published ere this, but the force of the office available for duty in this department of its labors is so often changed, and has been so much reduced in the last two or three years, as to make the preliminary examination of materials and the requisite discussion very slow work.

Under the Bureau of Ordnance and Hydrography, this is the hydrographical office for the navy. To such an office a chartographer would seem to be indispensable, and yet you will be surprised, no doubt, to learn that there is no person at the Observatory that has any manual experience or skill whatever in the construction of the charts; nor has there been, except now and then, in the case of officers detailed for duty here happening to possess accomplishments in the chart line.

I venture, therefore, to urge upon you the importance of a skilful chartographer as a permanent officer of this establishment; and the necessity for appointing such will appear more obvious to you, no doubt, when it is recollected that in detailing officers for duty at the Observatory no special reference is had to any peculiar fitness for the duties to be performed. All of good standing in the service are held theoretically to be equally well qualified for observatory duty. This is a very good theory, but experience does not permit me to say as much for its practice.

I venture, also, again to call your attention to the astronomical department. In consequence of eye sight destroyed or impaired health of the corps of observers and computers, it has become unable to perform the proper or the necessary amount of work required in this department of our labors.

On the 3d of March last I addressed a letter to the bureau upon this subject. I then suggested and recommended, hoping it would receive your favorable consideration, the creation of a small corps of assistant professors of mathematics. I beg you will consider that letter as a part of this, with an earnest request for its attentive consideration. I append hereunto a copy of that letter.

It has been made by the department the special duty of the Observatory to make a catalogue of the stars. This work was commenced in 1846, and was vigorously prosecuted for a few years and until the astronomical force of the Observatory was found unequal to the task. Though the places of many thousand stars were observed, they remain unrecorded to this day for the want of the requisite computing force.

It was the design to penetrate every part of space in the visible heavens with some one or more of our superb telescopes, and to make a record of whatever should be there found, eliminate errors of observation, publish the results, and thus make a contribution to astronomy

that would have a practicable value for all time. It was intended to be a contribution worthy of the age and of the nation.

Catalogues have been made, but no such work as this has ever been attempted. It contemplates nothing short of an inventory of the starry heavens, so far as a splendid set of instruments admirably adapted to the purpose will enable us to make one. This work being carried out, we should enable posterity in the remotest future to reproduce the skies as they appear to us, and to say of a certainty how far the great law of change with us extends to the skies and among the stars.

The work proposed will, when completed, endure as long as the science of astronomy shall be cultivated. Wherever it has a disciple there would this work be known. It is one which is worthy of this nation and I hope you will encourage me and be able to afford the requisite force for its completion. Had our strength never been impaired, nor our force reduced, this work would by this time have been well nigh accomplished.

More room for the proper accommodation and safe keeping of the public property in charge of this office is much needed. Here the charts and instruments of the navy are kept. They are accumulative, and require more and more room. The abstract logs alone require a room to themselves; and there is not a room in the office available for proper chart work.

Estimates and plans for enlarging the present accommodations have been submitted in my former communications, and I beg leave to refer to them with the remark that the business of the office daily suggests the necessity and the advantages of such enlargement.

Respectfully, &c.,

M. F. MAURY,
Superintendent.

HON. ISAAC TOUCEY,
Secretary of the Navy, Washington.

OBSERVATORY, WASHINGTON,
March 3, 1858.

SIR: I beg leave to call your attention, and through you the attention of the department, to the want of force at this office. Its duties are multifarious and important. The frequent changes in the hydrographical department are often embarrassing. A permanent chartographer is a great desideratum.

In the astronomical department a permanent force is almost a necessity. In this department the professors are exclusively employed. This corps, when full, consists of but twelve for the whole navy; of whom four are at the Naval Academy, four here, and one in charge of the Nautical Almanac. Two are afflicted with diseases of the eye, and are unfit for duty. They are on leave, and there is one vacancy.

Costly and useful instruments, instruments that are of importance, are idle for the want of observers. Of these there are but four, while we have six superb instruments, every one of which ought, on every clear night,

to be at work all night. This would require two observers to each, or twelve observers besides computers; of observers and computers together, we have now but five.

The incidental and current business of the office is such as frequently to interrupt with its demands the regular occupations of this little corps. For instance: A commission is sent out to run a boundary line, or to perform any other service requiring nice astronomical determinations. Certain observations have to be made here in connexion with them.

Under these circumstances the astronomical work of the Observatory, especially that which relates to the reduction and publication of the observations, has fallen very much behind hand. These observations, by being kept back, lose much of their value.

I have from time to time felt it my duty to call attention to this subject. But the remedy has been without the reach of the department, for the reason that it had not any available force with which to satisfy this public want.

I beg leave therefore to suggest an increase of the corps of professors by at least six, with authority to fill by temporary appointments the places of such as from time to time may become incapable of performing their duties.

Candidates for these places should be required to pass an examination. They should not be under _____ nor over _____ years of age. Their salary for the first five years should be small—say \$1,200 per annum; for the second, \$1,500; for the third, \$2,000; with a decimal increase of 10 or 15 per cent. thereafter.

I venture this suggestion as to pay because the corps of professors is one requiring a high order of talent; and because I attach great importance to the principle of acknowledging to such men the appreciation on the part of the government of long and faithful services.

I venture to hope that the bureau will advocate, and that the honorable Secretary will recommend, an increase of this valuable corps upon the plan suggested, or such other as to you or him may seem more advisable.

Respectfully, &c.,

M. F. MAURY,
Superintendent.

Captain D. N. INGRAHAM,
Chief of the Bureau of Ordnance and Hydrography.

F.

CAMBRIDGE, *September 11, 1858.*

SIR: I have the honor to submit to the department the following report of the progress and state of the work under my charge.

The large volume of the American Ephemeris and Nautical Almanac, for the year 1860, which was far advanced at the time of the report of last year, has been completed and published. The small volume for the year 1861 has been completed, and the larger volume

for 1861 will probably be finished before the close of this year. Considerable progress has also been made on the volume for the year 1862. There has been a gain of about three months over last year in the time of completing the small volume, and there will be a greater gain in the time of the large volumes for 1861 and for 1862.

In addition to the preparation of the annual volumes, as much labor has been bestowed on the improvement of planetary tables and methods of computation as could be spared without interfering with other departments of the work. One of the most important of the elliptic tables of the planet Mars has been computed by the calculating engine of the Dudley Observatory, at Albany. The computations have been made, and the results printed on lead plates, by the machine. The object has been to ascertain, by a trial that would involve a very small expense, whether this extraordinary instrument could be employed with advantage on the work of preparing the Nautical Almanac. A complete report has not been received from the director of the observatory, who has had charge of these computations, but the result thus far has not been such as to demonstrate to my satisfaction that any considerable portion of the Almanac can be computed more economically by this machine than by the ordinary methods, or that it would be expedient to continue, at present, the trial further than the completion of the tables already begun. At the same time, what has been done may justly be regarded as a wonderful triumph of ingenuity; and the encouragement that it affords to the hope that the immense labor of astronomical calculations may be materially diminished by the aid of machinery would render it in the highest degree desirable that some special provision should be made for improving and fairly testing the powers of this machine, which offers much greater promise of success than any that has yet been tried. Considerable labor has been bestowed on the computations relating to the new planets. Ephemerides of twenty-eight of those that will be in opposition in the year 1859 have been computed, and will be published as a supplement to the volume for the year 1860. It has been thought expedient to carry forward, by such special methods as have been heretofore employed, the work on those asteroids only to which they could be most advantageously applied, and not distribute the whole work until the best and most economical method of prosecuting it could be obtained; for this reason the whole amount of the appropriation for this purpose has not been expended. As many ephemerides have been computed, however, as were originally contemplated in the estimates of Commander Davis, and the part of the work that has been postponed can now be completed without any disadvantage from the delay. A method of computation has been decided upon, and a systematic arrangement of the labor has been adopted, which will be applied in the asteroid supplement to the volume for the year 1861. It is believed that it will not require material modification for many years, and that it will greatly reduce the labor and expense of preparing the asteroid computations, and enable us, with the sum originally estimated for twenty-four planets, to continue the work upon the whole group—now fifty-three.

As fast as the orbits of any of those new planets are determined with sufficient accuracy and the means of the office will allow, perma-

ment tables that will require no change for fifty years will be computed, that will diminish still further the work of preparing their annual ephemerides; and by thus continually reducing the number to which special methods must be applied, we may expect to keep within moderate limits the labor which would otherwise be indefinitely augmented by the continual increase of their numbers.

Professor Peirce has given special attention to the subject of tabulation of the asteroids. He has completed, in an improved form, tables of Egeria, and has nearly completed tables of Astræ, in which very important improvements in the method of computing the perturbations caused by the larger planets have been made.

Generally the work of the office is further advanced than it has been at this time in any previous year; but it is very important that there should be a still greater gain, so that the annual volume may be published almost a year earlier than it has been heretofore. This can be accomplished in a few years, with a small temporary increase in the force at present employed on the computations, without exceeding the limits of the present appropriation.

The general plan devised and adopted by Commander Davis for prosecuting the work of the office has been adhered to, and but few changes have been made in the distribution of the details; and in the contents and arrangement of the volumes, only such alterations as are made necessary by the change in the method for the new planets.

In fact, any important alteration in a work upon the plan of which so much thought has been bestowed, and which seems to have given general satisfaction, even if a theoretical improvement could be introduced, would be more likely to prove injurious than beneficial, by giving to the work a character of instability, and by perplexing the navigator by changes after he has become familiar with the established forms and arrangement. Some few modifications, however, in the part designed especially for the use of astronomers, where they would not be liable to these objections, may be introduced in a future volume with advantage.

The arrangement made with Mr. Blunt for the sale of the work, which begins with the volume for 1860, and by which a sale of eleven thousand copies of the small volume has already been secured, will, I have no doubt, be the means in time of bringing the Almanac into general use, and of greatly promoting its usefulness.

I am, very respectfully, your obedient servant,

JOSEPH WINLOCK.

Hon. ISAAC TOUCEY,
Secretary of the Navy.

No. 1.—*Estimate of appropriations for the office of the Secretary of the Navy, required for the service of the fiscal year ending June 30, 1860.*

Heads or titles of appropriations.	Estimates of appropriations required for the service of the fiscal year ending June 30, 1860. No. 2.

BUREAU OF YARDS AND DOCKS,
November 22, 1858.

SIR: I have the honor to submit herewith my report, in duplicate, for the past year, with an abstract of the same. I transmit also duplicate and triplicate sets of the estimates from this bureau for the year ending June 30, 1860, the first set having been submitted on the 9th ultimo.

An abstract of the offers which have been received for furnishing supplies coming under the cognizance of this bureau for the year ending June 30, 1858, is also herewith submitted.

A list of the contracts made by this bureau is being prepared, and will be submitted as soon as it shall be completed.

I have the honor to be, with great respect, your obedient servant,
JOS. SMITH.

Hon. ISAAC TOUCEY,
Secretary of the Navy.

Compendium of the annual report from the Bureau of Yards and Docks for the fiscal year ending June 30, 1860, showing—

What has been done at each navy yard in works of improvement and repairs during the past fiscal year, naming the objects completed, and the amount expended thereon; those which have been in progress but not completed, and the aggregate expenditure on the same; as also the amount expended on account of the Bureau of Yards and Docks for contingent at each navy yard.

Detailed remarks upon objects for which estimates are submitted, and the aggregate amount asked for each navy yard.

The same with reference to each of the naval hospitals and the naval asylum.

Also in regard to the magazines and ordnance works at the several stations.

Remarks in relation to the state and condition of the several floating and stone dry docks.

Statement in reference to the number, condition, &c, of the beneficiaries at the naval asylum in Philadelphia, and the expenses of the establishment during the past year.

Remarks upon the policy of reserving lands growing timber suitable for naval purposes, as also in reference to the protection afforded by the agents appointed for that duty.

Report from the Bureau of Yards and Docks, in explanation of the estimates from that bureau, under the head of each navy yard, as to works which have been completed during the past year, those now in progress, and as regards the estimates which are now submitted in detail, for the year ending 30th June, 1860.

PORTSMOUTH, NEW HAMPSHIRE.

The works of improvement which have been completed at this yard during the past fiscal year are: drains, gutters, and paving; dredging in front of dock basin, pitch house, iron fences, lodge for ordinary, and mooring piers for floating dock. These objects have all been completed in a faithful and workmanlike manner, and there has been expended upon them during the fiscal year, for labor, \$16,256 05; for materials, \$9,922 88—making an aggregate of \$26,178 94. The works upon which expenditures have been made, but which are not yet completed, are:

1. *Dock basin.*—Since July 1, 1857, about three hundred lineal feet of wall have been removed, and preparations have been made for relaying. About one-half of the new course of stone required to strengthen the wall has been cut, the pumps and pumping apparatus constructed and in readiness to be put in operation whenever the dock is not in use. Since the repairs of the basin walls were authorized, the floating dock has been in such frequent use that no considerable length of time could be obtained for working on these walls, and consequently this work has necessarily been much delayed. The repairs, however, will be urged forward and completed with all practicable despatch.

2. *Removing ledge.*—Within the year about twenty-five thousand cubic yards of ledge, stone, and earth, have been removed from the hill, and about two acres in surface have been levelled and graded. The materials so removed have been deposited on the flats and low grounds, by which more than an acre of territory has been added to the area of the yard, and made available working ground, which was before useless for government purposes.

3. *Coal house.*—The foundations of this building have been laid and the walls carried up to the second floor. The building is of stone, resting on ledge, and is, so far, most thoroughly and substantially built.

4. *Officers' and muster room.*—The grading at the site for this building is being done by contract, and the delay on the part of the contractor has prevented the commencement of the work. Nearly all the materials have been procured, and the foundations will be commenced as soon as the necessary excavation and grading are completed.

5. *Tank shed.*—Within the year the foundations have been laid, the walls erected, and the roof nearly slated. There remains, to complete the shed, the grading around it, concreting the floor, setting the edge-stone, finishing the roof, and painting. This season the tanks will be securely stored.

6. *Engine house.*—The additional story authorized for the engine

house has not been commenced, because the machinery in the building has been required in constant use for ship and other work, and it must be stopped necessarily while the addition to the building is being made. The materials have been procured, and the work will be done as soon as the machinery can be dispensed with for a few weeks.

7. *Repairs of all kinds.*—The floating dock has been caulked and repaired to a large extent, that it might be in readiness for any emergency. Repairs have also been made on the yard buildings, officers' quarters, bridges, landing stages, platforms, boats, roads, walks, gutters, drains, fences, walls, cranes, crane-scows, derricks, furnaces, forges, stoves, timber and knee dock, slips, and such miscellaneous objects as have been necessary. The amount expended upon these various objects of improvement and repairs is, for labor \$49,400 88, and for materials \$18,439 12—making an aggregate of \$67,840.

There has been expended for contingent the sum of \$38,096 91.

Plans and estimates are submitted for the fiscal year ending June 30, 1860, for the following objects, viz: Removing coffer dam; sewer; extending machine shop; boat-house and carpenter's shop; gas-works; capstans for masting, sheers; repairs of floating dock, and for repairs of all kinds, amounting in the aggregate to \$105,477.

1. *Removing coffer dam.*—The coffer dam constructed by the contractors for building the dock basin extends beyond the line of the quay wall authorized to be laid, and to connect with the basin walls, and must necessarily be removed before the walls can be commenced. The piles of which this dam are composed are so near the foundation on which the basin rests that it would endanger the basin walls were they to be drawn; it will therefore be necessary to excavate around them, cut them off at the proper depth, and lay the stone walls upon them; after the stone work is laid, filling must be placed to cover the wood, so that the marine worms cannot destroy the pile foundation. This work will be in water at least six feet deep at low tide, and consequently the diving bell, or some other expensive means, must be resorted to. The work is of much importance and the appropriation highly necessary.

2. *Sewer.*—The drainage from the officers' quarters and a large portion of the yard has hitherto deposited itself in the low grounds west of the barracks, and the exhalations arising therefrom in mid-summer have been very offensive. In removing the earth and grading the hill it has become necessary to fill this stagnant pool, so that now there is no outlet to the sinks and cellars of the houses. It is therefore proposed to construct a brick sewer for the purpose of draining this part of the yard. The object is an important one, and when completed will add to the health and comfort of those living and working in the vicinity.

3. *Extending machine shop.*—The present machine shop is quite limited in size, most of the heavy tools are in the second story, and much delay and expense are incurred in taking up heavy castings and lowering them again after being finished. It is proposed to extend the building thirty-four feet, and place the heavy tools on the ground

floor; by which arrangement, time and labor will be economised, and the work greatly facilitated.

4. *Boat-house and carpenter's shop.*—The building now occupied by the boat-builders and carpenters is old, the floor timbers and sills rotten, the foundation walls insecure, and the whole unsafe and unsuitable for the purpose. It is proposed to construct a permanent building on the site now occupied for that purpose, arranged with slips, steam-boxes and benches, in a more convenient and appropriate manner, for the use of the workmen as well as the security of the public property contained therein.

5. *Gas-works.*—This yard being unprotected by a wall, and accessible by water at every point, it is important that sufficient light be provided to enable the watchmen to be vigilant in the discharge of their duty. In tempestuous weather, or in the winter months, it is believed that the introduction of gas would be, in point of economy and security of property, for the interest of the government. It is ascertained that in establishments of much less magnitude, gas is preferable, and small corporations have introduced this method of lighting as the most safe, certain and economical.

The estimate embraces the cost of the entire works, including pipes and lanterns.

6. *Capstans for masting shears.*—The capstans which have heretofore been in use in masting ships, are old, rotten and completely worn out, and are now utterly unsafe. It is indispensably necessary that new capstans should be prepared and put in readiness for placing the machinery on board the new sloop-of-war now building.

