MBrooks/lw/876-8476

1. Reference is made to memorandum, I-V-IU-1945-66, subject: Final flight data requirements for AS-501, dated November 22, 1966.
2. Request action be taken to have delivery of the inputs to the flight program made to this branch instead of directly to the programming contractor. This action is necessary in order to assure technical compatibility between all elements of the flight program and to enable this branch to provide adequate technical direction to the programming contractor.
