

FIRST PHASE

1. Improving the present Ghat by providing all the basic infrastructures, besides raising a compound wall with the Gate in the Entrance.
2. Digging a New Well for meeting the additional water requirements during the cremation time.
3. Relaying the pathway that leads to the Ghat from the Main road.
4. To augment and expand the existing facilities to meet the modern needs.

The cost of the above works is estimated to be around TEN LACS.

SECOND PHASE

In order to enable the performance of NITYA-VIDHI (daily rituals) from day two the Trust proposes to provide the following facilities:

1. Purchasing of land on the banks of river Kollidam near by the Padiyavalan Padithurai.
2. Construction of FIVE HUTMENTS measuring about 450 to 500 Sq.ft. each with two rooms and a hall for the performance of the NITYA-VIDHI to one's satisfaction at present and will be expanded if needed.
3. Provision of a Common Well to draw Pure Water for bath and ritualistic purposes, besides/perculator pond and bathing pond.
4. Provision of a Compound wall and round the Clock Security.
5. Facilitating Brahaspathy and Cooks etc., who may be requisitioned for the purpose.