7. *Repairs of floating docks.*—For the preservation and care of the dock, and to insure its successful operation with the greatest facility and least cost, the following repairs should be made. The end gates require new knees, and packing of felt, to exclude the water during the operation of raising ships; ring bolts for hauling vessels in and out of dock; the dock requires painting; all the pumps to be overhauled and repaired; air ports to be cut for ventilation and preservation of timbers; three additional wicket gates; fitting blocks; covering ways; coppering basin-gate and repairing copper on dock, and new grate bars for boiler furnaces. All these repairs are regarded as of vital importance, and the estimate submitted will provide for them, as well as incidental expenses which may possibly occur.

8. *Repairs of all kinds.*—In the amount estimated under this head is embraced the necessary repairs to the ship-houses, timber-sheds, storehouses, work shops, officers' quarters, bridges, landing stages, boats, scows, roads, walks, gutters, drains, fences, walls, cranes, derricks, furnaces, forges and stoves, timber and knee docks and slips, and all other miscellaneous and incidental repairs which may become necessary during the fiscal year.

BOSTON.

The works of improvement which have been completed during the past year as reported, are machine shop, foundry, &c.; machinery for machine shop; bobbins for rope walk; dredge boats and scows;

reservoir ; water closets, and floating stages, and paving. Upon these objects there has been expended during the past fiscal year for labor \$54,741 03 ; and for materials \$128,059 49 ; amounting in the aggregate to \$182,800 52.

The works upon which expenditures have been made, but which are not yet completed are :

1. *Cleaning out timber dock.*—The work of cleaning out the timber dock has necessarily been slow, as in addition to its being tide work, the use of the dock for the reception of timber and other purposes, has rendered it impossible to employ more than three scows at a time. It will probably be completed within the present year.

2. *Extending city sewer.*—The work upon this object has been suspended for the purpose of ascertaining if some arrangement could not be made with the city government of Charlestown to relieve the yard entirely of this easement. It having been decided that no such arrangement can be made at this time, the work will be commenced at once and probably completed during the present or early in the next season,

3. *Pile wharf.*—The materials have been procured for the pile wharf, but the use of the machines and apparatus upon works of greater urgency has delayed this work. It is now proposed to defer it until the next season when it will be urged forward with all practicable despatch.

4. *Extension of dry dock.*—This work has been prosecuted with great vigor ; about one half of the head of the dock has been removed ; the excavation entirely completed, a large portion of the rough stone work laid, and all the new stone work cut and delivered. The culverts will be connected and completed and a portion of the hammered stone set during the present season, and it is confidently expected that the work will be entirely completed during the next season.

5. *Repairs of all kinds.*—The usual necessary annual repairs have been put upon the various buildings, wharves, docks, roads, fences, and other existing works, and for these improvements and repairs there has been expended during the fiscal year the sum of \$211,436 35.

There has been expended for contingent during the past year the sum of \$52,143 40.

Plans and estimates are submitted for the fiscal year ending June 30, 1860, for the following objects viz : Machinery for machine shop, foundry, &c. ; reservoir and steam pump ; pattern shop ; grading, paving and draining ; coal house for foundry and smithery ; rail-tracks and cars ; sidewalk on Chelsea street ; paving portion of Wapping street ; steam fire engine ; offices and fences ; water closets, and for repairs of all kinds, amounting in the aggregate to \$308,450.

1. *Machinery for machine shops, foundry, &c.*—The amount asked for under this head is indispensably necessary, and it is hoped will be amply sufficient to complete and fit up in every particular, and in the most thorough manner, all the departments connected with the two foundries, smithery, boiler shop, and machine shop, as well as the portion of the yard adjacent to the buildings, extending from the central avenue of the yard to the sea-wall on the east and north of the timber dock.

2. *Reservoir and steam pump.*—The reservoir and steam pump are greatly needed to avoid the expense and delay occasioned by hand pumping. The plan proposed is the same as at the New York yard, and it is considered advisable to have it executed in the same manner, that is, by contract with some person engaged in the business who may have a thorough knowledge of the work desired.

3. *Pattern shop.*—The amount asked for this object is necessary to render the establishment complete for the manufacture of marine engines, and other machinery, and it is believed will be sufficient to complete it in all respects.

4. *Grading, paving and draining.*—The paving and drainage of the portion of the yard adjacent to the dry dock is very much in need of repairs throughout, and some considerable changes are required by the extension of the dock: it is therefore proposed to reconstruct the surface water culverts and pave around the dock with block paving.

5. *Coal-house for foundry and smithery.*—This building is much needed, there being no proper accommodations for the storage of coal in the vicinity of these work-shops.

6. *Rail tracks and cars.*—The expense of transporting heavy articles in this yard is very great, and it is believed that much economy in time and labor, may be secured, by constructing lines of rail tracks through the principal avenues. An estimate is therefore submitted for commencing this work.

7. *Sidewalk on Chelsea street.*—This estimate is submitted at the request of the authorities of Charlestown, for a sidewalk on the public street on the westerly side of the yard. Such a walk would be a great convenience to the yard, more than to the city generally, as it would be used principally by the residents in the yard and the employés in passing in and out of the yard at the lower entrance. Were the yard private property, the proprietors would be compelled to make this foot-walk, and it seems but just that the government should contribute its portion towards the expense of a public convenience.

8. *Paving portion of Wapping street.*—The portion of this street which it is proposed to pave, is just at the main entrance to the yard, and is much used for yard purposes. It is in a very dilapidated condition, entirely inadequate to the great and increasing occupation of the same for government purposes, and any improvement in its facilities as a thoroughfare, will be very beneficial to the interests of the yard. The authorities of the city of Charlestown propose to furnish the remaining sum necessary for completing the pavement.

9. *Steam fire-engine.*—The steam fire-engine is considered very desirable on account of its greater efficiency over the hand machinery in case of fire. It is also believed that the expense of keeping the steam apparatus in order would be much less than the amount now expended on hand-engines.

10. *Offices and fences.*—An estimate is submitted for erecting a building for the accommodation of the various offices at the yard. The commandant's office is now in an old building, entirely inadequate in every respect, and is in a dilapidated state.

11. *Water closets.*—This improvement is indispensable for the use of the workmen employed in and around the dry dock.

12. *Repairs of all kinds.*—The amount asked for under this head is such as will be required for the necessary annual repairs of the various storehouses, ship-houses, workshops, timber sheds, offices, officers' quarters, roads, fences, wharves, walls, and other existing improvements.

NEW YORK.

The works of improvement which have been completed at this yard during the past fiscal year are: timber shed, completing engine-house, timber and knee slip, and heating plumber's shop. There has been expended on these objects during the year \$11,188 14.

The works upon which expenditures have been made, but which are not yet completed are :

1. *Quay wall.*—But little progress has been made in laying this wall the past season, and the work has not been carried on satisfactorily.

2. *Smithery and extension.*—In this building—the muffle-furnace and trip-hammer have been put up ; the truss frame for securing the crane has been built and put in place ; iron gutters have been procured but are not yet in place. The steam hammer, furnace, boilers, steam pump, blower and appurtenances have been completed and placed in successful operation. Four new forges have also been started, and two additional cranes are in progress.

3. *Foundry, boiler, and machine shop, and machinery.*—The iron foundry has been put in successful operation ; three cranes and all the machinery necessary in this building, have been constructed and put in operation. The louvre over the boiler shop has been prepared for the winter ; an old engine and boiler and all the machinery to suit present requirements, have been erected in the boiler shop, and the usual work of such a shop has been some time in progress.

Some further conveniences will be needed to complete the establishment.

In the machine shop the wall next the east end of the galleries has been removed and the lower gallery extended, thus providing room for the large planing machine, heavy face lathe, and the new large double headed engine lathe, all of which have been put up on the ground floor and are in operation.

The paint room has been removed from the lower north gallery, a line of shafting extended its whole length, and three small lathes, one planing machine, and one machine for cutting gearing placed on it and put in operation.

4. *Dredging channels.*—This work was continued as usual to the extent of the appropriation. The mud obtained was deposited on the new purchase, and a considerable area of new ground acquired thereby. This is a continuous work.

5. *Storehouse.*—The cellar walls of this building have been built up to the first floor all around, and about three-fourths of the back wall has been carried up to the second floor. The water table is laid and the front area walls half finished. The window frames and floor timbers are prepared, the stone sills, lintels, corner blocks, and a large portion of the bricks and timber have been received from the

contractors, and the work will now be pushed forward as rapidly as possible. To complete it will require \$8,000 beyond the sum allotted.

6. *Launching ways.*—This work was commenced in June 1857, and thus far has nearly absorbed the appropriation for two slips, and will require \$25,000 to complete it. The work has not been judiciously conducted. Much time and labor were expended in clearing out the old materials, re-driving piles and excavating to the proper depth. The work being under cover, was carried on during the winter, and stone cutters were engaged in preparing the stone. The masons commenced laying the stone in May last and proceeded up to the middle of June, when about 100 feet of the upper south end was advanced far towards completion. The greatest obstacle to the progress of this work is the water, and a large portion of the expense will have been incurred in tearing up the old work outside the ship house. Old cob-work lies immediately under the ways, and in addition to this a pier of cob-work projects some fifty feet into the channel.

This old work must all be removed, and as it is accomplished by means of the diving bell the process is tedious and expensive. In view of the very expensive nature of the work outside the ship house, which necessarily includes a portion of the quay wall, an additional appropriation will be necessary for the completion of this work.

7. *Dry dock.*—Some of the upper courses of stone work at the west end of the caisson, which had been forced out of place, have been relaid. The caisson and turning gates have been scraped and painted, and the dock is now in good working condition.

8. *Filling in new purchase.*—The filling in required for the marine barracks was nearly completed last autumn. From a few borings made with a small auger, it appears the gravel filling has penetrated to the depth of 19 or 20 feet from the surface, or about 7 feet below the original level of the mud, hard bottom being 8 or 9 feet deeper still. The contractor for excavating and piling the foundations for the buildings, has commenced work and is urging it forward rapidly.

9. *Sewer extension.*—This work was finished last summer to the extent proposed. The old sewer was extended out as near to the proposed line of quay wall as advisable, and when that work is commenced the sewer will be simultaneously completed. The appropriation of \$60,000 for a sewer from Flushing avenue to the Wallabout, has not been used, for the reason that the law requires the city of Brooklyn to pay one-half of the expense of the sewer which shall be made on said avenue. The city has been frequently notified to join in the work, but up to this time it has declined to do so.

10. *Reservoir.*—The well to supply this building with water was sunk to the depth of 24 feet, most of the distance being through a very hard and solid rock. At this depth, a strong spring of water was tapped, which after careful analysis and measurement was found to supply water of excellent quality at the rate of about 120 gallons per minute. The building was commenced in April and has been carried up to the second floor on which the large iron tank is to rest; the tank is well advanced and the whole structure will probably be completed by the last of September.

11. *Repairs of all kinds.*—The usual annual repairs have been put

upon the various storehouses, work shops, ship houses, officers' quarters and offices, wharves, docks, roads, and fences, and upon these different objects of improvement and repairs, there has been expended during the fiscal year the sum of \$380,347 13.

There has been expended for contingent the sum of \$63,526 98.

Plans and estimates are submitted for the fiscal year ending 30th June, 1860, for the following objects, viz: brass foundry; boom derrick and foundation; removing and putting up shears; bilge blocks for dry dock; continuation of quay wall; dredging channels and repairing scows; paving and flagging; improving machine shop; heating new store; filling in new purchase; towards timber basin; completing launching ways to ship house E; sky lights to foundry and ventilators to smithery; painting and repairing dry dock; boilers for new boiler house; machinery for machine shop; brass and iron foundries; smithery; saw mill; boiler and pattern shops, and for repairs of all kinds amounting in the aggregate to \$319,959 00.

1. *Brass foundry.*—The want of this building has already been seriously felt, and as the work in the yard increases, there will be more urgent demand for it. At present there is no suitable place for making brass castings, and as there are frequent demands for such work, it is highly necessary that a proper foundry should be erected for the purpose.

2. *Boom derricks, and foundation.*—The present derrick is defective, and will require extensive repairs to render it safe for lifting heavy masts, boilers, &c., and it is deemed best to provide one of greater power. The expense attending the use of the floating derrick from New York is very heavy, and besides, its services cannot always be obtained when required.

3. *Removing and putting up shears.*—In case the new boom derrick is authorized, it is proposed to locate it at the site now occupied by the small shears, and to remove these to the end of the long dock west of ship house D. There will then be an abundance of facilities for landing articles of all kinds.

4. *Bilge blocks for dry dock.*—The present blocks have been in pretty constant use since the completion of the dock, and now require to be renewed. It is important that the work should be done as speedily as possible, otherwise the safety of vessels in dock may be hazarded.

5. *Continuation of quay wall.*—This work has been some time in progress, and it is desirable that it should proceed without interruption until completed. It is regarded as one of the most important objects for which estimates are submitted, and to secure economy in its construction liberal appropriations will be required.

6. *Dredging channels and repairing scows.*—It is indispensable that annual appropriations should be made for this object, as the almost constant use of the dredging machine is necessary to maintain a proper depth of water in front of the yard for the large number of naval vessels visiting this station.

7. *Paving and flagging.*—A small amount is required for paving some of the principal roads and for flagging the crossings. This is

an important object, tending to facilitate the transportation of timber and other heavy articles.

8. *Improvement of machine shop.*—The machine shop is quite limited in size, and it is proposed to remove one of the division walls of the building, and add floors over the space between the galleries in the main shop, by which arrangement additional space will be obtained, and the capacity of the shop greatly increased.

9. *Heating new store.*—The large store house now being erected for the use of the Bureau of Provisions and Clothing will soon be completed, and an estimate is submitted for heating this building, as well as for drying bread returned from ships.

10. *Filling in new purchase.*—A large area of this new purchase has already been filled in, and upon a portion of it the foundations of the marine barracks have been commenced, and it is expected that these buildings will be completed during the next year. To promote the health of the marines and others occupying these quarters, as well as to provide additional room for transacting the business of this important station, it is desirable that the whole area of this purchase should be filled in as rapidly as possible. An estimate for continuing this work is therefore submitted, and is considered of much importance.

11. *Towards timber basin.*—That part of the yard formerly appropriated for a timber basin, being wanted for other purposes, has been nearly all filled in, so that, except upon the block, there is no space for the water seasoning of the large quantities of timber that are used at this station. The want of such accommodation is seriously felt, and it is proposed to provide a proper timber basin where the timber may at all times be kept in the water, and convenient when required for use. To this end, an estimate is submitted for commencing the work, and it is hoped that an appropriation for this object will be obtained at an early day.

12. *Completing launching ways to ship house E.*—Appropriations have been made for this object, and considerable progress has been made in the construction; but the original estimate is found inadequate to the completion of the work, and a further estimate is therefore submitted.

13. *Sky-lights to foundry and ventilators to smithery.*—It is found necessary to provide additional light in the new foundry, and to construct additional ventilators for the smithery. The amount required for these objects is small, but much needed to promote the efficiency and comfort of the shops.

14. *Repairing dry dock.*—The amount asked for the dock is for necessary current repairs, and to keep the dock in good working condition.

15. *Boilers for new boiler house.*—An appropriation was made last year for the erection of a new boiler house, and it is proposed to concentrate the boilers in this building so that steam may be generated at one point, and conveyed to the engines in the different shops, thereby reducing the number of fires, and effecting an economy in the attendance. This is a very desirable object.

16. *Machinery for machine shop, foundries, smithery, saw mill, boiler,*

and pattern shops.—Additional cranes are required for the machine shop, and four large forges and cranes are necessary in the smithery to operate the new steam hammer. In the new brass foundry all the necessary apparatus for a complete establishment is to be provided; for the saw mill, one flooring machine, one morticing machine, one scroll saw, and one tenoning machine are much needed; and a new engine is required for the boiler shop to supply the place of an old one now nearly worn out. All the above machinery is highly necessary, and an estimate is submitted for the purchase of the same.

17. *Repairs of all kinds.*—An estimate is submitted for the usual necessary repairs of the various store houses, timber sheds, workshops, ship houses, offices, officers' quarters, wharves, docks, fences, roads, cisterns, and other improvements, and is such as will be required for the proper care and preservation of the public property.

PHILADELPHIA.

The works of improvement which have been completed in this yard during the past fiscal year, are: new steam house, guard house, new offices, extension of smithery, and the addition to engine house. Upon these objects there has been expended during the past year for materials \$5,563 51, and for labor \$7,537 43, making an aggregate of \$13,100 94.

The objects upon which expenditures have been made, but which are not completed, are:

1. *Dredging.*—During the past year about 20,000 cubic yards of mud have been excavated from the bottom of the Delaware river in front of the yard, at the point where the floating dock is operated, and this has been sufficient to maintain a proper depth of water for raising vessels on the dock.

2. *Dry dock.*—The floating dry dock has, from past experience of its efficiency, continued to prove satisfactory. The gradual substitution of iron floats, or tanks, for those of wood, will add much to the durability of the structure; and it is presumed that when all the wooden tanks have been replaced by those of iron, much of the expense for labor and materials annually required for repairs can be dispensed with. Several new floats of iron have been built, and they appear to answer an excellent purpose.

3. *Repairs of all kinds.*—The usual and necessary repairs have been put upon the various work shops, timber sheds, ship houses, wharves, boats, water pipes, gas lamps, floating stages, pavements, &c., and upon these objects of improvement and repairs there has been expended during the fiscal year the sum of \$58,418 66.

There has been expended for contingent the sum of \$28,720 69.

Plans and estimates are submitted for the fiscal year ending June 30, 1860, for the following objects, viz: boat shop, extending joiner's shop, dredging channels, repairs of floating dock, and for repairs of all kinds, amounting in the aggregate to \$122,997 00.

