

these objects, upon the supposition that one of our schooners now cruising in the Atlantic will be equipped specially for this service, and sent with the transport from one of our Atlantic ports, direct to the mouth of Columbia river.

The resolution does not mention any definite number of artillery; but supposing the whole weight to be transported to be equal to one hundred and fifty tons, then it would require a vessel of about two hundred tons to transport. Such a vessel might probably be engaged at one thousand dollars per month, and eighteen months would, it is presumed, be sufficient time to accomplish the objects contemplated by the resolution.

The extra expense to which the navy would be subject in performing these services would then probably be, for the transportation of one hundred and fifty tons of artillery to the mouth of Columbia river, and a general examination of our harbors on the Pacific:

Eighteen months service of a vessel of 200 tons, at \$1,000 per month,	-	-	-	\$18,000
Equipment of a schooner for this service, including the necessary instruments,	-	-	-	7,000
				<u>\$25,000</u>

I have the honor to be, with great respect, sir, your most obedient servant,

JOHN RODGERS.

Hon. SMITH THOMPSON, *Secretary of the Navy.*
