WAR DEPARTMENT,
OFFICE OF THE CHIEF OF ENGINEERS,
Washington, August 28, 1941.

LESLIE D. SCHWARTZ, *Special Assistant,*
Bureau of Immigration and Naturalization,
Office of the Attorney General,
Department of Justice, Washington, D. C.

DEAR MR. SCHWARTZ:

The Hawaiian Constructors, a joint venture consisting of the W. H. Callahan Construction Company, Los Angeles, California; Rohl-Connolly Company, San Francisco and Los Angeles, California; Gunther and Shirkley Company, Los Angeles, California, and Ralph E. Woodley, contractor of Honolulu, T. H., are working on very important defense construction at Honolulu, T. H. pursuant to Engineer Corps Contract No. W-414-eng-602.

Mr. H. W. Rohl, 8519 Hollywood Boulevard, Los Angeles, California, one of the principal stockholders of the Rohl-Connolly Company, applied to the U. S. District Court at Los Angeles, California on January 15, 1941 for his final citizenship papers which have not, as yet, been issued. Mr. Rohl is possessed of outstanding ability, excellent judgment and resourcefulness for the management of difficult construction work. Some of the outstanding work performed by Mr. Rohl was the construction of the Los Angeles-Long Beach Detached Breakwater, the construction of the Headgate Dam at Parker, Arizona for the Indian Service and miscellaneous dams, canals and other heavy construction in the State of California. To date, Mr. Rohl's valuable services have not been available for Government defense projects because of his alien status.

The services of Mr. Rohl are of vital importance to the expeditious completion of the aforementioned defense construction project because of his peculiar qualifications and scarcity of qualified supervisory personnel. It is the understanding of this office that Mr. Rohl's loyalty to the United States is beyond question. It is therefore requested that the granting of Mr. Rohl's final citizenship papers be expedited.

Your consideration and cooperation will be very much appreciated.

Very respectfully,

JOHN J. KINGMAN,
Brigadier General,
Acting Chief of Engineers.

1. Inasmuch as five out of six radio sets SCR 270 were operating from 4:00 to 7:00 A. M. on 7 December, 1941, and one station, namely the Opana station, remained in operation thereafter until 7:39 A. M., it is believed that the following two inclosures may be of some interest:

2. Inclosure No. 1 is a composite based on the written records of ranges and azimuths kept at the following stations: KOKO HEAD, KAAAWA, OPANA, KAWAIILOA, and FORT SHAFTER. Attention is invited to the close agreement of data secured on aircraft north of OAHU between 6:48 and 6:54 A. M.

3. Inclosure No. 2 is the graphical record made on the OPANA station plotting board. This record includes the period covered in Inclosure No. 1 and subsequent hours of 7 December, 1941. Attention is invited to the plot beginning at 7:02 A. M. near the top of the chart and ending at 7:39 A. M. as it developed that this was the hostile flight which attacked PEARL HARBOR at 8:10 A. M.