1. *Boat shop.*—When the shed now in use for a boat and spar shed was built, the operations of the yard were very limited in comparison with the other navy yards, and the building was sufficiently capacious

for all the necessities of the service here for both the purposes to which it is applied; but for the last four or five years the operative force employed, and the amount, as well as the importance of the work performed here, has placed it in every sense of the word, upon the basis of a first class navy yard; and as a consequence the shop or shed in question is found to be entirely too small and inadequate for the workmen employed in both branches, but large enough for either one. It is therefore proposed to erect a new building for a boat shop, and appropriate the old shed to the exclusive use of the sparmakers.

2. *Extending joiner's shop.*—For the same reasons as given for a new boat shop, it is found very desirable to extend the joiner shop. The present building though convenient and comfortable, is entirely too small to accommodate the number of workmen wanted to execute the public work with despatch. An estimate is therefore submitted for enlarging the present building.

3. *Dredging channels.*—The estimate submitted for this object is about the amount annually required for operating the dredge, and making such repairs as may be necessary to the machine and scows. The object is an important one, and necessary to insure the effective operation of the floating dock.

4. *Repairs of floating dock.*—In the estimate submitted for this object amounts are included for the construction of six additional iron floats, and iron floating gates for the entrance to the basin. The gates are indispensably necessary for the safety and protection of the property inside the basin, and they will be greatly needed by the time they can be constructed, as the present wooden floats are much decayed.

5. *Repairs of all kinds.*—The estimate submitted for this object is believed to be such as will be necessary for the usual repairs of the various buildings, docks, roads, and other improvements, having due regard to the public interests.

The area of this yard is so limited that all the workshops and conveniences required cannot be contained in it. It is recommended that an appropriation of \$85,000 be made to enlarge it.

WASHINGTON.

The works of improvement which have been completed at this yard during the past fiscal year, are forge shop, muster office, steam, hammer and slotting machines, and conversion of old ordnance to machine shop. These works have been completed for the amounts originally estimated, and there has been expended upon them during the year, for materials, \$24,921 17½, and for labor, \$24,061 84½, making in the aggregate the sum of \$48,983 02.

The objects of improvement which have been in progress during the year, but which are not yet completed, are:

1. *Extension of boiler shop.*—This building is now so far completed as to admit of occupation, and will be finished in a short time; the only work remaining to be done is a small amount of tin roofing for the ventilation.

2. *Steam engine and machinery for ordnance building.*—The expenditures under this head have been for the purchase and repair of tools;

several new lathes and planers have been added to the amount of machinery in this establishment, which is now in good condition. There still remains on hand a sufficient amount to purchase such other machinery as may be required.

3. *Removing shears.*—The present location being found most convenient, a portion of the amount under this head has been expended in giving them a thorough repair, which was much needed, the keels being found quite rotten and unsafe. They are now in good condition.

4. *Dredging channels.*—The dredging machine has been profitably employed in cleaning out the dock in front of the marine railway, and around the wharves and slips; and the machine and scows have been repaired and are now in good working condition. The balance on hand for this object will be sufficient for the next fiscal year.

5. *Pavements, drains, and gutters.*—A large amount of guttering has been laid at different points about the yard, by which the water is carried off rapidly, and the yard is well drained, thereby contributing much to the ease of transporting heavy articles.

6. *Reservoir for water.*—This work had been so far completed as to receive the water last year, and the only expenditure has been a small amount for painting. It is proposed to expend the balance of the appropriation for additional pipes for distributing the water.

7. *Gas pipes and fixtures.*—Nothing has been expended under this head during the past year except a small amount for changing the position of two lamps.

8. *Timber shed.*—A timber shed has been erected for the protection of lumber belonging to improvements of yard.

9. *Grading and filling.*—This appropriation has been usefully expended in filling up low places, and giving a large portion of the surface of the yard a good covering of gravel, improving the roads, and adding greatly to the appearance, comfort, and health of the place. On the east side, near the ship house, in order to make the requisite filling, it became necessary to remove the old board fence and build a wall to retain the earth. This has been done, and that part of the yard is now well secured.

10. *Machinery and tools.*—Under this head great additions and improvements have been made to the machinery in the yard; a very large lathe has been purchased and set up in the erecting shop; two powerful cranes have been built and put up in the same shop, and four others of smaller size provided for the machine shop. A bending machine has been purchased and put in the boiler shop; one of Watts' patent hammers has been procured for the faggotting shop, but has not yet been put in operation. Two planers, four lathes, two slotting and one shaping machine have been purchased, set up, and usefully employed in the machine shop; a large and powerful hydraulic machine for hauling up vessels on the marine railway has been built and placed in position, and will soon be ready for use; the large planer, lathe, and drill presses, which were in the old machine shop, have been removed to the new building, and the shops are now in pretty good condition for the execution of a large amount of work. Additional machinery, however, will be required to render them complete.

11. *Repairs of all kinds.*—During the past year the necessary annual repairs have been put upon the officers' quarters; furnaces, ship houses, storehouses, workshops, foundries, offices, rolling mill, saw-mill, bridges, fences, machinery, wharves, and other miscellaneous objects, most of which are now in fair condition. The amount expended during the year upon these various objects of improvement and repair is: for labor, \$86,456 51; for materials, \$50,414 10; making an aggregate of \$136,870 61.

The amount expended for contingent during the year is \$86,430 43.

Plans and estimates are submitted for the fiscal year ending June 30, 1860, for the following objects, viz: extension of copper-rolling mill, public stables, carriage houses and cart shed, shed for flasks, gas generator and fixtures, quay wall west side of yard, conversion of old machine shop to foundry, machinery and tools and for repairs of all kinds, amounting in the aggregate to \$155,932 00.

1. *Extension of copper-rolling mill.*—In the present arrangement the copper-refining furnace occupies a part of the brass foundry, and after the copper is prepared for the mill it has to be carried from the furnace to another building, which is inconvenient and expensive; besides it is deemed best to have all the operations under the charge of the master workman conducted in one building. An estimate is therefore submitted for extending the rolling-mill building to the line of the end of the boiler shop, which will furnish room for the refining furnace, and then all the operations in this department will be performed under the immediate supervision of the master workman.

2. *Public stables.*—The building now occupied for this purpose was formerly the old iron foundry, and is badly arranged, and not well adapted to its present use. It is proposed to erect a new and commodious stable, which shall be well ventilated, and so arranged as to afford ample room for all the purposes under one roof, while they shall be separate and distinct from each other; and with this view the plan submitted has been prepared.

3. *Carriage houses and cart sheds.*—Houses and sheds are much needed for the protection and preservation of the carriages, carts, timber wheels, &c., many of which are now exposed at all times to the weather, much to their injury. The cost of keeping these indispensable articles in proper condition for use is a heavy item of expense, and it is believed that if suitable sheds be erected for their protection the expense will soon be saved in the reduced cost of repairs.

4. *Sheds for flasks.*—Around the iron foundry a large number of flasks necessarily accumulate. These though useful are very unsightly objects; and as there is no proper place for them, it is proposed to construct a shed for their stowage along the bank wall, in the rear of the foundry, similar to that prepared for coal. A small amount only will be required for this object.

5. *Gas generator and fixtures.*—An estimate is again submitted for an apparatus for generating gas to supply the consumption throughout the yard, by which it is believed a great saving in expense will be effected. The cost of gas at this yard during the past year was nearly equal to the whole expense of lighting the houses and grounds at the Naval Academy, where the number of lights is about four times the

number used in the yard. The gas is manufactured at the academy, and is of a superior quality, and the expense incurred at the two places shows that we are paying an extravagant price at the yard for an inferior article.

6. *Quay wall, west side of the yard.*—The enclosure on the west side of the yard is in a very dilapidated condition, and affords little or no protection to the public property; the water along that front is very shoal, and it is unavailable for landing or shipping articles. An estimate is submitted for building a quay wall along this front, on the proper boundary line, so that a channel may be excavated to enable vessels to land materials on that side of the yard. This would add greatly to the conveniences of the yard; for the wharf front now is so limited that, when two or three public vessels are lying at the yard, there is scarcely room for landing freight from private vessels.

7. *Conversion of old machine shop to foundry.*—A portion of the building in which the iron foundry was located was formerly used as a machine shop for heavy tools, with a pattern loft above. These heavy tools and patterns have been moved into the new shops, and it is now proposed to extend the foundry so as to occupy the whole building for that object. It is proposed to erect an air furnace in this part of the foundry for making castings in which great strength is required.

This furnace is much needed, as the present cupolas are insufficient to furnish a large amount of castings in a short time.

8. *Machinery and tools.*—Under this head is embraced a list of machines and tools necessary to complete the equipment of the several shops; some of them are to supply the places of similar articles which have been worn out, and all under this head are much needed.

9. *Repairs of all kinds.*—For the necessary annual repairs of officers' quarters, furnaces, ship houses, storehouses, workshops, timber sheds, ordnance buildings, foundries, offices, saw and rolling mills, marine railway, roads, bridges, and fences, machinery, water pipes, and other miscellaneous objects, the amount submitted will be required.

NORFOLK.

The works of improvement which have been completed at this yard during the past year are, reservoir for rain water, carpenters' work shop and tools, engines, cranes, scows, &c. The amount expended upon these objects during the fiscal year is, for labor \$6,388 98, and for materials \$2,564 99, making an aggregate of \$8,953 97.

The objects upon which expenditures have been made, but which are not yet completed, are:

1. *Extension of quay wall and dredging.*—During the past year the foundation piles for seventy-five feet of wall have been driven, cut off and filled in with rubble ballast, preparatory to the laying of masonry; one hundred and thirty feet of wall in length have been worked up to the height of 18 feet, or to low water mark, and filled up on the inside with oyster shells and ballast, and another length of fifty feet has been raised seven courses, or 10 feet 6 inches in height. The item of dredging was included under this head last year, and the work

for the same has been executed under it. The dredging has been done for the quay wall and on various parts of the water front, the material of which has been used in grading and filling up low grounds.

2. *Foundry, boiler, and machine shops, and tools for the same.*—The large core oven, foundations for the cranes, connections for the machine shop, &c., have been completed during the past year, and the foundry has been so far completed as to admit of active operations in moulding and casting. The foundry machinery completed consists of two cupolas, with blowing apparatus; three steam cranes, two iron core cars, railroad track, &c.; two crane ladles, twelve shank and six hand ladles. There yet remains to complete two loam cranes, two large hand cranes, and two large crane ladles, the materials for all of which are on hand, and but little labor required to complete them. In the machine shop and adjuncts the walls of the new engine house have been covered with the roof, which however is not yet completed. The boiler walls have been carried up and the boilers set; the connexions with the smoke stack have been made, and this building, though in an unfinished state, is in use, and but very little labor required to complete it. In the machine shop proper the lines of shafting and counter shafting, with pulleys, hangers, &c., with nine lathes, two spliners, one crane drill, and a large boring mill, have been set up in the lower story; the old engine and boilers have been removed and a new engine set up, together with its under ground shafting extending to the foundry. Four cylinder boilers have also been completed and set up in connexion with this engine. The roof over the boiler shop has been raised and completed, and the walls of the forge shop have been built up to the height of the roof, the principal frames of which have been prepared and raised. The boiler house has been so far completed that the business of manufacturing has been commenced within it; there is required, however, some additional work to the windows, doors, &c., for its final completion.

3. *Grading and draining yard.*—This work has been continued, and the appropriation therefor expended judiciously.

4. *Iron railway and cars.*—The work under this head has been undertaken and continued during the fiscal year as far as the allotted funds would permit. A line of railway has been laid down from the masting shears, between ship-houses A and B, nearly to the dry-dock, with branches extending to store-house No. 14, and navy stores 15 and 16, with turnouts, switches, &c. Four cars have also been provided, and there is a large quantity of iron and other materials on hand for the further prosecution of the work when more funds shall be available for this object.

5. *Masting shears.*—The work under this head is so far advanced that a favorable opportunity only is wanted for dispensing with the use of the old shears in order to take them down, and to apply the iron work on them to the fastening and securing the new, and for setting the latter up.

6. *Timber shed No. 17.*—The masonry of this building is completed as far as the commencement of the second story; the wood work is advanced to the completion of the window frames, sashes, and lintels, the bolsters and posts for the floor of the second story, and the mate-

rials for the doors, with the exception of a small portion of the panels, are prepared and ready to be put together. The materials for the completion of the building, with the exception of the slate, are mostly on hand and paid for; and the labor in the joiners' department now to be done is mainly for the framing and putting up of the roof and floors, with that for setting such work as is already completed.

7. *Victualling establishment.*—The labor on this object has been confined to preparations for the foundations, for which nearly all the piling and excavation have been completed. A large amount of materials has been received, and the work is in good condition for being rapidly pushed forward.

8. *Timber landing slip at saw mill.*—But little work has been done upon this object except for receiving and handling materials, owing to the site being occupied for the landing and delivery of timber sent to the yard. A few piles have been driven for the foundations, and nearly all the materials for the completion of this object have been procured and are now on hand.

9. *Spar shed.*—Nothing has yet been done towards the erection of this building, except the receipt of a considerable portion of the materials; its erection will now be immediately commenced.

10. *Furnaces, cranes, and tools.*—Under this head the foundations and base for one of the new iron cranes have been completed, several new camels and lighters have been built, and sundry tools and machinery have been purchased and paid for.

11. *Repairs of all kinds.*—The usual necessary repairs have been put upon the various ship houses, timber sheds, work shops, foundries, store houses, offices, officers' quarters, dry dock, wharves, bridges, timber docks, fences, buoys, boats, lighters, and other improvements, and upon all the improvements and repairs there has been expended, during the fiscal year for labor, \$197,233 31, and for materials \$190,269 23, making an aggregate of \$387,502 54.

The amount expended for contingent is \$80,430 16.

Plans and estimates are submitted for the fiscal year ending June 30, 1860, for the following objects, viz: continuation of quay wall; completing forge shops; reservoir to supply water at stables; dredging and filling in; machinery, tools, and cranes; muster and pay office; continuation of railway; completing saw mill, machinery, saw shed, and rail cars; completing timber shed No. 17; completing foundry and for repairs of all kinds; amounting in the aggregate to \$271,387.

1. *Continuation of quay wall.*—The amount asked for this object will be nearly sufficient to complete the work as far as slip No. 48, and will, with the portion of the wall already built, enclose in a continuous line about three-fourths of the entire front on the river, but will leave considerable extent to be completed for the enclosure of the whole yard. This work is of the first importance, and it is very necessary that it should continue in progress without interruption until finally completed.

2. *Completion of forge shop.*—This building is at present in an incomplete state, and consequently no operations can yet be carried on

without great inconvenience. The building is much needed, and it is very desirable that it should be completed at the earliest period possible.

3. *Reservoir for stables.*—In view of the trouble and expense at present incurred in transporting water to this point, for the use of the cattle and horses, it is deemed advisable to construct a reservoir at the stables of sufficient capacity to supply the establishment, and an estimate for that object is submitted.

4. *Dredging and filling in.*—This important service, for which the yard is now provided with improved facilities, should be continued as heretofore, and an estimate of the amount usually expended is therefore embraced.

5. *Machinery, tools, and cranes.*—Under this heading is embraced an estimate for a Nasmyth's steam pile driver as a most important machine for the works of improvement on the yard. Extensive inquiries have been made as to the advantages of this machine, and reports are such as to show that it has entirely superseded all other methods of driving piles on all important works of construction in Europe; and when it is considered that the nature of the foundations at this yard almost invariably require piling, and that a large amount of work is to be done here, economy and rapidity of execution seem to justify the application of the best means that can be procured. Other miscellaneous machinery is also embraced in the estimate.

6. *Muster pay office.*—This object is much needed for the purposes stated, there being no convenient building on the yard where the daily musters can be performed. With the present large number of men employed, the musters are scattered over the yard at several points, in temporary sheds, and it is proposed to erect a suitable building for the purpose, and provide a proper shelter to protect the men while mustering.

7. *Continuation of railway.*—This is properly considered one of the most important improvements yet authorized for this yard, and when completed will contribute greatly to the economy of transportation of the large amount of materials which the operations require to be moved from point to point, and which is now done by the expensive maintenance and slow process of teams. An estimate is therefore submitted for the gradual extension of these railways.

8. *Completing saw-mill machinery, saw shed, and railway cars.*—These are all important objects, and a small amount only is required for them. The works are in an unfinished state, and it is very desirable that their final completion should no longer be delayed.

9. *Completion of timber shed, No. 17.*—The amount allotted for this building has been exhausted, and it is still in an unfinished state. Various reasons are assigned for the deficiency of the appropriation. When the estimate was made two sheds were proposed, and it was supposed that the same centering, scaffolding, &c., would answer for both buildings, and thus the expense for these articles would be divided; but as one shed only was authorized, all such expenses were charged to No. 17. A large amount for hauling materials, usually charged to contingent, was charged to the building, owing to the exhaustion of the contingent fund. Another source of unexpected

expense was the piling necessary for a large portion of the foundation and the difficult nature of the ground upon which the building stands. These causes have combined to swell the cost of the shed beyond the original estimate, and to require an additional appropriation for its completion.

10. *Completing foundry.*—The amount originally estimated for this work has proved insufficient; the excess of cost is due to unforeseen contingencies which have occurred in the progress of the work, and to the furnishing of additional furnaces and fixtures not originally embraced in the estimate. A further appropriation for the completion of this building is much needed, and an estimate is submitted for that purpose.

11. *Repairs of all kinds.*—The amount submitted for this object will be required to meet the demands upon this head for the annual necessary repairs of the numerous buildings and other improvements in the yard, such as ship houses, work shops, timber sheds, store houses, foundries, wharves, docks, roads, bridges, fences, offices, officers' quarters, boats, scows, lighters, and other miscellaneous objects.

PENSACOLA.

The works which have been completed at this yard during the past fiscal year are: coping for dock basin, masting shears, steam box, and launching slip. Upon these objects there has been expended during the year the sum of \$15,092 77.

