GOLDEN WORDS

Amritvani scripted by Pujyapad Swami Satyanand ji Maharaj, neither needs introduction nor commentary. He claims that the Holy Work has been scribbled on promptings from the Lord Himself.

Dr. Gautam has unveiled the capability and mightiness hidden beneath it to bestow not only immortality on simple chanting of *Amritvani*, but also several other attainments written in-between the lines. The very first glimpse of it gives the impression that it is not a document but a monument structured by Gautam.

Amritvani is the eternal *vani*/voice of love, devotion, knowledge and strength. If *Amritvani* is to be described in one word, it is *Satchitanand*: truth, knowledge and bliss.

While decoding the hidden philosophy lying beneath the beautiful verses of “eternal words” of Param Pujya Swami Satyanand ji Maharaj, Dr. Gautam Chatterjee has very successfully been able to endorse that *Amritvani* is not only the healer of all ills but also the greatest religious text to beget bliss. Reading, chanting and dwelling upon the stanzas containing noble and elevating thoughts in *Amritvani* help very much to prepare our minds for Japa and meditation.

Every true *sadhak* must develop a prayerful attitude. *Amritvani* as a heavenly hymn is the eternal companion of us on which we can unfailingly depend at every stage of life. Whenever we feel weak, Ram Naam is the ready source of strength and inspiration. In time of severe trials and tribulations, turmoil, weak moments and during sickness, which no human being can altogether avoid or escape, Ram Naam is the sure panacea or remedy for all kind of ailments and woes. We should also chant *Amritvani* or Ram Naam during our happy times to express our love, gratitude and devotion to Him and reflect the same in all the beings who are around us they are none but embodiment of the Lord Himself. Lord’s name is our friend or *sakha* during rainy days and He is our fair weather companion as well. None can step ahead without Him. He is our spiritual friend, philosopher and guide.

As we are the followers of *Bhakti* or *Prem Marg*, singing the glories of almighty is our primary method. Remembering Him as all loving, benevolent and blissful Sri Ram with love and dedication can lift the devotee to the highest stage of bliss and ecstasy, indeed even to the highest level of *samadhi*. Every fraction of time contains wisdom. We should not only verbally recite *Amritvani* but also internalize it as an applied sacredness in our daily life.

Amritvani teaches us that “depth of spiritual experience can be reached by Japa of the sacred name”. To simply experience the blissful peace and joy of consciousness of God’s presence, a *sadhak* can start with Japa that slightly sounds like a whisper. Later it will refine itself into an echoing repetition silently in the mind in an involuntary manner. As a result of continuous practice of

chanting the mantra, the mind becomes steady and concentrated and finally we feel the presence of God. Then there will be no limitation of consciousness of time and space. The constant practice of Japa in this method will surely bring eternal peace, bliss and salvation.

Dr. Gautam Chatterjee's endeavour to fathom the oceanic depth of *Amritvani*, remains a lifetime effort which transforms these writings into a monumental work. It will surely inspire one and all and motivate everybody to chant Ram Naam and live their lives more meaningfully.

To get the taste of what is in store in this book, I would like to quote Gautam's own words which reveal how Ram Naam is **Mangal Dhaam**.

**"Most benefic abode or *vaikunth* is name of Ram.
Assures growth and all round progress who seeks Him with utmost dedication.
None of the evil force can disturb the Naam *Sadhak*.
Glory of this and the other world meets with His name.
Assures peace to all seekers like a child on the lap of mother.
Lighter we become as we intensify the chant within.**

**Doubts would never haunt those who surrender to Him.
Himalaya of the celestial kind is the Ram Naam *Dhaam*.
Allows to experience the Heaven, right on this earth.
Also, bestows Salvation and the final beatitude... *paramgati, paramdhaam*.
Melts the ego which otherwise stops our growth. It provides an egoless flight."**

May this spiritual picture of *Amritvani*, as drawn by Gautam be found interesting, instructive, illuminative and invaluable in understanding the glory of Ram Naam.

INTRODUCTION

SHREE AMRITVANI equates the Vedas as it has all aspects of eternal wisdom tradition. Swamiji Satyanandji Maharajji had scripted this invaluable text enveloping the complete aspects of RAM NAAM philosophy. This scripture called “Amritvani” is no mere textual tradition but ventilates eternal wisdom, so it was written by Swamiji Maharaj when eternal power possessed HIM. It was just not an invocation nor even a song for the praise of Shree Ram but every line, every word, create and enjoin a garland of celestial kind. Though the Amritvani furthers the Bhakti Marg but it has all the elements of Gyan Marg (knowledge path). Amritvani is mystic because as many times one reads, a different vision is unveiled. The nature of Amritvani creates a dynamic platform to fathom its inherent eternal wisdom.

However, decoding the inner layers of divine messages embedded between the lines of Amritvani is matter of challenge. A translation of every stanza are only indicators of its true essence, if we analyse every word of Amritvani we encounter a new wisdom, an unknown taste of nectar. Even we find the same word used in different stanza has varied interpretation in terms of the context of the stanza and content linkages of preceding and following stanzas.

This book is an attempt to unveil mysticism which has oceanic depth and yet the spirit of gushing stream of a rivulet coursing through the mountaneous terrain meaning our life by creating a patterned rhyme and rhythm. So to comprehend the total philosophy of Amritvani is perhaps not possible. Yet, it was the celestial wisdom which has unfolded these pages to have a re-look of the deeper mind of Param Guru Shree Ram. Perhaps HE wished to empattern our mind with this “re-discovery” so that sadhak is empowered further.

Though Amritvani is written in Hindi but this book is scripted in English. This is no essayist style of philosophical book nor it is an attempt to translate. This book has taken up 93 stanzas of Shree Amritvani. From each stanza three or four catch words are taken up. Those Hindi words are written in Roman Script vertically. Then from each of the letter of those words are peeled off to discover a set of statements which connect the content and also marshal the wisdom which are placed at different levels of Amritvani. These statements written in English unveil the mysticism and creates a fabric to reach out at multi-lingual comprehension levels. Modern youth knows both the languages, yet they are more comfortable with English expressions. So this work do not disturb the pious sanctity of Hindi expressions but expands its meanings or derivatives for world wide Ram Naam Sadhaks who would be benefited for sure.

As told earlier the 93 stanzas of Shree Amritvani are addressed in this book. In the process of peeling off we have taken up 791 catch words. The process of peeling off has brought to the fore 3527 bold statements and that almost completes the total teachings of Swamiji Maharaj.

Swamiji Dr. Vishwa Mitterji Maharaj had initiated me to this great learning process. He told me Amritvani is the greatest healer and greatest text to beget bliss! In January 2006 he had asked me to study Amritvani and said “I will be happy”. This Guru Vachan was not mere words but an indication of unfoldment of a new thing which was to flower later. Yet, ignorantly & innocently as I always believed, tried to explore what he wanted. Then followed this miracle and this book is the resultant of that exercise. When I submitted the first MSS, he said “keep it carefully as these are no mere document but monument”. Now it is upto sadhaks to explore further as this author is only a mere instrument called pen and not even the ink and no way could control the writing as well. Yet, if I have fumbled this is my fault and my apologies. I touch the feet of every sadhak to pardon me and if you feel benefited then credit goes to Param Guru and Swamiji Maharaj. Before you move ahead, it is important to taste the style of this book as we are going to peel-off Amritvani to understand the under - current of Ram Naam Veda – the Amritvani!

The life and times of Swamiji Maharaj and his words empatterned a new code and key for the salvation. Within self the seed Mantra sprouted and Swamiji Maharaj's life became an embodiment of Mahamantra.