The works which have been in progress, but which are not yet completed, are:

1. *Extension of granite wharf.*—During the past year 442 cubic yards of granite and 4,497 cubic yards of concrete have been laid in the granite wall; 218 piles have been driven, and 190 feet of sheet piling, measured lineally, constructed. New stone and bell carriages are in process of construction, and arrangements have been made for procuring one of Nasmyth's patent pile-driving machines, which it is believed will greatly facilitate the construction of this important work.

2. *Repairing and operating dry dock.*—The floating balance dock has been caulked and painted; new brass shieves have been put in the bilge and keel blocks; the old boiler tubes have been replaced; the pumps have been put in good order, and the railway and other appendages have been properly cared for, and the structure may now be considered in tolerable order. The materials of which this dock is constructed are, however, of such perishable nature that it requires constant care and attention.

3. *Dredging.*—The dredging during the past year amounts to 8,339 cubic yards of sand, which was deposited behind the wall of the permanent wharf, next to the deep basin, and a portion near the centre wharf. The excavator has been repaired thoroughly, and the chain bucket dredge is undergoing a thorough overhauling.

4. *Foundry.*—The foundation of this building is completed and the walls are in progress.

5. *Improving spar pond.*—A force is now employed in clearing out

the reeds and mud from this pond, and building a retaining wharf. No further appropriation will be required for this object.

6. *Repairs of all kinds.*—The work under this head during the past year has been in general repairs to the various buildings within and near the yard, such as officers' quarters; dispensary, timber sheds, joiner's shop, steam boxes, smith's shop, boats, scows, lighters, cisterns, roads, &c., and upon the foregoing improvements and repairs there has been expended during the year \$150,797 89.

The amount expended for contingent is \$48,702 24.

Plans and estimates are submitted for the fiscal year ending June 30, 1860, for the following objects, viz: Extension of granite wharf and wet basin; repairing and operating floating dock; dredging; completing ship house and slip; pitch boiling house; launching ways; railways, and for repairs of all kinds, amounting in the aggregate to \$310,425.

1. *Extension of granite wharf and wet basin.*—*Wet basins* are important and necessary for securing vessels in ordinary at all navy yards. All the principal dock yards in Europe have wet basins, and some of them have two or three. At our navy yards vessels-of-war, whether in ordinary or equipped, must be moored with chains and anchors on one side and made fast to the wharves on the other. This is an expensive way of securing them, besides leaving them exposed to damage by coming in contact with vessels passing, and in some ports (especially Pensacola) to the winds and waves, and to constant perplexity of merchant vessels and coasters hooking the mooring chains of our vessels as they pass to and from the yard. Vessels in ordinary should be kept in a basin, with gates to retain the water when the tide ebbs; and to this end it is proposed to ask for annual appropriations, commencing at Pensacola, where such a basin is indispensable. We have commenced the construction of ships there, and when they shall be launched there is no security for them, except mooring in the open bay, which will be very expensive as well as hazardous when gales of wind occur. This work will be costly; it is nevertheless indispensable, and to carry it on economically liberal appropriations must be made, for the reason that contracts for materials can be made more advantageously for large quantities than for small ones. The extension of the granite wharf will form the outer wall of the proposed basin, and the site selected is admirably adapted for the purpose. This estimate is regarded of the first importance and an appropriation cannot be too strongly urged.

2. *Repairing and operating floating dock.*—The amount estimated for this object is about the usual annual expenditure, and is necessary for the proper preservation of the structure.

3. *Dredging for wharf and wet basin.*—The estimate submitted will be required to continue the operations of the dredging machines during the next fiscal year, which are rendered necessary by the shifting nature of the bottom.

4. *Completing ship house and slip.*—An appropriation has been made for this object and a portion of the materials have been procured. Since this has been made a building yard, it is very necessary that a ship house should be completed for the protection of vessels on the

stocks and the workmen engaged in their construction. An estimate for this object is therefore submitted.

5. *Pitch boiling house.*—This building is required for the work connected with the building and repairing vessels, and also for incidental yard purposes; the want of it is seriously felt.

6. *Launching ways.*—The amount asked for this object will be required to prepare the ways for launching the steam sloop-of-war Pensacola and the smaller steam sloop now constructing.

7. *Railways.*—A small amount is submitted for extending these very important facilities for transporting heavy articles. The surface of the yard being of fine sand renders the hauling of heavy loads in the ordinary mode expensive and difficult.

8. *Repairs of all kinds.*—Provision is made in this item for the necessary repairs of the various buildings, wharves, and other improvements in the yard, all of which require careful and prompt attention at this station, where wooden structures decay rapidly if neglected.

MARE ISLAND.

The works of improvement which have been completed at this yard during the past fiscal year are: joiner's shop and timber shed No. 40; store-house No. 46; officers' houses, Nos. 2, 4, 3, and 5, and pitch kettles. The amount expended upon these objects during the fiscal year is \$94,575 74.

The works which have been in progress but which are not yet completed are:

1. *Smithery.*—Very little has been done upon this building during the past year. The number of forges erected and in use is sufficient to meet the present demands upon the yard, and therefore no more will be built at present.

2. *Wharf.*—About 340 feet of wharf have been built and completed, and an area of 34,600 square feet filled in during the fiscal year. Foundation piles have been driven for 100 feet additional at the northern end, and 200 feet of foundation completed adjoining the dock basin.

3. *Officers' quarters.*—The block comprising Nos. 7 and 9 has been commenced; the foundation walls are finished; the brick walls all round are carried up to the second story, and the wood work is well advanced.

4. *Grading and paving.*—About 100,000 cubic yards of grading have been done, and the earth filled in behind the wharf wall and upon the low grounds. A large amount of paving has been done, by which good roads have been made in places heretofore impassable during the rainy seasons.

5. *Mould loft No. 39.*—The masonry and brick work for this building are finished, and the roof on and slated; the interior work is well advanced, and the building can be entirely completed in a short time.

6. *Coopers' and paint shop No. 41.*—The progress of this building has been delayed on account of the large amount of grading required

to prepare the site; it has been commenced, and about one-half of the walls have been built up to the second story.

7. *Plumbers', coppersmiths', and tanners' shop No. 70.*—The foundation of this building has been prepared, the masonry and brick work completed, the roof put on and slated, and some of the interior work finished. This building can be completed in a short time.

8. *Cisterns.*—Two large cisterns have been completed, with the exception of the conductors, and the excavation for a third has been nearly finished. These works will be a great acquisition to the yard, in some measure supplying the deficiency of water; but it is proposed to make an artesian well for a permanent supply.

9. *Bishop's derrick.*—The tripod has been built, all the castings made, the foundation piles driven, and the materials procured for the foundation. The work will soon be ready for setting up.

10. *Artesian well.*—A pipe of five inches diameter was sunk to the depth of 218 feet, when it was found necessary to increase the size, and accordingly one of ten inches diameter was procured; this has been sunk to the depth of 145 feet, but thus far no water has been obtained, and the success of the experiment is yet somewhat doubtful.

11. *Repairs of all kinds.*—The small amount expended under this head has been for the removal of old and temporary buildings to make room for the new works of improvement. Upon all the foregoing objects there has been expended during the fiscal year for materials \$174,083 93, and for labor \$172,411 60—making an aggregate of \$346,495 53.

The amount expended for contingent during the year is \$106,666 70.

Plans and estimates are submitted for the fiscal year ending 30th June, 1860, for the following objects, viz: completing machine and boiler shops; continuing quay wall; grading; artesian well; towards machinery for new shops; store-house No: 45; completion of blacksmith shop; completion of houses 7, 9, 11, and 13; pitch house; steam boxes; mould loft No. 39; cooper's shop and tank shed, and for repairs of all kinds, amounting in the aggregate to \$403,350.

1. *Completing machine and boiler shops.*—An appropriation for commencing this establishment was made at the last session of Congress, and the work will be in progress during the present year. There being no government works of this kind on the Pacific coast where the steam vessels of the navy can be repaired, it is desirable that the establishment should be completed as soon as possible, and an estimate is therefore submitted for that purpose.

2. *Continuing quay wall.*—This is an important work and should progress without interruption, at least until a sufficient front is completed to furnish ample room for such vessels as may visit the yard.

3. *Grading.*—The surface of this yard is undulating, and a considerable amount of grading is necessary in preparing sites for buildings authorized and for others in contemplation, and an appropriation for this object is indispensable.

4. *Artesian well.*—In consequence of the great difficulty in obtaining a sufficient supply of good water for yard purposes and for the vessels visiting the station, the department determined to try the experiment

of sinking an artesian well, and the work has been commenced; although success has not yet attended the effort, it is proposed to persevere, and, if possible, secure an ample supply of this invaluable and indispensable article.

5. *Towards machinery for new shops.*—The erection of an establishment for the manufacture and repairs of marine and other engines having been authorized, it becomes necessary that the requisite machinery and tools should be provided for the successful operation of the establishment. An estimate is therefore submitted for the purchase of such as will be needed at once, to afford the means for making such repairs as may be required for steam vessels of the navy on the Pacific station.

6. *Store-house No. 45.*—This building is much needed to furnish a suitable and safe place for the storage of the public property accumulating at the yard, and the appropriation is strongly urged.

7. *Completing blacksmith's shop.*—This was one of the first buildings commenced, and at that time, there being no buildings of any kind on the island in which work could be done, the erection of some temporary buildings was indispensable, and a portion of the amounts allotted for this and other objects was necessarily used for the purpose. The building has been erected and is in use, and the estimate now submitted is required to complete some of the internal arrangements.

8. *Completing houses 7, 9, 11, and 13*—Owing to the large amount of grading necessary to prepare the sites for these buildings, the amount allotted for them has been exhausted, and a small additional sum will be required for their completion, for which an estimate is submitted.

9. *Pitch house.*—This house is nearly completed, but a small sum will be required for procuring and setting the kettles. The amount now asked, with that heretofore appropriated, will make about the amount of the original estimate.

10. *Completing steam boxes.*—The cost of this object has exceeded the original estimate, owing to the unexpected necessity for piling the foundation. This convenience is highly necessary, and an estimate is submitted for completing it.

11. *Completing mould loft No. 39.*—This building is well advanced, but owing to the great cost of some of the building materials the amount of funds remaining will not be sufficient to finish. An estimate is therefore submitted for the purpose.

12. *Completing cooper's shop and tank shed.*—The prices for labor and materials at this place are so fluctuating that it is almost impossible to make estimates which can be considered reliable. The allotment for this object has been found insufficient, and it is therefore necessary to ask for a small additional sum to complete the building.

13. *Repairs of all kinds.*—The estimate submitted will be required for the necessary repairs of the buildings, wharves, roads, floating dock, boats, scows, and other miscellaneous objects.

SACKETT'S HARBOR.

The expenditures at this station during the past fiscal year have been for repairs upon the different buildings, which were necessary

for their preservation, and the amount expended for this object is \$1,172 02.

For the proper preservation of the public property and the necessary repairs of existing improvements during the fiscal year ending June 30, 1860, there will be required the sum of \$3,850.

HOSPITALS.

Portsmouth, N. H.—At this station there are no proper and comfortable accommodations for the sick. Ships with an epidemic sickness on board are generally ordered to the most northern ports, and it is important that a proper building should be prepared for the reception and treatment of the sick. An estimate is therefore submitted for erecting a small hospital where the sick can be properly cared for and their wants supplied. The amount asked for this object is \$22,000.

Boston.—For the necessary repairs of the hospital building and its appendages, and for completing the surgeon's house, there has been expended during the past fiscal year the sum of \$14,489 93.

For the annual repairs of the buildings and fences, and care of the public grounds, there will be required for the fiscal year ending June 30, 1860, the sum of \$2,500.

New York.—The brick building for the heating apparatus and other machinery has been completed and proves satisfactory, and the amount expended on this object during the year is \$17,736 86.

For the necessary repairs of the hospital, surgeon's house, steam pump, fences, furniture, &c., there has been expended during the past year the sum of \$6,486 87.

An estimate is submitted for the fiscal year ending June 30, 1860, for the necessary repairs of buildings, fences, &c.; for the erection of a house for the surgeon of the laboratory; for the enlargement of the cemetery, and for grading and filling, amounting in the aggregate to the sum of \$27,900. This estimate is deemed highly necessary for the proper care and preservation of the public property, and for the comfort of the patients and officers in attendance.

Hospital and naval asylum at Philadelphia.—The amount expended at this institution during the past fiscal year for repairs of buildings, furniture, furnaces, grates, and ranges, and for brick wall on Shippen street, is \$12,336 69.

Estimates are submitted for the fiscal year ending June 30, 1860, for curbing and walk on Shippen street, painting and repairing the different buildings, fences, furniture, furnaces and ranges, water rent and gas, and for supplies, &c., to beneficiaries, amounting to \$37,815. This amount is necessary for the proper care and comfort of the inmates of the institution.

Washington.—There has been expended upon this building for repairs of all kinds \$228 31.

Norfolk.—For the necessary repairs of the hospital buildings, fences, boats, bridges, walks, gates, pumps, and fire engines, and for the erection and completion of the new house for surgeon's quarters, there has been expended during the past year the sum of \$16,471 08.

Estimates are submitted for the stone pier and landing, and for general repairs to buildings, amounting to \$53,220.

The present landing is an old wooden pier, and is now in such a rotten condition as to be unsafe for landing articles of much weight; and, in view of the destructive action of the marine worm in this harbor, it is deemed economy to replace the present structure by a permanent stone pier.

Pensacola.—At this station there has been expended during the fiscal year, for completing walls around burial ground, draining and filling ponds, and for repairs of all kinds, \$9,819 10.

Estimates are submitted for the next year for general repairs of hospital buildings and for draining and filling ponds, amounting to \$10,500. In this climate, where all wooden structures decay so rapidly, it is exceedingly necessary that repairs should be promptly made when needed; and a proper regard for the health of the vicinity renders it imperative that constant care and attention should be paid to the drainage of the ponds.

MAGAZINES AND ORDNANCE WORKS.

Portsmouth, N. H.—The ordnance works which have been completed at this yard during the past year are: shell house for loaded shells, ordnance building, gun skids and shot beds, and fitting and furnishing ordnance building. The amount expended upon those objects during the year is, for labor, \$14,474 47; for materials, \$7,905 72—making an aggregate of \$22,380 19.

Upon the gun carriage shed and store-house, and for repairs of magazine building, there has been expended for labor \$1,121 37, and for materials \$54—making an aggregate of \$1,175 37.

Estimates are submitted for the fiscal year ending 30th June, 1860, for gun skids, shot beds, new powder magazine, and for repairs of all kinds, amounting to \$46,497.

The present accommodations for ordnance works at this yard are too limited to meet the demands of the service. The magazine is small, and it is found indispensable that a larger one should be constructed.

Boston.—For the necessary repairs of the magazine, wharf, and fences, there has been expended during the year past \$2,257 51.

For the necessary repairs of buildings and grounds during the fiscal year ending 30th June, 1860, there will be required the sum of \$2,500.

New York.—The works completed at this yard are: house for loaded shells, altering gunners' to store-house, powder boat, pier, slip, and repairs to wharf. The amount expended on these objects during the past year is \$20,640 11. Other works upon which expenditures have been made are: armory, machinery and fitting room for same, gun-sighting ground, and general repairs; and for these objects there has been expended during the year \$14,845 46.

Estimates are submitted for the fiscal year ending 30th June, 1860, for completing armory, and for repairs of all kinds, amounting to \$8,000.

The armory building is nearly completed, a small amount only being required for that purpose. The amount submitted for repairs of all kinds will be necessary for the proper protection and preservation of the public property.

Philadelphia.—The landing wharf at Fort Mifflin has been completed, except the railroad track upon it leading to the magazine, which is now in progress. The amount expended during the past year is \$9,403 66.

For the fiscal year ending 30th June, 1860, there will be required for repairs of all kinds the sum of \$1,000.

Washington.—During the past year the gun-carriage shed has been completed, and the necessary repairs put upon the ordnance buildings, magazine, and keeper's house; and upon these objects there has been expended during the year for labor \$10,403 04, and for materials \$12,363 69—making an aggregate of \$22,766 73. The funds in hand will be sufficient at this yard for the next year.

Norfolk.—The ordnance works which have been in progress at this station during the past year are: ordnance building, sea wall at Fort Norfolk, and general repairs upon magazine and its dependencies; and upon these objects there has been expended for materials \$18,240 09, and for labor \$22,013 51—making an aggregate of \$40,253 60. Estimates are submitted for the fiscal year ending 30th June, 1860, for the following objects, viz: wharf at St. Helena, stone pier and landing at Fort Norfolk, powder boat, and for repairs of all kinds, amounting to \$144,460. A large portion of the land at St. Helena has been allotted to ordnance purposes, and for the convenient landing of heavy guns, shot, &c., good substantial wharves are necessary. Those in present use are of wood, much decayed, and injured by the marine worms, and require renewing. It is deemed best to replace these old wharves by a permanent stone wall, and for commencing this work an estimate is submitted. The landing wharf at Fort Norfolk is also of wood much decayed, and it is also proposed to construct a permanent stone pier and landing for the accommodation of the works at that place. The powder boat is much needed, and the amount submitted for repairs of all kinds will be required for the preservation of the buildings and enclosures.

Pensacola.—The amount expended during the past year for the repairs of the magazine and its dependencies is \$107 38.

For the annual repairs of buildings and enclosures during the next fiscal year there will be required the sum of \$1,000.

Mare Island.—The magazine building has been nearly completed; the shell house is finished and ready for use; the tank house and filling room are finished, except a small portion of slating upon the roof; and the keeper's house is completed, except hanging doors and windows and a few other small matters, and will be ready for occupation in a few weeks.

There has been expended upon these objects during the past year for labor \$43,748 18, and for materials \$26,320 31—making an aggregate of \$70,068 49.

Dry docks.—The balance floating dock at Portsmouth, New Hampshire has been profitably employed during the past year, and is now in good condition. The repairs upon the basin walls have been in

progress, but are not yet completed; the works are, however, in such condition that they can be used when required.

The stone dry dock at Boston has been in almost constant use during the year, and at the same time the work of extension has been in rapid progress. A large portion of the head of the dock has been taken up, and the relaying of the work is commenced.

The stone dry dock at New York has been in almost constant use during the year. Some repairs have been made to the gates and to the masonry about them, and the dock is now in good condition.

The sectional floating dock at Philadelphia is now in pretty good condition. Six iron floats have been added to it during the past year, and an estimate for six more is embraced in the amount submitted for the yard. This improvement will make the dock complete.

The stone-dry dock at Norfolk has been kept in good condition, and, in consequence of the large number of naval vessels visiting this station for repairs, the dock has been almost constantly occupied.

The balance floating dock at Pensacola has been carefully repaired, and is now in working condition. The effects of the climate at this place upon structures of the kind are such as render necessary the most constant care and watchfulness, and the application of timely repairs when needed.

The sectional floating dock at Mare Island has been in frequent use during the year, in raising public and private vessels, and is now in good condition. The accommodation of this structure to the merchant marine is almost incalculable. It is believed that it has been the means of preventing interruptions of the mail transportations, by its timely use for the mail steamers.

NAVAL ASYLUM.

This institution has thus far afforded a comfortable home to all sailors and marines who have applied for admission and produced the requisite testimonials of twenty years' service in the navy and the certificate of a surgeon that the applicant was unable to obtain his living by manual labor.

No class of the community is more destitute, and at the same time so deserving, as the old worn-out sailor. His young and vigorous years are devoted to the interests and advancement of the navy, and the spirit of patriotism as well as humanity has established this institution as a *home* for his decrepitude and old age. It is fitting that a beneficent government should thus reward faithful services with the necessary comforts of life, and provide for the wants of the last hours of these veteran servants of our country.

Nevertheless, I recommend that such of the inmates of the asylum as may so elect be paid a semi-annual stipend, according to rank, with the privilege of residing with their friends. This arrangement, it is believed, would be more economical to the government, as well as give greater satisfaction to themselves.

During the past year another officer of the navy has been assigned to the command of the institution, and the bureau is assured that his administration of its affairs for the future, as it has proved in the past few months, will be eminently successful.

The present number of inmates, including officers and attendants, is one hundred and seventy-eight; fourteen have died, and thirteen been granted permits to enter the asylum.

The whole expense for the fiscal year ending June 30, 1858, was as follows, viz:

Subsistence	\$14,994 96
Clothing.	4,559 80
Miscellaneous items.....	5,971 08
Coal	1,975 00
Officers and attendants.....	15,118 00
	<hr/>
	42,618 84
	<hr/> <hr/>

TIMBER AGENCIES.

The agents who have charge of the selection of lands growing timber suitable for naval purposes, and the preservation of the same from depredation, have been efficient in the discharge of their duties during the past year. The vigilant measures adopted have essentially prevented trespassers from pillaging the lands which grow naval timber, and consequently less depredations have occurred than usual. There have been but few cases of *wanton* trespass, and hence prosecutions of an expensive character have been avoided.

A considerable quantity of land has been selected for reservation, but care has been taken not to select it in compact bodies, so as to interfere with the rights or interest of settlers in obstructing them from their ordinary outlets of trade; nor are selections recommended for reservation until the number and size of the trees shall have been reported. As a general rule no lands are selected which are desirable for agricultural purposes.

The aim is to reserve only the lands growing the best and greatest number of valuable trees to the acre, or section, suitable for naval use. The agents have been instructed faithfully to respect these injunctions.

The administration of the affairs of this branch of the service has been successful during the past year, and the expenditures confined within the smallest limit compatible with the public interests.

The increasing wants of the naval and commercial marine of the world creates a great demand for live oak and mast and spar timber, which can only be found in much quantity or of good quality in the southern States; and as the maritime nations of Europe cannot be supplied with such materials for ship building at home, they seek to procure them from the shores of our own country.

Hence citizens of the United States, incited by motives of gain, become the agents of European governments in furnishing them with these naval supplies from private as well as the common public domain. In order, therefore, to protect the valuable interests in question, the bureau again commends this subject to the fostering care of the government.

I have the honor to be, very respectfully, your obedient servant,

JOSEPH SMITH,

Chief of the Bureau of Yards and Docks.

BUREAU OF YARDS AND DOCKS, November 22, 1858.

Schedule of the papers which accompany the report of the Chief of the Bureau of Yards and Docks to the Secretary of the Navy for the fiscal year ending June 30, 1860.

- Y. & D. A.—The general estimate from yards and docks.
Y. & D. No. 1.—Estimate for the support of the bureau.
Y. & D. No. 2.—Estimate for recruiting stations.
Y. & D. No. 3.—Estimate for officers and others at yards and stations.
Y. & D. No. 4.—Statement showing the sums which make up the first and second items in Y. & D. A.
Y. & D. No. 5.—Estimate for improvements and repairs at yards and stations.
Y. & D. No. 6.—Estimate for improvements and repairs at hospitals and naval asylum.
Y. & D. No. 7.—Estimate for improvements and repairs of magazines.

JOS. SMITH.

BUREAU OF YARDS AND DOCKS, *October 9, 1858.*

Y. & D. A.

General estimate from the Bureau of Yards and Docks for the fiscal year ending June 30, 1860, in addition to the balances remaining unexpended July 1, 1859.

Object.	Estimated for the year ending June 30, 1860.	Estimated for the year ending June 30, 1859.
1. For the pay of commission, warrant, and petty officers, (see paper Y. and D. No. 4)	\$284,038 00	\$275,664 00
2. For the pay of superintendents, naval constructors, and all the civil establishments at the several yards and stations, (see paper Y. and D. No. 4)....	152,454 00	139,232 00
3. For improvements and necessary repairs at yards and stations, (see paper Y. and D. No. 5).....	2,001,827 00	1,952,509 00
4. For hospital buildings and their dependencies, including the Naval Asylum, (see paper Y. and D. No. 6).....	153,935 00	159,866 00
5. For ordnance works, magazines, and their dependencies, (see paper Y. and D. No. 7).....	203,457 00	209,615 00
6. For contingent expenses that may accrue during the fiscal year for the following purposes, viz: For the freight and transportation of materials and stores for yards and docks; for printing and stationery; for books, maps, models, and drawings; for purchase and repair of fire engines; for machinery of every description, and patent-right to use the same; for the repair of steam engines and attendance on the same in navy yards; for the purchase and maintenance of horses and oxen, and driving teams; for carts, timber wheels, and workmen's tools of every description, and repairing the same; for postage of letters on public service; for furniture for government houses; for coals and other fuel; for candles and oil for use of navy yards and stations; for cleaning and clearing up yards; for flags, awnings, and packing boxes; for watchmen, and for incidental labor at navy yards not applicable to any other appropriation	478,000 00	479,600 00
	3,273,711 00	3,216,486 00

JOS. SMITH.

BUREAU OF YARDS AND DOCKS, October 9, 1858.

Y. & D. No. 1.

Estimate of the amount required for the support of the Bureau of Yards and Docks for the fiscal year ending June 30, 1860.

For salary of the chief of the bureau, per act of August 31, 1842, Statutes at Large, vol. 5, chap. 286, section 3, page 579	\$3,500
For salary of chief clerk, fourth class, per act of March 3, 1853, Statutes at Large, pamphlet edition, chap. 97, section 3, page 210.....	1,800
For salaries of five clerks, including draughtsmen, (four of second class, one of first class,) per act of March 3, 1853, Statutes at Large, pamphlet edition, chap. 97, section 3, page 210; and act of April 22, 1854, Statutes at Large, pamphlet edition, chap. 52, section 1, page 276.....	6,800
For salary of messenger, per act of August 31, 1842, Statutes at Large, vol. 5, chap. 286, section 6, page 580; act of April 22, 1854, pamphlet edition, Statutes at Large, chap. 52, section 2, page 276; act of August 4, 1854, pamphlet edition, Statutes at Large, chap. 242, section 6, page 572; and joint resolution No. 18, August 18, 1856, pamphlet edition, Statutes at Large, page 145.....	840
For wages of two laborers, per act of August 4, 1854, pamphlet edition, Statutes at Large, chap. 242, section 6, page 572; and joint resolution No. 18 of August 18, 1856, pamphlet edition, Statutes at Large, page 145.....	1,200
	<u>14,140</u>
Appropriated for the year ending June 30, 1859.....	<u><u>14,140</u></u>

Contingent expenses.

For stationery, books, plans, drawings and incidental labor..	800
Appropriated for the year ending June 30, 1859.....	<u><u>800</u></u>

Submitted.

One additional clerk (3d class)	<u><u>1,600</u></u>
---------------------------------------	---------------------

BUREAU OF YARDS AND DOCKS, October 9, 1858.

Y. & D. No. 2.

Estimate of the pay of the officers attached to the recruiting stations for the year ending June 30, 1860, if no alteration is made in the number of stations.

Rank.	Boston.	New York.	Philadelphia.	Baltimore.	Norfolk.	New Orleans.	Total.	Aggregate.

No. 3.

Abstract or compendium of annual report from the Bureau of Ordnance and Hydrography, dated November 15, 1858.

Forwards estimates for ordnance; for United States Naval Observatory and Hydrographical Office; for the Naval Academy, and for the Nautical Almanac.

Reduction in estimate for ordnance purposes and increased amount for small arms explained.

Buildings for preservation of ordnance stores at the different navy yards, decrease in the estimates for.

Armament for the Franklin, and for the five new sloops-of-war, in relation to.

Manufacture of shells at Washington navy yard, relating to.

Reports from squadrons and single ships, exhibit proficiency in target practice and small arm exercises.

Explains increase in estimates from United States Naval Observatory and Hydrographical Office, additional force required.

Renews recommendation for annual appropriation for saltpetre.

Reports of superintendent of Naval Academy and board of examiners upon the condition of that institution, and from commander of practice ship; recommends larger vessel, with auxiliary steam power.

BUREAU OF ORDNANCE AND HYDROGRAPHY,
November 15, 1858.

SIR: I have the honor to forward herewith estimates of the amounts supposed to be necessary to meet the expenditures required for the fiscal year ending June 30, 1860, for ordnance and other articles, connected with the armament of the navy; for hydrographical purposes, and other objects under the immediate direction of the superintendent of the United States Naval Observatory and Hydrographical Office; for the Naval Academy, and for the Nautical Almanac.

The estimates for ordnance purposes are less than for the previous year; the reduction arises from the smaller number of guns required for the seven new sloops now building under act of Congress of June 12, 1858. The sum for small arms has been increased, to meet the demand for improved arms now in use, and in which our ships are very deficient.

The amount required for buildings at the different yards, for the preservation of ordnance stores, is less than the previous year; estimates have been furnished for such as are deemed necessary to the chief of the Bureau of Yards and Docks.

The cannon of large calibre for the Franklin have all been delivered, and those for the five new sloops are in course of fabrication, and will soon be delivered at the yards where they are required.

The casting and filling of shells for the heavy guns still continues

at the Washington navy yard, and they are found to be of the best quality.

The most satisfactory reports are received by the bureau from the commanders of squadrons and single ships of the proficiency of the crews in target practice and small arm exercises; the men are trained to fire with great accuracy, and both officers and men show an increased interest in this branch of their duty, which will, it is hoped, lead to the best results.

The letter of the superintendent of the United States Naval Observatory and Hydrographical Office shows an increase in the estimates of that office of \$12,000 over that of last year; a part of this arises from the increased demand for instruments and charts, and part for sailing directions and astronomical observations. A larger force is also requested to carry on the duties of the astronomical and hydrographical department.

I would again urge the propriety of a small annual appropriation for the purchase of saltpetre; there is now on hand about 350,000 pounds, which, in the event of war, would be a very small supply. It does not lose or deteriorate in value by long keeping, and the quantity should be increased to two or three millions of pounds.

The reports of the superintendent of the Naval Academy and board of examiners, who attended the examination of that institution, are of the most satisfactory character; and from the discipline and course of instruction of the acting midshipmen the country may expect a corps of officers who will, upon all occasions, perform their duties in the most efficient manner.

The report of the commander of the practice ship shows an improvement of the acting midshipmen in seamanship and navigation, and that their general conduct was very satisfactory. The *Preble*, which was used the last summer as a practice ship, was found entirely too small to comfortably accommodate the large number of acting midshipmen embarked on board of her. I would recommend a larger vessel for this service. A sloop with auxiliary steam power is very desirable, as it is of the first importance the youths should be instructed in the practical use of steam machinery. It is also desirable the vessel should remain at the anchorage off the school during the year, for the purpose of instruction in duties pertaining to their profession; she would be available at a moment's notice to be despatched on any service.

I have the honor to be, sir, with great respect, your obedient servant,

D. N. INGRAHAM,
Chief of the Bureau.

Hon. ISAAC TOUCEY,
Secretary of the Navy, Washington, D. C.

Estimate of appropriations under the cognizance of the Bureau of Ordnance and Hydrography, Navy Department, required for the service of the fiscal year ending June 30, 1860.

Heads or titles of appropriations.	Estimates of appropriations required for the service of the fiscal year ending June 30, 1860.	Estimates of the balances of appropriations unexpended on the 30th June, 1859, which may be applied to the service of the next fiscal year.	Appropriations for the fiscal year ending June 30, 1859.
For pay and contingent expenses of the bureau.....	\$13,090 00	There will be no "balances of appropriations unexpended on the 30th of June, 1859, which may be applied to the service of the next fiscal year."	\$13,090 00
For pay of the navy	153,541 00		147,291 00
For ordnance and ordnance stores.....	563,000 00		593,000 00
For the purchase of nautical instruments.....	25,000 00		18,000 00
For printing and publishing Sailing Directions	10,000 00		5,000 00
For publication of Wind and Current Charts	18,000 00		18,000 00
For contingent expenses and wages at the United States Naval Observatory.....	6,360 00		6,360 00
For Naval Academy	51,040 25		45,671 22
For Nautical Almanac	26,880 00		26,880 00
	866,911 25	-----	878,292 22

BUREAU OF ORDNANCE AND HYDROGRAPHY, *October 8, 1858.*

D. N. INGRAHAM, *Chief of the Bureau.*

Summary of the estimates from the Bureau of Ordnance and Hydrography for the fiscal year ending June 30, 1860.

For what objects.	Amount estimated for year ending June 30, 1860.	Amount appropriated for year ending June 30, 1859.
A. For pay and contingent expenses of the bureau	\$13,090 00	\$13,090 00
B. For pay of officers on ordnance duty	20,300 00	20,300 00
C. For ordnance and ordnance stores	448,000 00	598,000 00
Special.—For arming seven steam screw sloops of war	115,000 00	
F. For the purchase of articles and incidental expenses connected with the Naval Observatory and Hydrographical Office.....	59,360 00	47,360 00
G. For the pay of Superintendent and officers on duty at the Naval Observatory and Hydrographical Office.	31,000 00	31,000 00
H. For the erection, repair, &c., of buildings, and for contingent expenses at the Naval Academy.....	51,040 25	45,671 22
I. For the pay of officers, &c., at the Naval Academy.	102,241 00	95,991 00
J. For Nautical Almanac	26,880 00	26,880 00
	<hr/> 866,911 25	<hr/> 878,292 22

D. Statement of value of stores on hand, and values received and expended, from July 1 1857, to June 30, 1858.

E. Statement of amount and cost of labor from July 1, 1857, to June 30, 1858.

K. Statement of contracts for the year ending June 30, 1858.

D. N. INGRAHAM, *Chief of the Bureau.*

BUREAU OF ORDNANCE AND HYDROGRAPHY, *October 8, 1858.*

A.

Estimate of the amount required for the support of the Bureau of Ordnance and Hydrography for the year ending June 30, 1860.

For salary of chief of the bureau, per act of August 31, 1842, vol. 5, section 3, page 579	\$3,500 00
For salary of one fourth class clerk, per act of March 3, 1853, pamphlet edition of Laws, section 3, page 211..	1,800 00
For salary of four second class clerks, including draughtsman, per act of March 3, 1853, pamphlet edition of Laws, section 3, page 211, and act of April 22, 1854, pamphlet edition, page 276	5,600 00
For salary of messenger, per act of August 31, 1842, vol. 5, section 6, page 580, and act of April 22, and August 4, 1854, pamphlet edition of Laws, and joint resolution of August 18, 1856	840 00
For wages of one laborer, per joint resolution of August 18, 1856, pamphlet edition of Laws, page 145.....	600 00
	<hr/> 12,340 00
Appropriated for year ending June 30, 1859.....	<hr/> 12,340 00

CONTINGENT EXPENSES.

For blank books, stationery, and for miscellaneous items	\$750 00
Appropriated for year ending June 30, 1859.....	<hr/> 750 00

D. N. INGRAHAM, *Chief of the Bureau.*

BUREAU OF ORDNANCE AND HYDROGRAPHY, *October 8, 1858.*

B.

Estimate of pay required for officers proposed to be employed on ordnance duty for the year ending June 30, 1860.

One captain, as inspector.....	\$2,800 00
One commander, as assistant inspector, charged with experiments in gunnery at the Washington navy yard..	2,500 00
Ten lieutenants, as assistant inspectors, at \$1,500.....	15,000 00
	<hr/>
	20,300 00
Amount appropriated for year ending June 30, 1859....	20,300 00
	<hr/> <hr/>

D. N. INGRAHAM,
Chief of the Bureau.

BUREAU OF ORDNANCE AND HYDROGRAPHY,
October 8, 1858.

C.

Estimate of the amounts that will probably be required for ordnance and ordnance stores, for labor, and for contingent expenses, for the year ending June 30, 1860.

For cannon.....	\$50,000 00
For gun carriages and gun carriage timber.....	30,000 00
For shells, and for fitting the same for service.....	30,000 00
For boat and field guns.....	17,500 00
For purchase of laboratory stores, and small arms of new patterns*.....	150,000 00
For purchase of gunpowder.....	80,000 00
For labor at yards, besides that included above in cost of articles.....	70,000 00
For freight and transportation, printing, and contingent expenses of all kinds for ordnance purposes.....	20,500 00
	<hr/>
	448,000 00
Amount appropriated for year ending June 30, 1859....	598,000 00
	<hr/> <hr/>

SPECIAL.

For guns, gun carriages, and ordnance equipments and stores complete, for seven steam screw sloops-of-war...	115,000 00
	<hr/> <hr/>

D. N. INGRAHAM,
Chief of the Bureau.

BUREAU OF ORDNANCE AND HYDROGRAPHY,
October 8, 1858.

*\$100,000 has been added to this item for the purchase of new and improved small arms.

D.

Statement of cost or estimated value of stores on hand at the several navy yards July 1, 1857; of articles received and expended from June 30, 1857, to June 30, 1858; and of those remaining on hand July 1, 1858, which are under the direction of the Bureau of Ordnance and Hydrography.

Navy Yards.	On hand July 1, 1857.	Receipts.	Expenditures.	On hand July 1, 1858.
Portsmouth	\$178,121 10	\$66,311 65	\$41,186 71	\$203,246 04
Boston	549,752 68	209,984 78	194,451 52	565,285 94
New York	657,789 68	206,686 73	233,949 26	630,527 15
Philadelphia	76,589 08	27,962 34	63,549 66	41,001 76
Washington	130,637 81	173,456 77	150,078 13	154,016 45
Norfolk	581,329 64	329,668 87	370,535 81	540,462 70
Pensacola	105,297 86½	51 63	406 42	104,943 07½
Mare Island ^o				
On the lakes	38,746 48			38,746 48

D. N. INGRAHAM,
Chief of the Bureau.

BUREAU OF ORDNANCE AND HYDROGRAPHY,
October 8, 1858.

OBSERVATORY, WASHINGTON, *August 5, 1858.*

SIR: In obedience to your order of July 1, I have the honor to submit herewith estimates (marked —) for the support of this office for the year ending June 30, 1860.

You will observe that the first item is larger than usual. This is on account of the demand for fresh supplies of charts and instruments, growing out of the condition of those on hand, as well as on account of the increasing number of vessels to be supplied.

The effective force at present employed at the Observatory is, exclusive of the superintendent, 7 lieutenants, 4 professors of mathematics, 1 assistant astronomer, and 1 clerk; the astronomical force consisting of the professors and assistant astronomer. This force is quite unequal to the proper performance of the duties required, and owing to that the astronomical work is greatly behindhand. I have on a former occasion ventured to recommend the establishment of a corps of assistant professors to be employed on this work. I now call attention to it again, and would urge, with the earnestness admissible, the importance of bringing up this back work, and of giving to the Observatory a force sufficient to work up to their capacity the admirable set of astronomical instruments with which it is equipped.

As required by the precept of the bureau, dated July 1, I include an estimate for the pay of officers and others whose employment at the Observatory is considered necessary. In this estimate I include the pay of 10 assistant professors, as recommended in my letter of 3d March last.

Respectfully, &c.,

M. F. MAURY, *Superintendent.*

Capt. D. N. INGRAHAM,

Chief of the Bureau of Ordnance and Hydrography.

F.

Estimate of the amount required for the support of the United States Naval Observatory and Hydrographical Office for the fiscal year ending June 30, 1860.

For the purchase of nautical instruments required for the use of the navy ; for repairs of the same, and also of astronomical instruments ; and for the purchase of nautical books, maps and charts, and for backing and binding the same.....	\$25,000 00
For printing and publishing Sailing Directions, hydrographical surveys, and astronomical observations.....	10,000 00
For continuing the publication of the series of Wind and Current Charts, and for defraying all expenses connected therewith.....	18,000 00
For models, drawings, and copying ; for postage, freight, and transportation ; for keeping grounds in order ; for fuel and lights, and for all other contingent expenses ; and for wages of persons employed at the United States Naval Observatory and Hydrographical Office, viz : one instrument maker, two watchmen, and one porter.....	6,360 00
	<hr/>
	59,360 00
Amount appropriated for the year ending June 30, 1859..	47,360 00
	<hr/> <hr/>

H.

Estimate of the amount required for the erection and repair of buildings ; for improvement and preservation of the grounds, and for contingencies at the United States Naval Academy for the fiscal year ending June 30, 1860.

For continuing the removal of buildings from the centre of the grounds, in accordance with a plan adopted by the bureau and carried out in part.....	\$16,000 00
For the excavation of cellars for the new houses and filling the old cellars.....	500 00
For the completion of the boat house.....	1,000 00
For the removal of the old hospital and the addition of a brick basement, to make it a suitable residence for an assistant professor	1,200 00
For repairing wharves.....	1,200 00
For grading grounds and extending and repairing pavements	1,000 00
For piling the foundation of building No. 5 (midshipmen's quarters) and for taking down and removing the west end thereof, which has cracked from defective foundation.....	515 00
For constructing a suitable culvert to drain the new quarters and hospital recently erected, 924 feet, at \$2	1,848 00
For repairs of all kinds.....	7,000 00
	<hr/>
	30,263 00
	<hr/> <hr/>

For the wages of the following persons :

1 assistant librarian	\$700 00
8 watchmen, 1 at \$1 62½ per day, and 7 at \$1 37½ per day each.....	4,116 00
1 messenger.....	312 00
1 attendant at recitation hall, at \$18 per month.....	216 00
1 attendant at laboratory, at \$18 per month.....	216 00
1 attendant at library, observatory, and chapel, at \$18 per month.....	216 00
1 foreman to superintend both gas and steam works, at \$2 75 per day.....	821 25
2 attendants at gas apparatus, at \$1 25 per day each....	912 50
2 attendants at steam apparatus, at \$1 25 per day each	912 50
1 general laborer to keep the public grounds in order..	500 00
1 cartman to drive and attend horse and cart.....	365 00
10 laborers to keep in order and attend students' quarters and to assist in keeping the public grounds in order	1,640 00
	<hr/>
	10,927 25
	<hr/> <hr/>

Contingent expenses.

For materials for heating and lighting establishment	\$3,950 00
For the purchase of books for library.....	2,000 00
For stationery, blank books and forms.....	500 00
For furniture and fixtures for public buildings.....	2,000 00
For incidental expenses and repairs in the astronomical and philosophical departments.....	400 00
For all other incidental expenses, including postage, freight, &c.....	1,000 00
	<hr/>
	9,850 00
	<hr/> <hr/>

Total amount required for the Naval Academy for the year ending June 30, 1860.....	\$51,040 25

REPORT OF THE

No. 4.

*Bureau of Construction, &c.—Estimates for fiscal year ending
June 30, 1860.*

NAVY DEPARTMENT, BUREAU OF CONSTRUCTION, &C.,
November 23, 1858.

SIR: I have the honor to transmit herewith two copies of the annual estimates called for by your letter of the 20th August, 1858, accompanied by a report, with an abstract of the same.

Respectfully, your obedient servant,

JOHN LENTHALL,
Chief of the Bureau.

Hon. ISAAC TOUCEY,
Secretary of the Navy.

NAVY DEPARTMENT, BUREAU OF CONSTRUCTION, &C.,
November 23, 1858.

SIR: In compliance with your instructions, it is respectfully submitted that, for the employment of the full number of men authorized by law, and a sufficient number of vessels to keep the men actively and usefully employed, embracing the vessels of recent construction, there will be required for the purposes of the Bureau of Construction for the fiscal year ending 30th June, 1860, the sum of \$3,100,000, being \$250,000 more than the appropriation for the present fiscal year. It is estimated that the unexpended balance at the close of the present fiscal year may be \$180,000, which will all be required for the final payment on contracts falling due in the commencement of the fiscal year succeeding that in which they were made.

The increase in the estimate for increase and repair is occasioned by the number of steamships to be actively employed, the cost of their maintenance being greater than that of ordinary sailing vessels; and the expenses for coal must be largely increased, from the necessity of having proper supplies of it on foreign stations.

The increase in the estimate for the pay of officers and men in actual service is in like manner occasioned by the employment of a greater number of steam vessels.

The five steam sloops-of-war authorized by the act of Congress approved 3d March, 1857, will not require any further appropriation to complete them. Three of these ships are now launched, another it is expected will be launched this winter, and the fifth vessel early in the spring; and all will be ready for sea within three or four months from the time of launching.

For the completion of the seven steam screw sloops-of-war and one side-wheel steamer, authorized by the act of Congress approved 12th June, 1858, there will be required for the purposes of this bureau the further sum of \$674,000. It is expected that five of these vessels will be launched early in the winter, the remaining

three in the spring, and that all of the screw sloops will be ready for service by May or June, and the side-wheel steamer by August next.

I have the honor to be, very respectfully, your obedient servant,
 JOHN LENTHALL,
Chief of the Bureau.

Hon. ISAAC TOUCEY,
Secretary of the Navy.

Abstract of the report of Bureau of Construction, &c.

Estimate for the maintenance of the ships afloat.

Reason for the increase beyond the appropriation of last year.

No further appropriation necessary for sloops-of-war authorized by act of March 3, 1857.

When the vessels may be expected to be ready for sea.

Additional estimate to continue the steam screw sloops-of-war authorized by act of June 12, 1858.

When these vessels may be expected to be ready for service.

A.

Estimate of the amount required for the expenditures of the Bureau of Construction, Equipment, and Repair, for the fiscal year ending June 30, 1860.

For salary of chief of bureau, per act August 31, 1842, volume 5, section 3, page 579, and act of March 3, 1855, volume 10, page 675.....	\$3,500 00
For salary of engineer-in-chief, per act of August 31, 1842, volume 5, section 4, page 577.....	3,000 00
For salary of chief clerk, (4th class,) per act of March 3, 1853, volume 10, page 210.....	1,800 00
For salary of seven clerks, (2d class.) per acts of March 3, 1853, volume 10, page 210, and of April 22, 1854, page 276	9,800 00
For salary of one clerk, (1st class,) per acts of March 3, 1853, and April 22, 1854.....	1,200 00
For salary of one messenger, per acts of August 31, 1842, volume 5, section 6, page 580, and of April 22, 1854, and August 18, 1856.....	840 00
For the salary of two laborers, one for the bureau and one for the office of the engineer-in-chief, per act August 18, 1856.....	1,200 00
	<hr/>
	21,340 00
<i>Contingent expenses.</i>	
For blank books, binding, stationery, printing, and miscellaneous items.....	800 00
	<hr/>
	22,140 00
	<hr/> <hr/>

B.

Estimate for pay of commission, warrant, and petty officers and seamen, including the engineer corps of the navy, required for vessels proposed to be kept in commission, including receiving vessels, for the fiscal year ending June 30, 1860.

Appropriation for the fiscal year ending June 30, 1859 \$2,889,250 00
 Estimate for the fiscal year ending June 30, 1860..... 3,056,635 00

The increase is occasioned by the additional number of officers and others for the steam vessels to be kept in active service.

C.

Estimate of the amount required for objects under the direction of this bureau, payable from the appropriation for construction, equipment, and repair, for wear and tear of vessels in commission, including fuel for steamers, and the purchase of hemp for the navy, for the fiscal year ending June 30, 1860.

Appropriation for the fiscal year ending June 30, 1859.		Estimate for the fiscal year ending June 30, 1860.	
Construction, &c.....	\$2,850,000 00	Construction, &c.....	\$3,100,000 00
Five steam sloops.....	1,350,000 00	Seven screw sloops and one side-wheel steamer.....	674,000 00
Seven screw sloops and one side-wheel steamer.....	1,200,000 00		3,774,000 00
	5,400,000 00		

The excess on the appropriation for increase and repair is occasioned by the increased number of steam vessels and the larger quantity of coal necessary.

D.

Estimate of the amount required for the expenditures, under the head of "enumerated contingent," for the fiscal year ending June 30, 1860.

Appropriation for the fiscal year ending June 30, 1859. \$350,000 00
 Estimate for the fiscal year ending June 30, 1860..... 350,000 00

RECAPITULATION OF ESTIMATES.

Civil.

Salaries.....	\$21,340 00
Contingent.....	800 00

Navy.

Pay of the navy.....	3,056,635 00
Construction.....	3,100,000 00
Seven steam screw sloops and one side-wheel steamer...	674,000 00
Contingent enumerated.....	350,000 00

Estimate of appropriations, under the cognizance of the Bureau of Construction, Equipment, and Repairs, required for the service of the fiscal year ending June 30, 1860.

Vol. iii—35

Heads or titles of appropriations.	Estimates of appropriations required for the service of the fiscal year ending June 30, 1860.	Estimates of the balances of appropriations unexpended on the 30th June, 1859, which may be applied to the service of the next fiscal year.*	Appropriations for the fiscal year ending June 30, 1859.
Civil and contingent expenses of the bureau	\$22,140 00	\$22,140 00
Pay of the navy	3,056,635 00	2,889,250 00
Construction, equipment, and repairs	3,100,000 00	2,850,000 00
Five steam sloops	1,350,000 00
Seven screw steam sloops and one side-wheel steamer	674,000 00	1,200,000 00
Contingent enumerated	350,000 00	350,000 00

* It is believed there will be no balance of unexpended appropriations on the 30th June, 1859, applicable to the service of the next fiscal year.

SECRETARY OF THE NAVY.

NAVY DEPARTMENT, BUREAU OF CONSTRUCTION,
November 23, 1858.

SIR: In conformity with the act of the 5th of March, 1843, I respectfully transmit herewith duplicate abstracts of offers to furnish naval supplies coming under the cognizance of this bureau, exhibiting in scales from Nos. 1 to 8, inclusive, as well those which were rejected as those accepted, between the dates of the 19th of November, 1857, (date of last report,) and the 23d of November, 1858; and in conformity with the act of 21st of April, 1808, I also transmit a duplicate list of articles under contract made during the same period.

I have the honor to be, very respectfully, your obedient servant,
JOHN LENTHALL,
Chief of the Bureau.

Hon. ISAAC TOUCEY,
Secretary of the Navy.

No. 1.

No. 5.

Abstract of annual report from the Bureau of Provisions and Clothing dated November 17, 1858.

Transmits estimates, abstracts, and statements.
 Faithful services of naval storekeepers and inspectors.
 Advantages of new storehouses.
 Renews recommendation to create grade of assistant pursers.
 Suggests the need of additional store-vessels.
 Renews recommendation to increase pay of purser's clerks at navy yards.

BUREAU OF PROVISIONS AND CLOTHING,
 November 17, 1858.

SIR: In compliance with your instructions, dated August 20, 1858, I have the honor to submit the enclosed estimates, marked A, B, C, D, with abstracts and statements, marked E to N, inclusive.

Naval storekeepers and inspectors.

The duties of the naval storekeepers, abroad and at home, have during the past year been performed with commendable promptitude, fidelity, and care; while the inspectors in charge of provisions have fulfilled their laborious and responsible trust with unswerving fidelity and indefatigable zeal. A large share of the successful operations of the system of supplies of provisions and clothing for the navy depends upon these inspectors, and hitherto the highest expectations of the bureau have not been disappointed.

New storehouses.

The new storehouses for provisions, &c., at Boston and Norfolk conduce much to the preservation of the stores and to convenience in receiving and issuing them. The large storehouse at New York, now rapidly approaching its completion, will soon give that important station excellent storage for the large quantities of provisions, clothing, and small stores kept there.

Assistant pursers.

In view of the increasing number of small vessels in the navy, it seems almost indispensable either to increase the present corps of pursers or to create a grade of assistant pursers.

There are sixty-four pursers allowed by law. Of these, thirty-one are on sea duty, seventeen on shore duty, and fourteen on leave or waiting orders, and there are two vacancies. In the list of those on leave are included all who are, from age or physical infirmity, unfit for duty, and those who have just returned from sea, and are engaged in settling their accounts.

There are sixteen vessels now in commission without pursers. The duties of purser on board nine of these are performed by the commanding officers, against their will, and with almost certain pecuniary loss, for which they receive no additional compensation. A commander, acting as purser, cannot give his full attention to his appropriate duties, and he is placed in a false position by acting as paymaster to his crew, when there can be no umpire between them, himself being the arbiter as well as a party in any question which may arise relating to accounts.

Four vessels have no pursers on board, but pursers attached to other vessels have been ordered to take charge of the accounts of both, and are held responsible for the property in the purser's department of both, though they may be separated for months.

The duties of purser of three receiving ships are done by the respective navy agents on shore.

It would, in my opinion, be of very great advantage to the service if Congress would authorize the creation of a grade of assistant pursers, who should be subject to examination before appointment, whose appropriate service should be in small vessels, and from whom all appointments of pursers should be made by regular promotion.

Store-ships.

The operations of this bureau might be carried on with much greater advantage if four or five additional store-vessels could be procured.

A permanent store-ship at Panama would furnish storage for the Pacific squadron of a safer and more convenient kind and at a much cheaper rate than it can be had for on shore. Besides, in the absence of cruising vessels, a national store-ship might render important service in guarding and attending to the interest of the government and of individual Americans residing in or passing through that city.

A propeller store-vessel could be most advantageously employed in running between New York and Aspinwall, supplying the store-ship and other vessels at Panama by means of the railway across the Isthmus, as well as the vessels of the home squadron on the coast of Central America; and she would do valuable service in bringing home invalids from the two squadrons and in taking out recruits for them.

The African squadron is deprived of much of its efficiency by the want of a depot of provisions on the southern portion of its cruising grounds. From the present depot at Porto Praya to the southern limit of the station is nearly 3,000 miles by the usual route of cruisers. Small vessels carrying but three or four months' provisions, with the light winds and calms often prevailing, can hardly reach that limit before it becomes necessary to return for new supplies. They can cruise but very little on the southern coast, where the slave trade is most active, without buying supplies at exorbitant prices from transient merchantmen. A stationary store-ship at Great Fish Bay or St. Paul de Loando would enable vessels to cruise south of the equator as much as north of it, and far more usefully.

A propeller of 300 or 400 tons would be sufficient to supply the two depots with necessary stores of all kinds, would afford, twice or thrice a year, direct and certain communication with the squadron, and would bring home invalids comfortably and at small expense.

There are but three store-vessels now in service available for carrying supplies to the six established squadrons, and one of these is too small to be of much use.

Four or five additional store-vessels would, in my opinion, conduce greatly to the convenience and efficiency of distant squadrons.

Pay of pursers' clerks at navy yards.

I renew my recommendation for an increase of the present inadequate pay of pursers' clerks at navy yards.

This deserving class of officers, whose duties are both arduous and responsible, are now allowed by law much less than copying clerks or common writers receive in every navy yard.

I am, very respectfully, your obedient servant,

H. BRIDGE,
Chief of Bureau.

Hon. ISAAC TOUCEY,
Secretary of the Navy.

Schedule of the papers accompanying the report of the Chief of the Bureau of Provisions and Clothing to the Secretary of the Navy, dated November 17, 1858.

- A.—Estimate of the expenses of the bureau for the fiscal year.
- B.—Estimate for provisions for the navy for the fiscal year.
- C.—Estimate for contingent for the navy for the fiscal year.
- D.—Estimate to reimburse appropriation for clothing issued to destitute Americans brought home from Nicaragua.
- E.—Statement showing the value of provisions, clothing, and small stores on hand.
- F.—Statement showing the value of shipments made by the bureau to foreign stations.
- G.—Statement showing the cost of provisions, clothing, and small stores condemned.
- H.—Abstract of proposals received for navy supplies.
- I.—Abstract of proposals received for small stores.
- K.—Abstract of proposals received for soap, candles, &c.
- L.—Abstract of proposals received for fresh beef and vegetables.
- M.—Abstract of proposals received for transportation of stores.
- N.—Statement of contracts made by the bureau during the year.

A.

Estimate of the expenses of the Bureau of Provisions and Clothing for the fiscal year ending June 30, 1860.

For salary of one clerk of the fourth class, per act of Congress of March 3, 1853, section 3, vol. 10, page 209.....	\$1,800 00
For salaries of four clerks of the second class, per acts of Congress of March 3, 1853, section 3, vol. 10, page 209, and April 22, 1854, section 1, vol. 10, page 276.....	5,600 00
For salary of one messenger, per joint resolution of Congress of August 18, 1856.....	840 00
For salary of one laborer, per joint resolution of Congress of August 18, 1856.....	600 00
	<hr/>
	8,840 00
	<hr/> <hr/>

Contingent.

For blank books, stationery, and miscellaneous items.....	\$700 00
	<hr/> <hr/>

Appropriated for the year ending June 30, 1859 :

For salaries of clerks, messenger and laborer.....	\$8,840 00
For contingent.....	700 00
	<hr/>
	9,540 00
	<hr/> <hr/>

Asked to be appropriated for the year ending June 30, 1860 :

For salaries of clerks, messenger and laborer.....	\$8,840 00
For contingent.....	700 00
	<hr/>
	9,540 00
	<hr/> <hr/>

H. BRIDGE, *Chief of Bureau.*

B.

Estimate from the Bureau of Provisions and Clothing for that portion of the naval service coming under its cognizance for the fiscal year ending June 30, 1860.

One ration per day for 8,500 men would be, for the year, 3,102,500 rations, at 25 cents each.....	\$775,625 00
One ration per day for 750 commission and warrant officers "attached to vessels for sea service," for the year, would be 273,750 rations, at 25 cents each.....	68,437 50
One ration per day for 750 officers and marines "attached to vessels for sea service" would be 273,750 rations, at 25 cents each.....	68,437 50

Additional sum required for an estimated number of 4,000 men, who may decline to draw the spirit portion of their ration, as provided by the acts of March 3, 1847, section 1, vol. 9, page 169, and August 3, 1848, section 5, vol. 9, page 271.....	\$29,200 00
To reimburse appropriation for provisions for issues to supernumeraries, destitute Americans, brought home in national ships from Nicaragua in 1857.....	4,140 00
	<u>945,840 00</u>
Asked to be appropriated for the year ending June 30, 1860.....	\$945,840 00
Appropriated for the year ending June 30, 1859.....	941,700 00
	<u>4,140 00</u>
Excess.....	<u>4,140 00</u>

This excess is occasioned by the amount asked for to reimburse the appropriation for provisions for issues to destitute Americans.

H. BRIDGE, *Chief of Bureau.*

C.

Estimate of the sum which will be required by the Bureau of Provisions and Clothing, under the head of contingent, for the fiscal year ending June 30, 1860.

Contingent.

To meet the demands upon the bureau for candles, freight to foreign stations, transportation from station to station within the United States, cooperage, pay of assistants to inspectors, advertising for proposals, printing pursers' blanks, and stationery for cruising vessels.....	\$68,000
	<u>\$68,000</u>

H. BRIDGE, *Chief of Bureau.*

D.

To reimburse appropriation for clothing for the navy for issues to supernumeraries, destitute Americans, brought home in national ships from Nicaragua in 1857.....	\$3,144 00
	<u>\$3,144 00</u>

H. BRIDGE, *Chief of Bureau.*

Estimate of appropriations, under the cognizance of the Bureau of Provisions and Clothing, required for the service of the fiscal year ending June 30, 1860.

Heads or titles of appropriations.	Estimates of appropriations required for the service of the fiscal year ending June 30, 1860.	Estimates of the balances of appropriations unexpended on the 30th June, 1859, which may be applied to the service of the next fiscal year.	Appropriations for the fiscal year ending June 30, 1859.
Expenses of the bureau	\$0,540 00	\$9,540 00
"Provisions"	945,840 00	911,700 00
"Clothing for the navy"	*3,144 00
Contingent	68,000 00

* To reimburse the appropriation for clothing for the navy for issues to destitute Americans as per estimate "D."

H. BRIDGE, *Chief of Bureau.*

No. 6.

NAVY DEPARTMENT,
Bureau of Medicine and Surgery, October 26, 1858.

SIR: I have the honor to submit the following synopsis of the annual report of the Bureau of Medicine and Surgery:

1. Fiscal condition of the medical department of the navy.
2. Remarks upon the mortality on board the vessels-of-war on the various stations, and tabular statements deduced from the quarterly reports of sick from stations within the United States, for the year ending September 30, 1858; and from vessels in commission for sea service for the year ending December 31, 1857. Also, an exhibit of the principal forms of disease that prevailed on the different foreign stations for the year 1857.
3. Notice of the present condition of the hospital fund, and an exhibit of the receipts into and payments from this fund for the fiscal year ending June 30, 1858.
4. Observations on the naval laboratory, with a statement of its receipts and issues for the year ending June 30, 1858.
5. Report of the number and condition of the insane of the navy in the government hospital for the insane, near Washington.
6. Estimates in detail for the support of the Bureau of Medicine and Surgery, (A,) and of the medical service, hospitals excepted, (B,) for the year ending June 30, 1860.
7. Observations and statements exhibiting the urgent necessity for an increase in the number of medical officers of the navy.

W. WHELAN.

NAVY DEPARTMENT,
Bureau of Medicine and Surgery, October 26, 1858.

SIR: In compliance with your instructions of August 20 I have the honor to submit herewith estimates of the sums required for the support of this bureau and of the medical department of the navy, with the exception of hospitals, for the year ending June 30, 1860.

The fiscal condition of the medical department is exhibited as follows:

Balance of former appropriations remaining in the treasury July 1, 1858.....	\$7,810 41
Appropriation for surgeons' necessaries and appliances, per act of Congress approved June 12, 1858.....	32,150 00
Amount of hospital fund in treasury October 1, 1858....	47,964 46
Amount required for the support of the Bureau of Medicine and Surgery for the year ending June 30, 1860, (schedule A).....	9,990 00
Amount required for the support of the medical department of the navy on shipboard and at all naval stations, with the exception of hospitals, for the year ending June 30, 1860, (schedule B).....	35,600 00

The estimates are based upon the arrangement and distribution of the naval forces for the year, prepared by the Bureau of Construction, Equipment, and Repair. The excess of \$3,450 over the estimates for the present year is owing to the introduction of ten steamers of small size in lieu of one sailing frigate; in other respects they are similar in amounts to the expenditures of the past two years.

The business of the department is conducted with the strictest economy, and it is believed that the present estimates will not admit of any reduction.

I subjoin "tabular statements of sick," compiled from "reports of sick," from naval stations within the United States, for the year ending September 30, 1858; and from the different squadrons in commission on home and foreign service, for the year ending December 31, 1857. The latter are somewhat incomplete, owing to the remoteness of some of the stations, and the consequent difficulty of communication; still, they are sufficient to denote the ratio of sickness and mortality on board our public vessels, as well as the peculiar diseases to which seamen are exposed.

Hospitals.	Remaining sick, Sept. 30, 1857.	Admitted.	Total treated in year ending Sept. 30, 1858.	Died.	Per centage of deaths in num- ber of cases.	Remaining sick, Sept. 30, 1858.
Chelsea	11	183	194	8	4.12	12
New York	31	277	307	14	4.54	35
Philadelphia	15	113	128	17	13.28	9
Norfolk	17	293	310	11	3.54	22
Pensacola	6	67	73	1	1.49	12
Total, hospitals.....	80	933	1,013	51	5.03	90
Navy yards, receiving ships, Naval Academy, and Observatory.....	60	3,163	3,223	13	0.40	62
Total, shore stations.....	140	4,096	4,236	64	1.51	152

Squadrons.	Vessels.	Persons.	Remaining sick De- cember 31, 1856.	Admitted 1857.	Total treated 1857.	Died.	Proportion of cases to whole number of persons.	Per centage of deaths in number of cases treated.	Remaining sick De- cember 31, 1857.
Home	3	886	41	1,537	1,578	4	1.78	.25	50
Pacific	3	632	28	1,030	1,058	3	1.67	.28	21
Mediterranean	3	1,100	35	1,131	1,166	6	1.06	.51	43
Brazil	2	648	19	869	888	6	1.37	.67	15
Africa	3	680	18	904	922	5	1.35	.54	36
East India	3	582	59	1,628	1,687	25	2.90	1.48	47
Total squadrons.....	17	4,528	200	7,099	7,299	49	1.61	.67	212

Summary of the prevalent forms of disease in squadrons on foreign and home service in 1857.

Diseases.	Mediterranean, 900 men.	Pacific, 680 men.	Africa, 680 men.	East India, 630 men.	Brazil, 650 men.	Home squadron, 890 men.
Febrile diseases.....	107	124	65	164	102	306
Diseases of digestive system.....	148	174	256	772	149	166
respiratory system.....	232	118	137	105	157	200
circulatory system.....	8	7	7	9	2	6
brain and nervous system.....	30	26	23	40	31	49
cutaneous system.....	111	131	116	62	88	268
fibrous and osseous system.....	93	74	108	132	84	130
genito-urinary system.....	144	106	66	168	91	110
eye and ear.....	22	22	22	48	23	33
Wounds and injuries.....	88	169	39	107	129	249

The statistics exhibit a very satisfactory state of health on board vessels in active service, attesting, alike, a general attention to hygienic principles, and the care and vigilance of medical officers.

At the close of the year 1856, there remained under treatment 439 cases; during the year 1857, as far as our returns enable us to state, there occurred 14,327 cases of disease, injury, &c., making an aggregate of 14,766 cases treated during the year. Of this number 1r3 died, 14,139 were returned to duty or discharged the service, leaving 504 cases under treatment at the end of the year.

The average strength of the navy, including officers, seamen, marines, engineers, &c., for the year 1857 was as nearly as can be ascertained, about 10,163.

The ratio of cases treated to the whole number of persons in service, was about 141 per cent., or each person was on the sick list $1\frac{41}{100}$ time during the year. The proportion of deaths to the whole number in service was 1.21 per cent., and the proportion of deaths to the whole number of cases treated was .83 per cent., or one death in 120 cases.

The only occurrence of special interest, requiring notice in this report, was the prevalence of yellow fever on board the United States steamer *Susquehanna*, while at anchor in the harbor of San Juan del Norte, Central America, in March last. She had reached that station in December preceding, from the Mediterranean, with her officers and crew in a perfectly healthy condition, and although there was no evidence that the disease existed on shore, its out-break on board the steamer was so sudden and so violent, that before she could reach Jamaica, only a few days steaming distant, the ship was quite disabled. One hundred and six cases occurred on board between the

latter part of March and the 15th of April, among a crew of 300 persons, of these 17 died on board, 85 were sent to the Royal Naval Hospital at Jamaica, where they received every possible care and attention. Twenty-three deaths occurred among those sent to the hospital; the others were returned to the United States on recovery.

The Susquehanna reached the quarantine station, New York, April 15th, with 50 cases of fever on board, and was immediately put out of commission and abandoned by the remaining crew. When the process of breaking out and cleansing the vessel was commenced, sometime subsequently (in the month of June) occasional cases of fever of the same type, occurred among the men employed in the work; the last case as recently as the 6th of September. Six cases have occurred on board since the ship has been at quarantine, three of which proved fatal. These facts are conclusive to many minds, that the cause of this terrible disease existed in the vessel, and that it was not directly contracted in the port of San Juan, though the continued high temperature and drenching rains that prevailed at the time may have stimulated internal causes into such fearful activity. At the time the fever broke out on board, the Susquehanna was to all appearance in the best condition as respects cleanliness and order. The cause of the disease was doubtless to be found in those parts of the ship most difficult of access, where grease, oil, &c., from the engines and other deposits from leakage, &c., were likely to accumulate, and which are not to be reached in the ordinary mode of cleansing cruising vessels.

It seems to be an admitted fact that steamers are less healthy than sailing vessels, owing perhaps to the different kind of materials received and used on board, and the greater liability of animal matter to decomposition by the high temperature maintained in the lower part of the vessel by the furnaces.

During the period embraced in the tables, it affords me great satisfaction to refer to the highly favorable sanitary condition of our cruising vessels, and I call attention as an act of justice to the medical officers, to the very small ratio of mortality in the naval service, where from the very nature of the vocation there is such constant exposure to circumstances militating against health and life.

The vessels composing the African squadron present the usual immunity from serious illness and death, with the exception of the "Dale," where fever prevailed to a considerable extent in the early part of this year. A resort to the islands, with other measures, restored health to the ship's company, without the loss of a patient by fever though sixty-one cases are reported.

The "Cumberland," the flag-ship of the station, with a complement of 350 persons, has had but one death in nine months' service.

The "St. Louis," with a complement of 185 persons, has had two deaths during the year 1857.

The "Dale," with a complement of 145, has had one death in nine months.

Indeed, vessels like the Constitution frigate, and Jamestown, first

class sloop, have performed the entire African cruise without the loss of a man by disease.

It is not to be inferred from such statements that the African station is considered salubrious, for it is quite the reverse. Our fortunate escape from the diseases and mortality common to that region is due, in a great measure, to the wholesome sanitary regulations in force in the squadron and the vigilance and skill of the medical officers. It is mainly by these means we are able to preserve such a state of health amid causes well calculated to break down the strongest constitutions. The short term of the cruise is doubtless a powerful safeguard against the effects of a climate proverbially unfavorable to health and life.

The home squadron, though much and continuously occupied on the coast of Central America, presents equally happy results.

The "Cyane," with a crew of 185 persons, did not lose a man in the year 1857; and, indeed, not a death is reported on board during the cruise on this station between May, 1855, and the close of the year 1857.

The "Saratoga," of the same complement, employed continuously on this station between September, 1855, and January, 1858, reports but two deaths.

The "Wabash," flag-ship, with a complement of 560 men, lost but two of her crew, though she was on the coast of New Granada, Central America, most of the year 1857.

In the Mediterranean squadron the "Congress," flag-ship, with a crew of 480, lost six by death in 1857. The "Constellation," of 300, and the "Susquehanna," of 320, had no death in 1857.

In the Brazil squadron the "St. Lawrence," flag-ship, of 460 men, lost three of her crew, and the "Falmouth," of 180, lost two during 1857, while the vessels were much exposed to yellow fever, which prevailed at Rio and also at Monte Video, where this disease had been previously almost unknown.

The "Portsmouth" and "Levant," sloops of the same complement, about 180, employed throughout 1857 on the East India station; the former had two deaths and the latter sixteen during an epidemic of small pox and dysentery.

In the Pacific the "John Adams," with one hundred and forty-five men, had but one death in 1857, and the "Decatur," of one hundred and thirty, none.

HOSPITAL FUND.

Hospitals of the navy derive their means of support from a fund created by a monthly deduction of twenty cents from the pay of the officers and men of the navy, and by the transfer of the value of rations stopped on account of sick while under treatment in these establishments.

The beneficiaries of the Naval Asylum, who have heretofore derived their maintenance from this fund to its constant impoverishment, have been recently provided for by appropriations by Congress.

The fund, thus relieved from a heavy tax of supplying them with some rather extraneous allowances in the shape of pocket money, tobacco, &c., will hereafter be ample for the more legitimate purposes of taking care of sick in hospitals.

The fund will also be recuperated by the value of the ten acres of land purchased out of its means, but appropriated for a marine hospital at Chelsea, Massachusetts; Congress, at its late session, having authorized the payment of its value to the hospital fund when it shall be ascertained, in such way as the Secretaries of the Treasury and Navy may adopt.

The hospitals of the navy are well organized and efficiently and economically administered. They are ample in their accommodations and appointments for the wants of the navy for many years to come.

It is certainly no small solace to the sailor, when broken down in the service of his country by age, sickness, or casualty, that such places of refuge and treatment await him as the navy provides in its asylum and hospitals.

The average cost per week of hospital patients for the year ending September 30, 1858, has been \$2 65, under all the heads coming within the cognizance of this bureau.

The condition of the hospital fund is exhibited as follows :

Amount in treasury July 1, 1857.....	\$70,715 11
Drawn by Bureau of Medicine and Surgery during the year ending June 30, 1858, on account of expense of hospitals and for purchases for the laboratory.....	\$32,520 00
Drawn by Bureau of Yards and Docks for Naval Asylum, and by transfers made by Fourth Auditor.....	28,744 32
	<hr/>
	61,264 32
Balance	<hr/> <hr/> 9,450 79

Credits.

By deductions and credits made by Fourth Auditor....	\$18,885 70
Laboratory supplies to vessels and stations.....	13,561 45
Value of stopped rations of sick sent to hospitals on shore during 1857.....	6,517 27
Pensions of inmates of Naval Asylum reverting to the fund during the year ending June 30, 1858.....	307 08
Balance as above.....	9,450 79
	<hr/>
Amount remaining in treasury July 1, 1858....	<hr/> <hr/> 48,722 29

Naval laboratory.

This establishment continues to meet all the purposes for which it was organized, as well as to afford the usual facilities to other departments of the navy, in the way of analyses and other critical examina-

tions of articles offered under contract, whose composition and quality cannot be ascertained by mere physical inspection.

The recent meeting of the American Pharmaceutical Association in this city developed the fact, that the act of Congress establishing the inspection of drugs, &c., imported into our commercial marts, does not in any material degree affect the home adulteration of medicines; but the preparation at the laboratory of nearly every article comprised in our "Allowance Table" exempts us from the uncertainties to which the medical profession generally is liable, and insures to the navy medicines of uniform purity and strength, which are distributed to home and foreign stations at prices but little beyond the cost of manufacture.

Amount of purchases for the laboratory for the year ending June 30, 1858	\$14,054 86
Value of issues for the same period	15,316 20
Stock on hand, machinery, appliances, &c.	21,740 24
	<hr/> <hr/>

Insane of the navy.

At the date of my last report there were one officer and eleven seamen and marines in the government hospital for the insane near this city. During the year ending September 30, 1858, there have been one death, one desertion, and one admission; leaving one officer and ten men under treatment.

It is unnecessary to allude to the merits of this institution, or to its manifold advantages for the safe custody and judicious treatment of the unfortunate class of patients, for the relief of which the Congress of the United States have made such munificent provision. This asylum contains every modern improvement in this particular department of medicine, and may justly challenge a favorable comparison with similar institutions in this or any other country.

Medical corps of the navy.

According to the schedule of the naval force to be employed during the year, prepared by the Bureau of Construction, Equipment, and Repair, embracing the increase of steam vessels authorized by the last Congress, thirty-nine surgeons and seventy passed and other assistant surgeons will be required for sea service. Medical officers are also employed at the various hospitals, navy yards, receiving ships, and rendezvous, to the number of twenty-six surgeons and seventeen passed and other assistant surgeons; making a total of sixty-five surgeons and eighty-seven assistant surgeons to meet these demands.

Now to supply these posts, we have sixty-nine surgeons and eighty passed and other assistants, the limit of the medical corps as fixed by act of Congress of August, 1842. Of these grades, at least ten surgeons, if not more, and an equal number of assistants are unfit for duty by reason of age, sickness, or infirmity; it must hence be ap-

parent that the present strength of the medical corps is wholly inadequate to the current demands upon it.

And, while age and the vicissitudes of naval life are making annual inroads upon our very restricted corps, the navy has undergone a very material increase; for, within a brief period of time, twenty steam vessels have been added to the force, and the number of seamen, marines, engineers, &c., largely augmented.

At this moment there are but very few medical officers unemployed beyond those who are unfit for duty and those who have just returned from foreign service, while sundry shore stations are without their usual complement, because of the greater demand for their services afloat.

The necessity for an increase of medical officers has been brought to the notice of the department for several years past, but it has become so much more urgent of late that I am compelled by a sense of duty to solicit again a favorable consideration by the honorable secretary of a measure which justice to the medical corps and the true interests of the navy alike combine to recommend.

It is to be borne in mind, too, that the law "to promote the efficiency of the navy" was not applied to the medical corps; hence, there still appear on the register the names of many who have not performed any duty for years, and who never will be able, by participation, to lighten the labors of those upon whom so much is devolved.

I believe the sentiment of the navy is almost unanimous in regard to the present inadequacy of the medical corps, and the indispensableness of an increase of its number.

It is a curious fact that this branch of the service should have remained nearly stationary, while the various other grades have been largely augmented from time to time as circumstances required.

A comparison between the navy of to-day and at the close of the year 1815 will exhibit the present disproportionate relation between the medical and other officers.

	1815.	1858.	Increase.
Captains	23	76	44
Commanders	18	106	88
Lieutenants	140	319	179
Surgeons	48	69	21
Assistant surgeons	72	80	8

These figures show that while other corps have been largely increased, the medical department has undergone but an inconsiderable numerical change in the last forty years, while its efficiency is constantly abating by the advanced age and infirmity of its members, and the occasions for their employment increase with the constant expansion of the naval service.

Twenty additional surgeons and the same number of assistants would be no more, in my judgment, than the present and immediate prospective wants of the navy require for the prompt performance of current duties, and to afford the customary indulgence granted to all officers at the expiration of foreign service.

No contracts have been made by this bureau during the year.

NOTE.—The increase of the present estimate over that of last year, amounting to \$3,450, is due to the distribution of the force among a larger number of vessels.

W. WHELAN.

No. 7.]

HEADQUARTERS OF THE MARINE CORPS,
Washington, November 20, 1858.

SIR: The usual tour of inspection to the several stations of the marine corps has been made during the present year.

In the early part of May I inspected at Pensacola. The new barracks were rapidly progressing toward completion. The contract has apparently been faithfully executed and the several buildings are substantial and commodious. At this time I conclude that the troops are quartered in them, affording ample space for their better drill, while they will greatly conduce to their improvement in health and comfort.

At Portsmouth, N. H., the barracks require nothing but the ordinary repairs which time renders necessary. At New York the foundation of the new barracks is begun, and I hope that the appropriation will suffice for their completion within the estimates of the architect and that they will be finished in the course of the ensuing year.

At Boston, Philadelphia, and Norfolk, comfortable and healthy barracks with sufficient space for drill are quite as necessary for the troops as at Pensacola and New York, and I trust that provision will be made for their erection as soon as the public convenience will admit of it.

At headquarters particularly, and at the several shore stations recruits continue to be drilled and soldiers prepared for active service at home and abroad, and every practicable facility should be afforded to instruct them in all the duties of their profession.

In the army, exclusive of the usual quarters at each post and fort, there are large barracks for drill at Carlisle, Pennsylvania, at Fortress Monroe, Bedloe's Island, New York, at Newport, Kentucky, and at Jefferson barracks, Missouri. The same drill should be imparted to every soldier, whether of the army or of the marine corps; the marines having more than once taken the field with the army as in Florida and Mexico.

The necessity of this drill and its utility may be practically illustrated during the course of the present expedition to Paraguay. It may also show the propriety of having established at headquarters a school for drill both in the use of the musket and of light and heavy artillery, which latter practice with the sanction of the department went into operation about a year ago. The guard of nearly all the vessels that have sailed on this expedition are composed of soldiers who received their drill here, and who were as carefully and closely exercised as their stay would admit of. The marines for the remaining ships will not have the advantage of this drill and will be almost all recruits, but even they by being properly distributed among drilled soldiers may soon acquire the steadiness of their immediate associates in the ranks on the right and left.

The whole force of the corps on this expedition, exclusive of that on board of the squadron at Buenos Ayres, will not exceed three hundred rank and file and the officer commanding it is but a first lieutenant with the brevet rank of captain, with but one other first lieutenant with him and some five or six second lieutenants. Should there be occasion for service on shore and a casualty happen to the brevet captain, there remains but one first lieutenant to take his place, and should he be placed *hors de combat* the command of a battalion would devolve on a young second lieutenant.

At this moment I have to detail an officer for foreign service who returned but eight months ago from a long cruise and has been on shore duty but a few months. I think Congress cannot refuse an addition of 7 captains and 10 first and 10 second lieutenants, as the corps has now in it 1368 privates, exclusive of the 200 recently allowed by order of the President of the United States under the act of March 3, 1849, and without which additional number the Paraguay expedition would have had no marines to accompany it unless two thirds if not all the shore stations had been broken up.

In addition to this increase of officers for the present wants of the corps I must earnestly recommend to the department a large increase on the present rank and file of the corps, in order to meet the indispensable requirements of the service ashore and afloat. The guard in all our national vessels are smaller than those of foreign powers, and smaller than an enlightened sense of our public interest requires. A thousand additional privates with the requisite number of non-commissioned officers would not be a man too many. In this view I am entirely supported by the great mass of the intelligence and respectability of the officers of the navy. This increased force would call for a corresponding increase of officers in order to put the corps in this respect on a par with other military organizations.

I cannot close this report without again calling the attention of the department to the urgent necessity of having a standard of education for officers of the corps. This is called for alike by a sense of justice to the service and to the country. A private before entering its ranks has at least to undergo a surgical examination. But as to officers there is not even a guarantee against physical disqualification. This should not be the case. A remedy could be found by commissioning the officers from the cadets at West Point, a certain number of whom could be appointed with the especial view of entering the corps. This experiment was once tried and would have succeeded beyond question had it been continued. If this suggestion should not be carried out a preliminary examination might at least be instituted and required in order to test the mental and physical fitness of candidates for this branch of the public service. On this head reference is respectfully made to any British navy list in order to show the qualifications which are deemed necessary to be possessed by a candidate for admission into the corps of royal marines. Unless one or other of these courses be adopted it is impossible to conceive how, in this advancing age, we can successfully keep pace with our brethren in arms at home and abroad.

The department will excuse, I trust, this oft repeated recommendation in the interest which I feel in the well being of the corps which for so many years I have had the honor to command.

The general return of the corps in triplicate and schedules of bids and schedules of contracts from the quartermaster's department are herewith transmitted.

With high respect, I am your obedient servant,

ARCH. HENDERSON,

Brevet Brig. Gen. commanding.

Hon. ISAAC TOUCEY, *Secretary of the Navy.*

General return of the officers, non-commissioned officers, musicians, and privates of the United States Marine Corps, on the 31st day of October, 1858.

Lieutenant John O. Payne dismissed the service October 25, 1858, by sentence of marine general court-martial.

H. B. TYLER, *Adjutant and Inspector.*

HEADQUARTERS OF THE MARINE CORPS, *Adjutant and Inspector's Office, Washington, November 18, 1858.*

HEADQUARTERS OF THE MARINE CORPS,
Washington, October 8, 1858.

SIR: I enclose to the department triplicate estimates from the Quartermaster's Department for the year ending July 1, 1860.

I also enclose an explanatory letter from the Quartermaster.

I remain, most respectfully, yours,

ARCH'D HENDERSON,
Brevet Brigadier General, commandant.

Hon. ISAAC TOUCEY,
Secretary of the Navy.

HEADQUARTERS MARINE CORPS, QUARTERMASTER'S OFFICE,
Washington, October 7, 1858.

SIR: I have the honor to transmit herewith triplicate estimates for the support of the quartermaster's department, marine corps, from July 1, 1859, to June 30, 1860.

These estimates vary from those of last year, under the following heads, viz:

Provisions are increased \$7,446, to ration the supposed number of men that will be on shore of the increase authorized by the President of the United States on the 8th of September, 1858, per act of March 3, 1849.

Clothing is increased \$7,344, to meet expenses of increase of 232 men. There is also introduced, under this head, the sum of \$40,000, to refund this appropriation for overpayments made in former years.

Fuel is increased \$1,585 50, to meet expenses of increase of the corps.

Military stores varies from last year, as follows: \$16,000, asked for last year to purchase arms, is omitted, and the regular item of military stores increased \$3,000, to meet expenses of ordnance stores procured from the navy for guards of vessels, &c., and which the appropriation for the marine corps is charged with.

Transportation, &c., is increased \$2,000, to meet the expense of the frequent transfer of guards for ships-of-war.

I am, sir, very respectfully, your obedient servant,

D. J. SUTHERLAND,
Quartermaster, U. S. M. C.

General A. HENDERSON,
Commandant Marine Corps, Headquarters.

Estimate of the expenses of the quartermaster's department of the marine corps for one year from the 1st of July, 1859, to the 30th of June, 1860.

There will be required for the quartermaster's department of the marine corps for one year, commencing on the 1st of July, 1859, in addition to the balances then remaining on hand, the sum of two hundred and seventy-four thousand four hundred and fifty-seven dollars and twenty-five cents, viz:	
1. For clothing..... To refund overpayments on account of this appropriation for former years..	\$73,856 00 40,000 00
2. For provisions.....	71,759 00
3. For fuel.....	22,342 25
4. For military stores, viz: pay of armorers and repair of arms, purchase of accoutrements, ordnance stores, flags, drums, fifes, and other instruments..	12,000 00
5. Transportation of officers and troops, and for expenses of recruiting.....	14,000 00
6. For repair of barracks, and rent of offices where there are no public buildings for that purpose.....	8,000 00
7. Contingencies, viz: freight, ferrriage, toll, cartage, wharfage, compensation to judges advocate, per diem for attending courts martial, courts of inquiry, and for constant labor, house rent in lieu of quarters, burial of deceased marines, printing, stationery, postage, telegraphing, apprehension of deserters, oil, candles, gas, forage, straw, furniture, bed-sacks, spades, shovels, axes, picks, carpenters' tools, keep of a horse for the messenger, pay of matron, washerwoman, and porter at the hospital, headquarters...	32,500 00
Amount required.....	274,457 25

Respectfully submitted.

D. J. SUTHERLAND,
Quartermaster United States Marine Corps.

	8,120 00
For fuel for 116 men, half the number authorized, and supposed to be on shore, 145 cords of wood, at \$7 per cord.....	1,015 00
For military stores, (232 sets of accoutrements, at \$4 09½ per set).....	951 64
For transportation and expenses of recruiting	500 00
Amount required	16,919 64

Respectfully submitted.

D. J. SUTHERLAND,
Quartermaster United States Marine Corps.

HEADQUARTERS MARINE CORPS,
Quartermaster's Office, Washington, October 7, 1858.

HEADQUARTERS OF THE MARINE CORPS,
Washington, September 30, 1858.

SIR: I transmit herewith estimates in triplicate from the paymaster's department, "for pay and subsistence of officers, pay of non-commissioned officers, musicians, and privates of the United States marine corps," for the fiscal year ending June 30, 1860.

I am, sir, very respectfully, your obedient servant,
ARCHIBALD HENDERSON,
Brevet Brigadier General, Commandant.

Hon. ISAAC TOUCEY,
Secretary of the Navy.

HEADQUARTERS OF THE MARINE CORPS,
Paymaster's Office, September 30, 1858.

SIR: I enclose herewith estimates in triplicate for pay and subsistence of officers, pay of non-commissioned officers, musicians and privates of the United States marine corps for the fiscal year ending June 30, 1860.

The estimates now submitted have been increased by the addition of thirty-three thousand three hundred and fifty-nine dollars and four cents to the amount estimated for the year ending June 30, 1859, as follows:

For pay of 16 sergeants, 16 corporals, and 200 privates, authorized by the President of the United States under the proviso to the naval appropriation act approved March 3, 1849..... \$32,160 00

For 20 per cent. addition to the pay of the clerks and messengers of the corps at headquarters, authorized by the 2d section of the act approved June 12, 1858..... \$1,549 56

Deduct pay of clerk of clothing store at Norfolk, Va., office discontinued..... 350 52

1,199 04

Total increase..... \$33,359 04

I am, very respectfully, your obedient servant,
WM. W. RUSSELL,
Paymaster Marine Corps.

Brvt. Brig. Gen. ARCHIBALD HENDERSON,
Commandant U. S. Marine Corps, Headquarters.

Detail estimate of pay and subsistence of officers, pay of non-commissioned officers, musicians, and privates, of the United States Marine Corps, and pay for untraced clothing, from July 1, 1859, to June 30, 1860.

For reimbursing the appropriation for clothing for the navy, for issues to destitute Americans brought home in national ships from Nicaragua in 1857.....	3,144 00
	3,326,097 25	* 509,000 00	3,262,239 22

* The amounts in the column headed "Estimates of balances of appropriations unexpended on the 30th of June, 1859, which may be applied to the service of the next fiscal year," are those which will probably remain in the treasury at that date under the several heads of appropriation; but as the works in progress at the several yards for which the appropriations were made will probably absorb those balances, they will not be available in the next fiscal year for objects other than those for which they were appropriated.

No. 14.

TREASURY DEPARTMENT,

Second Comptroller's Office, November 17, 1858.

SIR: I have the honor to transmit, in duplicate, a statement of the appropriations for the Navy Department for the fiscal year 1857-'58, showing the balances of appropriations on the 1st of July, 1857; the appropriations made for the fiscal year 1857-'58; the repayments and transfers in same time; the amounts applicable to the service of the year 1857-'58; the amount drawn by requisitions from the Treasury for the same period; and, finally, the balances on the 30th June, 1858, with such appropriations as have been carried to the surplus fund; prepared in pursuance of the act of Congress approved May 1, 1820.

Very respectfully, sir, your obedient servant,

J. MADISON CUTTS,
Comptroller.

HON. ISAAC TOULEY,
Secretary of the Navy.

No. 14—Continued.

Statement of the appropriations for the service of the Navy Department from July 1, 1857, to June 30, 1858, made in pursuance of the provisions of the 2d section of the act of Congress of May 1, 1820, entitled "An act in addition to the several acts for the establishment of the Treasury, War, and Navy Departments."

Heads of appropriations.	Balances of appropriations July, 1 1857.	Appropriations for the fiscal year 1857-'58.	Repayments from July 1, 1857, to June 30, 1858.
